

by the University Faculty on November 10, 1947, be reinstated for summer session purposes in 1948 only and that it carry two semester hours of credit.

Respectfully submitted,

William S. Taylor, Dean
College of Education

These changes were approved by the University Faculty.

President Donovan announced to the Faculty that the Pershing Rifles of the University ROTC had won high honors in the drill and marksmanship competition at Columbus, Ohio.

President Donovan expressed his pleasure at being home after his visit to Germany. He spoke of the devastation in Germany and the great suffering from lack of food and clothing, and he touched on the problems being faced by those who are attempting to democratize the German schools. He also commented on the status of our relations with Russia and expressed concern at the seriousness of the situation.

The Faculty adjourned.

Minutes of the University Faculty June 2, 1948

The University Faculty met in special session in the Assembly Room of Lafferty Hall Wednesday, June 2, at 12 noon. President Donovan presided. Members absent were R. S. Allen, L. A. Bradford, A. J. Brown, Louis Clifton, John Crockett, C. S. Crouse, Lyle R. Dawson, William C. Eaton, W. D. Funkhouser, Sarah B. Holmes, W. M. Insko, J. W. Martin, William S. Taylor, Amy Vandenbosch, L. E. Meece, Roy Moreland, Hobart Ryland, J. B. Shannon, Earl P. Slone, D. G. Steele, and W. S. Ward.

The minutes of May 10 were read and approved.

The special meeting had been called primarily for the purpose of recommending to the Board of Trustees candidates for degrees to be conferred June 4. Dean Seay presented the list of persons who had completed all requirements for their degrees and the University Faculty voted to recommend to the Board of Trustees that the degrees be granted.

In the absence of Dean Holmes, Dean Kirwan presented for the Committee on Student Organizations petitions for two new student organizations - Students for Democratic Action, and the University of Kentucky Young Republican Club. After some discussion both organizations were approved.

Dean Seay presented a request from the Registrar's Office for a change in the University Calendar for 1948-49, in order to allow more time between the first and second semesters. After some discussion, the University Faculty approved the changes, as follows:

FIRST SEMESTER

Final examinations - change from January 22-27, Saturday through Thursday to January 29-25, Thursday through Tuesday

End of Semester - change from January 27, Thursday, 6:00 p.m. to January 25, Tuesday, 6:00 p.m.

SECOND SEMESTER

Classification Tests and Physical Examinations for New Students - change from January 31, Monday, to February 1, Tuesday

Registration - change from February 1,2, Tuesday and Wednesday to
February 2,3, Wednesday and Thursday

Class work - change from February 3, Thursday, to
February 4, Friday

Last Date one may enter an organized class -
Change from February 8, Tuesday to
February 10, Thursday

Last Date for dropping a course without a grade -
change from March 7, Monday, to
March 14, Monday

Dean Kirwan introduced to the Faculty Mr. John Anggelis, Chariman of a Committee of Lamp and Cross, which had made an investigation of the advisability of establishing an honor system on the campus. Mr. Anggelis explained that his committee was recommending that an honor system be set up in an effort to build up a tradition on the campus of no cheating in examinations. The Faculty discussed various phases of the honor system and President Donovan stated that, in view of the general sentiment concerning cheating, the committee should proceed with its plans and be prepared to present a more concrete proposal to the Faculty next fall.

Dean Terrell presented for the College of Engineering the following new courses, which were approved by the Faculty:

Courses to be added:

Civil Engineering 221a,b, - Advanced Soil Mechanics (3 each) 1, 11
advanced study of the engineering properties of soils, dealing directly with flow of water through soils, stresses in earth masses, shearing resistance and conditions of failure, clay mineral content and its effect, airphoto classification of soils, and the application of these theories to the design of engineering structures. Lecture, one hour; laboratory, four hours a week.
Prerequisite: Civ. Eng. 107.

Mechanical Engineering 136 - Internal Combustion Engine
Laboratory. (1) 1, 11
A study of magnetos, distributors, fuel ignition, timing, carburetors, oil systems, and performance tests on engines. Aeronautical laboratory, three hours.
Prerequisites or concurrent: Mech. Eng. 108, Mech. Eng. 113a

Mechanical Engineering 214a,b, - Special Problems in Aeronautical
Engineering. (3each) 1, 11
Advanced course in aircraft power plant engineering dealing with special problems in reciprocating engines, gas turbines, and jet propulsion. Aeronautical laboratory, nine hours a week.
Prerequisite: Approval of the Head of the Department of Mechanical Engineering.

President Donovan made a special request that the deans of the colleges urge the members of the faculties and their graduating seniors to attend the Commencement and to reach the assembly place by 7 o'clock.

The Faculty adjourned.
