# THE KENTUCKY ALUMNUS

IS PUBLISHED BI-MONTHLY—SEPTEMBER, NOVEMBER, JANUARY, MARCH,  
MAY AND JULY OF EACH YEAR—BY THE ALUMNI ASSOCIATION OF  
THE UNIVERSITY OF KENTUCKY, AT LEXINGTON, KENTUCKY.

Entered as second-class matter September 28, 1916, at the post-office at  
Lexington, Kentucky, under the Act of March 3, 1879.

THE SUBSCRIPTION PRICE FOR THE KENTUCKY ALUMNUS IS \$1.00 PER YEAR.  
TO ALUMNI, INCLUDING DUES TO THE ASSOCIATION, \$2.00 PER YEAR.

The Kentucky Alumnus is the official publication of the Alumni Association. It is  
issued bi-monthly by the Association under the direction of the Executive Committee  
in the interest of the Association and University. It therefore represents the  
sentiment and policy of the Alumni organization.

The Editor-in-Chief is appointed by the Executive Committee of the Alumni Association  
and the Associate Editors are the Class Secretaries of the various classes and the  
Presidents of the Alumni Clubs.

### ANNOUNCEMENTS.

*The fifth installment of the "Sketches of the Origin and Growth of the  
University of Kentucky," by Dr. James K. Patterson, will appear in the January  
number.*

\* \* \* \* \*

*Patrons are requested to mention The Alumnus to our Advertisers.*

\* \* \* \* \*

*Our thanks are to Prof. Nallau for the Illustrations herein.*

\* \* \* \* \*

*Slogan—Two Thousand by Nineteen Twenty.*

\* \* \* \* \*

*A picture of the prize winner, the Juniors, will appear in the next issue of  
The Alumnus; also, a picture of the Sophomores.*

\* \* \* \* \*

#### The Plan.

Many interested alumni and friends have asked:  
What is the plan? It is generally agreed and  
understood that the terms "plan" and "remedy"  
are synonymous. The plan of the Alumni Association, and which The Alumnus  
champions, is the plan of a complete reorganization of the University. The  
Alumni and friends realize that a proper reorganization cannot be brought about  
overnight, nor in a fortnight, nay—may be not in a few short years, as a  
reorganization such as the University must have works slowly, but work it must  
if the University is ever to amount to anything. In this work of reorganization,  
The Alumnus desires to say to the Alumni, former students, friends and to the  
press of the State that the work will necessarily be slow as the ailments are  
many and deep rooted. It may, therefore, require more time, greater effort and

credit to himself and to his Alma Mater. At the time of his death he was Director of the Kentucky Agricultural Experiment Station, having succeeded Dr. Scovell in that position about the first of November, 1912, during nearly all of which time he was also Dean of the College of Agriculture. His connection with the Experiment Station began July 1st, 1911, as head of the Department of Chemical Research, then just organized. He filled the chair of Chemistry in the University of Virginia from 1909 to 1911, succeeding Dr. Mallett; was chief of the Division of Chemistry of the Hygienic Laboratory, United States Public Health and Marine Hospital Service, at Washington, 1905 to 1909, and Professor of Chemistry of the State College of Kentucky 1888 to 1905. He received his Master's degree at the State College of Kentucky in 1886 and the degree of Doctor of Philosophy at Johns Hopkins University in 1888, where he was a favorite student of Dr. Ira Remsen. In 1895 he was married to Miss B. Callie Warner, '91, who survives him, with two daughters, one of whom is now a senior in chemistry at the University of Kentucky.

We cannot recount Dr. Kastle's achievements in chemistry here nor list his numerous scientific publications. Perhaps his most striking work was that on oxidases, begun while he was Professor of Chemistry at old "State," this being at the time a new subject, but one which has proved to be of the highest importance in biological chemistry. It was as a teacher that most of us knew him best. He possessed in the highest degree that inborn faculty of inspiring his students with the desire to think out and work out for themselves the problems placed before them to the uttermost analysis.

But it is those of us, and they are many, who knew him affectionately as "Little Jo" who feel his loss most keenly. A delightful and inspiring personality was his; always the life and leading spirit of a company of fellows; a cultured gentleman and true friend, possessed, withal, of a rare individuality which made him our own "Little Jo" who will never grow old in our memories.

"Some time," you said. And so I dare to dream  
That Youth and Spring will somehow linger by  
Till once again we catch the silver gleam  
Of lost stars set against a May-time sky;  
That once again the apple-blossom days,  
The gray, sweet woods, soft-blurred with springtime haze  
May find us fared down dear remembered ways.  
'Some time,' you said. And so I dare to dream."

---

### TO JOSEPH H. KASTLE.

*By Barry Bullock, '03.*

You loved the fields, the woods, the streams  
In gold and crimson dressed,  
The smiling dales and laughing rills  
By Autumn's sun caressed—

This blessed land your heart enthralled  
 In bondage lucky;  
 Afar its beauty ever called  
 To old Kentucky.

Of Life you knew its warmth and glow,  
 The pulse of hope and zeal,  
 The thrill of thought, its ebb and flow,  
 The pow'r of nerve to feel;  
 Magnetic sparks, your ideas gleamed  
 To light the way,  
 Where Science proudly toiled and dreamed,  
 Now sad today.

Mid purpling clouds, the setting sun  
 In glory sinks to rest;  
 It seems to say your work is done,  
 Your task success has blessed—  
 For those you helped along the way,  
 Youth's heights to climb,  
 I lay upon your grave today,  
 This sprig of rhyme.

---

ADDRESS OF DR. JOSEPH H. KASTLE, '84, AT ALUMNI  
 BANQUET OF UNIVERSITY OF KENTUCKY,  
 JUNE 5, 1916.

The following address was made by Dr. J. H. Kastle at the Alumni banquet of the University of Kentucky upon the presentation of his portrait by members of the Alumni to the University:

"My Friends—I had before me recently, a copy of a note from the Hon. Henry Watterson, addressed to Professor Anderson, in which he said 'that the days of his speech-making ended long ago.' As we grow older, we can sympathize and appreciate this very sensible point of view, and if the precise truth were known, there are doubtless many of us, less gifted than Mr. Watterson, who might also wish, that the days of our speech-making might be over.

"As an old farmer friend of mine, once complained, we Kentuckians can't cut a watermelon, without making a twenty minutes speech about it. To speak to you, on this occasion, therefore, in fact even to be present—is somewhat of an ordeal to me, and if I consulted my own impulses, I would read about this beautiful gathering, amid the quiet surroundings of my own breakfast table tomorrow morning, or in my own study—so difficult it is to control these

delicately organized things that we call our emotions—so thin and gossamer-like the veil that separates our smiles and tears.

"I even find myself somewhat at a loss for words wherewith to thank you adequately or sufficiently graciously, for the many kind things which have been said of me on this occasion, and for the generous spirit of love and affection that has prompted the gift of this portrait on the part of certain of the Alumni to the University.

"To my way of thinking, it is a happy way in which to express your affection for an old friend and teacher, thus to honor him during his lifetime, as the years of his labors slant somewhat to their close, and a fine, splendid way in which to contribute to the higher ideals and traditions of the University.

#### APPRECIATES SPIRIT.

"I am grateful to all of you here tonight for the appreciative manner in which you have entered into the spirit of this occasion. You have come to the feast in your wedding garments—to be happy and to be glad—with something of the gladness and happiness, of a time, 'when all the world was young.' I am grateful to the artist who painted this portrait—Mr. Ferdinand Graham Walker, of Louisville—and for the rare sympathy which he displayed with the moods and tenses of a somewhat high-strung man, and for his gentle, kindly efforts to break the monotony of the sittings which otherwise might have proven tedious and irksome. I am grateful to this young lady friend for her appreciative and exquisite reading of my simple verses, and to a dear friend, of longer standing, for the exquisite songs that she has sung—to my dear daughter for the gentle, graceful way in which she has unveiled her father's portrait, and to these two dear friends for all the kindly things which they have had to say concerning me, and for the generous estimate, which they have been good enough to place upon the little that I have been able to accomplish in my chosen field of work. I am likewise grateful to these dear women for their pains in making attractive and beautiful this old room. In fact, with Tiny Tim, I am disposed to say—'God bless us every one.'

"I trust, however, that I shall always have the good sense to perceive that I in no way deserve the many kind things which you have been led to say of me, or the many gracious, charming courtesies which you have been so good as to extend to me on this occasion. Indeed, I have always tried to keep in mind what old John Dillon said relative to his great achievements in the domain of physics and chemistry, namely, that if he had been able to accomplish anything over and above that ordinarily accomplished by his fellowmen, and by his contemporaries, in the little, quiet world in which he moved and lived, it was not by reason of any peculiar quality of genius, but merely by dint of assiduity and hard work.

