The University Moves Forward

Editorial Appearing in The Lexington Herald Shows Progress That Is Being Made on Campus, Through the Eyes of One Who Is Not Connected With the University

Editor's Note. The following is an editorial which appeared in the Lexington Herald last spring. It was written by Thomas R. Underwood, managing editor of the Herald and former student of the University, and gives an excellent idea of the layman's view of the progress of the University. While it now is somewhat outdated we reproduce it word for word so that Alumni who have been away from the campus for some time can get a good idea of just what is being done by way of physical improvement. The dormitories, Memorial Building and McVey Hall all are realities now and are in daily use.

Honest confession is good for the soul. When a western Kentucky newspaper said recently that there seemed to be no purpose or plans to put the University of Kentucky forward. The Herald felt justified in trying to take the rest of the state to task for knowing so little of the great achievements taking place on the grounds of its own near neighbor.

How little indeed do Lexingtonians realize what is being accomplished! When fourteen of the fifteen members of the board of directors of the Lexington Board of Commerce and representatives of Lexington newspapers were taken on pilgrimage Wednesday, at the University their eyes were opened—their mouths too.

A regular anvil chorus rings out from the builders; such construction as one might have expected in a Houston or a Miami is actually taking place.

On Memorial day, May 30, the beautiful chapel known as the Memorial building, in which encased in glass and in gold leaf are to be written the immortal names of Kentucky's 3,300 World War dead, was dedicated. Slightly back of the College of Agriculture building, this stately temple is now on what is generally considered the south end of the campus.

A campus plan for the University, looking forward 25 years, already is on paper. In this plan the Memorial building is at the center of the campus. But while the plan is only on paper, the actual development of it is well under way.

Across Limestone street the great steel and concrete foundation pillars which will support the new education building, half of the funds for which were donated by the General Education Board, rise from what has been the city dump. Over

this unsightly acreage is to be raised the large building, with the college of education in the center and a model high school and a model elementary school as left and right wings. This one building will virtually equal the three original buildings of the University campus, now all standing and in use, after fifty years of service.

Back toward Rose street the two new units of the dormitory group are rapidly nearing completion as though springing from the ground. Indeed, when completed these new dormitories will offer to the students who remain in the dormitories facilities that are the best that any student could hope for, with study rooms, baths, gathering rooms, a group system for rooms and spacious rooms and halls. To find a contrast, one has only to look at the old dormitory building still in use, with its crowded quarters. When Maury Crutcher, the superintendent of building and grounds and genius of much of the campus development, was a student not so many years ago the boys carried water from Mulligan and Maxwell springs and filled a tank, still enshrined in the old dorm attic, as a part of the pre-Saturday night ceremonies.

McVey hall, facing Kastle hall on the eastern part of the campus, which was recently erected, is a joy to behold. Here is the cafeteria, indeed a valuable acquisition. Shades of the old mess hall, with its coatless masses scrambling for seats and crying for "Zip!" The refining influences of co-eds and cleanliness have worked marvels. An entire floor is taken by this cafeteria, with a ceiling that swallows echoes, a kitchen that is a model.

On the side of the College of Engineering a building nearly ready for use is the \$10,000 laboratory for the study of the effects of heating, lighting and ventilation on plants and other life. Its glass sides glisten in the sunlight but a short distance from the grove whose center and sponsor was a sink-hole, a natural bowl which at one time was the sewer system, at another indeed was used as an amphitheater for a commencement. What a comparison, with the Memorial building now ready for such use!

Back of the football stadium there is now being completed a garden and arboretum in which are to be found all the plants, shrubs and many small

trees which are native to Kentucky, and an old log roadway is being constructed over the streams and through the trees, an inspiration to students to love Kentucky's gifts from nature.

The plans also already have been completed for a new library building. Memorial hall, two new men's dormitories, the education building, new engineering laboratory and new dairy products building on the farm now under construction, an additional hall to the girls' dormitory group, McVey hall and other construction completed and in use, and plans drawn looking forward twenty-five years and anticipating a student body ten thousand strong—this is the evidence that the University is looking forward.

Let it not be thought from this that the state of Kentucky has been lavish in gifts. That is far from the fact. The dormitories are built under an authorized amortization plan, the education building largely through the gift of the General Education Board, the engineering laboratory through gift and McVey hall partly through popular subscription.

Yet another source has been from savings from the current income. The University has saved all that it could in running expenses and has put its savings in buildings, a secure bank.

