Night letter

Do not have your letter of February 16 but remember the point in question. I sent you instructions to make change but did not contact ~~Fearns~~ Fearnsx thinking you would do so. Will you please read to him the sentence as it now stands and ask if he ~~approves~~ approves of it. If he does, he will grant nihil obstat. If he does not, delete whatever he objects to. Keep on deleting until you get nihil obstat. This ought to fix everything. Merton.