#### DWELLS UPON LIFE.

"And so, if my own life affords any particular satisfaction to you or to any one, it is by reason of the fact that it has afforded some opportunity to hold up before many generations of men younger than myself, the high ideals of hard

work and unceasing application, as the great fundamental requirement of happiness and success. The idler has always been, and will ever remain, the great malcontent in the world's civilization, and it is only the busy and industrious man who has the remotest chance at real happiness. To have preached this gospel, and to have practiced it, at least, in some degree, I regard as the greatest contribution that I have been able to make to the world's progress and advancement in the humble sphere, in which I have worked and lived. In fact, I have come to realize that in this toilsome world of real things, we haven't much time for pictures or for signs or symbols of any kind. The result is, that but few such, will stand the test of time. What we are seeking, therefore, is the substance—the real thing—not the shadow—no matter how beautifully the latter may be portrayed. It is obvious, therefore, that it is only a few generations of young men and women who will remember me at all, and that those that do, will not do so, by reason of this portrait, or for any likeness, other than the one which they carry in their hearts—the mental picture which, all unconsciously, they have painted for themselves.

"And so, I trust, too, that I shall always have the good sense to realize that, for most people, at least, this portrait will be merely a portrait of a rather sedate-looking, middle-aged man, with nothing of the romantic about it—with nothing to distinguish it from many other of like kind and character. It is well that this is so. The great Dean Swift is accredited with having said in substance: 'Do your stunt before the spot light graciously, wittily, and as best you may—but for God's sake, pass on.' And so, it is just as well that most of us pass on, to give place to on-coming generations of young men and women, all eagerly crowding forward—the hope of youth in their hearts and faces—eagerly awaiting their turn to their places in the sun.

"I should be strangely devoid of those finer qualities of human sentiment and affection, however, were I not touched and gratified by this outward and visible expression of your affection for me. Indeed, if we are sufficiently honest with ourselves, we like to think that those things which have been associated with us and which, in some manner, and after some fashion, have formed a part of our lives, will in some way become dear to other people, and perhaps, even hold some measure of interest, to the world at large. Since the remotest antiquity, even good men, and gentle and kindly men, have struggled for the crown or the laurel wreath, and for fame and honor and remembrance, in many instances, they found these things—like the golden apples of Hesperides—to turn to ashes in their tired hands.

#### LOOKS INTO FUTURE.

"The best, therefore, that I might hope for—and even this is only an idle fancy of the hour—begotten of the occasion—is, that in the after years, some young boy may stand before the canvass, seeking vainly to fathom the hidden mysteries of life—to penetrate the haze that separates him from his yesterdays.

"For such a one, if such a one there be—I would be glad if it might hold for him a challenge and an inspiration—a challenge to accept life as he finds it, with-

out pretense or disguise—without apology or compromise—the good with the bad; the ugly with the beautiful; the deceitful with the truthful; springtime and winter; seed time and harvest; youth and old age; play and work; the spring song of the robin, as he calls courageously across snow-covered fields; the peaceful glories of the autumn; even the cruel hardships of the winter; the opulence and power of wealth; the leanness and defeats of poverty; lean years and fat—all as entering into the woof and fabric of this superb garment that we call life, and which, in a sense and to a degree, at least, it is ours to fashion as we may. A challenge to make the best of life from day to day, to labor, to love, to hope and to enjoy—that it may be for him an inspiration to the high endeavor to the great adventure, in whatever guise and semblance it may come, and that it may be his rare privilege to leave this dear, old earth a little better than he found it, and that it may, indeed, prove for him to be a dear old garden where bloom, perennially, the same old flowers that have gladdened and beautified it for you and me.

“ In a dear old garden—somewhere,  
 Many memories lie buried—  
 And many youthful treasures—of the long ago;  
 So we must not be hurried—  
 Or pestered-like, or flurried,  
 If we linger long and lovingly,  
 Among the flowers—we used to know.

“ In a dear old garden—somewhere,  
 The tree of life is blooming,  
 With the fragrance of the old-time, long ago;  
 All the glad, sweet earth adorning,  
 With the radiance of the morning,  
 As once it bloomed in Paradise—  
 Many years ago.’ ”

#### GOLDEN JUBILEE BRIEFS.

The Golden Jubilee of the University of Kentucky was fittingly celebrated October 13 and 14 by students, faculty, Alumni and friends and brought the States leading educational institution into the glow of its glorious work with excellent effect.

The jubilee exercises opened Friday afternoon when the freshmen defeated the sophomores in the annual tug-of-war and dragged the cable, sophomores and mud through the waters of Clifton pond. A tea dance at which the Kappa Delta Sorority was hostess was given in the ball-room of the Phoenix Hotel from 3:00 to 5:30 o'clock Friday afternoon and was one of the really beautiful features of the jubilee.

Friday evening the local Alumni and Alumnae entertained for the visitors at the Phoenix Hotel. The Alumnae assembled at 7:00 o'clock on the parlor

floor of the hotel and received informally until 8:00 o'clock, when they went to the main cafe for supper. Eighty graduates and former students were seated for supper, and Mrs. Lucy Berry Blackburn was guest of honor for the occasion. At the conclusion of the menu the vice-president of the club, Mrs. Elizabeth King Smith, presided and in short talks introduced, Mrs. Martha White Blessing, Mrs. Ella K. Porter Green, Mrs. Belle Gunn Kays, Mrs. Blackburn, Miss Rebecca Smith, and Miss Cartell Gregory, who gave interesting speeches to the Alumnae. Music for the supper was furnished by entertainers imported for the Alumni party and by the kindness of the Alumni permitted to sing and play for the ladies. The Alumni also very graciously remembered their sisters with souvenirs of the jubilee.

The Alumni smoker, held in the ball-room of the Phoenix, was a cleverly planned affair in which good cheer with fine speeches and lively music was mingled and the old "grads" talked over the "use to was" with class mates of the long ago. The festivities of the evening were concluded with the "K" dance, given for the benefit of the annual by the students, in Buell Armory.

The jubilee celebration proper began Saturday morning at nine o'clock when the student body, in classes, marched in Mardi Gras attire through the streets of Lexington led by Weber's band and followed by the students band of the University. The parade was wonderfully clever and the prize of \$100 was won by the junior class, who represented the growth of the institution by dividing the happenings of the fifty years in ten periods beginning with events of the days of the Agricultural and Mechanical College and ending with scenes of life on the campus today.

At ten o'clock the jubilee address was made in chapel by Dr. James K. Patterson, and on behalf of the Alumni, Charles R. Brock, of Denver, Col., presented Dr. Patterson's portrait to the University. Dr. Charles W. Dabney, of the University of Cincinnati, gave an interesting talk on "Universities" and honorary degrees were conferred on Henry Waterson, Louisville; Prof. John L. Patterson, University of Louisville; George W. Stevens, Pittsburg; Prof. T. H. Morgan, Columbia University; Dr. Charles W. Dabney, University of Cincinnati; Rt. Rev. Bishop Brossart, of Covington; Dr. J. K. Patterson, Dr. R. H. Crossfield, Transylvania College; Dr. W. A. Ganfield, Centre College; Dr. M. B. Adams, Georgetown; Dr. J. L. Clark, Wesleyan College; J. H. Frost, Berea College; Chas. R. Brock, Denver, Col.

A burgoo luncheon was served on the campus to about 5000 after the speaking, and at 1:30 the guests adjourned to Stoll field where the new concrete press box and tablet were dedicated and the name by which the field has become known in athletics was formally given. Major Geary, of California and Kentucky, delivered the dedicatory address and the pledge was accepted for Kentucky by Governor A. O. Stanley.

At 2:30 o'clock the "Wildcats" ran out on the field and soon the Vanderbilt team made its appearance and the long to be remembered and never to be

Alumnae Banquet—"Aunt Lucy" and Her Former Charges.

forgotten game was started and resulted in a score of 45 to 0, in which the home team did the courteous thing and gave the visitors the victory.

The students published a Golden Jubilee edition of the Kentucky Kernel and distributed 1000 extra copies. The edition would be a credit to professionals.

The jubilee was a brilliant success in every particular and was enjoyed by 1500 Alumni and old students together with many friends who through past years have encouraged the University, stood by its advancement, forgave its mistakes and built it to the magnificent monument it now is.

#### WHAT ALL ARE SAYING.

The Jubilee was a tremendous success. I never had a better time and I heard nothing but praise for the way in which the affair was carried out. I hope there will be many reunions of the same character. They will stimulate interest in the University wonderfully.—John T. Faig, '94.

#### KENTUCKY ALUMNI SECRETARY ENTERTAINED.

(Nashville Tennessean.)

The Nashville Alumni Club of Kentucky University entertained J. D. Turner, who is representing the university at the National Association of Alumni Secretaries with a dinner at the Hermitage Hotel Friday night. Mr. Turner was the guest of honor at the dinner and about twelve Nashville citizens who are alumni of Kentucky were present. A very enjoyable evening was spent and much enthusiasm for their alma mater was shown by everyone.