This has been accomplished through the co-operation of the faculty. Under Dr. McVey's leadership there has developed among the University family, not only professors but all who are a part of its development, their families, the administrative personnel, a deep and glorious faith and truly a passion to make the University of Kentucky a leader among the educational institutions of the South. With its growth and progress ac-

complished and prospective as a rich reward, yet not in most cases at a fair recompense, they have kept at their posts, rejoicing in their hopes for the University and for the commonwealth.

In most cases it has been through sacrifice on the part of members of the faculty that so much has been done and so much more can be planned. Yet where does vision develop where there is not sacrifice?

Still a more striking development has been in the character of the student body. Much is heard in these days of flaming youth. A newspaper is probably placed in a better position to know how the young women and men of the University of Kentucky conduct themselves perhaps even than the deans of men and women. Let this testimony be presented, that in fifteen years the change has been remarkable. It is seldom that the students of the university cause disturbance. Yet there are 2,600 students living in the midst of Lexington.

The old days of tying down the whistle and making street cars miserable, of uproar and disorder are gone.

And so, startled indeed by a better appreciation of the wonders that are being accomplished, The Herald takes this occasion again, better-informed and therefore more highly enthused, to place before those Kentuckians whom it reaches this summary of some of the more apparent things that are being done at the University of Kentucky, where scholastic ranking has been established, where a great development has taken place without the blast of trumpets, where it seems indeed that vision and faith have placed a prayer in every heart and a cooperative spirit of endeavor that is the crowning tribute to Miracle Man McVey.

NEW BUILDING COMPLETED LAST SPRING, WHICH HOUSES CLASSROOMS, POST-OFFICE, BOOK STORE, UNIVERSITY COMMONS, AND KERNEL OFFICE

Dean Paul Prentice Boyd

Dean of College of Arts and Sciences Is Director of Largest Group in the University; Once Served as Acting President

(By Helen King)

Dr. Paul Prentice Boyd, dean of the College of Arts and Sciences at the University of Kentucky since 1917, and a valued member of the University faculty since his appointment to the position of head of the Department of Mathematics in 1913,

and Alumni who have known Dean Boyd, the explanation of the very apparent popularity of his college, which includes a most capable teaching staff and a wide and interesting field of study, rests, in some degree, in the twinkle of fun always

is director of the largest group of students in attendance at the University, 1,100 men and women having registered in the Arts and Science College for the first semester.

And to the many students, faculty members

apparent in Dean Boyd's eyes, and the understanding of youth always evident in his discussions and in his judgements.

Paul Prentice Boyd was born in Cameron, W. Va., a close neighbor to Kentucky, but moved to

Arkansas at the age of 2, and it was many years later, after he had returned to Ohio, Kentucky's neighbor on the north, for his college education, and had received recognition and a fellowship to Cornell, where he obtained his M. A. and his Ph. D., degrees that he selected Kentucky as the state of his adoption.

Dean Boyd was graduated from Oberlin in 1898, received his Masters at Cornell in 1905, and his Doctor's degree from the same institution in 1912, in the meantime having held the position of Professor of Mathematics and Astronomy at Park College, Missouri in 1903 and 1904, and at Hanover College, Indiana from 1906 to 1912, the year he received his appointment to Kentucky.

In 1917, before the appointment of Dr. Frank L. McVey to the presidency of the University, Dean Boyd was named acting president, and during the course of that year he was also made a Fellow in the American Association for the Advancement of Science.

Dean Boyd has written a considerable number of treatises on mathematical and general educational subjects, including a text-book, "A Course in Analytics" in collaboration with Prof. E. L. Rees and Prof. J. M. Davis both members of the Mathematics Department faculty at the University of Kentucky.

Other important articles written by Dean Boyd, which have appeared recently in educational magazines are: "Matriculation Lectures," an article in *School and Society*; "Pan-Poiltikon," and "Standards of Accrediting" also written for *School and Society*; "Mathematics As a Personal Experience," a contribution to the *Centre College Magazine*; "Higher Education In Kentucky," and "The College Curriculum," treatises written by Dean Boyd for the *Kentucky School Journal*.

In the early part of the month of December, the Association of Colleges and Secondary Schools of Southern States will meet in Lexington for its annual conclave, and Dean Boyd is a member of the committee on arrangements for this meeting. For some time he has acted as a member of the commission on Higher Institutions in this association.

