The minutes of January 10 were read and approved.

President Donovan introduced Miss Sidney Fitch and Mr. John Fisher, students in the University, who explained the purposes of Religious Emphasis Week and outlined the program for the week. This program is to include a University wide convocation on March 7, from 10:00 to 11:00 a.m., in Memorial Coliseum. The University Faculty approved a motion endorsing the program.

Dr. W. S. Ward presented the following recommendations from the Committee on Planning and Policy:

1. That a separate item for administrative travel be set up in the annual budget of the University.
2. That in addition to the budget for administrative travel the sum of \$4,500 be made available for out-of-state travel to be used exclusively for granting aid to members of the teaching faculty with the rank of instructor or above traveling to meetings of learned and/or professional societies under the conditions specified in the following paragraphs. Future appropriations should be adjusted as requirements become known.
 - a. That the sum indicated above be distributed to the colleges on the basis of the ratio of the number of members of the active teaching staff with the rank of instructor or above in each college to the total teaching staff of all of the colleges.
 - b. That the University adopt the policy of paying necessary travel and subsistence expenses not to exceed \$60^{on any one trip} to any member of the teaching staff with the rank of instructor or above desiring to attend a professional meeting.
 - c. Approval for all trips must be obtained in advance. The forms authorizing the trip must be signed by the Dean of the College, the President of the University, and the Commissioner of Finance of the State of Kentucky. Any trip made without advance approval of the above mentioned officers shall not be chargeable to the out-of-state travel fund of the University of Kentucky.

*Absence explained.

Minutes of the University Faculty, February 14, 1955

- d. The allotment to each college shall be made as indicated above by the President of the University or a committee named by him. When the allotment has been made to a college, the Dean shall be responsible for assigning it to the members of his staff. Care should be exercised to see that there is a fair and proper distribution of the assigned fund among the four quarters of the year, among the departments, and among individuals within departments.

President Donovan explained some points in connection with out-of-state travel that were sometimes overlooked by members of the faculty. He stressed the point that the Court of Appeals had ruled that reading a paper at a meeting was not a valid reason for traveling at State expense and that the application should indicate that the trip was for the purpose of representing the University and for the benefit of the institution. After further discussion, the University Faculty approved the recommendation of the Planning and Policy Committee.

President Donovan called attention to the fact that the University Faculty had approved a change in the calendar which would cause Commencement to fall on the Monday following the date of the Baccalaureate Services and one day before the beginning of final examinations, thus making it possible for the families of graduating seniors to attend all the Commencement activities and for the students and faculty members also to attend. President Donovan reported that he had received a letter from a faculty member in regard to cigarette smoking in Miller Hall.
