Dr. Bigge Returns To UK After Ecuadorian Revolution

Planned To Teach
At Guayaquil University

By Jimmy Wood

These South American revolutions which flare up very frequently are a mixture of comedy and pathetic tragedy, according to Dr. Adolph Bigge, who has just returned here with his family after a two-month stay in Guayaquil, Ecuador.

To Teach In Ecuador

Dr. Bigge, who accepted an invitation by the State Department to go to Ecuador and teach at the University of Guayaquil as a visiting professor, arrived there on May 28, just two days before the revolution broke out.

Upon leaving his family at a hotel he called upon the president of the University. It was on this occasion that Dr. Bigge discovered the difference in the American and Ecuadorian theories of higher education.

Professors' Salary Small

In Ecuador, Dr. Bigge explained, University professors receive very small compensation for their services, therefore, they practice their individual professions for a livelihood. Thus, the president of the University, who happened to be a physician, could give the University only part of his time. He was so busy the night Dr. Bigge called, that he asked the visiting professor to call again late the following Monday.

By the following Sunday, revolutionary forces, led by Velasco Alvarado with the backing of the army and civilian population, staged an uprising, and by Monday the president of the University was in prison.

The revolution was staged in order to overthrow the president of the republic, who being ineligible for reelection, had planned to have one of his henchmen elected by that age-old trick of "stuffing the ballot box."

Lasted Three Days

The revolution lasted for three days and terminated in the death of nearly one thousand people, of which four hundred of them were reported to be policemen who had supported the president. The chief executive himself fled to the Colombian embassy, where, to the knowledge of Dr. Bigge, he remains at the present time, surrounded by the hostile Ecuadorian army.

Dr. Bigge and his family had a ring side seat on the roof of their hotel where they could view the fighting going on in the streets below.

Life in the city of Guayaquil completely stopped and few people ventured in the streets for several days. All business establishments covered the fronts of their entrances with heavy metal and

Dr. A. E. Bigge

wooden doors to protect them from damage by the revolutionists.

Revolution in Ecuador is nothing new, as this country has had thirteen different governments in the past twelve years, Dr. Bigge said.

Students Involved

All of the students at the University were involved in the revolution, and now of the original 1,600 students, only 300 have signed up for the present term, Dr. Bigge stated.

Discussing the educational system of the country, Dr. Bigge asserted that under the present system it is next to impossible. As no tuition is charged the average professor receives only \$40 a month, the highest being \$80 a month. The professors depend upon outside professions for a livelihood, and if business interferes with meeting a class the professor does not attend.

Students Elect Faculty

Following the revolution Dr. Bigge had the opportunity to attend a student convocation and observe the proceedings of the students as they "elected" their faculty. It is the custom in Ecuador for the students to elect their faculty, and what they say goes, Dr. Bigge said. Due to the revolution several members of the former faculty were not voted in.

The mass of the people are eager to learn and go to enormous pains to acquire knowledge, Dr. Bigge stated, but the channels for learning are meager. Many desire to learn English, but there is no one

AGD At Top Of Standings

Kappa Delta Pledges
Lead Other Sororities

Alpha Gamma Delta sorority made the highest average scholastic standing among the eight sororities on the campus during the Spring quarter, with an average of 1.821, according to an announcement from Mrs. Sarah B. Holmes, dean of women at the University. Delta Delta Delta was second with an average of 1.817.

Kappa Delta led for pledges with a standing of 1.659. Kappa Kappa Gamma and Alpha Gamma Delta were second and third respectively with averages of 1.630 and 1.544.

The average standing of the women affiliated with sororities is 1.673.

A complete list of average standings and rankings follows:

1. Alpha Gamma Delta.....	1.821
2. Delta Delta Delta.....	1.817
3. Kappa Kappa Gamma.....	1.773
4. Kappa Delta.....	1.682
5. Alpha Xi Delta.....	1.633

7. Chi Omega.....	1.496
8. Zeta Tau Alpha.....	1.474

UK Baker Found Dead In Hotel

\$1,152 Found
In Clothes

A baker at the University Union cafeteria, Marius C. (Bud) Foushee, 50, of the Savoy hotel, 140 North Limestone street, was found dead in bed in his room early Monday morning, according to a police report. Deputy Coroner Aaron Smith, who was called, said that death was due to natural causes.

