Mr. A.C. Seyforth,

January 20, 1943.

We have approximately one month's supply of Red Comet stickers that we are using on commercial sizes of coal, and wish to place our order for 100,000 of these stickers, sample of which is attached hereto.

Our request has the approval of Mr. Rose, and there is no change to be made in the style of this sticker. Our last order was placed through your office on December 9, 1941. Will you please have these prepared and forwarded to us as soon as possible?

Yours truly,

WISCONSIN STEEL COAL MINES

Encl.
