Trustees relieve Huber as institute director

Amid controversies over travel ex-penses, sexual harassment charges and scientific work found 'un-distinguished,' Gary Huber, head of the Tobacco and Health Research In-stitute, was fired Friday by Universi-ty President Otis Singletary. Huber, who had been temporarily assigned to the medical department, was officially relieved of his position as the director by Singletary last week on the recommendation of the Board of Trustees. In a presentation to the Board's Pr

Vol. LXXXIV, No.51 Monday, October 26, 1981

ecutive Committee, Singletary said his decision followed a recommenda-tion from Wimberly Royster, graduate dean, that Huber should "not be reinstated."

introversies over travel execual harassment charges infiline work found "unbed," Gary Huber, head of co and Health Research Institute has fired Friday by Universint Otts Singletary. Who had been temporarily to the medical department, ally relieved of his position irector by Singletary last received complaints from institute and an distribution of research and an adventioning some of his financial dealings. Singletary said, however, that the dismissal had "no relationship to the legal and scientific concerns" "This action is based upon our herostostes of the Institute and upon the unsetting the second of the sec

mance of Doctor Huber," he said.

He added that the case had been torney and representatives of the reviewed by lawyers who felt that there were no grounds for prosecution.

tion.

Included in the information provided to Fayette Commonwealth attorneys was the possibility that Huber, as well as assistant director Val Pochay, had received overpayment for traveling and moving expenses.

In his presentation to the commitce, Singletary said he asked Huber to "make restitution as to the amounts of money which are rightly due the University."

Singletary, in a letter to Huber, said

Singletary, in a letter to Huber, said "this will, I assume, occur as soon as

University's business and tegat orfrices."

The exact amount of money involved was not disclosed.

Addressing the charges of data
fabrication, Singletary said a study of
the institute that he had commissioned earlier this year found no basis
that Huber had practiced unethical
proceedures in presentation of scientific research.

However, the study conducted by
a five-member panel said research at
the institute was 'undistinguished'
and the lack of outside peer review
and intra-department communication, and inconsistency in funding had

hampered the institute.

The panel gave these five recommendations for consideration by Singletary:

The institute be maintained and supported.

A campaign be undertaken to provide the public with a better understanding of the institute and that a position of "associate director for administrational by be created.

Singletary further recommended that an advisory board be established to oversee the research conducted at the institute and that a position of "associate director for administration advantaged to excess the scientific research supported by the institute. Our mental evaluation be made to assess the scientific research supported by the institute.

Continued support be given the made to assess the scientific research supported by the institute. Our restrict, will be created.

Singletary also said he would be a to restore the question of who would head the institute. Currently, would head the institute. Currently, and to restore the question of who would head the institute. Currently, and the created to assess the scientific research supported by the institute and that a position of "associate director for administration and the architector for administration and the restored to assess the scientific research supported by the institute and that a position of "associate director for administration and the institute and that a position of "associate director for administration be created. Singletary flow created.

Singletary further recommended that an advisory board be established to overse the institute and that a position of "associate director for administration of "associate director for a

Conference concluded

Poor nations must look for solutions

CANCUN, Mexico — The North-South summit conference held here last week, reduced to its simplest terms, was a debate over whether poor countries are victims of an un-just international economic order or unwise domestic policies.

analysis

The debate was really about courties like Tanzania, a country plagued with massive debts, declining production, an acute shortage of foreign exchange and of even the most basic consumer items such as bread and soap.

In any North-South dialogue, Tanzania's claim to membership in the undeveloped "South" is unquestioned. It is one of the 39 poorest countries in the world and the only one represented at last week's summit which is located wholly south of the equator.

To President Julius Nyrere, who was here for the 22-nation conference, the Tanzanian experience over the past decade provides irrefutable evidence that the existing international economic order is hopelessly biased against Tanzania and countries like it.

To Nyrere's detractors, Tanzania represents a textbook example of what can happen to a country which does not rely on what President

Reagan likes to call "the magic of the marketplace."