The organizations of which he is a member are numerous, and divided into several separate fields of endeavor indicating the variety of his accomplishments and the many scholastic interests to which he has given so much of his time, energy and attention.

Dean Boyd was one of the founders and one of the first presidents of the Kentucky Academy of Science; he is a member of the American Mathematical Society; of the Mathematical Association of America; the American Association for the

Band Sponsor

MISS LEURA PETTIGREW, PRETTY TEXAS GIRL, WHO IS SPONSOR FOR THE CRACK UNIVERSITY BAND

Advancement of Science; The National Educational Association; the American Association of University Professors, and has at different times held the presidency of various state mathematical associations.

In 1911-12 Dean Boyd was president of the Inter-state Oratorical Association and was at one time president of the Indiana State Oratorical Association, at Cornell, and was one of the founders and the first president of the University of Kentucky chapter.

Pi Mu Epsilon, honorary mathematics fraternity established a chapter at the University in recent years, largely due to the efforts of Dean Boyd. Pi Gamma Mu, social science fraternity also claims him as an outstanding member as do Sigma Delta Chi, professional journalistic fraternity, Omicron Delta Kappa, University of Kentucky campus leaders fraternity, and Phi Sigma Kappa social fraternity.

"Who's Who" lists this versatile man as educator, mathematician and dean; but to those who known him as faculty advisor, friend, and associate there is a knowledge that in these many titles and honors that have been accorded him is the recognition of a man who has put into his work the human touch of understanding, and the leveling influence of a kindness and a humor that never fails.

Alexander Bonnyman Heads Fund

Prominent Coal Operator of Knoxville, Tennessee, and Former Student of the University, Selected as Chairman of Patterson Memorial Committee

At a recent meeting of the Patterson Memorial Fund Committee, Alexander Bonnyman, Chairman of the Board of Directors of the Blue Diamond Coal Company, Knoxville, Tennessee, was unanimously chosen chairman of the committee to succeed the late Chas. R. Brock, '90, of Denver, Colorado. The committee feels greatly encouraged in having been able to obtain the services of Mr. Bonnyman to take up the work which had been so faithfully carried by Chas. R. Brock. Mr. Bonnyman brings an interest and an enthusiasm born of a long personal friendship and affection for President Patterson, and a business experience that is highly desirable. Leaving college at the close of his junior year to take a post with the engineering corps of the L. & N. Railroad, he has played an important part in the construction of railroads and the development of natural resources in Georgia, Southern Kentucky, and Tennessee.

The other members of the committee are: C. N. Manning, president, Security Trust Company, secretary-treasurer; Professor Walter Kennedy Patterson, President Frank L. McVey, Miss Mabel H. Pollitt of Richmond, and Rodman Wiley of Louisville. The committee hopes under the chairmanship of Mr. Bonnyman to complete at an early date the subscription of the funds necessary to erect a memorial statue to President James Kennedy Patterson.

The history of the fund briefly is as follows: In October 1916, Chas. R. Brock, speaking on behalf of the Alumni at the Golden Jubilee of the University of Kentucky, spoke of the desire which he and a number of older Alumni cherished to see on the University Campus, a memorial statue of James Kennedy Patterson. Mr. Brock shortly thereafter set about to raise the fund, and did obtain a considerable nucleus. Meanwhile the war came on with its numerous drives and demands. In 1920 the Patterson Memorial Fund was named as one of the four projects sponsored by the Greater Kentucky Fund. Mr. Brock never ceased to push the collection of subsequent funds, although since 1920 no active campaign has been carried on. Since Mr. Bonnyman has assumed the chairmanship a more vigorous campaign has been inaugurated. It has been agreed by the members of the committee that no contracts will be let or final arrangements completed with the sculptor chosen to do the work until the entire

sum required, which is estimated to be \$20,000, shall have been collected.

The financial status of the fund is at present as follows:

Subscriptions payable on demand	\$ 1,450.00
Cash on hand	\$ 10,013.85
Subscription from an individual who desires his name withheld, payable when the amount collected shall have reached \$15,000	\$ 5,000.00
Total	\$16,463.85

It will therefore be necessary to have additional subscriptions to the amount of approximately \$3500.

There is a feeling among the members of the committee that there are many Alumni who would like to have some part in subscribing the balance desired. It is deemed impracticable to solicit them individually, but contributions for any amount will be welcomed. Checks should be sent to Chas. N. Manning, treasurer of the fund, in care of the Security Trust Company, Lexington, Kentucky.

