The Combination Gas Machine Co.

NEW YORK, October 25th, 1887.

We intend to make our new store, No. 163 MAIDEN LANE,

THE HEAD-QUARTERS FOR GAS MACHINE SUPPLIES,

and offer the public not only our latest and most improved Gas Machines, for making illuminating and fuel gas, but also a great variety of gas apparatus, designed to meet the daily wants of families, hotels, mills, factories, &c., &c. We have constantly on hand a full supply of gas pipe, fittings, valves and cocks, for gas, steam and water; burners of all kinds, adapted to carbureted air gas; laboratory burners (our patent), producing a perfect non-luminous flame; improved tinnets' fire pots for heating soldering irons—our own make—durable, economical and cheap; cooking stoves of most approved designs; radial burners for domestic use; instantaneous water heaters, for baths, offices, &c.; also, our Combination Gas Heating Stove—a *perfect heater*—just the thing for the nursery, bedroom, bathroom, &c. This stove has been made with special care, and is recommended as the best cylinder stove ever offered. It is handsomely finished, and moderate in price. *We furnish these goods, also, for use with coal gas.* Send for our circular, "List No. 19," for more detailed information.

We also desire to call your attention to our *Gasolene Department*. We handle only the best quality, and have facilities for shipping promptly in small and large quantities. We know, from our intimate knowledge of gas machines, exactly what is needed to produce the best results, and our patrons can have full confidence that we will faithfully serve their true interests.

We solicit your orders for anything in our line, and guarantee satisfaction in quality and price.

Very respectfully,

THE COMBINATION GAS MACHINE CO.

Yours without date is at hand and I reply that your answer is evidently with a misconception of the FACTS.

Your plumber (or some one else) has misled you. Our valves are in perfect order and the only reason the plumber could not shut off your line was because your valve (not ours) had been broken by your plumber.

We can of course cut the water off to enable you to repair the valve but in so doing we would be compelled to cut other parties off also and leave them temporarily without fire protection. This we will do if necessary but it will require a previous notice to the fire department and special precautions to guard against risks.

This answer is not made with any design of provoking or continuing our correspondence unnecessarily, We will aid you to the best of our abilities in making any necessary repairs but we naturally object to being held responsible for the mistakes of other parties.

Very respectfully.

HEADQUARTERS OF THE ARMY,
ADJUTANT GENERAL'S OFFICE,
Washington, November 9, 1887.

The following decisions, rulings, &c., have been made during the month of October, 1887, and are published to the Army for the information of all concerned :

REGIMENTAL STAFF OFFICERS.

The effect of paragraph 155½ of the Regulations (General Orders, No. 14, February 23, 1887) is to exclude from appointment as regimental adjutant or quartermaster any officer who may have served a tour of four years or more as a regimental staff officer, either before or after the adoption of the regulation ; the purpose of this regulation being that officers shall not be kept too long away from the duties pertaining to a company, and also to give as many capable officers as possible the opportunity of gaining instruction in the duties of adjutant and quartermaster.—[*Decision acting Sec. War, letter Oct. 3, 87—4369 A. G. O., A. C. P., 1887.*]

HAND-LITTERS.

The hand-litters provided for by General Orders, No. 56, series of 1887, from this office, are to be added to the clothing and equipage of the company and taken up and accounted for on its regular quarterly returns, the last column on said return to be used for the purpose.—[*Decision acting Sec. War, Oct. 7, 87—5068 A. G. O., 1887.*]

TRANSPORTATION FOR ATTENDANT IN CHARGE OF THE HORSE OF A
MOUNTED OFFICER.

The words "total cost of all" in paragraph 1952 of the Regulations do not include any and every expenditure that may be made up to the amount of \$100, but the cost of transportation of horse and attendant. There would appear to be no more reason for the payment by the United States of a bill for services rendered a horse in transportation than for payment for services rendered the horse in stable. The Government undertakes to transport the horse and his care-taker, but not to pay the latter.—[*Decision Sec. War—5779 A. G. O., 1887.*]

TRANSFERS TO THE HOSPITAL CORPS.

In the eye of the law these transfers date from the date of the special order from the Adjutant General's Office ; but as it is a physical

impossibility for the order to be executed at a distant post on the day of its issue at Washington, practically the transfer takes effect from the date the soldier is actually transferred by orders at his station.—[*Decision Sec. War, indorsement Oct. 7, 87—7097c A. G. O., E. B., 1887.*]

ACTING ENGINEER OFFICERS.

A department commander cannot, under paragraph 45 of the Regulations (as amended by General Orders, No. 135, Adjutant General's Office, series of 1882) detail an officer of the line of the Army as acting engineer officer at department headquarters without the sanction of the War Department.—[*Decision Sec. War, letter Oct. 12, 87—4426 A. G. O., A. C. P., 1887.*]

INFANTRY TACTICS.

Paragraph 247, in connection with paragraphs 183, 383, and 534: In executing "rear open order" in single rank, it is the duty of the right guides to superintend the alignment of the file-closers in the position of a supposed rear rank.—[*Decision Lieut. Gen., letter Oct. 5, 87—5495 A. G. O., 1887.*]

Paragraphs 378-380: On forming the battalion, while the companies are being aligned the first sergeant of the left center company is in the line of file-closers, and comes to a "support arms" at the command of his captain, as do the other file-closers; the second sergeant of the left center company, being employed to mark the line, does not take his place or come to a "support" until the adjutant commands, "Guides, posts."—[*Decision Lieut. Gen., letter Oct. 5, 87—5428 A. G. O., 1887.*]

CHANNEL OF OFFICIAL CORRESPONDENCE (A. R. 650).

