**INFORMATION CONCERNING LEGAL REQUIREMENTS FOR ISSUANCE  
AND REISSUANCE OF CERTIFICATES BY STATE  
DEPARTMENT OF EDUCATION**

**Guides to Applicants for Certificates:**

1. **Application** for certificate must be made on forms furnished by the Department of Education. These forms are sent upon request.
2. **Fees** should be sent only upon request of the Department of Education, and in the form of cashier's check, postoffice money order, or cash. The fee is \$2.00. Personal checks are not accepted.
3. **Transcript** of credits must be sent by the registrar of the college in which courses were taken, and upon the request of the applicant for certificate. Transcripts are not accepted from the applicant.
4. **Delays** in the issuance of certificates are due, in the large, to the failure on the part of the applicant to have his credits transferred. The responsibility of getting credits sent to the Department rests with the applicant.
5. **Validation** of a certificate from another state may be made only when transcripts of credits filed with the certificate show that the applicant has met requirements for a Kentucky certificate of similar rank.
6. **Official transcript** of credits for issuance or reissuance of certificates shall be certified by proper officers in charge of the records at the time application is made, with recommendation that, as far as the records of the institution are concerned, the certificate should be granted.
7. **In meeting requirements** for the issuance of any certificate, such credits in Education will be accepted as are listed in the catalog of the institution as Education and are given for this purpose under regular professors. The term, "Education," denotes work done in a recognized institution and which is given by the institution with the idea of professional preparation for teaching, such as School Administration, Supervision, Principles of Education, Educational Psychology, Pedagogy, Special or General Methods, School Management, Introduction to Education, Technique of Teaching, Classroom Management, Tests and Measurements, General Psychology (not exceeding 3

semester hours). (Logic, Ethics, Economics, Sociology, and subjects of like nature are not "Education.")

8. At least 75% of minimum requirements for certificate requiring 64 or more semester hours of college credits must have been done in residence, and at least 50% of the requirements for reissuance of any certificate shall be residence work.
9. High school units in excess of those evidencing completion of high school cannot be accepted. Standard high school credits are earned by attending and reciting in the classes according to daily schedule, during a regular term of high school. Only standard colleges may offer correspondence or extension courses for high school credit.
10. All applicants for the College Elementary Certificate, or the Standard Elementary Certificate, must have an average academic standing of 1, or C, this standing to be computed on the following basis:
  - A grades give three quality points for each semester hour completed;
  - B grades give two quality points for each semester hour;
  - C grades give one quality point;
  - D grades give credit, but not quality points.
11. Sixty-seven semester hours complete the maximum credit that may be accepted from a standard junior college. This 67 semester hours shall include any work already completed in other institutions previous to the date of completion of work in the junior college.
12. After having held certificate of any given type upon credits submitted as required by law, another certificate of a different type shall not be issued upon the same credits without the completion of the amount of additional credits required for the reissuance of the type of certificate sought.
13. Supervised student teaching credit is accepted in fulfillment of requirements only when transcript shows the work was done under the direction of a commissioned critic teacher and/or in an institution whose student teaching laboratory meets the standards of the Normal Executive Council and the State Board of Education.
14. **Local Elementary Certificates**, valid only in county in which examination was taken, may be renewed for same county upon two standard high school units, earned during the life of the certificate. The renewal credits for this type of certificate must be completed on or before date of its expiration.
