Students enjoying football's upswing

By Doc Purcell

The UK football team has wal-lowed near the cellar of Southeast-ern Conference football for as long as many University students care to

This year though, after nearly a decade of hapless play, the Cats finally have given the student body something to cheer about, earning an invitation to the Peach Bowl in Atlanta on New Years' Eve.

In an area where basketball re-cruiting rivals football as the fans' second-favorite autumn sport, most UK students are embracing a Wild-cat program that they believe is on the rise, given the bowl selection.

"I think it gives them a big boost.

Maybe we can get some more top recruits," physical education freshman Scott Maze said of the benefits the Wildcats will reap from their appearance in post-season play.

Maze's predictions of national exposure and gaining the attention Maze's preusums to attention of top prep prospects across the country are perhaps the most glaring advantages of bowl play, as numerous other UK students concurred with his opinions.

Still, it is the excitement that has surrounded the UK team this year that makes a bowl bid so special.

No longer will the Cats be destined to sit at home for the holidays and watch their basketball counterparts earn national acclaim.

Michael Durant sat stiffly in an easy chair beside his fireplace, holding his year-old son and contemplating things he took for granted before his Army helicopter was shot down in Somaia.

For 11 days last month, Durant, 32, was held in a small, dirty room in Mogadishu and endured the blinding pain of a leg bone and back vertebra shattered when his Black Hawk helicopter crashed on Oct. 3. A mob beat him and paraded him before jubilant anti-American crowds.

First, there's his "family," a group of some two dozen gay and lesbian friends and their straight relatives who gather each year at this time.
Then, there's the Navy—the same branch of the service that tried to eject him when he disclosed his homosexuality on national television. A fedral judge later ordered him returned to work, though the case is being appealed.
The Navy, Meinhold said, gave him the means to get out of the small Florida town where he grew up, and provided a future and a career.

Limbaugh, Kemp, Schlafly named as possible picks for spring lecture

The Student Government Association will try to bring a conservative speaker to campus next semester, Speakers Bureau chairwoman Shellie Freeland announced yester-

At an open forum, Freeland asked the 16 students in attendance for suggestions about possible speakers and announced the three SGA has already been considering.

Rush Limbaugh, the popular ra-dio and television personality, U.S. Congressman and former Secretary of Housing and Urban Develop-ment Jack Kemp and author Phyllis Schlafly, who was partially respon-sible for the defeat of the Equal

Freeland said the SGA budget and the availability of the speaker probably will be the deciding fac-tors in choosing among the three but she noted that student and stu-dent organization interest will be important.

Eighth-ranked Wildcats head to SEC tourney

da, I don't want to play Kentucky."

The Wildcats (28-2) are seeded third in the tournament, behind the Florida Gators, who won the SEC regular season title, and Georgia, who finished in a tie for second but won the second spot on the basis of a better won-loss record.

UK will open tournament play in Boutwell Auditorium against the sixth-seeded Auburn Tigers on Friday afternoon at 2 p.m.

"Auburn really has come on late in the season. They beat LSU in three games last week," Ralston Flory said.

"When we played them at their place, we did not play very well. They played us very close. We won in three, but really did not have control of the match. This is every-body's shot to get into the NCAA. They are going to play ... hard."

The Wildcats in are likely to face Georgia in the semifinal on Saturday morning. The two teams split their regular season matches, each winning on its home court.

"I expect Georgia to be very tight. These guys are worn out," Ralston-Flory said.

Aussies oust Cats 94-85

"We just got schooled by a much better baskerball team," said UK coach Rick Pitino. "We're a very young and inexperienced team."

The Aussies, whose starting five averaged 25 years of age, put their wisdom to work by repeatedly breaking UK's press for easy lay-ups and getting to the foul line 56 times. The Cats, meanwhile, shot only 40 percent from the floor and committed 19 turnovers.

Still, the young Cats almost up-staged their elders.

Australia led by 17 with eight minutes to play. The Cats then answered by tightening the defense and suing a 15-1 run to make it 80-77.

But UK would get no closer as it missed key layups and open three-pointers while allowing Australia to go to the free-throw line.

UK looked like it was there in the first half. The Cats led by as much as nine in the opening stanza after a Rhodes slam and a Walter McCarty layup.

But then the Aussies, led by guards Scott Ninnis and Shane Heal, began to pick apart the UK press and nail shots from the outback.

Ninnis and Heal combined for 23 points over the half's last six minutes. The Cats, meanwhile, missed 10 of 13 three-pointers as Australia took a 50-38 lead into halftime.

Former Seton Hall star Andrew Gaze led Australia with 22 points. 17 in the second half. Ford and Rodney Dent had 17 each for UK.

Australia improved to 5-1 on its exhibition tour. Its lone loss came Monday against Virginia 76-75.