#### ALUMNAE BANQUET.

One of the most beautiful and delightful features of the Golden Jubilee celebration was the banquet given Friday evening in the dining-room of the Phoenix Hotel by the Alumnae Club of the University of Kentucky.

Mrs. Lucy Berry Blackburn, who was chaperone of the girls at the University for many years, was guest of honor at the happy reunion of eighty alumnae. The tables were lovely in their appointments and the college colors, blue and white, were decorously carried out. Mrs. Charles Judson Smith, the president, made a charming speech of welcome and introduced the speakers, among whom was Mrs. Belle Gunn Kays, of Ohio, the first girl graduate of the University.

#### WHAT SOME ARE DOING

##### DR. PETER, '80, DIRECTS WORK AT STATION.

Dr. Alfred M. Peter, head of the department of chemistry at the Experiment Station and senior member of the staff, is now acting head of the Station until a successor can be selected to fill the vacancy caused by the death of Dr. Kastle. Dr. Peter took up his new duties immediately, combining the work of director with that of his own department.

**L. E. SMITH, '11, MEDICAL MISSIONARY TO AFRICA.**

L. E. Smith, a graduate of the University in 1911, and Johns Hopkins University in 1915, with an M.D. degree, has gone to Kaheroon, West Africa, where he will be a medical missionary. Before leaving New York Mr. Smith made an extended visit to Lexington and arranged for The Alumnus to visit him regularly.

**E. F. WHITE, '15, MEETS WITH SUCCESS.**

News has been received of the success of E. Field White, a former student in the College of Mechanical and Electrical Engineering. Mr. White left here several years ago and has been in automobile equipment work, meeting with excellent success. He planned an enameling process now in use on one make of automobile, having his suggestions accepted over a large number of applicants. Since that time he has been connected with another concern. His latest work has been in designing a new equipment plant for his present employers. All the equipment is made and fitted in one big connected process which saves much time, labor and expense.

**P. R. CASSIDY, '11, LEAVES UNIVERSITY.**

Perry Cassidy, Professor of Thermodynamics in the College of Mechanical and Electrical Engineering for the past two years, has resigned his position to accept a position as engineer with the Babcock and Wilcox Company, of Baberton, Ohio. He is succeeded by Azra Lyttle Wilhoite, a member of the '08 graduating class of the College of Mechanical Engineering. Since graduation Mr. Wilhoite has been associated with the college.

Mr. Cassidy graduated from the University in 1911. At the close of the college term last June he went to New York, but after being there a short time he went to Barberton, where he will probably be located for some time. He is now at work on the construction of a large addition to the plant.

**THOMAS HUNT MORGAN, '86.**

Dr. Thomas Hunt Morgan, '86, who was the recipient of an honorary degree at the jubilee celebration, has just published some of his recent investigations in a book entitled "The Mechanism of Mendelian Heredity."

**HERO OF SANTIAGO BATTLE DIES IN EAST.**

Major William C. McFarland, one of the heroes of the charge on San Juan Hill in the Spanish-American war, and at one time commandant at the University of Kentucky, died early in September in New York, and was buried with military honors at West Point. For many years he had suffered from injuries he received during the war, and these injuries caused his death. His wife, who

**MARRIAGES.**

Erbie L. Harrison, '09, to Miss Luella M. Scoville, Rockford, Ill.  
Leah Kathleen Howard, '16, to Kenneth Meguire, Louisville, Ky.

President Sayers—Cincinnati Club.

was Miss Annie Landram, of Lancaster, Kentucky, died a few years ago. He is survived by one son, Dr. Landram McFarland, of New York City.

John A. Wyeth, writing in the New York Sun of recent date, pays eloquent tribute to Major McFarland. Mr. Wyeth is of the opinion that had it not been for Major McFarland's headwork and bravery, the result of the battle of Santiago might have been different.

Major (then Captain) McFarland commanded E Company of the Sixteenth United States Infantry. He became separated from his commanding officer before the battle of Santiago, and seeing nothing left to do, he charged the trenches of the Spaniards. The captains of the companies on either side of him seeing the advance, shouted: "Follow E Company," and with this the entire line swept forward, being led by McFarland. The charge was successful, but Captain McFarland fell within a few feet of the trenches, hit in the back of the head by a fragment of shrapnel from one of his own guns a few miles in the rear.

Mr. Wyeth says there should be chiselled on his gravestone at West Point, where he is buried, the following inscription: "Here rests the real hero of the battle of Santiago."

---

### ANOTHER RECORD BROKEN.

In the October issue of 1915 of The Alumnus, under the head of "Chips from the Old Block," the progeny records of some of the old "grads" were compared and it has set others to making similar comparisons.

While roving around over the Campus not long since, by some sort of prearrangement of Nature, the writer chanced to meet "China Dick" Johnson, the 2nd. The younger generations of graduates do not know "China Dick," the 1st, but they do know Prof. J. R. Johnson, once of the University, then of University of Nevada, and recently of Richmond, Kentucky, and now of the Johnson & Turner Engineering Co., of Irvine, Ky., and it takes the "old guard" to recall the significance and meaning of the name, "China Dick," which is so applicable to its holder.

This "China Dick," the 2nd, may not be the first son of a son-of-a-gun who ever attended the University, but he is the first son and may be the only one of "China Dick," the first son of the first graduate of the College of Mechanical and Electrical Engineering, the first son of a Lamp and Cross man, the first son of a Tau Beta Pi, the first son of a football player and also the first son of a Sigma Chi of the local chapter of the University.

If you can beat that, stand up!

With all this to his credit or discredit we will watch with interest the career of Young "China Dick."

## EARLY HISTORY OF ATHLETICS.

BY PROF. A. M. MILLER.

## ARTICLE VI.

1904-05.

Up to this time it has been necessary to consult the daily files of the local papers in order to obtain the record of games along with the list of players.

The issuance of a college annual had not yet become an established practice and the yearly Alumni publications generally omitted all reference to athletics.

Henceforth, however, the University possesses in its own contemporary archives a tolerably complete history of athletics as regards schedules, scores and players, and the reader will be referred to these for detailed records relating to such matters.

At the close of the 1903 football season, the Faculty Committee on athletics was investigated by a Committee of the Board of Trustees. Despite a very able defense in person by Richard Stoll and Clay Elkin, the findings of the Investigating Committee were adverse to the Committee on Athletics for the Faculty. Its action in the Thanksgiving game affair was condemned by the Board and a vote of censure passed upon it.

The Faculty Committee remained in charge of Athletics for the remainder of the Collegiate year, but declined to accept reappointment by the President for the following year.

The Men's Basketball team was not very successful, winning only one out of the four games played.

The Girl's Basketball team was quite successful winning both of its games played.

In the spring the baseball team played 16 games, 6 of which were on a trip to Ohio and Indiana. It won a total of 6 out of the 16 games.

A field meet was held with Central University which was won against her by a score of 78 to 40.

## FALL OF 1904.

The old committee declining to serve, the President appointed on the new committee the new commandant, Major Burt, and Professors Faig, Mackenzie, Pence and Matthews. Only the first three took a very active interest or part in the management for the next two years that the committee was in charge.

Dr. Frederick E. Schacht, of the Medical College of the University of Minnesota had been selected as coach by the outgoing old committee.

Mr. Nisbet, familiarly known as "noisy," was assistant manager and White Guyn captain. The name of the manager does not appear in the Alumni report for this year.

The team had a very successful season scoring 271 points to their opponents' 15.

Toward the close it consisted of:

Line—Mahan, center; Coons, left guard; Brewer ("Big Brewer"), right

guard; Goodwin, left tackle; Beard, right tackle; Montgomery, left end; Wood, right end.

Back Field—Grady, quarter; Guyn, full back; Haynes, right half back; Kemper, left half back.

It lost only one game—that to the University of Cincinnati, 0 to 11.

The Thanksgiving game was with K. U. and was very exciting. It had been preceded by much acrimonious correspondence over the eligibility of players carried on between Professor Fairhurst for K. U. and Mackenzie for S. C., which was published in the papers, and partizan feeling ran high.

While it had no effect on changing the final constitution of the teams, it doubtless served to more widely advertise the game, with the result that the attendance was one of the largest ever seen on the State College grounds.

K. U. protested Grady, alleging professionalism because he had caught a few games for a team in his home neighborhood—the Hopkinsville baseball team.

S. C. replied, defending Grady against the charge of Professionalism, and making counter charges against the *bona fide* student character of Woodward, Wallace and Miller.

A very important factor in the winning of this game was a talk given to the team by Dr. Kastle just before it left for the field. Though lighter than their opponents, this appeal so stirred their fighting qualities that they carried every thing before them from the first onslaught, and the final score was 22 to 4. The only score made by K. U. was a goal from the field by Woodward.

#### SPRING OF 1905.

The record by the baseball team was a creditable one, it having won 6 out of the 8 games played. Those lost, were games with Indiana (3 to 1) and K. U.—the first one—(13 to 7). S. C. won the second game with K. U. (9 to 2).

