SPECIAL ASSIGNMENT

Effective July 1, 1975, Jean Graef will be designated a special assistant to Ruth Brown (Special Assistant to the Associate Director). This will be temporary one-year assignment with the following primary tasks:

1. Coordinate the application of the BATAB program to non-book accounting.
2. Serve as a library liaison with the UK Computing Center.
3. Investigate the possibility of computer applications in Circulation.

As many of you know, the NCR accounting machine in Acquisitions is scheduled to be replaced in the coming fiscal year when Acquisitions changes to BATAB for book accounting. The NCR machine is also presently utilized for the non-book accounting which is done by Eva in the Director's Office. Plans call for utilizing the BATAB program to accommodate the Library's non-book accounting (funds for payroll, supplies, equipment, travel, photocopying, etc.). Jean will work in her present office. Circulation will function in the future as it presently does. Mary Elizabeth Verrill will continue to be in charge of Circulation in Jean's absence. It may be possible to add another staff member to circulation after July 1, and if this done, any new position will be advertised as such and open to all staff members.