Nyrere argues that Tanzania's problems stem mostly from a steady deterioration in the terms of Tanzania's foreign trade. Nine years ago, seven tons of Tanzanian cotton exports could buy a seven-ton truck. Last year, the purchase of the same type of truck ale up the earnings of 28 tons of cotton.

"It's a very stable property"

Herald-Leader solvent, report shows

High interest rates, increased production costs and loss of revenues to television has caused some of the country's larger evening newspapers to close up shop, leaving some Lexington residents wondering if the Lexington Leader is in for the fate of the Washington Store. The thing to the fate of the Washington Store further from the truth, according to Roger Hester, chief financial officer of the Herald-Leader Co. "1 On't think the Leader is in any danger, it's a very stable proprty," Hester said.

He added that there is also no consideration of going to a 24-hour pressrun, like the Boltimore Sun, while we have a side and the several editions spread over a 24-hour period.

The 1960 annual financial report of Knight-Ridder Corporation supports Hester's evaluation of the Herald-Leader's stability. According to this report, the Herald-Leader is 10th in company to the Herald-Leader is 10th in continuous to the Herald-Leader is 10th in company progress, and Knight-Ridder estimates that revenue from commercial printing will quadruple from this operation. One cause for concern has been the loss of revenue from advertising that the Herald-Leader, along with most other urban dailies, has experienced. In the past eight months, according

SUPPLY-

THE PREZ SEZ: "HE THIRD WORLD'S SALVATION LIES IN ---

Leaders of rich nations must alleviate Third World crises

The summit meeting of the leaders of 22 industrialized and developing nations in Cancun, Mexico has ended. The conference had great promise; there was in some quarters a desire to create a global New Deal to lead developing countries out of hunger and pover-ty.

But after two days of closed talks the leaders could not agree on a plan to alleviate the economic ills of the Third World. The conthe economic ills of the Third World. The con-trol of making arrangements to restructure the world's economy is the stumbling block. Nineteen of the leaders favor giving control to a U.N. body, while the United States, Britain and Germany want to leave control to existing international agencies such as the World Bank, which the wealthier countries of the world control.

President Reagan believes that 'Unless a

world control.

President Reagan believes that "Unless a nation puts its own financial and economic house in order, no amount of aid will produce progress." And Reagan advanced the powerful position of the United States on Thursday and Friday by espousing his belief in "the magic of the marketplace" — a nebulous theory based on the power of free enterprise. There is no magic in the world's marketplace, however. Third World nations are victims of a neo-imperialism, with both the Soviet Union and the Western allies couring them. The richness of the Third World's natural resources is the target of both superpowers, and in their chase for further riches

duct.

The Third World also continues to grow at a staggering rate—it already possesses 75 percent of the world's population— and has neither the money nor the ability to feed its peoples. The nations with the wealth and the knowledge to solve the Third World's problems are interested only in selling the developing countries guns and oil. Guns and oil do not feed starving people.

The affluent North has controlled the economies, and in effect the destinies, of the improverished South during the post-World War II period. While Americans enjoy an over-abundant standard of living and the Japanese swim in a balance-of-trade sea of black ink, poor nations borrow extensively to pay their food bills, their energy bills and the interest on their debts.

It is time for the nations of the North to cancel the debts of the nations of the South, for the powerful to yield to the needy, for 25 percent of all humanity to give to the rest to energe of the south of the south of the powerful to yield to the needy, for 25 percent of all humanity to give to the rest to energe of the south of the south of the powerful to yield to the needy, for 25 percent of all humanity to give to the rest to energe of the south of

s cancel the debts of the nations of the South, for the powerful to yield to the needy, for 25 persent of all humanity to give to the rest to ensure an improvement of the misery that most of the world currently lives in. All nations should dream of freedom from outside assistance. It is only with the help of the seven richest nations that such a lofty goal can be attained.

Ifeel like it's Oscar night and I won. Now, to make my acceptance speech. I'd like to thank my editor Bill Steiden for helping me fight a battle I was obviously losing.

