Williams leaves UK for pro draft

By Chris Easterling
Assistant Sports Editor

UK got an oral commitment from one of the nation's top players Dec. 23 when quarterback Tim Couch announced his intention to attend UK.

But yesterday the Cats lost one of the finest players in school history when tailback Moe Williams announced his intention to enter April's NFL draft.

The Southern Conference's leading rusher last season said he reached the decision Wednesday after having UK head coach Bill Curry talk to several people in the NFL about his market value.

The word is that Williams could be anything from a first-round pick to a fifth-round selection.

The potential for a career-threatening injury during his senior season helped persuade Williams to leave UK early. He suffered a shoulder injury last spring, which dropped him down to third-string entering the fall.

"I was leaving a part of me here with these guys," Williams said. "It was a hard decision."

Williams said he did not think about the decision until the end of the season, saying he was committed to being a UK player.

"I was a Kentucky football player until the last game and that's the way I looked at it," he said.

But Williams' teammates had a sneaking suspicion the tailback would not be returning. Prior to UK's final game with Tennessee, the players held a mud game where the seniors were ganged up on and dragged through the mud by the underclassmen.

Despite being a junior, Williams was treated like a Cat playing his final game.

"At times I felt like I was turning back to the guys," Williams said. "But they told me I'd be crazy to stay."

Don't say goodbye to Williams just yet. He plans to stay at UK this spring to attend classes and prepare for the upcoming NFL season. Right now, Williams has no plans to attend the combines and he has not hired an agent.

Williams credited his family for being with him throughout the decision-making process.

"My family's really tight," he said. "They've been a great help to me. They were real supportive. They didn't push me to stay or to go."

Curry also stayed neutral in the decision-making process, but the UK coach did not hide the fact that Williams will be missed.

"My role in this was to gather all the facts for my player," Curry said, "and present them all to him."

Williams said an NFL team will probably want him to add weight to his 200-pound frame.

The added bulk will be necessary to accommodate Williams' upright, punishing running style.

"More will play, he will play great," Curry said, "and he will play for a long time."

With the departure, senior Ray McLaurin will likely step into the tailback position. McLaurin gained 260 yards on the season, but stepped in for Williams in the second half of the LSU game, and rushed for 107 yards.

Officials pleased with Add/Drop

By Charles Cooper
Staff Writer

The Add/Drop process has changed significantly over the years — from long lines with long waits to a computerized voice information processing network that allows schedule changes in seconds.

After several semesters of using UK-VIP, UK officials are pleased with the progress of the system and can begin looking to the future.

For now, the system is basically the same. But that could change, said Lisa Collins, assistant registrar for registration.

She said the Registrar's Office is planning to update the operation menus next semester, based on student reports and input from students.

Each semester the office looks at reports of how many students used the system and what kinds of problems they had. If enough students complain about something the office makes a note of it and changes it the following semester, Collins said.

For this semester, though, the rules are basically the same. In order to be eligible to Add/Drop, students must have either priority registered and paid the \$50 confirmation fee or participate in the new student registration, which runs until Monday.

In addition, students must be free of any stops on their records, stops include library fees and parking fines.

A touch tone phone is required to access UK-VIP. There is a phone bank in 6 Finkhouser Building for students who need to access the system, but don't have a touch tone phone.

One of the office's chief goals is to eliminate confusion in Add/Drop transactions.

In the past, many students have tried to drop a course and then add another one only to find the one they want is not available. When they go back to pick up the course they dropped, it's already gone.

In order to avoid this situation, the student registrar advises students to use the conditional Add/Drop function, which allows students to only drop a course if the course they want to add is available.

Collins also asks that students get organized before calling. She suggests filling out the worksheet on page 12 of the Spring 1996 course catalogue when planning your schedule or Add/Drop transactions.

By getting organized before you call you can save time, avoid a lot of confusion and getting cut off. UK-VIP has a 20-minute time limit per call.

The registration office recommends that students who change their schedule obtain a printed copy of the new schedule to make sure the transaction processed correctly.

UK-VIP will be accessible from 8 a.m.-5 p.m. Monday through Thursday. After that the phone bank will only be operational from 8 a.m.-4:30 p.m. for the rest of the month.

Add/Drop will be closed on Jan. 15 in observance of Martin Luther King Jr. holiday.

Jan. 17 is the last day to register for a course and Jan. 31 is the last day to change a grade option. Students can access UK-VIP by calling 257-7000. The registration help line is 257-7173.

PHONE CALL AWAY The UK-VIP system has improved since it was introduced to the campus a few years ago. Officials are now looking to the future.

Student mid-term break proposal amended, but passed

University Senate has mixed reactions to the SGA proposal

By Jennifer Smith
Managing Editor

As students are recovering from their winter break, they can begin planning for another one — in the fall of 1997.

After much debating and amending in its last meeting of the semester, the University Senate approved a plan that will give students a mid-term break.

The original proposal, which would have designated the first Monday and Tuesday of October as reading days, was voted down.

The approved break will be one day and it will fall on the Friday prior to the Monday and Tuesday in the original proposal.

Student Government Association President Shea Chaney said he was pleased that students will get a fall break, but he is disappointed that students are only getting one day.

