Gentlemen:

(For Mr. McDonald)

WISCONSIN STEEL COMPANY - BENHAM
FEED WATER HEATER

We return papers, proposals and tabulation herewith. Our choice is the 2000 H.P. size and in the order named.

- (1) Hoppes
- (2) Cochran
- (3) Webster

The Hoppes fits in best locally--adapts itself to best piping arrangements. We have established conditions to meet and this makes a difference. Attached letters and reports may be of some help. Please advise us as situation changes and before closing.

Very truly yours,

F L STEVENSON D