To refresh your memory, I'm the student who was about to lose her job and a class because the University and Frankfort forgot about the human element in one of their decisions. Officials were going to close down an elevator, move two of my classes and force me to take an incomplete in a class that is very time consuming.

classes and force me to take an incomplete in a class that is very time consuming.

On Thursday afternoon I attended a meeting with Jake Karnes, the director of handicapped student services, who said I owold have to take an incomplete in one class and have the could better understand the problem to move of the said incomplete the class whenever I had time. But what about my job? Sorry, Judy.

Sorry, Judy.

We arrived at the Administration building and I waited outside while limmediately after leaving his office I felt the rage and frustration of the impending forced termination of my newspaper job. I also explained the rage and helplessness left while dealing with the University, director of the school of the University, director of the school was a sudience with Vice President for Student Affairs Art Gallaher. On the way out of the building we visited Dr. Robert Murphy, director of the school of Junalism. He had made a few calls. He got us an addience with Vice President for Student Affairs Art Gallaher. On the way out of the building we visited Dr. Robert Murphy, director of the school of Junalism. He had made a few calls after bearing about my protein and got halfway to the Administration and the proposal p

postpone the construction until the end of the semester and I'd schedule out of the building next semester. He said he'd see what he could do and told me to call back Friday morn-

ing.

Bill and I slid back down the steps. I was very frightened since the heaviest objects Bill lifts, I'm sure, are press releases and The New York Times.

beaviest objects Bill lifts, I'm sure, are press releases and The New York Times.

I called Bill back and suggested that we let the vice president help so be could better understand the problems of accessibility.

We arrived at the Administration Building and I waited outside while Bill went inside to get help. As I sathere I was again reminded of my helplessness.

Bill and Dr. Gallaher carried me up the steps. This ruled out his suggesting that we have someone meet me before classes every day to carry mue up the steps. This ruled out his suggesting that we have someone meet me before classes every day to carry mue up the steps. It was very obvious how dangerous it is tory to carry someone in a wheelchair up a flight of stairs.

Dr. Gallaher listened. He liked mand understood that I was not trying to be difficult or uncooperative. I only wanted to finish what I'd started. I also told him my alternative to education and a job—welfare.

Mr. Gallaher called in Jack Blanton, vice president for business affairs.

I explained the situation to Mr. Blanton.

Mr. Blanton made some suggestions, none of which were attractive or viable. I made my suggestion; just

Egyptians disappoint America by not grieving for slain Sadat

The Sadat obsequies lacked a few final perfecting touches. More sincerely mourned in Washingon than in Cairo, President Reagan might have gone a step further than ordering flags in America to fir at half-staff and offered to have the minured Egyptian flown here to be buried in the Arlington National Cemetery. He was, if we are to believe the spoutings from the electronic faces on our television tubes, a Great American, and put that in capital letters, Bub.

Ovations for 'Working'

In response to the Oct. 16 review of Working, it is hard to believe it could have been written. The writer, John Griffin, failed to mention an important fact dealing with the opening performance. There was a standing ovation. For some reason, he overlooked the ovation but saw many faults.

These faults, in part, were the script itself, but the did not give credit where it is due. The entire company descript test is due to the substant of the subs

fusing, foul and tedious. Nearly every lyric and line was a direct quotation from a working person. Are they not real?

He also stated, "The more moving scenes are unintentionally and abashedly ridiculous." Two members of the audience were so moved that they needed to step out into the lobby. Reviews such as this one destroys the fine arts department's morale and discourages many people from attending a good show. The next time a

chemistry library.

Or perhaps it is referring to students who like the works of abstruct artists like Picasso or Remoir or Chagall. Hell, I think these painters are all right but I don't love them or anything. Is this a justification for keeping me out of this section of the library?

If this is also not the case, then must one walk, talk or dress abstractly?

Or, perhaps it is an abstruct political position to which the section is dedicated. Maybe if one shows a card conficient in the is a cognosissor of indicating that he is a cognosissor of

Last week I was studying at the Chem/Physics library and I noticed abstract foods eaten with abstract

utensils, he will be admitted.