Police reported that they found \$1,152 in cash in Mr. Foushee's clothing, and that it was turned over to his brother, Homer L. Foushee, a city fireman.

Mr. Foushee was a native of Lexington and was a son of the late Homer and Annie Meehan Foushee. He was a veteran of World War I and was a member of Man o' War Post, American Legion. He was a member of Everybody's church.

Besides his brother, survivors include his wife, Mrs. Mary Catherine Foushee; a daughter, five sisters, and a grandson.

Funeral services were held yesterday afternoon at Kerr Brothers funeral home, with interment in the Lexington cemetery.

'UK Football Prospects Seem Excellent'

By Mary Jane Dorsey

Enthusiastic University sports fans all agree, "This year's prospective football team looks good."

One coed re-arranged the above sentence to, "I don't know how they play ball, but they sure look good." Others said, to the same effect, "It'll be swell to see Kentucky's name back on the collegiate gridiron roster."

A behind-the-fence observer of several 'Cat workouts said he thought these new Kentucky players would be a hard team to beat this year. "They're a speedy, hard-driving bunch of fellas," he said. Another side-line strategist remarked that their defensive play in the few scrimmages he had seen looked particularly strong.

Over-joyed by the fact that the blue and white will perform on Stoll field this fall, coeds said. "It seems more like the ole' UK with football men haunting the grill, cutting classes, and lumbering about all over the campus." And, "What do I think of the new football team? It's swell, that is, they're swell."

Backed by these nods of approval from their sports public, one of these new hopefuls confessed, "With full stadiums (they promised us) and 3,000 coeds yellin' for us, we just gotta be good."

High school football all-stars and all-state men from New York, Pennsylvania, Ohio, Missouri, and Kentucky comprise this '44 Wildcat team.

The number of players, which totaled 41 at the first practice ses-

Reporters Wanted

All students interested in working on the Kernel this summer are requested to attend a meeting at 3 p.m. Monday in the news room, in the sub-basement of McVey hall. No experience is necessary for a position, merely interest in the work.

Wenner-Gren Case Sent To US Court

Originally Filed
In Circuit Court

A suit filed against the Mawen Motor Corporation by two University alumni was ordered placed on the civil docket of the United States District court by Federal Judge H. Church Ford, this week.

Originally, the action was filed in Fayette circuit court here May 23 by Henry A. Harper and James M. Molloy, and it sought judgment against the Mawen Motor Corporation for profits the suit said should have gone to the University on several contracts for services and tests made in the operation of the Wenner-Gren Aeronautical Laboratory on the campus during the past three years. Diversity of citizenship sent the suit to U. S. jurisdiction.

The Mawen Motor Corporation was identified as the operator of the laboratory.

Name Dropped

At a meeting early this summer, the University Board of Trustees voted to drop the name "Wenner-Gren" from the name of the research laboratory on the campus, and directed that the bronze plaque on the building be removed. Termination of the lease agreement with the Mawen Motor Corporation for operation of the laboratory was also passed.

Laboratory Donated

The laboratory was donated to the University June 12, 1940, by the Viking Foundation, an organization controlled by Axel L. Wenner-Gren, Swedish industrialist, who was placed on the State Department's so-called "black list" early in 1942.

Clinkinbeard Injured On Italian Front

First Lieut. John E. (Jack) Clinkinbeard, United States Army Armored Infantry, recently was wounded in action on the battlefield in the Italian fighting. Lieut. Clinkinbeard was graduated from the University and has been in the service since March, 1941, and overseas since March of this year.

Registration Approximated

Total May Reach
That Of Last Summer

Enrollment at noon yesterday stood at approximately 409, it has been reported, and registration as it was proceeding indicates that this year's figure may maintain the enrollment of 935, the number of students who attended the University for the second term of last summer.