The picture of the team appears in the Alumni report for 1905. However, with no names accompanying, I am unable at this late date to identify all the players from it.

#### FALL OF 1905.

Coach Schacht was retained for the football season this year. Kemper was captain and Nisbet manager.

The team consisted of Guyn, left end; McKinney, left tackle; Coleman-Sheldon, left guard; Mahan-Adair, center; Brewer, right guard; Turner, right tackle; Branson-Montgomery, right end; Atkins, quarter; Paulin, left half; Rodes (William), right half; Kemper, full back. Subs: Jenkins, Band, Black, York, Swope, Barr.

The main team was clean as regards eligibility requirements with the exception of Sheldon. There were several ineligibles among the subs.

The Committee seems to have given the coach too free a hand, in the disposal of funds of the Association with the result that in the desire to build

up a winning team some of it was used for purposes not legitimate in college athletics.

The same old controversy over eligibility of players broke out afresh, with Professors Mackenzie and Fairhurst again the champions in the defense of their respective teams. Only this year State College did not occupy the defensible position she did the year before. It was largely a case of "pot calling the kettle black." However, State was willing to arbitrate eligibility and K. U. was not.

The differences becoming unreconcilable, the Thanksgiving game was called off.

The other games resulted as follows:

September	27—Ky. vs. Cynthiana at Lexington .....	52-	0.
"	30—Ky. vs. Catlettsburg at Lexington .....	23-	0.
October	7—Ky. vs. Indiana at Bloomington .....	0-	29.
"	14—Ky. vs. K. M. I. at Lexington .....	12-	4.
"	28—Ky. vs. Berea at Lexington .....	46-	0.
November	4—Ky. vs. U. of W. Va. at Morgantown.....	0-	45.
"	11—Ky. vs. Cumberland Univ. at Lexington .....	12-	11.
	Forfeit .....	6-	0.
"	18—Ky. vs. St. Louis Univ. at St. Louis .....	0-	82.
"	25—Ky. vs. Central Univ. at Lexington.....	11-	11.
Totals .....		156-	182.

The date set for the St. Louis Univ. and K. U. games were so close that Coach Schacht thought it would be good policy to send his second team to St. Louis as the first team—a most unfortunate decision, as the team was overwhelmingly defeated with severe loss of State College prestige in that section. The State College Alumni and friends in St. Louis, who turned out to support the team were disgusted and indignant, when they learned how they had been duped.

Looked at from every angle the season was a most disastrous one.

The College had been badly defeated whenever it ran up against a first class university. For the first time in its history—and last so far as I know—it had been represented in games by several matriculates who had been hired outright, and on this account and because the game with K. U. was not played, the association was left at the end of the season with a heavy deficit.

To liquidate the more pressing indebtedness the committee appealed to the Faculty for subscriptions, and enough was raised in this way to pay most of the balance on salary due the coach. The remainder of this was paid in the succeeding year to his widow; he having died suddenly in the far west before the Association was able to pay this obligation in full.

In the light of all which did actually happen "*es ist zum laecheln*" to read in the Alumni report for 1906 that, "Athletics at Kentucky State College during

the past year have justified the opinion that all games and contests should be played with a straight, clean college team. The football team made a splendid record," etc.

Basketball was played during the winter by the boys and by the girls and the picture of the girls team appears in the Alumni report for 1906.

Miss Alice Pence was captain, and Mr. Thompson Bryant, coach.

The baseball team—Montgomery, captain; W. C. Kelley, manager—finished a very successful season of 15 games; winning all but two. The latter were lost to University of Virginia and Richmond College on a trip to Virginia and North Carolina.

One Lucas was permitted to assume charge of track athletics for the spring; he agreeing to finance same and provide for his own salary out of gate receipts, and the college paper.

His scheme came to grief before the end of the season, and he departed rather suddenly, leaving the publishers of the paper in arrears and additional debts for the Association.

---

## UNIVERSITY SECTION

---

### ATHLETICS.

All other forms of athletics at the University have been overshadowed by foot-ball. The season opened with practically the same team on hand as last year with the exception of the tackles, Thompson and Server, and the full-back, Schraeder. The work of the team has been in keeping with that of the University—brilliant at times and mighty bad at others. The team seems to be suffering for the lack of spirit, or something, due probably to the same reason the students generally are suffering, namely, the general ailment of the University—the lack of respect, loyalty and enthusiasm.

The season opened with Butler College which proved to be an easy victory for State. This was followed by another easy victory over Centre, one of State's old time rivals. On October 14, as many of the jubilee visitors will testify, State ran up against the real thing—sometimes called the Commodores, and the result is told in the summary. The next meet was with Sewanee and resulted in a scoreless game. In this game State played brilliantly at times, but she lacked something. The same can be said about Sewanee. The last game played under the schedule, which brings us to date, was with the University of Cincinnati, a very weak team this year, and State had no trouble in trouncing it.

## THE KENTUCKY ALUMNUS.

The schedule and the results of the games played so far follow :

Sept. 30—Butler College.	State 39.	Butler 3.
Oct. 7—Center College.	State 68.	Center 0.
“ 14—Vanderbilt.	State 0.	Vanderbilt 45.
“ 21—Sewanee.	State 0.	Sewanee 0.
Nov. 4—Open.	State 32.	Cincinnati 0.
“ 11—University of Louisville at Lexington.		
“ 18—Mississippi A. and M. at Lexington.		
“ 30—Tennessee at Knoxville.		

## RHODES SCHOLARSHIP EXAMINATIONS HELD.

The Rhodes Scholarship examination was held in Alumni Hall of the University Tuesday and Wednesday, October 3rd and 4th by Prof. T. T. Jones, of the University of Kentucky, and Prof. T. B. McCartney, of Transylvania.

Those who took the examination were R. W. Dunlap, of Danville, who represented Centre; I. C. Powers, of Hawesville, representing Georgetown, and M. U. Conditt, of Marion, who represented the University.

Reuben T. Taylor, of LaGrange, who was on the waiting list of eligibles, received his appointment some time ago, and sailed last week for Oxford. Mr. Taylor graduated here in 1914 and immediately took up a fellowship and taught for two years in the English department. He was active in literary work.

## WOMAN'S CLUB.

The Woman's Club of the University had its first meeting of this season on Friday afternoon at Patterson Hall with Mrs. H. S. Barker and Dean Hamilton as hostesses. Mrs. M. L. Pence, the new president, was in the chair and business plans for the year were discussed. A lunch was served after the meeting. The next meeting will be held in November at the home of Mrs. Paul Anderson with Mrs. Anderson and Mrs. Pence as hostesses.

## CHEMICAL SOCIETY MEETS AT STATION.

The first meeting of the year of the Lexington section of the American Chemical Society was held Thursday, October 12th, at the Experiment Station, and a report of the semi-annual convention of the American Chemical Society was read by Dr. F. E. Tuttle and also a report of the second annual Exposition of Chemical Industries by William Rodes, both of whom were present at the meetings in New York.

Dr. Tuttle's report was mainly concerned with the business proceedings of the national convention and discussed the various steps of chemical advancement in the past few months, while Mr. Rodes, '08, gave an interesting account of the great strides that have been made in the chemical industries of the United States in the last year. This development was shown by 200 exhibits at the exposition, wherein was emphasized the fact that the United States has done in two years, chemically, what Germany accomplished in forty years.

R. C. Dabney, '14, made an interesting illustrated talk on the "Chemistry of Bread Making."

The next meeting will be held November 8th, at which time the annual election of officers will take place.

**MECHANICAL COURSE WINS RECOGNITION.**

In a new catalogue issued by the Buffalo Forge Company the course offered by the College of Mechanical and Electrical Engineering of the University of Kentucky is given well-deserved recognition. The forge shop exercises, which are given in the sophomore year and which were designed by Dean F. Paul Anderson for the college course twenty-five years ago, are given in the catalog as model forge shop exercises.

The catalogs are distributed among the forge shops throughout the country which use the company's forges. As these forges are used in practically all of the large technical schools in the country, the exercises, which have been used in this University for a quarter of a century will become a standard for forge shop work all over the country.

The fact that the company recognizes the school is also shown by the large number of graduates of the College of Mechanical Engineering who are working for them.

**WAR ORDER MAY AFFECT UNIVERSITY CADETS.**

A general order of the War Department has been received by the University, outlining the reserve officers' training corps act recently passed by Congress which, if accepted by the University, will materially change the methods of enrolling cadets and providing for them. Under the new act the cadets will be furnished with uniforms and officers will receive a remuneration of thirty cents a day for meals.

The order was turned over to Captain John Fairfax and action will be taken upon its acceptance later. The order will then be given out to the students should it be accepted. This will allow young men who are not allowed the luxuries of drill and an education to come to the University and partake of the abundance of the soldier's life.

It was learned this week that the lawyer would be compelled to drill. The ruling, however, leaves power with the Dean of the College of Law to excuse anyone he sees fit. The new ruling applies only to Freshmen.