If any of these possibilities is the purpose behind this exclusivity, then it is nothing more than another case of discrimination against the common student.

Look, I like to get as abstract as the next person, but not during the school week and especially not when I study. The reason I bring my case to the Kernel, the votice of the students, is

LEXINGTON — Kentucky may have to prepare for another Congressional battle if increases in federal excise taxes on tobacco and liquor are proposed, Sen. Wendell Ford, D-Ky., has warned.

has warned. For two months, the U.S. Senate and House have both rejected efforts to abolish price supports and acreage allotments for tobacco farmers, even though programs covering nearly every other agricultural commodity were cut. But some congressional leaders have said they may ask for an increase in the federal excise tax on tobacco and liquor, Kentucky's two largest exports.

on tobacco and income, and the exports.

"I don't think the people of Kentucky, who already are carrying a disproportionate share of spending cuts, should have to bear the burden for the inability of the Reagan administration to cut the budget to offset premature tax breaks," said

The federal proposal would push the tax on The federal proposal would push the tax on cigarettes from 8 cents a pack to 16 cents; on beer from 8 bper 31-gallon burrel to 518; on distilled spirits from \$10.50 for a gallon of 106-proof alcohol to \$211; and on wine from 17 cents a gallon to 34 cents.

FRANKFORT — Top Kentucky State Police officials avoided taking disciplinary action against officers who raided the home of James "Buddy" Graham in November 1979, according to a report compiled by Attorney General Steven Beshear.

beshear:
An earlier state police investigation of the case had cleared the police of any wrongdoing. That probe, however, did not address police conduct at the Graham home.
Beshear released a one-volume report last month on the shooting death of Trooper Eddie Harris and on the killing of the chief suspect, Clyde Daniel Graham, a month later in Effingham, Ill., by a Kentucky trooper.
Buddy Graham; his son, Jimmy Graham; and nephew, Charles McLain were treated for injuries after the raid on the Graham home.
State police officials have denied the allegations of wrongdoing in the attorney general's report.

WASHINGTON — President Reagan's proposal to sell AWACS radar planes to Saudi Arabia goes to a final vote in the Senate this week with an Associated Prese count showing a majority of senators opposed to the sale.

The climatic vote Weetneday follows weeks of lobbying and arm-twisting by the administration as it sought to win congressional supportion as it sought to win congressional supportion as its ought to win congressional support. Senate Majority Leader Howard Baker, leader the administration fight, repeated yesterday his view that "the battle is still winnable."

The latest Associated Preses count in the Senate shows 54 senators opposed to the sale and 37 favoring it. Only a simple majority is needed to block the sale.

Baker, however, said on the CBS program "Face the Nation" that opponents of the sale "have less than 50" votes.

Of the senators listed as opposing the sale, whave less than 50" votes.

Of the senators listed as opposing the sale, and sale with the sale "have less than 50" votes.

Of the senators listed as opposing the sale, and sale with the process of re-examining their positions."

World

BELGRADE, Yugoslavia — Reports by six girls of a golden-haired Madoma floating over a remote mountain meadow have provoked the Communist government to accuse the Roman Catholic Church of manufacturing a miracle for political purposes. Eleven people were expelled from the Com-munist Party and 48 others received official war-nings because they visited the site of the reported apparition, according to a Belgrade newspaper.

reported apparition, according to a Belgrade newspaper.
Yugoalavia's official press paid scant attention when the young girls first claimed to have seen the Virgin Mary in the mountain village of Citluk in July.
But as word of the girls' claim spread, as many as 30,000 Yugoalav Christians flocked to the area, according to Western diplomatic estimates, and the government-controlled press began to ridicule the event as "scientifically impossible." Western diplomatic sources said the government, in an unannounced move, fenced off the site in Citluk, a village of approximately 5,000 people in a remote mountainous region 36 miles from the Adriatic coast — a day's drive southwest from Belgrade.