"The (University) Senate Council was viewing the break as more of an academic one, but I think the

whole Senate viewed it as just a break — a time to take a breather mid-semester," Chaney said.

Chaney said the student government's original proposal was designed to give students more time to study for mid-term examinations in the fall. He said a break like this would take some of the stress off of students.

He said he believes by moving the break to Friday, it will just give students a reason to take a long weekend, instead of studying.

Gretchen LaGodna, Senate Council chairwoman, said she thinks the perception in the Senate was that if students plan to use the proposed break to study, then they'll use the Friday for the same reason.

She said many of the Senate members did not feel a break was necessary at all. Others, she said, liked the proposal.

"There were a wide variety of opinions discussed on the floor of the Senate," LaGodna said.

"The one-day proposal came from the floor as a compromise proposal. The original (proposal) would

never have passed."

Chaney, who spoke against the amended proposal at the University Senate's meeting, said he does not believe the Senate as a whole agreed all of the original work that the Senate Council and members of SGA put into the proposal.

"(The Senate) did not see the whole evolution or the groundwork that went in to the proposal," he said.

But you cannot discount that the Senate finally gave the break a thumbs up, he said.

SGA wanted the break because there are no breaks between Labor Day and Thanksgiving (12 weeks) in the fall. Also, there are more teaching days in the fall semester than the spring.

LaGodna said many members of the Senate agreed with that rationale and felt that a break was necessary to make the two semesters more equitable.

She said senators had many reasons for voting the way they did and that there is something to be said for the one-day compromise.

The one-day proposal came from the floor as a compromise proposal. The original (proposal) would never have passed."

Gretchen LaGodna
Senate Council
chairwoman

Loans hurt by shutdown

School may offer help

By Jeff Vinson
Campus Editor

The latest federal government shutdown affects more than non-essential workers. Both the University and its students could feel the impact of Washington's stalemate.

"A small pocket of students might have problems," said Judy Marshall, UK financial ombud.

The pocket of students includes those who have filed for financial aid for the first time for the spring semester.

These students are caught in the application process, Marshall said. The applications are sent to a federal processing station in Iowa, where the information is compiled and then sent to universities across the nation. The student's information determines how much financial aid each student is allotted.

"We're held captive ourselves," Marshall said. "We aren't allowed to award aid until we receive the information."

Marshall said the only thing the University can do is give extensions to students.

"There's nothing we can do to extract information," she said.

While the shutdown will have little to no effect on the Direct Loan program for students who applied last semester or earlier, it's possible that the shutdown could hurt some research programs and federally-funded grants if Congress does not raise the debt ceiling.

Jerry Bramwell, UK vice president of research and graduate studies, said the University has positioned itself well to handle the shutdown's impact.

"(UK) is solvent and is doing a stellar job of covering problems created by the government shutdown," Bramwell said.

He added that it is a day-to-day thing that will have to be watched.

UK has temporarily drawn down the money to cover items like campus-based funds and Pell Grants, said Lynda George, director of student financial aid.

Both Marshall and George said the University will do everything it can to help students who experience problems caused by the government shutdown.

CAMPUS College faculty group wants support

FRANKFORT, Ky. — Community college faculty members say they are underpaid, overworked and generally treated like second-class citizens in higher education. And now some of them want to do something about it.

The Kentucky Community College Faculty Alliance wants, eventually, to organize the 1,120 full-time faculty members at the 14 schools scattered around the state.

In the meantime, they want some other things — primarily more money from the General Assembly.

Barbara Ashley, a sociology professor at Jefferson Community College, will lobby the 1996 General Assembly on behalf of the faculty members.

Ashley said Thursday she has already got a daunting task. Gov. Paul Patton has said he will likely recommend only a 3 percent increase in higher education funding in the coming fiscal year.

Katy Varner, chairman of the social science department at JCC-Southwest, said the community colleges cannot wait another year for more money, as Patton has indicated is a possibility.

Varner and people at the community colleges do not feel UK adequately presents their case to the legislature, even though President Charles Wethington is a former chancellor of the community college system.

Gumbel ready to leave 'Today' show

NEW YORK — Bryant Gumbel has signed on for what will probably be his last year as host of "Today." It will be his 15th year, a record for the show's hosts.

"We are discussing a number of other projects with Bryant that I hope will keep him at NBC News for the next 15 years," NBC News President Andrew Lack said Thursday. Gumbel's 14th anniversary on the morning broadcast.

Gumbel, 46, said: "When I first agreed to anchor 'Today,' (original host) Dave Garroway told me to do it for five years. 'Any more than that,' he said, 'and you wind up going in the woods to talk with a moose.'

"Well, I'm not ready to head for the woods just yet ... but 15 years is a long time in one place, and the world's too exciting to enjoy from just one vantage point."

Compiled from wire reports.

1996 Spring Schedule Update

The number of available seats is noted in the column following the section number. An asterisk (*) indicates that the section has five or fewer seats available. Course sections that have the letter "Y" immediately after the number of available seats have controlled enrollment. You must get **special permission** from the offering department in order to enroll in a course with controlled enrollment.

SLAB OF CLAY

It's 4 a.m. Gumby's on TV. It reminds you of a simpler time. Saturday cartoons with your big brother. You suddenly miss him. So you call. He says, "You're my pony pal Pokey." There ain't a dry eye in the house.