Continues Monday

Registration will continue through Monday, which is the last day upon which a student may enter a class. Tuesday, August 1, is the last day a course may be dropped without a grade, and Wednesday, August 9, is the last date upon which a student may withdraw and receive a refund on fees for the second term.

Classes began today, with more than one hundred and eighty courses available in the second term of the summer quarter, which closes August 26.

Courses are being offered in the departments of anatomy and physiology, ancient languages, anthropology and archaeology, bacteriology, botany, chemistry, economics, English, German, history, hygiene and public health, journalism, library science, mathematics and astronomy, music, philosophy, physical education, physics, political science, psychology, romance languages, sociology, zoology, home economics, entomology, rural sociology, law, education, and commerce.

Sports Planned

A recreational program of sports for both men and women students has been planned by the physical education department, with activities offered without credit or tuition fees. The activities are primarily designed for those who wish to acquire certain skills and teaching techniques in the respective sports as well as provide recreational activities for the summer quarter. Students should sign up for the course or courses of their choice during the regular classification period or at the Physical Education office in the basement of the Alumni gymnasium during the first week of the quarter.

The courses which are being offered are archery, outdoor badminton, social dancing, tennis, volleyball (men only), bowling, and softball for men.

By Nancy Taylor

Question: With what do you want to start your hope chest?

Billie Fischer, A&S, sophomore: A complete Oxford dictionary.

Eleanore Keeti, A&S, sophomore: A man—Chuck!

Kaye White, A&S, junior: Hope chests are for the hopeful!

Louise Jewett, A&S, sophomore: Something more than hopes!

Peggy Faulkner, A&S, freshman: Well, I should say some hope!

Ken Davis, A&S, freshman: I don't want any hope chest!

Ted Jaracz, Ed., junior (senior?): A cook stove—if there's anything I like to do it's eat!

Fritz Lieble, A&S, senior: A camp on the river.

Betty Brooker, A&S, junior: A convertible.

Mary Marrs Swinebroad, A&S, junior: A can opener!

Social Calendar...

Invitation to Reading Series—3 p.m. Tuesday, "Gastronomically Speaking," talk by Mrs. Frank L. McVey, Browning room, Library.

Residence Halls Tea—4 to 6 p.m. Thursday, Jewell hall lounge.

Social Dancing—6 to 8 p.m. Monday, Wednesday, and Friday, Alumni gym. Instruction by physical education teachers, for summer school students.

Surgical Dressings Class—9:30 to 12:30 a.m., Tuesday; 6:30 to 10 p.m. Thursday, in room 1, basement of the Home Economics building.

YM-YW Meeting—6:15 p.m. Tuesday, Y room of the Union building.

The Fischer Bowl

By Billie Fischer

We've noticed a marked leaning towards insanity on the campus lately. People do such odd things. There's a popular blonde buzzing around who never has to worry about having to say "no" to her beaux. First, she suggests that they walk to the park. Once there, she leads them into the playground. And then she tricks them into being "steady pushers" for the little tots on the swings. And she stands by and gets infinite satisfaction from the pitiful scene. After an hour or so at this back-breaking activity, the boy is too tired to ask her any questions to which she might have to answer "no."

And another seemingly sane sister has taken up palmistry, and wholeheartedly believes in it. She grabbed our hand when we weren't looking and grew quite enthusiastic over the odd lines in it. But when we washed our hands, our future changed. It seems that we died from a serious illness when only a child, but will live a very long life. There is no marriage line on our little palm, but we are assured of having twelve children. Thank you, but we'll stick to the pure sciences—phrenology, frimstance.

Then there were those two who drove up to McVey in a blue car. One jumped out while the other sat there. The one who had gotten out tripped, flew forward seven feet, and landed on her face. Waiting, with no expression on her face, until her friend hit the terra firma, the

seated one asked, rather impatiently, "Well, why don't you get up?" To which the prostrate one replied, "I just got down!"

Eight people choked on their hamburgers, in the grill one day last week, when someone walked in and yelled, "Whoa!" Peristalsis was resumed, however, when someone whistled a few strains from the William Tell Overture.