**MINOTT BROOKE, '15.**

Minott Brooke, '15, of Veechdale, has been placed in charge of the steam laboratory department of the College of Mechanical and Electrical Engineering. He will succeed A. L. Wilhoit, who has been transferred to the thermodynamics department. Mr. Brooke was class president in his junior year.

**J. E. JOHNSON IS NEW Y. M. C. A. SECRETARY.**

The outlook for the University Y. M. C. A. is most promising for an active and serviceable year. The Board of Management has secured J. E. Johnson, of Timonsville, S. C., for general secretary. Mr. Johnson graduated from Clemson College in 1906, and since that time he has been an active Y. M. C. A. leader. He graduated from Yale in 1913 with the degrees of M.A. and B.D. and for the last two years has been State student secretary for Ohio. He comes to "State" very highly recommended. Under his efficient leadership a special committee of Y. M. C. A. members met each train during the opening days of college. Y. M. C. A. badges were worn and information and assistance was given to everyone.

### COLLEGE OF LAW.

The College of Law of the University of Kentucky has an increased enrollment this year, although other college work, in addition to the three years of law work, is required for graduation. Of the 1012 students matriculated this year, 130 are enrolled in the College of Law, and of the 150 candidates for Bachelor Degrees this year 34 have chosen Bachelor of Law.

The Kentucky Law Journal, which is published monthly by the students of the Law College, has added several able law writers to its list of contributors. Its circulation among members of the bar of other States, as well as this one, is rapidly increasing, and at present is about 1000 copies. The purpose of this journal is to provide its readers with able discussions of legal topics and give all possible aid to the profession, in an effort to raise the standard of scholarship, and establish a higher appreciation of professional ethics.

The Law Journal has this year established an alumni register which will be published in each issue. The purpose of this register is to offer information and create a closer relation among the alumni of the college, and every alumnus has been requested to see that his name and correct address is on the register.

Several hundred volumes have been recently added to the law library so that it now contains more than ten thousand well selected law books. The practice court work is being more successfully done this year by dividing the class into small sections and requiring three recitation periods per week of each section. A manual has been carefully prepared by Dean Lafferty for the use of each student, which classifies the year's work into contested and uncontested matters and carries the class over all phases of the practice possible to cover in the year.

The Law Faculty is now composed of three full time professors and four associate professors, and this promises to be the most successful year since the organization of the college as a part of the University.

The course in the College of Law has been enlarged by adding drill. Capt. Fairfax has kindly consented to permit every new student of the department who is under twenty-one years of age to enroll in the battalion and drill with all the honors and privileges of boys from the other colleges.

### COLLEGE OF MECHANICAL AND ELECTRICAL ENGINEERING.

The following "Engineers" were visitors at the Golden Jubilee, representing fifteen classes out of the twenty-four that have gone out from the College of Mechanical and Electrical Engineering. In addition to these a number in the town and surrounding country helped swell the crowd that day.

- 1894—Represented by Prof. John T. Faig, of the University of Cincinnati. Prof. Faig is looking hale, hearty and prosperous, and we can hardly believe that twenty-two years have passed since he left Alma Mater.
- 1896—Two representatives present: J. I. Lyle, treasurer and general manager of the Carrier Engineering Corporation of New York City.  
Henry Orman, who is farming near Danville, Ky.
- 1897—T. C. Kelly, who is in business for himself, consulting, designing and construction engineer, Cincinnati, Ohio, represented the class of '97.
- 1898—The sole member of this class present was Paul S. Ward, who is vice-president of the Lynn Superior Company, Cincinnati, Ohio.
- 1899—Two members present: W. L. "Billy" Bronaugh, of Chicago, in contracting business for himself.

Arthur J. Vance, manager of the Cincinnati office of the B. F. Sturtevant Company.

1901—Of this class there were here to help in the celebration: Henry Bewlay, chief engineer, Ideal Electric and Manufacturing Company, Mansfield, O. Frank Garfield Cutler, who is chief of the Bureau of Steam Engineering, Tennessee Coal, Iron and Railroad Company, Ensley, Alabama. Mr. Cutler drove through in his automobile, bringing his wife and children—a fine looking boy and girl.

R. B. Hunt, in charge of boiler inspection and safety appliances for the Florida East Coast Railway, came from St. Augustine to be with us.

1905—Three representatives present: George H. Gilbert, who for several years has been manager of the Richmond office of the General Electric Company at Richmond, Virginia.

Virgil D. Roberts, who is at present highway locating engineer for Pulaski County, with headquarters at Somerset, Kentucky.

H. H. Urmston, who is still farming near Cynthiana, Kentucky.

1907—P. C. Grumwell, mechanical engineer with the New England Westinghouse Company, Springfield, Massachusetts, was one member of the class of '07, and L. L. Lewis, secretary of the Carrier Engineering Corporation, New York City, was the other representative.

1908—Prof. V. E. Muncey, instructor in electricity and mechanics, Ohio Mechanics Institute, Cincinnati, Ohio, was here greeting old friends about the campus.

J. L. Pogue, farming near Maysville, attended the jubilee.

1909—Four members present: Mr. E. E. Horine, mechanical engineer with the National Carbon Company, Cleveland, Ohio.

T. F. Hudgins, instructor in electrical engineering, Purdue University, LaFayette, Indiana.

H. H. Lowry, equipment engineer, Western Electric Company, Hawthorne Station, Chicago, Illinois.

T. J. Orr, construction engineer, Cosden & Co., Tulsa, Oklahoma. The fourth member of the class paid us a visit, the first time in many years.

1912—Jake H. Gaiser, secretary and general manager of the Booth Felt Company, Brooklyn, New York, was one of the old football stars present.

F. S. Karn was a smiling representative of this class and informed us that this was his honeymoon trip.

E. J. Kohn, who is assistant to Mr. F. G. Cutler, with Tennessee Coal, Iron and Railroad Company, was another representative from Ensley, Ala.

1913—Of this class, J. S. Croswaite, "Skinny," heads the list. Mr. Croswaite is still with the General Electric Company at Schenectady, where he has been since graduation.

R. R. Taliaferro is at present sales engineer with the Buffalo Forge Company, Cincinnati, Ohio.

A. J. Weisenberger came in from Midway, where he is in the flour milling business with his father.

1914—W. S. Carrithers, who seems not to have lost any of his healthy looks, came to help make the occasion a joyful one. "Red" is still in the boiler business with the Babcock and Wilcox people at Barberton, Ohio.

H. R. Masters came from Chicago, where he is sales engineer with the B. F. Sturtevant Company.

1915—W. P. Crawley, Jr., with the Louisville & Nashville Railroad Company, was here but "too busy" to spend much time on the campus.

Gatewood Ireland came all the way from Baltimore to help celebrate. Mr. Ireland is with the Bartlett-Hayward Company, of that city.

E. C. Parker, who is with the Pennsylvania Railroad Company, at Columbus, Ohio, was in town too, as he *frequently* is. Reuben T. Taylor, another member of the New York Club, at present is with the Charles Hartman Company, Brooklyn, New York.

1916—J. M. May and R. E. Hundley, both with the Willys-Overland Company, at Toledo, Ohio, and W. M. Glenn, of the Mengel Box Company, Louisville, Kentucky, were the representatives of the class of 1916.

Other visitors at Mechanical Hall who were once students were M. L. Conley and R. B. Metcalf. Mr. Conley was a student here in 1894-95. He is now general manager of the Ohio and Kentucky Railway Company with headquarters at Cannel City, Kentucky. Mr. Metcalf is senior member of the firm of Metcalf and James, of New York City, selling automobile supplies. They are now establishing a branch house at New Haven, Connecticut. Mr. Metcalf was a student at the University in 1901-02.

Other recent visitors at Mechanical Hall are: G. P. Upington, class of 1902, who is sales representative of the Clarage Fan Company, Brooklyn, New York. Mr. Upington brought with him his wife and handsome little boy of two years.

A. R. Bennett, '14, is well pleased with his work in the engineering department of the American Steel Foundries Company at East St. Louis.

L. S. O'Bannon, '15, came through on his way from a vacation spent with his family. Mr. O'Bannon is in the steam engineering department, Illinois Steel Company, at Chicago.

Messrs. T. R. Nunan and Carlyle Jefferson, of the class of 1915, now in the sales department, Armstrong Cork and Insulation Company, Pittsburgh, Pennsylvania, were visitors at Mechanical Hall.

C. A. Johns, '09, with his wife and little daughter were visitors at the home of his father recently and we were glad to welcome him at Mechanical Hall.

R. E. Mattingly, '13, now in the transmission department of the American Telegraph and Telephone Company, New York City, was back to view the old scenes, the first time since graduation. Mr. Mattingly looked prosperous and happy, and thinks his work the best to be had in the engineering line.

S. B. Mellen, '15, now in the sales department of the Studebaker Corporation, was another visitor, and we note that in spite of living in the north he still retains the soft southern brogue.

