Professor Anderson, chairman of the Committee on Diplomas and Degrees, reported as follows:

September 8, 1910.

" Chairman Anderson called a meeting of the Committee in his office, at which all members except Terrell were present.

Mr. H.C. Wilson of West Liberty, an alumnus of 1898, appeared before the Committee to show why his assignments in History and Latin, as made by Professor J.H. Neville in 1905, should remain as requirements for the Master of Arts degree. After hearing Mr. Wilson's explanations, and further consideration of the matter, it was voted to accept Mr. Wilson's thesis, which was presented in 1906, and to refer to the heads of the Departments of History and Latin the question of fulfilling the necessary requirements for the M.A. degree.

The Secretary read a letter from Supt. D.W. Bridges of Lancaster, Ky., requesting that arrangements be made by which the writer could pursue studies leading to the Master's degree in Education, with History and Science as minors. Voted that the Secretary inform Mr. Bridges of the fees and other requirements, and request the Dean of the Department of Education to correspond with the applicant and arrange the program of studies agreeably to all departments concerned.

In order to avoid the hasty settlement of difficult questions at the close of the year, the Committee voted to ask each Dean to send to the Committee on Degrees, prior to the October meeting of the General Faculty, a duplicate list of the probable candidates for degrees in June 1911, the same to be entered on the Committee's records for reference.

Adjourned.

September 22, 1910.

" At a called meeting of the Committee on Diplomas and Degrees in the Chairman's office, all members were present.

After considering the application of Mr. H.S. Cannon, A.B. '09, it was agreed to accept Mr. Cannon as a candidate for the A.M. degree, with Latin as major and Greek and Spanish as minors, and to notify Professor Jones of the

"revised arrangement.

The Secretary reported progress in securing duplicate lists of the provisional candidates for graduation in the various colleges of the University for June 1911.

The question of fees for graduate work was again discussed, and the Committee voted to recommend to the Faculty the following schedule:

For non-residents \$5.00 per annum.

For residents 15.00 per annum, the same to include library, laboratory, and class-room charges, but not the diploma fee.

Adjourned."

Professor W.K.Patterson, seconded by Professor Rowe, moved the adoption of the report. After a discussion by Professor Lafferty, President Patterson and Professor Anderson, the motion was carried.

After some discussion, Professor Anderson moved as a substitute, Dr. Terrell seconding, that Mr. Becker be allowed to make up his chemistry this year in view of the fact that he had desired to make up his work during the summer vacation but found this course was not offered at the University. It was noticed that some of these conditions affected students of the engineering courses who have been proposed as candidates for degrees in June 1911. On motion of Professor Anderson, seconded by Dr. Maxson, it was ordered that the men conditioned by Professor Miller be denied Senior privileges until the conditions are removed.

Acting President White called attention to certain questions that have arisen during the fall term as to the amount of work in military science and physical training that should be required of students. Certain questions had also arisen in regard to the requirements of these subjects in the Academy, and he suggested that the matter be given proper consideration by the faculty. The subject was discussed at considerable length and after several motions and substitutes had been presented, discussed and withdrawn, it was finally ordered upon motion of Lieut. Kelly, seconded by W.K. Patterson, that the whole question be referred to a committee composed of the deans with Professor Anderson as chairman, the finding of this committee to be submitted to President White, he being authorized to take such action as might be necessary.

Commandant Kelly called attention to a system of keeping track of delinquents in military drill, based upon the action of the faculty of some time since, requiring all students who are absent from drill to make up their deficiency before continuing other college duties. Remarks were offered by President Patterson and Acting President White, who urged that the entire faculty cooperate with Commandant Kelly in carrying out his wishes.

The following resolution presented by Professor Anderson was read by the Secretary, and upon motion was unanimously adopted:

"Resolved that the compliments and best wishes of this faculty be extended to our colleague, Dr. F. E. Tuttle, who has unfortunately been prevented by illness from taking up his University duties, and that this faculty wish for him a speedy recovery to health and strength."

On motion the meeting adjourned.