The Regulations, in requiring officers to generally indorse their opinions or recommendations upon communications which they forward to higher authority, do not call for the expression of an opinion or a recommendation upon reports of a formal nature which are submitted at regular periods upon blank forms especially prepared for that purpose. Reports which exhibit a failure to impart an instruction required by the orders or regulations under which they are made might, however, in many cases be made the appropriate vehicle of suggesting a method by which a more strict compliance with orders would be secured.—[*Decision Lieut. Gen., letter Oct. 13, 87—5816-5818 A. G. O., 1887.*]

SANITARY REPORTS OF POSTS (A. R. 2315).

These reports, pertaining to the province of post and department commanders, need no longer be sent to division headquarters.—[*Decision Lieut. Gen., letter Oct. 21, 87—5811 A. G. O., 1887.*]

AMMUNITION FOR COMPETITIVE FIRING.

Under paragraphs 591-605, Blunt's "Rifle and Carbine Firing," the firing to be held at the annual competitions is restricted to the four days of competition and the three days of preliminary practice, this latter including also the "bull's-eye" firing mentioned in paragraphs 653-656, "Rifle and Carbine Firing," and that any firing in addition to that thus prescribed is unauthorized by the "Rifle and Carbine Firing," and should in all future cases be only held when it has received the approval of the Lieutenant General and the authority of the Secretary of War for the expenditure of ammunition for that purpose.

For the regular competition 40 shots for each of four days, or 160 shots per man, is required of each competitor.

As the amount of the preliminary practice is, within certain limits, discretionary with the department commander (paragraph 593, "Rifle and Carbine Firing"), the number of shots for each man cannot be so positively determined as in the case of the competition, but as the practice is restricted to three days, it (including the bull's-eye firing) cannot well require more than 240 shots per man, which amount is considered a sufficient maximum for this purpose, though frequently it might not all be necessary.—[*Decision Lieut. Gen., Oct. 31, 87—5658 A. G. O., 1887.*]

EMPLOYMENT OF OVERSEERS.

The Secretary of War concurs in the opinion of the Quartermaster General that the post commander should judge as to the necessity for employing overseers over working parties, of whatever strength.—[*Letter, Oct. 24, 87—9059A A. G. O., E. B., 1887.*]

ENLISTMENTS IN THE HOSPITAL CORPS.

In making enlistments and re-enlistments for the Hospital Corps, enlistment papers will be made in duplicate and forwarded to the Surgeon General of the Army—one copy to be retained in his office, the other to be sent to the Adjutant General of the Army after the

Dear Sir:-

On
 Sept 29th I wrote you acknowledging receipt
 of \$640. with which to pay for Hale County section
 of land and placed the money to your
 credit. The deed came about the tenth
 of October but there was an error in it
 and it had to be returned and one
 of the parties was absent and the
 correction could not be made until
 he returned. I am in receipt of a letter

Dear J. K. Patterson,

Dear Sir: Yours of 2nd inst. inclos-
ing check for \$14²⁶/₁₀₀ in settlement of your individual
bill, also check for \$270⁵⁹/₁₀₀ for coal furnished the
College during the months of Oct. & Nov. was received
this morning and you will please accept thanks
for same. My bid on coal for the College
is to allow 5% discount on all coal delivered be-
fore the first of December. You wrote me about
the first of Nov. that you wanted 2000 bus. put in by
Dec. 1st and when you called at my office to see
me about it I promised to make the discount on
2000 bus. should I not get 2000 bus. delivered dur-
ing the month, and by referring to my bill you will
find that I have done so.

Yours Truly

Dear Sir: I am surprised and pained
to receive your report concerning my
son's misconduct. Mr. Dotts and I have written Jennie
informing him to conform strictly to
all the rules and requirements of
this College; and in case he should
be found in violation to
leave home immediately and resume
his studies in the "City High School"
where he will be under our
and control.
We certainly will not allow him to board
in the City and attend the College as it
would be placing him in a perilous position
and probably incur temptation.

Judicious, Persistent Advertising is the
Keystone to Success.

—THE—

Farmer's Home Journal,

LOUISVILLE, KY.

ESTABLISHED IN 1865.

Fifty-six Columns, Eight Pages.

ISSUED WEEKLY.

Goes to the better class of Farmers
and Stock Men.

Where the Farmers Home Journal Circulates.

To give advertisers an idea of the extent of, and the territory in which the FARMERS HOME JOURNAL circulates, we give herewith the number of papers sent to a few of the post-offices in Kentucky and Tennessee. We claim to reach more of the better class of farmers and live-stock men of these two States than *any other paper published*. These figures show by actual count the exact number of papers sent to each of the post-offices named as appears on our mail list of date April 20, 1887.

This list gives only 121 post-offices in these two States, and shows a circulation at these offices alone of 3,431 copies of the FARMERS HOME JOURNAL. Now the fact is the paper is sent regularly to over 1,300 post-offices in Kentucky and Tennessee, and if the same average held out it would give us a circulation in the two States of over 36,000 weekly. Besides these two States, our mail list shows that the paper is mailed regularly to 400 post-offices in other States. Extending the estimate at same ratio to these offices we would have a total circulation of over 47,000 papers. We do not however make any such extravagant claim because these offices are on our largest lists and the rate will not so hold out. But we do claim to have the best medium published for reaching the better class of farmers and stock men in the two States mentioned, besides a good scattering circulation in several other States. The advertiser who wants to reach this class of people will be convinced of the merits of our medium by giving us a trial.
