

Our Lady of Gethsemani
Trappist, Kentucky

May 30.

65

Dear Carolyn.

This Friday, June 4, I have to come to Lexington for some Ex. rays + tests. If I am lucky I ought to be finished by about 12:30, + might be free to see you + Victor + have a lunch - on a simple scale as my stomach is upset. (Rice never upsets me however). I cannot say definitely, but I will

in any case call from the Doctor's + if you are not
free or not there, - it does not matter so do not
make elaborate plans. But I would not want to
miss another chance to have a few words with
you + Victor. If you drop me a note or to where
would be the best-place to call, that would be
good. I do not definitely know when I will
finish at the doctor's or when + in what conditions
he will let me go!

Best wishes to you both + blessings

Tom
