1928

Central Theme: The Needs of the Negro Child

"What Are You Worth?"

Any man alive and well is worth approximately sixteen times the amount of his annual salary. If your annual income is \$900.00, you are worth \$15,000.00 to those dependent on you. If you earn \$1,200.00 a year, you are worth \$20,000.00 to your family. One disabled or dead without sufficient protection is worth nothing.

REPORT OF STATE PARENT-TEACHER ASSOCIATION

The State Parent-Teacher Association held a most successful session in Louisville, Kentucky in 1928. The program was carried out as announced and much business was transacted in an enthusiastic way by the representatives at the meeting.

There were 46 delegates to enroll and these represented 1,416 members. Two city leagues and two county councils were also represented.

In this session it was voted that prizes be awarded at the next meeting for the best Kentucky Parent-Teacher song fitted to some familiar tune and also that prizes be awarded for the best motto.

The following resolutions were adopted:

1. We recommend that our State Parent-Teacher Association be known as State Branch of National Congress of Colored Parents and Teachers; and that we shall work by and endorse the constitution for such branches as is given out by the National.

2. We recommend that as a State Branch we shall retain in our state treasury from per capita tax on each local all money sent by that local and thus the State Branch will be able to carry out work of a Parent-Teacher Association, thereby enabling it to help K. N. E. A. carry on a bigger and better educational program and also keeping our State Body in touch with program of National Parent-Teacher Association body.

3. We feel for more time that it would be better to hold our meetings on Tuesday and Wednesday before opening of K. N. E. A.—in same week—having three sessions on Tuesday and

two sessions on Wednesday and closing before opening of the night session.

4. We elected as our Representative to National Congress of Parents and Teachers our State President and we recommend that expenses for same be taken care of by K. N. E. A. from fee of delegates to State Parent-Teacher Association.

As In A Looking Glass

(Article by Mrs. Alice Dunbar-Nelson for A. N. P.)

The Kentucky Negro Educational Association met in Louisville, Kentucky, April 18, 19, 20, 21, to be strictly accurate. The "K. N. E. A." as its members lovingly call it, always meets in Louisville, which is sensible, as Louisville is quite the most capable city in Kentucky, of managing the numbers of teachers who throng to the annual meeting. Three days a year are taken from school, from the arduous duties of pounding Readin', ritin' and responsibility into little Johnnie's and little Mary's heads, and are devoted to intensive study of every possible phase of education. The fourth day, being Saturday, the teachers disport themselves joyously in an election of officers that has all the earmarks of wire-pulling and political manipulation. Perhaps the surface appearance was deceptive. To the outsider, it had a capable air of sophistication.

The program was formidable. There is a Board of Directors, a roster of general officers, thirteen vice-presidents and eleven district organizers. The registration by the second day had reached 1,400 teachers. Prof. A. E. Meyzeek was the 1928 president and chairman ex-officio, and another principal, Prof. A. S. Wilson, was the very efficient secretary.

There were departmental meetings for every hour in the long three days, and on every subject and phase of education. There were public meetings, three a day for the four days. There was entertainment a-plenty—two operettas, musical hours, a monster pageant at the armory, in which more than 1,000 participated, State spelling contest, State oratorical contest, special moving pictures. In such a feast of good things, it is no wonder that the poor dazed mortal grew weary with looking and listening and learning, and crawled into a corner, and weakly begged for rest.

The open public sessions, three a day, were held in Quinn Chapel on Chestnut Street, between Ninth and Tenth. Quinn Chapel is a commodious structure. It looks as if it will seat 1,200 to 1,400. Long before 7 o'clock at night it was packed, every seat taken, the aisles with chairs placed by busy Boy Scouts, the backs and sides jammed with patient mortals who stood unprotestingly for two and a half to three hours during the lengthy programs, and outside, late comers were turned away, two or three hundred a night, so the worried looking officers said.

Louisville weather was cold last week, as cold and bleak and chill and uncompromisingly un-spring-like as Washington or Philadelphia—worse than Washington, for not a cherry tree dared bloom in that drear lack of warmth and sunshine. But the hearts of the people made up for the weather. If you could tear yourself away

from the interesting sessions and conferences and demonstrations, there were always dozens waiting to show you the banks and office buildings which the thrifty colored Louisvillians have built for themselves, the drug stores and halls and places of business and homes and garages. And the proverbial Southern and western hospitality is not so in name only. The most hurried and worried executive officer of the great association was graciously anxious that every guest of the city be assured a pleasant stay.

The "K. N. E. A." was organized in 1877, for "Greater mentality and stronger citizenship among the youth of Kentucky." It has had an uninterrupted existence, so that this was its fifty-second annual session. That is a thought to give us pause—that we have an organization of teachers of Negro youth over a half century old, with its hundreds of members most seriously considering, as they did this year, for their central theme, "The Needs of the Negro Child." Let us rise and doff our hats to Kentucky!