J. W. Kunzman and R. L. Willis, of the class of 1913, dropped in to see us. Mr. Kunzman is traffic chief, Southern Telegraph and Telephone Company, Shreveport, Louisiana. Mr. Willis is in the efficiency steam engineering department of the Republic Iron and Steel Company, Youngstown, Ohio.

Howard A. Hoeing, '02, in United States Engineering Office, Federal Building, Chicago, Illinois, was another of the recent visitors.

T. W. Freeman, '06, whom we had not seen for sometime was a caller. Mr. Freeman is still connected with the manual training department of the Nashville Public Schools.

### COLLEGE OF MINES AND METALLURGY.

K. D. White, '11, from the College of Mines and Metallurgy, who has been engaged in the development of oil and gas lands in Turkey, Venezuela, Chile and Columbia for the past five years, has accepted a position as geological engineer with the Tropical Oil and Gas Company, in South America, at a salary of \$12,000 a year.

William C. Eyl, a senior in the College of Mines and Metallurgy, spent the summer working as mining engineer for the Kenmont Coal Company at Hardin, where he received a great deal of practical experience.

"Sophs" Victims of the "Soph-Fresh" Tug-of-War.

James J. Hume spent the vacation months in the employ of a large coal-washer plant at Borderland, W. Va.

Prof. Ivan P. Tashoff, who recently resigned from the faculty of the College of Mines and Metallurgy, is now engaged in metallurgical patents research work at Washington, D. C. He is succeeded by B. C. Worley, of Chicago, a graduate of the University of Michigan, who will have charge of assaying and metallurgy. Professor Worley has been engaged as assistant chemist for the Griffin Wheel Company, of Chicago, for the past year.

S. J. Caudill, of Cannel City, a member of the '16 graduating class, was employed during the summer by a large oil company and has located a number of wells for his firm. Mr. Caudill is at present at Pennsylvania State College, where he holds a fellowship.

Charles E. Staub, of the College of Mines and Metallurgy, who has been employed by the Hager & Bates Company, of Tulsa, Okla., for the past few years, has returned to Kentucky to assist in the development of the vast resources of the State as consulting engineer. He is now a partner in the firm of Hager, Bates & Staub, of Louisville.

After leaving the University, Mr. Staub took a special course in geology at the University of Chicago. He accepted a position with the Geological Survey of Kentucky and was engaged in investigating possible oil producing lands in eastern and western Kentucky. He accepted a more lucrative offer from the Producers' Oil Company, of Houston, Texas, as geologist and shortly afterward took a better position with Hager and Bates, petroleum and mining geologists, of Tulsa, Oklahoma, with whom he worked until returning to Kentucky.

---

### STUDENT SECTION.

#### ALPHA XI DELTA.

The Alpha Xi Delta Sorority entertained with an afternoon dance at the Armory on October 20th. The hall was elaborately decorated with autumn leaves and the fraternity colors. There were about one hundred and twenty-five guests, including a number of visiting alumnae. At the conclusion of the dance a dainty lunch was served.

---

#### KAPPA KAPPA GAMMA.

The Beta Chi chapter of the Kappa Kappa Gamma fraternity entertained Thursday with a beautiful bridge party at the home of Mrs. T. T. Jones, in Transylvania Park. The attractive home was decorated with plants and autumn flowers.

A delicious lunch followed the game of bridge. The hostesses are noted for the lovely parties they give and this was one of the numerous college affairs given this season in honor of the new girls in the University. The prizes were awarded as follows: The first to Miss Ruth Gregory; the consolation, for which all drew, to Miss Mary Downing and to Miss Green.

---

#### SIGMA CHI.

The Lambda Lambda chapter of the Sigma Chi fraternity entertained Saturday evening with a beautiful dance at their house on Grosvenor Avenue, the guests of honor being the alumni of the University. Refreshments were served during the evening. Miss Hogarty's orchestra furnished the beautiful program of music. The hosts were assisted by the chaperones.

## KAPPA DELTA.

Epsilon Omega chapter of Kappa Delta were the hostesses of a tea dansant given Friday afternoon, October 13, in the ball-room of the Phoenix Hotel. The guests of honor were two members of the national council, Miss Elizabeth Corbett, of Jacksonville, Florida, and Miss Rebecca Smith, of Paducah.

Small tables, decorated with crystal bud vases holding a single white rose, surrounded three sides of the ball room and the refreshments of tea and sandwiches were served there. About 150 invitations were issued.

## THE KENTUCKIAN DANCE.

The Kentuckian dance, given Friday evening in Buell Armory for the benefit of the University annual, was a decided success in every way. Several hundred guests were present, including several of the faculty and their wives. A large number of the alumni were also among the guests.

The Armory was decorated in the college colors and beautiful plants. An orchestra furnished the music. The hours were from 9 to 12 o'clock.

## STROLLERS ELECT OFFICERS.

The Strollers, the dramatic organization of the University, held their first regular meeting of the year in the Stroller studio last Thursday afternoon, October 5th, and elected officers for the school year.

Of the officers elected last May, William Shinnick, president, was the only one to return. Miss Johnnie Cramer was elected vice-president; Preston Cherry, secretary-treasurer; John Marsh, stage manager, and Emery Frazier, business manager.

The annual play will be presented soon after the New Year, and it will probably be taken on the road for performances in a number of towns of Central Kentucky after its initial appearance in Lexington.

## "K" ASSOCIATION.

At a meeting of the "K" men of the University, held in the office of Dr. Tigert, officers were elected and a committee appointed to draft a constitution and by-laws for the association. Curtis Park was elected president; Charlie Hayden, vice-president, and Howard Kinne, secretary-treasurer. Assistant Coach Tuttle, Frank Crum and George Gumbert were appointed a committee to draft the constitution and by-laws.

The association intends to make stringent rules against the indiscriminate wearing of letters, either college or high school, on the campus, and to increase the honor that accrues to the wearer of a "K" gained in athletics at the University.

## FRESHMEN VICTORIOUS IN ANNUAL PULLFEST.

The annual tug-of-war which was held at Clifton Pond last Friday afternoon, October 13th, resulted in a victory for the Freshmen. Outnumbered by more than seventy-five men and handicapped by having the worst side of the pond, the sophs had no chance and although they fought hard, the freshies had no trouble pulling them through. The contest was witnessed by several thousand persons and moving pictures of it were taken by the Universal Film Company.

Less than thirty seconds after Captain John Fairfax, who was referee, had given the signal for the pullfest to begin, the sophs were struggling in the water. They took their defeat with true sportsmanship and every one who pulled went through the pond.

The Freshmen immediately formed in line and paraded through the streets, stopping traffic, giving their class yells and making themselves nuisances in general. As a grand finale they all rushed through the Ben Ali Theatre where

they made their presence known by giving their class yells and making other unnecessary noise. As a result of their victory the Freshmen have the right to paint their numerals wherever they desire and they will remain unmolested.

### CLASS SECRETARY SECTION.

#### CLASS OF 1906.

By ANNA WALLIS, Secretary.

Sixteen members of the class were back for the Jubilee and quite a number of ex-members registered. We had no formal get-together but we had our share of the fun. Our only regret was for the absent members.

Katherine Hopson-Hamilton, who has been in Lexington most of the summer on account of infantile paralysis in the East, was fortunate enough to be here for the Jubilee.

Mary Scott-Fansler is now back at home on Long Island, where she and "Percy" are truck farming.

Elizabeth Mahoney-Williams is not satisfied with her husband having an M.D. degree, so she is taking post graduate work at the University, leading to an M.D. degree all her own.

"Noisy" Nisbet, in the conventional costume of a civil engineer, was here with all his "noise." Others who registered on the '06 page were: William P. Kemper, W. J. Baxter, H. E. Robinson, R. P. DuValle, P. T. Atkins, R. E. Magee, J. S. McHargue, H. E. Read, R. Wiley, Eugenia McCulloch, Cottell Gregory, Bess Goggin, Mary Scrugham, L. M. Land, Anna Wallis.

#### CLASS OF 1909.

By P. L. BLUMENTHAL, Secretary.

The great Jubilee is past, and now that the University has settled down to the even tenor of its way, a few words about the reunion will not be amiss.

The secretary wrote to each and every member of '09 and to as many as possible two letters were sent. About thirty answered, many of whom came back for the reunion. Those who were present to help in the celebration were Reddish, Bewlay, Orr, Carroll, Moore, Neblett, Crosthwaite, Cannon, Lowry, Shankland, J. S. Horine, Neighbors, Maddox, Class, Akers, Hardesty, Mrs. Weil (Edith Isaacs) and Blumenthal. The following ex-members of '09 also registered: Keeney, McDowell, Hugh Carpenter, Dan Estill, Warner Sayers and Miss Marshall.

The class assembled on the campus, partook of the barbecue, and attended the game in a body. After that, the "possum" dinner became a necessity. Once the subject of the game was exhausted, the spirits of the party rose (and sank) and the natural exuberance of Reddish, Croswaite and Moore rapidly erased the sad memories of the afternoon. Stories and reminiscences, together with toasts to the absent ones and their families, served to make a memorable evening.