It's no wonder that a certain couple are always quarrelling. They're both so darn conceited. But the girl broke down over a coke one night, and sincerely whispered, "I love you, darling, a whole lot." And the boy gulped down his fudge cake, took her hand in his, and declared, "I do, too."

Remember the old song-hit "Blasons on Broadway"? Listen for the new hit about Lexington—"Stinkweeds on Main Street."

Peeve of the week: Gabriel Heater. Ol' Gabby is a very enthusiastic speaker, and often we find ourselves raving and ranting along with him while he sings the praises of our feets, or denounces certain political groups. But how often do we find ourselves all in a dither, getting quite upset along with Gabe, only to pause and discover that the old boy has been yelling about "the tonic that will bring new life to your hair." People should be commentators or announcers, not both in the same breath. Or is Blue trying to cut down on expenses?

KERNEL FEATURE PAGE

Who's Where?

Who, besides Billie Fischer, our "exchange" student from New York, is at UK this summer? We sort of figure only a handful of people. Because—they're all in New York—or hereabouts.

Take Charlie Jones, for example. He came to the city with hopes of landing a job with a "name" band. But it's hard to break into the "big-time"—harder almost than earning an A in modern dance—and so he's waiting for an opening.

Meanwhile, Jones has met everyone from Harry James to Fred Waring—and back again. Talks about booking agents and promoters like old friends.

And then there's model Lyde Gooding, living the glamour life in the clothes you won't see 'til next year. She's a model for an important wholesale house and she loves it. And Brownie Talbert, living with Lyde and big sister, Sue Fan, has like aspirations. They say Julie Landrum is planning to trek up later in the summer.

Lyde chats about the Copocabana and the Stork club—like we used to speak of Rose Street and the Mainspring—casually.

And Garnet Gayle, storekeeper first class, wearing a WAVE uniform and working in a huge Navy disbursing office is another New Yorker. She's met hundreds of nice people—but she admits "Southerners sort of stick together." At another post she met a girl named "Panama"—a UK graduate in physical education.

Annie Laurey Riley lives in Greenwich Village and we've heard she's trying—like Jones—to enter the highly competitive entertainment profession.

Up the tracks a state or so—in Connecticut—are more Kentuckians. Phys. Ed. graduate Maryan Vogt is "supervisor of the waterfront" at a camp outside New Haven. Betty Harris and some of her amazing friends are working on a summer Y project in Connecticut. Or they planned to—but the Harris is—well—do you know her?

We like New York immensely. We have a job in the financial department of the New York Sun. Address all inquiries and requests for hot tips on the stock market to: Betty Tevis.

craps

By Adele Denman

1. Marion Yates, well-known B.W. O.C., has added some more initials to her by-line. We suggest G.I. Who is he, Yates?

2. Mag Wharton handles all the ads in this rag, but not the want ads. She's got what she wants... Cam Cantrill?

3. Someone heard that there would be a name-band at Joyland last week. While watching Big Ted, sing, one co-ed remarked, "Who is that little band playing for Ted?"

4. Next week is Hell Week for a certain geometrically three-cornered frat. Sorry to beat around bushes, but we can't make the whole column triangular.

5. We must tell you of a new recruiting officer on campus. We understand that Tillie Talbot is

recruiting her own army these days.

6. They come, they go, our transit enrollment, but we figured four years of college is enough for any life to get beat up in.

7. Something new has been added. No, not apple-honey... a Tri-angle pin on Dottie Robins. Wonder if pink clouds are rationed. If they are, she knows a darn good black market.

8. If the Triangles won't think us a traitor, we would like to plug the Sig Eps, with the Triangles permission, of course. Gene McMurray gets a big bang out of Ann Phillips. A. K. Keith is seen with Laura Jean Blake. Fuzzy Wells is all out for Betty Armit; and Cornell Clak is really in step with Gwen Pace.

COLONEL Of The Week

BREWSTER PHELPS

This week's Colonel of the Week goes to Miss Brewster Phelps, Arts and Science Junior from Cloverport, Ky.

Miss Phelps is treasurer of the Student Government Association, treasurer of Kappa Gamma Delta Sorority. A member of Cwens, Alpha Lambda Delta, the Prior Pre-med Society and the Y.W.C.A.