MEXICO CITY — Repair crews in Mexico City and the western coastal state of Michoscan worked yesterday to restore electric power and telephone service knocked out by a powerful earthquake that killed three people and injured 28. Mexico City residents said the three-minute tremor Saturday night was one of the sharpest jolts in the past five years in this earthquake-prone country. It rocked buildings and caused panic but surprisingly little damage.

The Tacubaya Seismological Center said the quake registered 5.5 on the Richter Scale — meaning it was capable of causing severe damage. However, the U.S. Geological Survey's Earthquake Information Center in Golden, Colo., said the tremor measured 7.1, putting it in the range of a major quake capable of massive damage.

range of a major quare capanie or massive damage.

EUROPE — More than 300,000 demonstrators rallied in four European countries Sunday to protest a U.S. Soviet arms buildup they claim threatens world peace.

In Brussels, at least 200,000 people staged what police sources said was the largest police sources said was the largest demonstration in Belgium since World War II, while more than 50,000 marchers paraded through Paris and a similar number rallied in eastern sector of Berlin. In Oslo, an estimated (7,000 Norwegians held a torchlight parade organized by a group called "No to Nuclear Weapons."

In France and Belgium, the demonstrators demanded dismantling of Soviet SS-20 missiles aimed at the continent and protested U.S. plans to deploy new U.S. Pershing II and crusted to deploy new U.S. Pershing II and crusted to deploy near the second of the missile plans.

some 2,000 Polish villages today, it was disclosed yesterday.

Accusing the independent labor federation Solidarity of "blackmail," the government also demanded an end to wildcat strikes by more than 250,000 workers.

The government's actions did not appear to be a step toward martial law, Western diplomatic observers said.

Hospital uses human milk bank

By ANDREW OPPMANN
Senior Staff Writer

There is a blood bank, a plasma bank and an organ bank, but few peple know of the existence of another donor bank — the human milk bank. At the UK Medical Center's neen matal intensive care unit, a "human milk bank was established in 1976 by Dr. Nirmala Desal, a neo-natatologist in the care unit, to help feed premature or sick infants.

A dozen Lexington women are presently contributing approximately 30 ounces of milk to the bank each day. This milk is used to feed eight babies (on the average) in the Medical Center's intensive care ursery.

Donors are mothers with extra milk—often womenwhose newborn babtes remain in the hospital until they are strong enough to go home, in these cases, Shelly Stanley, a nutritionist in the neo-natal unit, said the hospital makes certain babtes receive therown mother's milk.

Prospective donors are given a physical examination and those deemed healthy are given an electric decemed healthy are given an electric decemed healthy are given an electric decemed healthy are given an electric through the prospective donors are adoquately supplying the non-antal unit's current needs.

Vanderbilt breaks conference losing streak

Vanderbilt's waltz toward the Southeastern Conference record for football futility has finally ended — four short of the mark.

"It was our first conference victory in a million years, it seems like, and I can't say enough about the effort of our players," Vandy Coach George MacIntyre said Saturday after his Commodores snapped a 33-game SEC losing streak with a 7-22 comeback victory over Mississippi. Actually, the string lasted just under six years, going back to a 17-14 triumph over Tennessee in the 1975 finale. The conference mark for most consecutive setbacks is held by former member Sewance, which withdrew from the SEC with a 0-37 record in league action.

While Vandy was escaping the cellar, seventh-ranked Georgia and No. 9 Mississippi State recorded league victories to stay atop the standings with No. 11 Alabama, which crushed outsider Rutgers 31-7 to hand Coach Bear Bryant his 312th victory in his chase of the record 314 held by Amos Alonzo Stagg.

State took advantage of an Auburn mistake to gain possession at midfield in the final three minutes, setting up John Bond's 18-yard scoring pass to Danny Knight with 60 seconds remaining for a 21-17 conquest.

In other games involving SEC teams Saturday, No. 20 Florids State manhandled Lousiana State 38-14 and Tennessee, winning for the first time in seven years the week following a loss to Alabama, downed Memphis State 28-9. The SEC's Florida and independent Southern Mississippit, the area's only unbeaten team, had open dates.

