

MINUTES OF THE UNIVERSITY FACULTY, FEBRUARY 11, 1963

The University Faculty met in regular session at 4:00 p.m., Monday, February 11, 1963, in the Assembly Room of Lafferty Hall. President Dickey presided.

The minutes of January 14, 1963 were approved as circularized.

The list of candidates for January 25, 1963 degrees was distributed to the University Faculty for approval and recommendation to the Board of Trustees with the addition of James Adam Pearson as a candidate for the degree of Bachelor of Science. The Faculty approved the list as presented for the degrees indicated.

Dean Kirwan presented for the Graduate Council a recommendation that honorary degrees be conferred on three persons at the June, 1963 Commencement. The names of these three persons were approved by the Faculty for transmittal to the Board of Trustees with the request that the names not be revealed until the Board has taken action and the nominees have accepted.

Dr. Weaver, chairman of the University Faculty Council, presented amendments to Section XI, sub-head 3., entitled "Tenure", Governing Regulations of the University, which had been circulated to the faculty under date of January 17, 1963. The Faculty approved the amendments as presented for recommendation to the President and the Board of Trustees for its consideration.

Paragraph 1, Section on Tenure, Page 25. - We propose the revised paragraph read as follows:

MINUTES OF THE UNIVERSITY FACULTY, FEBRUARY 11, 1963

The tenure of the President of the University shall be continuous unless otherwise specified by the Board of Trustees. Each person in the following categories shall also have continuous tenure at the University, either on appointment or following a probationary period of employment on a year-to-year basis, the total probationary period to be from one to six years* as approved by the President: (1) all persons of the rank of assistant professor or higher, (2) other persons adjudged by the President to hold equivalent ranks, including research or extension personnel and professional librarians.

*Notification of termination of employment for persons employed on a 12-month basis during any of the first five years will be given at least six months prior to the terminal date. When termination of employment is to occur at the end of the sixth year, notification of such will be made before the beginning of that year. For those employed on an academic-year basis, notification of termination of employment during the first five years will be given at least one semester prior to the terminal date. Where termination of employment for those on an academic-year basis is to occur at the end of the sixth year, notification of such will be made no later than two semesters before the end of that year.

For persons at the University at the time of the revision of the Governing Regulations (December 1960), their probationary period will be considered completed on July 1, 1965.

Comment.- It is the feeling of the committee that it is difficult to determine the contributions of some of the younger staff members until they have completed a research project, including publication, which sometimes lasts three or four years. The consensus of the group was that if we were to change from a five- to six-year basis, it would provide the departments with a better opportunity to evaluate the potentiality of the younger staff members.

The second paragraph of the footnote proposes a clarification of how to handle persons on the faculty at the time of the change in the regulations.

Second Full Paragraph, Page 26. - In the first line of that paragraph we recommend the words "of incompetency" be omitted.

Comment. - The statement in this paragraph, leaving out "of incompetency," makes it compatible with the previous paragraph (Governing Regulations) which is much broader in its context.

Full Paragraph 3, Page 26. - We recommend that the first sentence read as follows:

A temporary or short-term appointment (less than one academic year) may be terminated at the expiration of the term by the mere act of giving timely notice of the desire to terminate.

Comment. - This clarifying statement coordinates this paragraph with the one concerning probationary period of employment on page 25. It also better defines short-term appointment, we believe.

MINUTES OF THE UNIVERSITY FACULTY, FEBRUARY 11, 1963

Same Paragraph, Last Sentence. - We recommend that this sentence be drawn out to begin a new paragraph and read as follows:

Notice of resignation shall, whenever possible, be given early enough to obviate serious embarrassment to the University. For those persons resigning who have been under tenure or on appointment exceeding one year, every effort will be made to give them the option of terminating their employment with the University on either June 30 or August 31. Other terminal dates may be **arranged** by agreement.

Dr. Weaver presented three recommendations from the University Faculty Council which had been circulated to the faculty under date of January 18, 1963 concerning appointments of deans, heads, directors, and chairmen. Motion was then made and approved that the Faculty proceed with a thorough discussion of these recommendations for possible amendments, after which it vote by secret ballot on the three recommendations separately. As a result of extensive discussion which followed, the Faculty voted to table the recommendations for further study.

The Faculty adjourned at 5:30 p.m.