It was decided to hold our next meeting at Thanksgiving, 1917, and those who were unable to attend this time are urged to remember the date and arrange accordingly. It is planned to have a luncheon for men and women before the game and a stag party afterward.

The news of the death of Dr. Hudgins, father of Fred Hudgins, of Olive Hill, Ky., is an occasion for sincere regret and profound sympathy.

Hal Townsend and wife are rejoicing! A handsome baby girl arrived early in October. That Chicago crowd is making quite a record for itself.

Charlie White and Erbie Harrison took wives unto themselves since the last writing. Congratulations, fellows!

E<sup>2</sup> Horine, with his wife and baby were in Kentucky for a few weeks. E<sup>2</sup> is now in chemical engineering work helping to foster our "infant" industries. His address is care National Carbon Company, Cleveland, Ohio.

Hugh Sanders announces the arrival of a boy, who is destined to enter "Old State" in 1934. Fritz Tucker will furnish Hugh Jr. with a room mate!

Pearl Hinesley is taking a course in library work in New York City.

It is interesting to note that twenty-five members of the class have married, and that the class babies number about twenty-one, of whom seven are known to be boys. Won't the class mates who read this column please inform the secretary as to the names and date of birth of their children, and also the date of their own marriage? It would be a very helpful list for future reference, and some day we might have another home-coming when all the wives, husbands and babies would attend.

The following members of the class have not answered any letters sent them, and it is possible that their addresses as quoted in the Alumnus of June, 1916, are wrong. Won't you help by sending information concerning G. F. Browning, Holton Cook, Bill Cornish, Harry Davis, Cecil Garvin, "Bob" Hafl, W. A. King, Emmett Perrine, Gus Riedel, Roy Smarr, Dan Talbott and A. G. Yankey?

Who will write the first newsy letter to the secretary?

#### CLASS OF 1911.

BY OLLINE CRUICKSHANK, Secretary.

Wasn't the Jubilee celebration from beginning to end the greatest fun you ever had? There was only one drawback and that was what? Well, classmates, listen and you will soon know! The few who were here missed all the rest of you and what a happy time it would have been if every '11 man and woman could have answered "here" to the roll call! I did not have an opportunity to see all of you, but it was a happy moment for me to greet those "of the old days."

The first person I met on arriving was "Jimmie" Mastin, from DuPont, and then there was Sanders, from Chicago. Bruner was on hand, yes, "Bunnie" Worthington and "Dick" Webb, too! Frances Hughes, Mattie Cary, Ann Simrall rooted at the game and it sounded natural to hear "Fannie's" giggle once more. Marion Johnson wasn't there. Wonder why. Can you keep it a secret?

Bye the way, I must not forget to tell you about Virgil Downing! Cupid wove a web about his heart and on September 25 he and Charlotte Stetson, of Kenosha, were married. Ask Virgil about his departure. Oh! it was equal to the "Perils of Pauline." The happy couple spent several days viewing Lexington and the old campus then took their leave to keep house in Kenosha. Congratulations!!!

On September 8, Dr. Ernest Smith sailed for Africa and before leaving sent the following little poem entitled "Do Not Forget," which I know every member of the class will enjoy reading:

Here away and there away,  
Up the world and down,  
You and I are going friends,  
Under sun and moon;  
Whether roads divide or no,  
Whether alone or met,  
Whether we hail or bid farewell—  
Oh, do not forget!

Here away and there away,  
Over the heaving hills,  
On the trail of Happiness,  
Beside the bonnie rills;  
Whether we work or whether we play,  
Whether we laugh or fret,  
Whether the roads cross soon or late—  
Oh, do not forget!

## THE KENTUCKY ALUMNUS.

Here away and there away,  
 Pulling at Life's tether,  
 Down the world and up again,  
 You and I together;  
 Whether days be dark or fair,  
 Whether skies be wet,  
 Whether hands take hands, or no,  
 Oh, do not forget!

Here away and there away,  
 Tramping the world together,  
 You and I and a friend or two,  
 Over the blooming heather;  
 Whether Life leads us near or far,  
 Whether the end is yet,  
 Whether we keep or lose the path—  
 Oh, do not forget!

Here away and there away,  
 Nearing the journey's end,  
 Life behind and Heaven before,  
 And each a friend;  
 Whether we share a last farewell,  
 When the sun has set,  
 Whether we silent go our way—  
 Oh, do not forget!

Ernest has gone for three year's work in Africa. His address is Knibi, Cameron, West Africa. Write to him. His experiences are interesting and entertaining and sometime soon we will have some of them in The Alumnus.

Now, for a little business. May I again request you to keep me posted as to your doings and whereabouts? Write to me, every one of you and I will acknowledge receipt through The Alumnus. Have you sent Mr. Turner that two-dollar bill yet? If not and you expect to receive future copies of The Alumnus, you must do your part.

## CLASS OF 1912.

By J. R. DUNCAN, Secretary.

Among the clans which gathered from the four points of the compass, and from a lot of intermediate points, to pull aside the curtains of years and to look backward over the sea of memories, "Company '12" was way up in front, and enjoyed itself immensely.

The members of '12 could not look back over fifty years but they had some reminiscences to exchange and great was the exchanging thereof. Nobody had time to sleep. As Jake Gaiser said, when at the "K" dance some one asked him about 11:30 p. m. where he was going to stay that night—he wasn't going to stay anywhere. He might hang his hat on the ceiling for a while but that was all.

Well, Jake was there and hadn't changed a bit. "Burrhead" Stanfill was there—a risen young lawyer by this time.

Hattie Noland, Dolly Battaile, Jesse Miller, Wilmore, Bablitz, Hart, H. M. Walker, W. G. Woods, R. B. Garred, Bill Collins, Bruce Hagar, Utley, Kohn, George Fuller, J. F. Day, D. C. Martin, Pannell, were all there and if they were a day older we couldn't notice it. Oh, don't mention it.

We herewith announce that Fred Karn was married early in September. Fred and Mrs. Karn managed to spare one day for the Jubilee.

This is about all of the bunch that registered, but we know there were a few more in the ranks.

Looking back a few days further, "Dutch" Ammerman blew in during matriculation and when we accused him of being married he pleaded guilty. He was disappointed that no one was here to make a "cycle" for him.

## CLASS OF 1913.

By MABEL H. POLLITT AND INIS GILLIS, Secretaries.

The following members of Class '13 registered at the Alumni Headquarters at the Phoenix Hotel during the Jubilee: C. X. Johnson, J. E. C. Johnson, R. M. Woodson, A. T. Bryson, H. L. Alexander, Mabel Pollitt, L. V. Farra, C. B. Thomas, W. C. Jetton, M. L. Kimbrough, C. M. McDaniell, J. H. Nutter, Mary E. Taylor, Inis Gillis, Mrs. Ella Porter Green, R. R. Taliferro, A. J. Weinsberger, E. J. Gott, A. L. Brueckner, J. A. Goodwin, W. C. Wilson, Mrs. Lucile

Gastineau Wilson, A. C. Parker, E. A. Humphreys, Mrs. Mary B. Pence Wolfe, Lee Hunt, Maude Creekmore, Sallie Adams, T. E. Mahan, J. H. Way, J. F. Gilbert.

Mrs. Ella Porter Green was one of the speakers at the Alumnae Banquet, Phoenix Hotel, Friday night, October 13.

J. F. Hall and Miss Alice Snodgras, of Youngstown, Ohio, were married October 18. The ushers were J. L. Edelen, '12, G. E. Kelley, '14, H. T. Watts, '14, and L. B. Evans, '15.

Lula Logan sends greetings from Catlettsburg where she is teaching in the high school.

W. C. Stone is located at Mt. Sterling as State Road Engineer.

Louis Heinrich is in the University of Illinois working on his Ph.D. degree.

#### CLASS OF 1914.

By R. C. DABNEY, Secretary.

The Class of '14 had a fine representation at the Golden Jubilee celebration. The Alumni registration shows that 33 per cent. of the entire class were on hand for a good time and believe me we had some time too. The register contains the following names: Misses Grace Baker, Idie Lee Turner, Katharine Logan, Elizabeth Waddy, Sallie Pence, Mary K. Venable, and Messrs. Guy Dickinson, Harry Miller, Herbert Masters, Angus Gordon, C. X. Johnson, Henry Kimbrough, Perry Rowe, J. W. Vest, Ward Yager, Thos. Hedden, Guy Huguelet, Levi Coleman, "Dunc" Hamilton, "Bob" Dabney, A. L. King, Henry Jakobee, Earle Cassady, W. S. Carrithers, Minton Cregor, J. H. Payne, H. C. Short, O. J. Jones, W. M. Magruder, C. W. Denham, C. C. Harp, J. W. Atkins, J. L. Pinkerton, H. N. Woodson, D. K. Tackett, E. T. Proctor, Seneca Routt, Leo Sandman, J. T. Taylor, Jack Hatter, A. L. Brueckner.

