FROM THE ADMINISTRATIVE COMMITTEE...

OCLC is doing a limited unbundling of charges in 1982. The major price increase has been in telecommunications and OCLC is going to look at developing their own telecommunications. They are also looking at the possibility of developing electronic mail and document delivery. They have the capability to monitor the use of their terminals and have found some abuse in terminal use. The Total Library System will be up in 1983 on Hewlett Packard equipment and the Local Library System will go up on Digital hardware. SOLINET will continue Lambda and help finance it with retrospective conversion projects.

King Library will be open the day after Thanksgiving this year. In previous years it has been closed for fumigating. The Library System closes at 4:30 p.m. on December 23rd.

The Pirdle and Peal Programs went very well. The Development Office is going to do a brief feature on the Peal Collection for its annual University Fellows dinner.

The Library has received the Graduate School capital equipment grant for a high speed terminal. A MODEM has to be purchased out of library funds.

The meeting was turned over to Tom Waldhart and a discussion followed on what kind of a priority assessment report we will be presenting to the Chancellor. It was decided to do a report that would have a system overview and a chapter for each division. We would also do a broad estimate of what our processes cost us. A work sheet will be devised and distributed.

REBEKAH HARLESTON HONORED AT KLA
