

ABBAY OF GETHSEMANI
TRAPPIST, KENTUCKY

Feb 13, 1962

Dear Victor.

March 3 will be fine as far as I am concerned, & I hope the weather will be nice. If it is not we can always remain in the car.

As for the eyes, well, I think probably greenish blue or greenish gray - there seem to be a lot of funny colors in there, I did not know an eye was so complicated.

Here is one of the Program books I would probably use - & I am grateful to Conroy for the information.

Yes, the bomb is a great invention of benevolence: it ends wars, saves lives, makes everybody happy & even ends worlds.

God bless you, cordially always in Xc
fr. Louis