In other games involving independents, Miami of Florids smashed East Carolina 31-6, Oklahoma State trimmed Louisville 19-11, Tulane whipped Georgia Tech 27-10 and Southeastern Louisiana edged Northeast Louisaina 69-47 in a wild contest that included 10 touchdown passes, five by SLC's Robbie Mahfouz, and 986 yards of oftense.

Vandy, the conference leader in passing, turned to the

held by former member Sewanee, which withdrew from the SEC with a 9-37 record in legue action. While Vandy was escaping the cellar, seventh-ranked Georgia and No. 9 Mississippi State recorded league victories to stay atop the standings with No. 11 Alabama, which erushed outside Rutgers 31-7 to hand Coach Bear Bryant his 312th victory in his chase of the record 314 held by Amos Alonzo Stagg.

Buck Belue and Herschel Walker each scored on short runs as Georgia blanked Kentucky 21-0 and Mississippi

Georgia lifted its record to 6-1 overall and 4-0 in the SEC, matching Alabama's conference mark. Mississippi State 3-0 in the league. Alan Gray and Walter Lewis each threw TD passes as Bama ran its Bryant-Denny Stadium record under Bryant to 80-1, with 5 victories in a row.

to 89-1, with 54 victories in a row.

At Auburn, Bond set up his game-winning TD pass moments earlier when he connected with Knight on a 32-yard pass to the 18 on a fourth-and-10 play from midfield. Auburn's mistake came with 2:28 to go when it had a fourth-and-two at the State 49. Instead of punting, the Tigers lined up in the Wishbone trying to lure State off-sides. State did move into, and then back out of, the neutral zone without making contact, and the Tiger center then snapped the ball, causing a 1-yard loss.

FSU, ending its gruelling 5-game road trip with a 3-2 record, almost toyed with the Bayou Bengals as Rick Stockstill hurled two TD passes, Billy Allen returned a kickoff 57 yards for another score and freshman Greg Allen rushed for a schoal record 202 yards.

Steve Alatorre accounted for two scores in Tennessee's victory over Memphis State.

Quarterbacks Jim Kelly and Mark Richt each accounted for two touchdowns as Miami had no trouble with East Carolina.

Two world records broken in New York Marathon

By BERT ROSENTHAL AP Sports Writer

NEW YORK — Alberto Salazar, who boldly predicted he would break the world record, and New Zealand's Allison Roe, a late entrant, shattered the men's and women world marks yesterday in the New York City Marathon. The soft-spoken, confident Salazar, in only his second marathon — he also won the New York City event in 1980 — clipped more than 20 seconds off the men's record, covering the 26-mile, 385-yard course in 2 hours, 8 minutes, 13 seconds.

Roe, who won the 1981 Boston Marathon only to be suspended for running in a professional race and later reinstated sliced more than 12 seconds off the women's record, with a time of 2:25:29.

reinstated sinced more than 12 seconds off the women's record, with a time of 2:52:52.

The previous men's mark was 2:08:33.6, by Derek Clayton of Australia set May 30, 1989 at Antwerp, Belgium. The previous women's record was 2:25:41.3, by Grete Waitz of Norway in last year's New York City Marathon. The injured Waitz had to drop out of this year's Marathon. The injured Waitz had to drop out of this year's 11 dreamed of a world surroughts.

I dreamed of a world surroughts.

I dreamed of a world surroughts.

Salazar had put himself on the spot by predicting that the would smash the world record, with a time of 2:08, or possibly 2:07. He wasn't far off.

"I opened my big mouth (again) this year," said the 22-year-old Salazar, who a year ago had said he ould break 2:10 in his first marathon, and beat that with a clocking of 2:09:31. "Al to of people would have been disappointed if I had not done it."

He did it — convincingly.
Biding his time behind the fast early pace set by Louis
Kenny of Ireland, the deceptively strong, 6-foot, 144-pound
Salazar waited until the 16-mile mark before making his

He did it — convincingly.

