TO ALL WORKS:

CHIEF OF PLANT PROTECTION

We are attaching hereto for your information and file, a copy of the Annual Report of Fires.

You will note, the over-all total fire loss for the year 1947, was \$94,390.00. This is considerably higher than we have experienced for many years.

A large part of the increase was chiefly brought about by the fire that occurred on April the 16th at our Rock Falls Works.

In passing this report along to you, we are asking for your continued cooperation in helping us to keep our fire losses down to a minimum.