UK opens the season Saturday against No. 7 Louisville. Are the Cats ready?

UK-U of L: A rivalry like like no other

UK-Louisville: T minus three days and counting. The clock is ticking for Saturday afternoon's renewal of the college baskethall rivalry that has no rival.

When the Cats and Cards take the court each year for their annual skirmish, a crusade-type urgency sweeps the through the air. Expect no less as the national cameras of CBS zbom in on Rupp Arena this weekend.

As rivalries go, this one ranks right with the classics. The Hatfields and McCoys. Batman and the Joker. The Roadrunner and the Coyote.

None of these have anything on UK-U of L.

To fully comprehend this rivalry based on hate, one must reflect on a time more than a figment of the imagination. In those days, UK coach Joe B. Hall thwarted all attempts by U of L. to initiate a series between the two schools.

After losing NCAA firstround games in 1981 and 1982, however, Hall's popularity was at an all-time low in Wildcat Country. The fastest selling items in Lexington following UK's inexplicable loss to Middle Tennessee in 1982.

to Miode Tennessee in 1982 were bumper stickers reading "Joe Be Gone."
Baskethall fans in the Bluegrass got their Dream Game in the following season's NCAA tournament, as the Cats and Cards both advanced to the Mideast Region finals in Knoxville, Tenn.
Immediately, the quiet Tennessee city at the foot of the Smoky Mountains transformed into a bastion of hype. With a trip to the Final Four and a state's pride as the reward, stakes were high in this ODG (Original Dream Game). As the massive flock of Kentuckians wandered the Tennessee campus in search of tickets on gameday, local scalpers outside of Knoxville's Stokely Athletic Center must have thought they were in the middle of a dream sequence. Prime seats reportedly sold for as much as \$400.

As CBS opened its broad-cast UK reserve Bret Bearup proclaimed "This isn't a game. This is war."

When the game finally began, the two teams proved that the hype was justified. This English language we speak lacks the adequate superlatives necessary to describe from this epic confrontation. In the end, the Cards won, but nobody lost. This game provided Kentuckians with images that don't fade.

Since the game in Knoxville, UK has dominated the Cards, winning 8 of the 11 meetings in the series.

Like the prelude to the 1986 (K-10 of Leash, when then-Wildcat coach Eddie Sutton said the Cardinal program was "like the little brother fighting for recognition from the big brother" when compared to its productive the compared to th

UK shot just 6 of 30 from three-point range for the game. Pitino said he thought his players rushed their shots when they cut the lead to three with three minutes to play.

Seniors leave on a sweet note

After their final home match of the regular season against Tennessee on Saturday night. UK volleyball seniors Jane Belanger, Ann Hall and Eunice Thomas decided they wanted to give their families and fans one more memory.

But, instead of doing that for which they are known best — superlative passing, digging and spiking of the volleyball — they huddled around a microphone and sang the national authenn. A memory that those who heard them sing might not scon forget.

The memories on the court that the three have given to UK volleyball over the past five years will not be forgotten anytime soon either. Setter Jane Belanger will finish her career second on the all-time assist list. Outside hitter Ann Hall will leave UK as the all-time dig leader, and middle blocker Eunice Thomas will finish her career seigh on UK's tatack percentage list. Belanger, Hall and Thomas play different positions on the court, come from different backgrounds and bave different personalities. group's long-awaited major labed debut.

Dulli's lyrics comprise one of the highlights of Gentlemen, flowing as a stream of consciousness rather than the overused rhyming couplets to which most lyricists confine themselves. It looks like he just sat down and wrote what he felt, not what verse would match what chorus.

Maybe that's what gives Gentlemen such an honest sound. The band isn't out to beg for radio play (something it's receiving regardless). It has put a realistic show-case of true ideas in song onto this disc and has avoided the trap of writing what everyone else thinks

will sound good.

In what could loosely be dubbed a "ballad," "When We Two Parted" creeps at a snail's pace, but isn't a gush-laden love tune. Dulli stirs a haunting melody line built on a rhythm of dissonance and lyrical pain.

Dulli jumps from the harmonic to

The song exemplifies the type of
lyrical writing in which Dulli engages, describing what it is like being trapped in a unsatisfying relationship.

This tone overcasts the entire al bum, carefully melding the joys and despairs of human relation-ships into bittersweet melodies.

Besides being David Pirnerlike on some tracks. Dulli's voice sometimes slips into a tone similar to Widespread Panic's John Bell. Dulli can lead the band with his unpredictability, running through a series of emotions within one song.

together with a constant, distorted feedback drone, backed by a bass that almost sounds as though it was based on Pachelbel's "Canon."

The lyrics are reminiscent of a '50s ballad that Buddy Holly might have written, lamenting the loss of his girlfriend. Add all of that up, and this somehow becomes probably the best track on the CD.

