To complicate matters for Walsh, he and Mardukas are being pursued by the FBI, some bumbling mobtypes and a rival bounty hunter determined to get in on the action.

Although "Midnight Run" has the dubious distinction of being labeled "the best buddy film since "The Sting," action lovers need not despair, for there's plenty of it here. DeNiro's head is nearly blown off in the first scene, if for no other reason than to assure us that it is an action movie.

Still, the spirit and much of the humor of this film lies with the "friendship" that develops between captive and captor while on the

Much about the men and their lives is revealed. Both have fought selling out for the sake of principles. In their own socially unacceptable ways, they see themselves as ethically superior to the powers that rule.

To borrow a golf term, the makers "Caddyshack II" should have declared a mulligan and started over, or better yet, never have stepped up

to the tee.
In addition to luring Chase back, they also got the original's director and co-writer, Harold Ramis, to help write it. Ramis has done better things ("National Lampoon's Radio Hour," "Ghostbusters") and he should have known by now that flat-ulence is only funny when in the company of drunken comrades, not coming out of the rear end of a

horse.

Jackie Mason assumes the Rodney Dangerfield role, sporting the same tacky outfits and vainly trying to match Dangerfield's funny one-liners. Dangerfield turned down the chance to star in the sequel because he felt he wasn't offered enough money. More than likely, he read the script and realized it wasn't even fit reading material for his bathroom.

Like Dangerfield's Al Czervik, Mason's Jack Hartounian also is in

the construction business. (I guess in addition to not putting any jokes in the movie, they didn't have time to re-write Dangerfield's role.) In an effort to fit in, Hartounian's

daughter asks him to join the country club. Naturally, the snobs reject

him. Hoping to get even, Hartounian buys the club and turns it into a giant amusement park.

Unlike the original, there's none of the spontaneous wit or ad-libbed moments when people like Bill Murray, Chase, Dangerfield and the late Ted Knight were cut loose to create comic chaos.

Part of that is due to the sequel's cast. Mason, like Dangerfield, is finding success late in his career, but this film won't do for him what "Caddyshack" did for Dangerfield. A lot of unemployed actors, includ-A lot of unemployed actors, includ-ing Dyan Cannon, Robert Stack and

This month, Roselle officially entered his second year as UK's president. And if this week has been any indication of what his second year is going to be like, there is little reason for him to expect things to get any

Monday, Roselle said he had received letter from the NCAA that confirmed UK fans' worst fears.

The letter informed Roselle there were 'reasonable' grounds to believe UK assis-"reasonable" grounds to believe UK assistant basketball coach Dwane Casey sent \$1,000 to the father of UK recruit Chris Mills.

In addition, the NCAA said it expects to charge UK with approximately 10 other vio-lations connected to the men's basketball program.

Although information about the investig tion has been monitored closely by UK officials, the tone of Roselle's press conference

was not encouraging for UK fans.

UK will probably have five players to put on the floor when the 1988-89 season begins but it will be interesting to see who will stick around to wear the Blue and White if the allegations are proven true

All along, the basketball program has maintained its innocence, but if all is well in Big Blue land why has everyone been so hushed about it?

Why has UK Athletics Director Cliff Hagan declined to comment or even issue a statement about the situtation? Afterall, he is supposed to be the guy in charge and it would be nice to hear what he has to say about it.

Then there are the basketball coaches who are currently out of town on recruiting trips and cannot be reached for comment about allegations about possible recruiting viola-

If UK fans can draw any solace from the recent development it is from the desire Roselle has displayed in finding out what exactly has gone on in the Athletic Depart-

All along Roselle has said a basketball program that plays by NCAA rules is more important than one that wins trophies.

We hope he will continue to hold those high standards, even if the results of the investigation mean giving some people their two weeks notice

Theory of UK curse lives on in summer

If we ever get out of here . . . gon it all away . . . to a registered charity

Paul McCartney and Wings, "Band on the Run"

Problem is that we might not have any thing left to give.

Thomas J. Sullivan Kernel Editor in Chief

About three months ago, Todd Jones, former Kernel sports editor, wrote a column with the headline: "We gotta get out of this place." In it, Jones said UK might be cursed.

be cursed.

His reasoning: The numerous misfortunes UK had suffered as of April 18, 1988.

Things like then-UK football player Dec Smith being arrested for allegedly selling cocaine; UK guard Rex Chapman almost breaking his back in a fall following a layup; "Happy" Chandler's racial slur; and the NCAA investigation into allegations that a UK assistant coach sent a bas-ketball recruit's father \$1,000.

this that a UK assistant coach sent a bas-ketball recruit's father \$1,000.

"Get me out of here. Give me my robe and tassels. Give me some garlic and a crucifix. This place is evil man," Jones

wrote.

This minor hysteria is understandable. With that many disasters happening in the course of one semester, who could help but think UK was cursed? Who could help but believe that UK was "evil?"

Jones managed to escape. He left Lexington for the smoggy skies of Los Angeles about two months ago. But the curse continues

I'm serious. I really think Jones was right. This place is cursed.

right. This place is cursed.