Miss Phelps has had her name placed on the Mortar Board Plaque, for sophomore women having a standing of 2.5.

For these achievements we invite Miss Phelps to enjoy any two of our delicious meals.

Weddings and Engagements

Rochon-Balden

Miss Dawn Yvonne Rochon, Wasp, daughter of Mr. and Mrs. Arthur J. Rochon, Pittsford, N. Y. became the bride of Lt. William E. Balden, U.S. A.A.T., son of Mrs. W. E. Balden, McAfee, at a ceremony solemnized May 20 at the post chapel in Orlando, Fla.

The bridegroom attended the University and enlisted in the Army Air Forces in January, 1942. At present he is stationed at Buckingham Army Air Base, Fort Myers, Fla.

Holland-Taliaferro

The wedding of Miss Jane Ann Holland, daughter of Mr. and Mrs. J. W. Holland, Shelbyville, and Officer Candidate Charles Gaines Taliaferro, son of Mr. and Mrs. R. R. Taliaferro, Cleveland, Ohio, was solemnized at 8:30 p.m. Saturday at the home of the bride's parents.

The bride attended the University. The groom, who is an officer candidate in the Army of the United States at Fort Benning, Ga., also attended the University, where he was a member of Triangle fraternity.

Johnson-Zimmerman

Mr. and Mrs. Edward Russell Johnson, Louisville, announce the engagement of their daughter, Evelyn Elizabeth, to Harry McGoodwin Zimmerman, son of Mr. and Mrs. John Wesley Zimmerman, Louisville. The wedding will take place in September.

Mr. Zimmerman was graduated from the University and the Massachusetts Institute of Technology. He is a member of Phi Beta Kappa, Pi Kappa Alpha, Omicron Delta Kappa, Sigma Xi and Alpha Chi Sigma.

Smith-Drake

Lt. Col. and Mrs. Harold B. Smith, Dayton, Ohio, announce the engagement of their daughter, Jane, to Lt. Robert M. Drake Jr., Lexington, son of Mr. and Mrs. R. M. Drake, Lexington. Lieutenant Drake is a graduate of the University College of Engineering.

Franklin-Johnson

Mr. and Mrs. H. B. Franklin, Ashland, announce the engagement of their daughter, Mildred Pauline, to Merle M. Johnson, son of Mr. and Mrs. S. D. Johnson, Henderson. The wedding will be solemnized in August.

Miss Franklin is a graduate of Ashland Junior College and the University. Mr. Johnson attended Murray State Teachers College and the University.

Sims-Smith

Mr. and Mrs. Harry Raymond, Louisville, announce the engagement of their daughter, Seaman Second Class Ann Willis Sims, to Chief Petty Officer Edgar J. Smith, son of Mrs. William W. Smith, Eleanor, W. Va. The wedding will take place in September.

Petty Officer Smith attended the University and is a graduate of Morris Harvey College, where he was a member of Phi Sigma Phi. They are both stationed temporarily at Richmond, Va.

Vesper Services Held Weekly By BSU

The Baptist Student Union holds weekly meetings in room 105 of the Union, on Wednesdays at 8:15 p.m. The vesper service is followed by group attendance at a mid-week prayer meeting at one of the local churches.

A bowling party is always held after the meetings.

Betty Rhoads Entertains Donovan Guests

Miss Betty Ree Rhoads entertained with a party Monday afternoon at her home on South Limestone street, in honor of Misses Ann and Betty Finley, Jellico, Tenn., who were visiting their aunt, Mrs. H. L. Donovan, and Dr. Donovan, at Maxwell Place.

Guests were Misses Lola Stokes, Phyllis Valleau, Marian McCaw, Ann Carter, Patsy Karsner, Glenna Ritohie, Carolyn McMeekin, Floye Mullinaux, Frances Horlacher, Betty Sue Scott, Eva Lewis, Pat Evans, Nancy Ellen Taylor, Helen Donovan, and Mrs. H. L. Donovan.

