### PORTRAITS AND DREAMS

This photography exhibit by children from Letcher County, will open Sunday, October 14 in King Library South. Wendy Ewald, from Appalshop, has worked in the Cowan, Campbell's Branch and Kingdom Come elementary schools for several years as Artist in the School sponsored by the Kentucky Arts Commission. The result of this work is an outstanding exhibit of photographs and essays by fifth through eighth graders. The exhibit opened at the International Center for Photography in New York City last May and next spring it will be touring with the Smithsonian. The opening and reception at UK will be Sunday October 14 from 3-5 PM. Please join us and meet the children who are coming with family and friends for the afternoon. Guests and children are welcome too!

The exhibit, which will run through November 18th, is sponsored by the Appalachian Center, the University of Kentucky Libraries in cooperation with Appalshop.

A MOST EXTRAORDINARY COUNTRY

This is the name of an exhibition of Kentucky cartography being held October 1-November 11, 1979 at the Old Capitol Galleries, Frankfort, Kentucky. It is sponsored by the Kentucky Historical Society. Nine of the maps exhibited are on loan from Special Collections, M.I.K. Library.

Among those receiving special thanks for their assistance were Claire McCann of Special Collections and Dr. Thomas Clark, UK professor emeritus of history and dean of Kentucky historians.

The exhibit coincides with the publication of Dr. Clark's Historic Maps of Kentucky published by the University Press of Kentucky, October 5. This consists of ten beautifully printed facsimile maps (seven from Special Collections, M.I.K.) and an accompanying book on maps published from the third quarter of the eighteenth century through the Civil War showing the emergence of the Commonwealth of Kentucky and the unfolding art of American cartography.