Look at what's happened this summer: UK is the focus of an 'official inquiriy'' by the NCAA; Smith leaves UK to play for Western Kentucky University; former UK guard Rex Chapman leaves UK just to play and then gets cut from the Olympic team; the Lancaster Aquatic Center almost burns down; former UK guard Ed Davender has heart problems because of junk food; UK football player David Scott is critically injured in a car accident; and the former business manager of the medical department at the UK Medical Center

pleads guilty to embezzling \$35,121 from the hospital.

the hospital.
What possibly could happen next?
This is really serious. I don't even have to write home to Detroit anymore to tel them what's going on down here. My family can watch it on the evening news.

We're cursed. I tell you

We're cursed, I tell you.

I suppose being a student journalist at the University makes me more aware of the problems than the average student would be. It has been suggested that this is the reason for the shift to cynicism all editors experience during their tenure.

I don't know, maybe that's why I feel this way. All I can say is, I hope I make it out of this place alive.

When I first came here, I thought there was a remote chance the University was haunted or cursed, but I dismissed that belief immediately.

I didn't dwell on my unexplainable mis-

life immediately.

I didn't dwell on my unexplainable misfortunes. I stopped watching my back.

That was my mistake.

I should have known that when a small rodent was blamed for a campus blackout 2½ years ago something was wrong.

It should have dawned on me that being assigned room 1313 in Kirwan Tower my junior year was a hint of evil.

And then there was that crow that committed suicide by flying directly into my bedroom window. Thud!

I should have known.

But no, I went on without a care in the world.

world.

The hints did everything but kick me in the face and say, "Hey! This place is haunted." I suppose even then I would have dismissed it as a foolish prank by some of my friends.

I was the foolish one.

Like a big, dark cloud, the evil has rested over UK and it doesn't appear to be moving anytime soon.

moving anytime soon

You can't run away. I traveled down to Owensboro last week

(Todd) Jones managed to escape. He left Lexington for the smoggy skies of Los Angeles about two months ago.

end in an attempt to escape the evil that pervades this place, but it followed me. When I left town people told me it would only take 2½ hours to get there. It took 3½

hours.
When I asked people in Owensboro the time of day they would answer, "Well, Lexington time it's..." It was scary. I mean everyone said that.
I couldn't escape Lexington — I couldn't escape the evil.
I should have known. Not even Jones fully escaped the evil, he's in Los Angeles — the story on UK's latest basketball scandal broke there first in the Los Angeles Daily News.

when Jones arrived in Los Angeles he as reminded of the curse. Another subtle

hint.

When he got into town a police officer pulled him over and informed him that the bandana hanging from his rearview mirror (which had been there for as long as Jones had the car) was a gang symbol.

The officer told Jones the bandana could get him into some trouble if he went into the wrong part of town with that on his car.

Gangs don't like to see their rivals on veir "turf."

their "turf."

Jones got lucky — this time. He should have known better. He should have been wary of the curse.

But maybe it all will get better. Maybe we can all make it through this alive.

It's not predetermined that we all burn here in Lexington for the sins of a few overzealous basketball fans is it?

I'll tell you one thing, if I do make it out of here, I'm gonna give it all away to whomever wants it — bandana and all.

"I have spent 30 years of my life coaching basketball. At no time has coaching basketball. At no time has there been a question about my hon-esty or the integrity of my pro-grams," Sutton said in the statement. Campus reacts to NCAA inquiry

Continued from Page 1
"I think it's a good idea," Stewart said. "It's time to clear the air because... I feel that the NCAA has a legitimate reason for investigating (the basketball program)."
Tim Queary, a forestry sophomore, said he could not understand why an established school like UK would need to cheat.
"The way I looked at it, we were doing fine," he said. "We did have the No. 1 recruiting (class). I think a lot of guys come here to UK because they believe it's a fine institute of basketball. When they start having to pay — that's illegal. It shouldn't be done."
Students had several suggestions

shouldn't be done."
Students had several suggestions about what action should be taken in response to the allegations.
"The situation now is that UK needs to find out what happened,

what violations (UK was) charged with," said James Rose, Student Government Association president. "I think (Roselle will) make the right move ... and make sure it doesn't happen again."

None of those asked believed Casey put \$1,000 in a package to Mills, but almost all said if it were not for that incident the NCAA would not be investigating the basketball program.

"That was the spark," Stewart said. "Since the (articles) with the Herald-Leader they've been looking at UK, always been given a hard time."

Perkins agreed.
"I don't think they'd have no reason (to be at UK) if that Casey-Mills business (wasn't) there. They wouldn't have no reason to be suspicious," he said.

People also said that measures should be taken to correct the situa-tion, including possibly firing coaches and some members of the athletic staff if the allegations prove

"If we're found guilty something needs to (be done)," Rose said. "The main priority of the University is to insure quality academics we can't let the athletic department tarnish that image.

Queary said the news was "disheartening" and in addition to tarnishing the program it probably would cause UK to lose several fans.

"I just wish they'd call the whole thing off," he said. "Just give the athletic department a warning and not go through with the probation. It's really gonna hurt UK."