Report of Legislative Committee

REPORT OF THE LEGISLATIVE COMMITTEE OF THE
K. N. E. A. April 21, 1928.

We, your committee on legislation, beg leave to make the following report:

Probably never before in the history of the state have the Negroes of the various sections of the state been more closely United than at the present time. And, probably never before have they felt so definitely and keenly the need of unity of thought and action on the great problems that confront them, not as separate groups but as a united whole. And, probably never before in the history of the state has there been manifested so fine a spirit of interracial cooperation between the better class of colored people and white people of the state as at the present time. And, never before perhaps, have our white friends so fully sensed the aspirations and hopes and needs of the colored people as they are doing at the present time. And so it is with great satisfaction in the present and hope for the future that we, your committee, record the progress that has been made during the year that is now closing and especially the items that relate to progress that have found expression in legislative enactments by the recent General Assembly. It is the consensus of opinion of colored men who came in contact with members of the General Assembly, that it was the fairest toward colored people of any General Assembly in the history of the state. As Director of the Interracial Commission and Chairman of your legislative committee, I was deeply and favorably impressed with the fine interracial spirit that pervaded both Houses.

Your committee was on the ground and in active service during most of the sessions of the General Assembly, though fortunately we were not listed as lobbyists and therefore had no part in the recent wholesale indictments returned against lobbyists during the sessions of the General Assembly.

Your committee was consulted by the Governor in regard to the needs of the colored people, educationally and otherwise, and be it said to the honor of the Governor, that every single suggestion submitted by your committee to the Governor in writing was included in his message. And, be it said further to the honor of our great Governor that he backed up every single recommendation he made for colored people with the power of his personal influence and prestige. More than \$600,000 was appropriated to our two state colleges, one at Frankfort and one at Paducah.

The appropriation for the Red Cross Sanitarium in Louisville was enlarged from five to ten thousand dollars. The Kentucky Home Society for colored children appropriation was increased to \$25,000 and provision was made in the budget for our proposed institution for feeble-minded Negro children and, last but by no means least, House Bill 607, requiring Jim Crow arrangement on street cars and bus lines was strangled in the committee to which it was referred and never saw the light of day. Practically all of these measures giving large appropriations for colored institutions were passed by unanimous vote in both branches of the General Assembly.

One of the most gratifying measures from the viewpoint of the Interracial Commission and the K. N. E. A. was the unanimous passage by both houses of a bill increasing the levy of the University of Louisville from 5 to 7 cents on one hundred dollars, thus providing maintenance for the proposed colored department of the University of Louisville for the higher education of Negroes, a project, which the Interracial Commission and the K. N. E. A. have been pushing for the last six years. The plan is well on the way to buy and equip a three-story brick building on Chestnut Street next to the colored high school, now in use as headquarters for the City Board of Education. This can be very well done with the \$100,000 set aside from a recent million dollar bond issue for that purpose, and as I have already said, the increase of levy provided for the maintenance. It is expected that this new department will be opened in September, 1929.

It has been a long hard fight, especially the struggle for a department for the higher education of Negroes under the control of the University of Louisville and the establishment of an institution for feeble-minded Negro children, and the Interracial Commission and the K. N. E. A. have played a very important part in this successful achievement.

In this fight for a colored department of the University of Louisville for the higher education of Negroes, the legislative committee of the K. N. E. A. and the Interracial Commission have had during the last few years of the struggle, the cooperation of other agencies among which should be mentioned especially, the Urban League of Louisville, of which Mr. J. M. Ragland is the executive.

Your committee secured the veto of a measure passed by both houses of the General Assembly, which in reclassifying certain towns would have taken the colored city schools out from under the city boards and placed them under the county boards, thus reducing the schools from nine to seven months and prac-

tically destroying the high school department. In this connection your committee would make public recognition of the assistance it has received from Dr. E. E. Underwood at Frankfort, who at all times cooperated with us in securing the result named above. The committee strongly suggests that one or more members of your legislative committee should reside in Frankfort; the reasons for this are obvious. Your committee cooperated with Mr. L. N. Taylor in defeating the bad bills and in securing enactment of good bills.

Your committee submits the following resolutions:

(1) That the K. N. E. A. use every means within its power to secure the displacement of the double school board system with that of one board system, placing all schools, white and colored, in one given town under one management.

(2) That the K. N. E. A. use its influence to remove the system of one race tax, thus requiring the colored schools to receive all their maintenance and support from taxes from property owned by Negroes and white schools receiving maintenance from taxes from property of white people. For to support white schools from taxes derived from property owned by white people and colored schools from taxes derived from property owned by colored people, is clearly unjust and unconstitutional. Only a few towns in the state follow this antiquated and unjust arrangement.

(3) It is the opinion of your legislative committee that efforts of the K. N. E. A. should in the next few years be concentrated on plans to strengthen our two state colleges, bringing them up to the required standard of institutions of colleges ranking in curriculum, scholarship, financial support, equipment and in teaching efficiency, and in strengthening and standardizing our high schools.