Ah, yes! The smell of the turkey roasting in the oven, the steam rising from the sweet potatoes, the scent of pumpkin pie and the cheap frills you get when you actually think your parents are going to share their champagne with you.

Can you wait for those moments? I can.

The only thing Thanksgiving ever does for me is give me a major Maalox moment. As for what it does for others, I seem to notice them somewhere between five and 20 pounds heavier when they return after the holiday.

And the funny thing is, winter break hasn't even come yet; you know, it's like a never-ending fast-feast buffer, with Thanksgiving acting as a small pep-talk.

But wait a minute. Doesn't the same old menu for Thanksgiving ever get old?

Am I the only one here who would prefer Big Macs over turkey and stuffing, chili over sweet pointoes. Miracle Whip over gravy, and a whole week off from school rather than two days?

So what should we do about this form of torture?! have two suggestions: become vegetarians or go home for Thanksgiving, eat the meal, return to UK and don't go home until you think the turkey is nothing but a skeleton.
And as for changing the grand old tradition of the typical turkey and gravy Thanksgiving meal. I change my mind. There's no way to change. Americans are too ignorant to realize that they're suffering

Instant replay miracle of modern science

With basketball season with basketball season finally upon us, a new creature is loosed upon the innocent population of the UK campus. It is a foul beast, drooling constantly, wandering aimlessly, moaning because it cannot find the one thing that will give its miserable life meaning.

It hunts relentlessly, more per-sistent than Inspector Javert in its unholy quest. All other concerns drop to the wayside; no schedule cannot be rearranged, no major event cannot be skipped. It is an animal with a single purpose; find UK basketball tickets.

I don't see the charm

I've never really liked live sports. That's not to say that I don't like sports at all — I'm a confirmed sports junkie — but the idea of seeing a ballgame live doesn't impress me in the least.

It may not be as glamorous, but watching the ballgame on TV seems like it's as good as or better than the real thing.

It's cheaper. You don't have to go anywhere. You can come and go as you please if the game hits a lull instead of being forced to lock your attention on the game for the entire time.

And you don't have to worry about getting stuck next to some loud-mouthed butthead who won't stop howling obscene death threats at the other guy's point guard. Plus, with TV, you've always got a good seat.

John Abbott Kernel Columnist

MR. WONDERFUL

I really like instant replay. If you're out looking for popcorn (or cheap sex) while your team scores the winning goal, well, you're out of luck. You'll have to wait to see it on the news later in the day, by which time the excitement has died down considerably, and it hardly seems like bothering

other team's relatively pedestrian one-yard touchdown plunge (Commentator: "Let's go back to that great touchdown in the first half. I don't think we've pissed the other team's fans off enough yet." as showing it from 27 different angles, discussing the Nietzschian implications of the play and repeatedly stressing the point that your team's defensive line is made up of talentless sligs who don't belong on a real football team.

HEY! SORRY ABOUT STOMPIN' ALL OVER YOU LAST WEEK!! I BROUGHT YOU FLOWERS AND AN AMERICAN AIRLINE. EXECUTIVE!!

I'll take my chances.

A cooler-than-hell accident, right in front of my eves, and I missed it! If there'd been an instant replay then I could have watched that truck be compressed into a misshapen hunk of twisted metal five or six times. As it was, I had to hear about it from my sister. How disappointing.

If you're sitting at home watching the ballgame on TV, you get to see that play five or six times, reaping bales of crystalline ecstasy with each repetition.

with each repetition.

Of course, it always seems to be that the commentators barely mention that magnificent play your team made when your quarterback shook off three snarring defenders while standing in his own end zone, desperately hurled the ball ofly orats to a triple-covered receiver, who then made a fantastic circus catch and outraced everyone to score the touchdown, yet feel the overwhelming need to spend a good 15 minutes analyzing the

It reminds me of that one time when the family and I had piled into our big, blood-mixed-with-dirt-colored Oldsmobile and were heading down the expressway to visit some friends of ours.

I bent down to pick up some-thing that I had dropped, and in those few crucial seconds, a pickup truck in the other lane veered out of control, flipped over and sent shards of shattered glass flying everywhere.

A cooler-than-hell accident, right A cooler-man-nen accioent, right in front of my eyes, and I missed it! If there'd been an instant replay, then I could have watched that truck be compressed into a misshapen hunk of twisted metal five or six times (Commentator: "Boy! Lookit that truck bounce! Maybe it'll explode or something, too!).

DEGRAVING NOVEY 1993

I have been to one UK basket-ball game, for those of you who are shouting, "Well, how would you know if you've never been to a game?"

It was some time before I began my freshman year at UK; the Uni-versity had given all of us extra-special Honors Program entrants free tickets to a ballgame because

Well, they were stratospheric nosebleed seats, and it wasn't exactly a hot ticket — we were playing ... who was it? ... the Middle Tennessee State University Fighting Schmucks or something — so the University's devotion to us was clearly limited. I guess it was rettly amyzing.

