Dear David;

Will ^{you} write and tell the people to whom we sent checks on June the 16th that they should telegraph us if the checks have not been received? Because there is a probability that they may have been lost in the big plane disaster on June the 12th when Essel Carroll was killed. You could check with the post office to see if any mail was carried on that plane. Hope you are all keeping well and busy.

Love
Dick

Dear Dave,

How are you? (an original start if

I ever saw one). Well here I am in Portland
First Portland has a flood and now it
has me. I wonder which is ^{the (grammar you know)} worst.
Tomorrow we will probably go up to Canada
if I can I'll send you some fish and chips.
Portland they tell me is a miniature
New York but they don't sell liquor.

This city seems to be populated
with people between 15 + 30 driving
around making with a wolf whistle.
Mommy thinks their wistling at
her. All Dad does is sit and look
in Zell Brothers and wish Calif. didn't
have state tax. Everything like food &
clothing is state tax free. By the
way I picked up a magazine on
antique and thought you ^{would} be interested
See you soon
Dick