According to Mr. L. N. Taylor, supervisor of rural schools, there are at present five "A" accredited colored high schools in the state located at Owensboro, Lexington, Paducah, Bowling Green and Louisville. The Central High School, Louisville, is the largest in this group, having a membership of nearly a thousand. There are seven "B" accredited high schools, located at Paris, Danville, Hopkinsville, Winchester, Mayfield, Henderson and Covington. There are thirteen classed as four-year high schools but not accredited, located at Princeton, Frankfort, Flemingsburg, Elizabethtown, Russellville, Richmond, Harrodsburg, Mt. Sterling, Greenville, Bardstown, Georgetown, Providence and Versailles. There are 3 three-year high schools located at Middlesboro, Elkton and Cynthiana; 22 two-year high schools located at Columbia, Lawrenceburg, Glasgow, Pineville, Hardinsburg, Murray, Hickman, Fulton, London, Stanford Lebanon,

Corydon, Eminence, Nicholasville, Maysville, Carlisle, Beaver Dam, New Liberty, West Bend, Shelbyville, Franklin, and Springfield. Latest reports indicate one-year high schools at Harlan and Midway, making a total of 49 colored high schools in Kentucky, 5 of which are "A" accredited high schools; 7 "B" accredited high schools and 12 classed as four-year high schools but not accredited. Is it too much for the K. N. E. A. to set before it for the next few years the making of all these forty-nine high schools "A" accredited? Surely not. More and more of our young people are going out from these places to attend colleges and universities. Unless the whole system of our high schools is revised and revamped and accredited, our young people will be handicapped in their preparation for college and university work, and utterly unprepared to enter upon such college and university courses.

(4) We urge closer cooperation between K. E. A. and the K. N. E. A.

If this is a reasonable and possible goal for the K. N. E. A., we shall need the cooperation of every teacher, of every parent and of all fair-minded white people throughout the state. We must, therefore, make use of all these means at our command, utilizing to its fullest extent, the machinery of the Interracial Commission which is at the service of the teachers and which was established to promote just such plans as are herein outlined and contemplated.

Committee:

JAMES BOND, Chairman,
H. C. RUSSELL,
C. L. TIMBERLAKE.

Governor Sampson's Address

GOVERNOR SAMPSON'S ADDRESS

(Extracts)

Dr. James Bond, Director of State Inter-Racial Work, introduced Governor Sampson to the members and friends of the K. N. E. A. Governor Sampson's address follows:

"Dr. James Bond and fellow Kentuckians, I am very happy to be here tonight and I want to thank you for inviting me. I have invitations every day and almost every hour in the day, however, I was very anxious to come here. I thought that perhaps I might be able, in some little way, to be of service. That is my whole purpose in life, if I can.

I have known Dr. James Bond every since I was a little boy (because he is a good many years older than I) (laughter) and I am proud of the heights he has attained.

You know I am very proud of you teachers and I am very much pleased with the Welcome Address which we heard here. That address, which she delivered, ought to be in print, and both you and the teachers of the children of my race ought to read it because it would help them. The Response to the address of Welcome was scholarly and to the point. It merely goes to show what may be accomplished, what may be done, under great difficulty.

I am very proud of you as Kentuckians; above all things I like to be a Kentuckian. God gave us everything in Kentucky. He gave us great men and great women. I am proud of you as Kentuckians and as teachers.

I did not come here tonight to make a speech. I drove here just to be with you, who are trying earnestly to do something for your race. To my mind, those who have love and charity like those sitting here tonight—those are the people. It is *this* race that shows great patience and forbearance. I have been trying the best I know how to do the things I think will be best for all concerned. It is a reflection on my race, rather than on yours that we kept you in bondage.

* * * * *

Teach these boys and girls about Kentucky; to avoid the little hates, passions, dissensions and above all teach them to pray and believe in God. Teach them plain honesty. Teach them faithfulness. Hold up before their eyes the ill that comes from dishonesty and falsehoods. Teach them industry so he or she will make his way anywhere. These are the fundamentals. Teach them frugality. In other words, teach them to save every penny they make. That's my prophecy. Save, be frugal, invest your

money, work, and be industrious. These are the plain homely virtues that I hope you teachers will teach throughout Kentucky. These things will make men and women. Let's teach the gospel of peace and love. Let's make Kentucky a great state. Be patient, be industrious. You teachers going back to school, teach this industrial practice.

* * * * *

Don't overlook Kentucky Institutions and their advantages. Make Mammoth Cave a National Park that will bring visitors to Kentucky.

* * * * *

I thank you again for your kind invitation here, but these are the things that you and I must talk about. And I must invite you to teach the holy virtues, you can do it, you should do it, and when you do all Kentucky and the white race will honor and respect you. Perseverance and industry will make a scholar, lawyer, and preacher and will make the one that did it honorable and respectable."