Biding his time behind the fast early pace set by Louis Kenny of Ireland, the deceptively strong, e-foot, 144-pound salazar waited until the 14-mil mark before making his jig move.

At that point, Kenny had faded and Salazar was dueling dexico's Jose Gomez, a first-time marathoner, and roland's fiyszard Marczak for the lead.

Then, Salazar, who came to the United States with his amily at age two and is a graduate of the University of a horder of well-wishers.

Lady Kats blow out Mississippi State, 3-0

By JUDY HALE

The Lady Kats volleyball team dominated play in Friday night's confrontation with Mississippi State to take the match by winning the first three games.

Coach Delphine Nemeth said she was pleased with the women's play. "It was a good game. I got to play everybody and that's good for the team. "But," she added, "We could have done better." It's hard to understand Nemeth's statement since the scores indicate something different.

The Lady Kats took the first game of the match 15-2. The women simply dominated play with a tall front line and a much taller team overall.

In the second game the women scored seven points before allowing the Mississippi team to score its only

ints in the game. The Lady Kats took that gan

three points in the game. The Lady Kats took that game 15-3.

The third game was a little closer as the Mississippi women came out fired up. The score was close for the first part of the game with Mississippi lying the score at four all and staying within one point until UK pulled away to win the game 15-6.

Nemeth said she thought the girls played well but referring to the third game, said, "We scored for them, we gave them the majority of the points by our mistakes, but they did earn some of the points."

Nemeth did 't allow the women too much time to absorb the victory before warning them that they better be ready for the much better Florida State team tonight at 7:30 in Memorial Coliseum.

"The match against Florida State will be a much tougher." Nemeth said. "They won the Alabama Invitational and their own invitational, so we should be pretty evenly matched."

Wildcat Greg Long attempts to stop Georgia's Herschel Walker. The Cats held Walker to 129 yards, well below his average, but it was all in vain as the Dogs were victorious 21-0.

Ticket distribution

Ticket distribution for Satur-day's Virginia Tech-Kentucky football game begins this morning at 8 a.m. and continues through 6 p.m. Group seating distribution is at 9 a.m.

Tickets for 50-yard line seats will be given out from 6-9 p.m. Distribution continues tomorrow from 9 a.m. to 4 p.m. Guest tickets go on sale at noon.

Rugby teams win
The men's and women's rugby teams defeated Charleston Satur-

day at the UK rugby pitch.
The women shut out Charleston
14-0, on two trys by Peg Harpsveldt, a try by Fran Taylor and a
two-point conversion by Pat
Haight.
The men won 20-6, with two
penalty kicks and a two point conversion by Doug Monro, and trys
by Pat Jackson, Chris Waters and
Greg Elmore.

Soccar team wins
The men's soccer team downed
Berea 1-0 Saturday on a goal by
Todd Whitman, assisted by Jorge
Ponte and Kevin Tipton. The

team's record stands at 11-2.

The women lost to Eastern Kentucky 2-0, putting their record at 3-

Lucky 2-0, putting their record at 3-1-2.

The men's B team lost 4-0 to Asbury Seminary. Their season record is now 4-2-2.

The next game for the men's A team is today at 4 p.m. at the soccer field. Asbury College, which Kentucky defeated last year 3-2 to win the State Championship, is the opponent.

All three teams, and the Graduate team, will compete in the Kentucky tournament Nov. 4-7 held at the Seaton soccer fields.

