

TO THE HONORABLE BOARD OF TRUSTEES
OF THE A. & M. COLLEGE.

Gentleman:-

Several of your Committee have been canvassed on the subject of protecting your buildings with the Harden Hand Grenade against incipient fires. The goods have been well known for over seven years. They have been adopted by the United States Government and over fifty Railroads throughout their entire lines, are now using them, after thorough competition against everything in the market. It is well known that glass is the only thing that will preserve these chemicals indefinitely. In the Harden Grenade you have a permanent fixture and they are so simple that any one over ten years of age can use them. The price to your Institution will be 20 per cent off of regular price (\$15.00) per dozen, making one gross cost \$144.00. In addition to this discount we will furnish free of charge the wire brackets to keep three or four bottles in a place. In buying these goods you can rest assured that you will have a reliable extinguisher at a small cost and one that will not get out of order in years. Please have your Principal sign the enclosed contract at your next meeting.