Bart Peak Speaks

Bart N. Peak, secretary of the YMCA and a director of the Rotary International, spoke before a meeting of the Co-Operative club at its weekly luncheon meeting Monday at the Lafayette hotel.

US's UKs

Second Lt. Raymond D. Dallas, Paducah, was awarded an Oak Leaf Cluster for meritorious achievement while participating in heavy bombing assaults on Nazi targets in Germany and the occupied countries of Europe. Lieutenant Dallas is the navigator on an Eighth Army Air Forces B-17 Flying Fortress stationed at a base in England. Prior to entering the service, Lieutenant Dallas was a student at the University, where he was an S.A.E. and a member of the football squad.

☆☆☆
Capt. R. D. McIntyre, United States Army Air Forces, stationed at Santa Ana, Calif., returned to active duty July 19 after hospitalization and convalescence following a major operation. In civilian life, Captain McIntyre was a member of the University College of Commerce faculty.

☆☆☆
Wallace Sloan, apprentice seaman, has been transferred from the V-12 Naval unit, University of Louisville, to pre-midshipman school at Asbury Park, N. J.

It is said that 90 per cent of all forest fires are man made, but after all man is always doing something to hinder his own progress.

No man can be provident of his time, who is not prudent in the choice of his company.—Jeremy Taylor.

HE PLAYS THE FIELD OF SPORTS

... round the clock and round the calendar, Ruby Reports in timely sequence to thrill Sport Page enthusiasts

EARL RUBY... Sports Editor of The Courier-Journal, plays to a full gallery of sporting males. It's a great life, Earl agrees, though a bit strenuous at times. No arm-chair philosopher, he actively covers the Sports front. Busier than a bird dog on opening day of quail season, Earl takes to the field and points up significant features of baseball, high school and intercollegiate basket and football, fishing, racing and hunting... in fact, every sport engaged in according to established rules. That's why we rarely see Earl hatless... he's always on the run!

Editor of America's most complete Sports Section outside the three major metropolitan centers, Ruby says it's people who make sports interesting... however, he likes to give readers an occasional flashback to the origin of main sporting events.

A native son, Earl began doing spot reporting in 1921, after school hours at Du Pont Manual High, continuing through years at University of Louisville and Jefferson School of Law. Then Ruby took a flyer as Sports Editor of The Ashland Independent before returning here as full-time sports writer. His natural interest, experience, and the law of averages, eventually led to the "big chair" of sports. Popular features of "Ruby's Report" are "Kentuckianities," always chockful of names, and "Questions and Answers," which, measured by the mail bag, pulls the most box-office. Only a fraction of his letters break into print... the rest are answered personally by the Sports Editor himself.

Ruby scores a home-run daily for the bleachers-full of sports fans who follow him in

'Just Anything But Teach'

Says Dr. Holmes After 20 Years At UK

By Doris Singleton

"The main thing I'm not going to do is teach," Dr. H. B. Holmes, assistant professor of romance languages, said, upon announcing his intentions to retire at the end of the first term of the summer quarter. He continued by saying that he was planning to live in Florida and rest.

Before he came to the University in 1924, where he has taught Spanish and French. Dr. Holmes travelled far and wide, and worked in many places and at various occupations.

In 1902, Dr. Holmes was a member of the second boat-load of Americans to go to the Philippines to teach the natives. He spent two years there, and travelled over the country while he was working. He first taught the students English, by using the object and chart methods. It was this system of teaching that gave him the idea for a Spanish grammar he later wrote, which is now taught at the University.

After the students had learned English, which came easily to them because they are great linguists, Dr. Holmes said, he began teaching them geography, history, and other cultural subjects.

On the trip over to the Philippines, the route followed was the Atlantic and through the Mediterranean sea. Going east, one day is gained, so it is necessary to drop one day from the calendar, Dr. Holmes explained. This one day that is dropped is known as Antipodes day.

Dr. Holmes returned from the Philippines in 1904, by way of the Pacific, thus completing his trip around the world. On the return voyage, he stopped in Hong Kong, China, and several other places. He also visited Tokyo, Japan, and saw the emperor's palace, from the outside.