H. N. Woodson is teaching at the Frankfort high school and is also coaching their football team.

C. X. Johnson is now engaged in the newspaper business at Campton, Ky. His paper is the Wolfe County Tribune.

Jack Hatter has returned from the Philippine Islands after two years of civil service work.

E. T. Procter is principle of the Paris high school.

"Dunc" Hamilton, acting Police Judge of Greenville, kept several prisoners in jail over Sunday, awaiting trial Monday morning while he attended the Jubilee celebrations.

Ed Danforth, otherwise known as "Scoop," is writing for the "Georgian," an Atlanta paper.

"Chief" Blevins is secretary of the Y. M. C. A. at Jacksonville, Fla.

#### CLASS OF 1916.

By ELSIE HELLER AND L. H. NELSON, Secretaries.

Probably a third of the class attended the Jubilee. All things considered, this was not a poor representation for a class so recently graduated. Some of the older classes, however, were "there" in numbers and otherwise. Our strength and spirit were puny in comparison with that exhibited by some of them but, then, we expect to grow to be big and strong, too.

By no means have all the members of the class filled out and returned their record forms to Mr. Turner. If you have neglected this, don't neglect it any longer. It is important. Also, do not neglect to pay your dues and likewise encourage others to pay theirs. The University and the Alumni Association are trying to make for Kentucky a place for her boys and girls to obtain an education surpassed by no other institution in the country, and we want Class '16 to be among the foremost in the "big push."

Karl Zerfoss is devoting himself strictly to business as Y. M. C. A. Secretary at Georgia Tech, Atlanta, Ga. Karl was expected to be on hand for the Jubilee but did not show up.

Pearl Bastin, who holds a position in the Versailles high school, is at present a sufferer from typhoid fever at the Good Samaritan hospital.

Homer Reid occupies a fellowship in Mathematics at the University. Some people love Mathematics.

Elizabeth Alexander is teaching Science and Mathematics at Stony Creek, Virginia.

Eugene P. Wilkerson, who was to have a fellowship in the University, being unable to obtain his release, is with the United States troops in Mexico.

"Doc" Townes has accepted a position as Scientific Assistant in Dairying with the Agricultural Extension Service of South Carolina with headquarters at Clemson College.

James H. Coleman is serving as corporation attorney for the Sher-a-Coca Company, of Lexington.

"Willie Lee" Smith is practicing law among the Hoosiers, having selected Evansville as the scene of his debut.

Natalee Woodruff was very fortunate in obtaining a position in Eminence high school, her home town.

F. A. "Fritz" Harrison is "coming strong" as an attorney at Williamstown, Kentucky.

Iva Darnall has recovered from an illness and is at present teaching in the Monticello high school.

Henry F. Cromwell is with the Hercules Powder Company, of San Diego, Calif., as chemist. He looks to The Alumnus for most of his news about the "bunch."

Leon (Doc) Leonian is pursuing graduate study in the Department of Botany at the University of Michigan. Inasmuch as he gets to play with all the plant diseases to his hearts content, he is as "happy as a Scotchman in bag-piper's heaven."

Lillian Annette Martin is teaching Domestic Science in Lexington city schools. There is quite a lengthy title attached to her position and she states that the duties are quite as lengthy.

"Jeff" Harris, among other things, is a journalist. He edits The Blue Grass Farmer, the Monday supplement to The Lexington Herald.

Iley Browning is employed as Geologist with the Kentucky Geological Survey, with headquarters at Frankfort, Ky.

"Ed" Hundley and "Joe" May are still living together at 748 Highland avenue, Toledo, Ohio.

Minton (Old Lady) Cregor is now State Dairy Inspector for Kentucky with headquarters at Lexington.

## ALUMNI CLUBS.

### BIRMINGHAM CLUB.

By E. J. KOHN, Correspondent.

On the night of October 2nd the Birmingham Club held an enthusiastic and enjoyable social session at the home of J. M. Sprague, the guests of the evening being the wives and "intendeds" of the respective members. After a hotly contested bridge game an equally spirited election of officers was held with the following results: F. G. Cutler, '01, president; G. B. Jeffries, '13, vice-president; A. B. Haswell, '11, Secretary-treasurer; E. J. Kohn, '12, Correspondent.

Plans for the Golden Jubilee were discussed and two of our members announced their intentions of attending the celebration. The evening was fittingly closed with a light luncheon.

From the profuse compliments showered on the members by our fair guests, similar meetings will be in order this winter. The married members are heartily in favor of these open meetings as it eliminates the necessity of an explanation, inasmuch as the time worn club excuse no longer passes the censor.

F. G. Cutler, wife and children, Mary and Samuel (1934), attended the Golden Jubilee, making the trip in their automobile. Immediately after the football game they wended their way to Chicago, making the entire trip with only one minor mishap, a puncture.

The writer was the other member of the club to attend the Jubilee, having planned his vacation at this time.

J. H. Gardner, '04, vice-president of the Alumni Association, was our honored guest for a few days having come from Tulsa, Okla., to investigate the Warrior Coal and Oil fields.

George A. Scott, '13, and wife have returned to Paducah, Ky., to locate after a sojourn of three months in this locality. George came to recuperate from a slight fever. While here he and his wife were the guest of relatives at Roebuck Springs.

A. B. Haswell, '11, our efficient secretary and treasurer, has entirely recovered from his attack of typhoid fever. He recently returned from his former home in Hardinsburg, Ky., where he was the guest of his parents for a month.

Guy Jeffries, '13, has left the Sea Board Air Line and has accepted a more responsible position in the Land Department of the Tennessee Coal, Iron and Railroad Company.

Occasionally we hear from R. G. Stevens, '13, who travels extensively in the interest of Alabama Power Company. "Bob" recently returned from West Virginia with the girl of his choice.

Our former President, J. Miles Sprague, wishes to matriculate his son Edmond Scott Sprague in the Class of 1937. Notwithstanding his son and his "fiver," J. Miles still finds time to devote to the interest of the club.

#### NEW YORK CLUB.

By L. L. LEWIS, President.

It has occurred to the writer that, in place of selecting men, here and there, as fit subjects for this article, it would be interesting to take some one of the big concerns and write of the men connected with it.

The following will serve to give you an idea of what some of the men whom the University has furnished, are doing for the Western Electric Company in New York.

R. C. Hoppood, of the Class of 1916, entered their employ as apprentice in Chicago, immediately after graduation. He advanced to the engineering department, to Engineer of Methods in the cable shops and to Cable Engineer in a few years. He was then transferred to the patent department and soon after took up the study of Law in Kent College, Chicago, Ill., and transferred from Chicago to New York. In 1912 he entered the New York Law School and was admitted to practice in the State of New York in 1914, and has since been in charge of certain branches of their patent and allied work. He married Miss Margaret Brown, the daughter of an old State man, in November, 1913.

A. Akin, of the Class of 1905 passed immediately from the work of apprentice to that of Development Engineer. He has found development work congenial and has been very successful in this field, devoting his entire time from 1907 to the present time to this kind of work. He was married in 1908 to Miss Ayline Jones, of Princeton, Ky.

C. C. Stackhouse, '04, went from the apprenticeship work to the Westinghouse Electric Company, thence to the Steel Corporation and back to the

Northern Electric Company, an allied Corporation of Montreal. Leaving the Northern Electric Company, he was in turn, Electrical Inspector in charge of work for the Government of this country and then Supervisor of Electric Inspection for the Isthmian Canal Commission. While doing this, he found time, in some unexplainable way to marry Miss Edith Combs. He is now Designing Engineer for the Western Electric Company.

L. S. O'Rourke, well known in the Class of 1910, passed through the apprenticeship work in Chicago to a position of Transmission Engineer. Soon after that he made connections with the Interstate Cotton Oil Refining Company, of Texas, but finding telephone engineering preferable to efficiency engineering, came back to the Western Electric Company in 1914 in his previous capacity, which he has maintained since that time. Nearly all will remember, not so much that he was married while in school, but that a certain young O'Rourke was mascot of the class.

J. S. Garvin, of the Class of 1910, has passed through the usual stages of apprenticeship to Transmission Engineer and further into the life of a married man and father.

Charles White, '09, started with the Chicago Telephone Company, progressing with that concern to the position of Exchange Manager. He then became connected with the Western Electric Company as Equipment Engineer, from which he progressed to Development Engineer. He recently married Miss Margaret Nolan, of Richmond, Ky.

J. T. Lowe, Class of 1912, is now Development Engineer in New York after having ascended the steps in Chicago.

C. E. Daniels, '11, after completing the apprenticeship work for the Westinghouse Electric Company in Pittsburgh, entered consulting work in the employ of Mr. J. F. Musselman, '03, in New York. After several years of this work, he took up Equipment Engineering for the Winchester Repeating Arms Company and is now identified with the Western Electric Company as Inspection Engineer, in charge of specification work.