I did run into a little problem: The starting guard for MTSU had graduated from my high school, so I had to figure out a way to root for him without getting caught and lynched by the rabid fans around me.

say I'd been there once. I don't know if I'll ever go back, though. Think I'll just stay at home.

Columnist does Health Service disservice Guest Opinion

Through the years, as profes-sionals in college health and unisionals in college health and university administration, we have tended not to respond to journalistic criticisms of a University Health Service, since such "dialogues" tend to accomplish very little.

This notwithstanding, the Kentucky Kernel column by Kelly Crew on Nov. 18 deserves a response; not because of its inaccuracies per se, but because its inaccuracies could prevent people from having an HIV test who indeed, should have the test because of concerns should their own health or that of others.

An HIV test costs \$47 and "...
AIDS tests at the Student Health
Service should be free."

We learned in talking with the Kentucky Kernel staff that a tele-phone call was made to someone at the health service and the ques-tion asked, "What does an AIDS test cost?" The answer that was given was \$47.

That information is correct. In fact, when an HIV test is ordered, \$47 is paid to the laboratory to perform the test. Someone must pay the bill.

Whether the student or the University Health Service pays depends upon the circumstance. This is where the inaccuracy of the column raises concerns.

If a student sees a health service practitioner with a concern about HIV infection, if in the practitioner's judgment the HIV test should be ordered as part of a diagnostic workup or if in taking the medical history there is high risk behavior for exposure to HIV, then the practitioner orders the test. Since our only source of fund-ing is student health fees, not state dollars as implied in the column, such indiscriminate testing of any type would be an irresponsible way for us to manage students' money.

We would, however, suggest that the proper focus is trying to give the best care to the most stu-dents for the least amount of money, with priority being accessibili-ty for good primary care.

fact, our average patient is nearly 27 years old. As has been pointed out in this newspaper before, we find that the demographics of our patients are quite representative of the demographics of students on campus. The University Health Service is committed to doing the best job of delivering good primary medi-cal care to students for the lowest

I would suggest to the columnist or to others who would like to get involved in the health service to contact the Student Health Advisory Council or the administrator of the University Health Service.

In the meantime, we encourage anyone who feels he or she has a real risk of HIV exposure or who has behavioral risk factors that make him or her more likely to have contracted HIV infection to come to the health service to see a practitioner to review the history and, if appropriate, to have HIV testing done and covered by your student health fee.

Senator Erica McDonald that
once again student government
has shown that it thinks the needs
of UK students in residence halls
are not real concerns.

SGA is the umbrella student representative body and should help to fund this event.

This is about tradition and is a very serious affair to those involved.

Why else would anyone spend hours appealing to an organiza-tion not exactly renowned for its fastidiousness and more concerned with dumping it on the Residence Hall Association?

cerned with dumping it on the Residence Hall Association?
Even though this event is centered around a residence hall, this is a student function organized by students and implemented by students and therefore, it deserves a little more than a shrug from the student organization on campus. Perhaps if the celebration was a special interest activity for the hockey club or the National Organization of Women — or any club for that matter, the whole thing would have been wrapped up in 15 minutes instead of this hourlong fiasco.

For the senators who voted

For the senators who voted down this bill: Please remember that your money is *student* money and in your *trust* not your wallets.

When students suggest activi-ties centered around campus and dedicated students attempt to im-plement them, show support!

With simple mathematics, the problem should be obvious. It would take very few individuals getting an HIV test every 3 to 4 months, "just to

check," at \$47 a test to soon run up several

thousand dollars in expense. The fact is, the student health fee could pay for anything.

What is not paid for by the Student Health budget, whether it be for HIV, serology, cholesterol, blood type or a mono screen is any test for a student who walks in and "its twented to show his." any test for a student who win and "just wanted to check."

Under these circumstances, the

test is paid for by the health service budget, which is generated by student health fees.

worst of collegiate football.

Even though the worst came in the final three contests, most students are still certain the Wildcats are deserving of a bowl slot.

"No one thought Kentucky would do awything. Same old, same old, I guess you could say.

"Antoine was my only child for 20 years, and to think they'd take my baby away for life ...," Mayfield said. She paused. "We did a lot of praying, and God said this time it won't go down that way."

PUSH HERE FOR AT&T.

(Plus area code and number)

Use it from dorm and pay phones on or off campus.

College is hard enough. Getting AT&T isn't. So whether you're making a calling card or collect long distance call, check the sign on the phone first. If it's not AT&T, or you dial and don't hear "AT&T" after the bong, hang up. Then dial 10+ATT+0, plus the area code and number. It's the easy way to get the service you want at the prices you expect. So next time you call you'll know what buttons to push.