ATHENS — As the wind blew harder during an already cold Ochober Saturday, the small contingent of Kentucky fans who made the trip to Athens for the game with the Georgia paper labeled "an offendage sports and the sports of Kentucky fans who made the trip to Athens for the game with the Georgia Bulldogs were shutting down all the cutted to the sport of the spor

Walker borders on superstardom

By DONNIE WARD

ATHENS, Ga. - Down here, you just don't talk about the Georgia Bulldogs without mentioning All-American and Heisman Trophy candidate Herschel Walker. The two go together like pie and ice cream, peanut butter and jelly, cookies and milk. Walker is the 222-pound, star running back who has become the symbol for Georgia football and is now in a week to week showdown with Southern California's Marcus Allen for the Heisman. And all around the college town of Athens, you will see signs, banners and bumper stickers proclaiming the support for this talented sophomore from Wrightsville, Ga. "Walker is my dog" and 'Herschel for Heisman' are only two of the many lyrics that are sang to the tune of the strong "Bulldog spirit" - a thing that can be seen as well as heard, from just one look across the

newly enlarged Sanford Field at the sea of red colors.
But even though Walker piled up a total of 129 yards on 35 carries in the Bulldog's 21-0 shuttout with Kentucky, it wasn't a good day for this southern hero who has become Georgia's all-time career rushing leader with 2,13 yards in his 18-2 game career.

Saturday turned out to be a chilly, Sarurday turned out to be a chilly sarurday turned out to be a chilly sarurday s

Basic values, alternative ways, discussed at workshop

attend the three or four they were most interested in the fact in the

By ROBERT WOOD

Kernel Contributor

Al Marzian, from Everybody's Bike Shop, led the bicycle workshop. He stressed the advantages of bicycles over automobiles, including lower costs and improved health.

The goal of simple living was discussed at the third annual Simple Living Workshop on Saturday.

This not-so-simple topic was among the areas covered at workshop held at the Unitarian Universalist Church.

These workshops were anougrowth of a discussion group that meets twice a month at the Clays Mill Road church and were open to the public.

The goal of simple living was discussed commuting discussed commuting lower to rise in the street to route, where to ride in the street in which was to result the unit of the street of the stree

the areas covered to the Unitarian Universalist Church.

These workshops were an outgrowth of a discussion group that meets twice a month at the Clays Mill Road church and were open to the public.

The group defines simple living as "gearing our lives to our basic needs, and not to inflated consumer wants and thoughtless destruction of our environment. The ultimate goal of simple living is to be absolutely clear on the values we hold most important."

The \$\$ fee for the event included a square dance.

Information distributed by the church said that the goal of two knows how the water arranged into harmony with ourselves and better the same to the first our environment, and to nudge us in the direction of simpler living.

Following an introduction, the group of about 150 participation and the sharing of ideas.

The 13 workshops on the agenda were arranged so individuals could attend the three or four they were most interested in.

Individual topics included: the lindividual topics included: the New Farm Coalition. The New Farm Coalition is an adverger and the stance area that David Sawyer, a member of the New Farm Coalition is an adverger area that supports the family

they are doing something illegal."
Sawyer said simple living may actually be the most complex lifestyle a person could choose, noting it is much harder to make a living in the coun-

try.

Also, the impossibility of insulating oneself from reality was addressed. For instance, if tobacco supports are removed, many small farms would disappear and the impact would be fell statewise.

Ralph Dennis, from the Division of Alternate Energy in the Kentucky Department of Energy, presented the workshop on the status of solar power in Kentucky. Dennis said the governor is not supportive of solar energy because "Kentucky is a coal state." Dennis also said the utility companies are opposed to it because it would mean a loss of revenue to them.

But he said using solar energy

But he said using solar energy "gives individuals more control over their lives." He said there are about 600 solar installations in Kentucky to-

day.
The Division of Alternate Energy in
Kentucky mainly emphasizes solar
water heaters because they can be

water heaters because they can be retrofitted onto most existing homes as well as included in the design of new homes.

The initial cost of such systems may deter some people, Dennis said, but they should consider the fact that it is only a one-time cost. Presently, systems are capable of meeting 50 percent of the hot water needs of a typical family year-round.

If a person deducts this amount from his or her monthly utility bill, a solar water heater could pay for itself in three to five years, he said. Homeowners installing solar energy devices also qualify for a 40 percent federal tax credit, Dennis added, and a bill is pending in Kentucky that would allow an additional 30 percent credit.

Human rights discussed at Law forum