The Jap "wind-socks," made in the shape of fish, were very interest-

ing to Dr. Holmes. He related that one of these fish was placed on the roof of the home of a new baby, as an old custom.

The first thing he did when he returned to the States was marry, Dr. Holmes said. He taught high school at Horse Cave, Ky., for two years, and it was here that his daughter was born. After this he taught in Colorado, Indiana, studied at the University of Wisconsin to get his M.A. and Ph.D., and then taught at Indiana University where he remained until he came to the University.

UK Baseball Nine Defeats Man o' War Colts

The University baseball team defeated the American Legion Man o' War Colts 8-3, at the park on South Broadway, last Sunday.

Bill Chambers, University mound expert, saddled the Colts with their first loss of the current diamond season. Sammy Sternberg, manager of the American Legion Man o' War Colts, announced this week that Chambers would wear a Man o' War uniform for the remainder of the season.

The transfer will not affect the University nine because the Collegiates will play no more this summer, according to Athletic Director Bernie Shively, who coached the team improvised from among football candidates and other students at the University.

Handling himself like a veteran, Chambers allowed the Colts six scattered hits as the University aggregation defeated the Legion team. Chambers was never in trouble and seemed to get better as the game progressed, retiring the opposition in order in the last two innings. Chambers may see action next Sunday when the Colts play host to Blue Ash of the Buckeye League of Ohio.

Radio Schedule

The radio schedule for the week of July 24-30 to be broadcast over WHAS, Louisville, is as follows:

Monday, July 24: 12:50 to 1 p.m., Getting ready for the Breeding Season, by R. C. Miller, specialist in sheep, Agricultural Extension Service, WHAS.

Tuesday, July 25: 12:50 to 1 p.m., Farm Forestry, by W. E. Jackson, forestry specialist, Agricultural Extension Division.

Wednesday, July 26: 12:50 to 1 p.m., Doings of Kentucky Farm Folks, by C. A. Lewis, editor, Agricultural Extension Division.

Thursday, July 27: 12:50 to 1 p.m., Labor Saving in Cutting Tobacco, by Earl R. Young, field agent in farm engineering.

Friday, July 28: 12:50 to 1 p.m., What Farm Folks Are Asking, by L. C. Brewer, College of Agriculture.

Saturday, July 29: 1 to 1:15 p.m., Your Land And My Land—California; 1:15 to 1:30 p.m., Jesse Stuart Short Story.

Sunday, July 30: 12 to 12:30 p.m., UK Round Table: Mental Hygiene, by Hon. Joshua B. Everett, Dr. W. E. Watson, Dr. A. M. Lyon, Welfare Department of Kentucky, and Dr. Margaret Ratliff, UK Psychology department.

Phalanx Fraternity Initiates Five

Daniel Pope, Harlan; Luther Copeland, Mt. Nebo, West Virginia; Bill Tobey, Virginia; Edward Bary, Bellevue, and Hugh Collett, Majestic, were initiated into the Bart N. Peak chapter of Phalanx fraternity at a special arranged ceremony Tuesday.

The fraternity has sixteen of its members enrolled this summer. The officers are Bart Peak, faculty advisor; Merl Baker, president; Norman Chrisman, vice-president; Twyman Payton, secretary, and Mason Nooes, treasurer.

Tosh Serves In England As Red Cross Director

John P. Tosh, Beckley, West Virginia, who received his master's degree in botany from the University in 1941, has arrived in England to serve as an American Red Cross assistant field director.

Before he began his service in England, Tosh served at Mac Dill field, Tampa, Florida, and at the U. S. Naval Station, Melbourne, Florida. Previously he was a science instructor at Woodrow Wilson high school in Beckley, West Virginia.

Tosh is known to have discovered approximately fifty new plants in West Virginia.

Dr. Bigge Returns

(Continued from Page One)

competent enough to teach them. The Kentucky professor, who was to lecture in English, organized one class for English teachers in high schools, which he feels may continue.

Under agreement with the State Department, Dr. Bigge consented to teach for a year in the South American republic, but due to the turbulent conditions of the country, along with the instability of the University, the Bigge family decided to return to the United States.