ANNOUNCEMENTS

University of Kentucky Club of Greater Cincinnati: Dinner on the first Tuesday evening of each month at the Industrial Club in Covington, located at Pike and Madison streets. The time is 6:30 in the evening.

University of Kentucky Club of Chicago: Luncheon third Monday in each month at 12:30 p. m., in the grill room of Marshall Field's Men's Store.

The Buffalo Alumni Club: Luncheon on the second Saturday in each month at the Chamber of Commerce building in Buffalo. The time is 1:30 p. m.

Louisville Alumni Club of the University of Kentucky: Luncheon first Saturday in each month in the dining room of the University Club, third floor Brown building, 325 West Broadway, time 12:30 p. m.

University of Kentucky Club of Ashland, Ky.: Dinner first Tuesday in each month at the Ventura Hotel. Time is 6:30 p. m.

THE PRESIDENT'S PAGE

The charming and efficient editor of this magazine won't permit me to have titles for these simple and feeble efforts to be of service to the University of Kentucky. He probably feels that if a person should read a title, interest would cease and the article would remain unread. Maybe he is right. If he would permit a title to this communication, it undoubtedly would be, "Why in the hell don't they join the Alumni Association?"

In the September issue of the Alumni Magazine of the University of Kentucky, we called attention to some of the most important factors in the program of our Alumni Association for the coming year. We have indicated that our most important problem concerns the building of an Alumni Association whose membership is large enough to materially assist in securing the financial and moral support that a state university of today deserves and to demand consideration in determining the policies of the University. And only a strong, unified Alumni Association can effect these.

The Executive Committee of the Alumni Association has set as the primary goal the number 1,000 which we hope will represent the number of members in the Alumni Association of the University of Kentucky by June, 1930.

At present we have only 400 members in the Alumni Association, which is disgraceful. At first thought it would seem an unsurmountable task when we attempt to increase the membership from 400 to 1,000 in one year. It does take one's breath away, but we must get 600 new members if the growth of our association is to be commensurate with the growth of the other departments of the University. Did you ever stop to realize that the Alumni Association is indeed a department of the University?

I would like to call your attention to the fact that the University of Kentucky graduated last year 518 men and women. Think of that! Then think of the fact that we have a membership in

the Alumni Association of only 400. Now put that in your pipe and smoke it.

The above fact dazes me, yet it intrigues me. What is the matter?

It shows me that one or more of the following conditions are existing in the mind and characters of our graduates.

1. Lack of interest in the University.
2. Failure to realize the value of a strong Alumni Association to our University.
3. Failure to realize that they can materially assist the University by being a member.
4. Failure to meet a just obligation unless made to do so.

My attention recently was forcibly called to item No. 4 by an old friend of mine who said that 95 percent of the people in the world do not meet their obligations until they are made to meet them, and that this is particularly true of financial obligations, and further that the failure to meet this obligation of membership in the Alumni Association was mainly due to the financial factor. He further said that the average Alumnus was really interested in the University of Kentucky and proud of his connection, but not to the extent of \$3.00.

Now that is an interesting line of thought and I am brought to believe that some force of some kind must be used on the

Alumni in order to make them meet the obligations an alumnus owes to his Alma Mater, an obligation which cannot be avoided or denied.

In the past it has been the policy of the Alumni Association of the University of Kentucky to request, seek, plead and pray for an increased number of memberships in the Association and now we are beginning a campaign of demanding an increased membership.

When this increased membership does come it will show larger interest on the part of the Alumnus in the University of Kentucky which is at least greater than the value they place on \$3.00.

Kentucky Alumnus

Published by and for the Alumni of the University of Kentucky monthly, except July and August, on the Campus of the University, at Lexington.

DR. ALFRED M. MILLER

NEW^{Arthur} of the passing of Dr. Alfred M. Miller, for many years head of the Department of Geology of the University of Kentucky, and for some time dean of the College of Arts and Sciences, and one time coach of the University football team, has been heard with great sorrow, both among the faculty members and Alumni. Dr. Miller during his years on the campus came to love the University and his standing as a scientist reflected glory on the institution. During his years as an instructor and teacher, he turned out geologists who since have made enviable names and reputations for themselves. During his early years he was coach of the football team and taught the students of the University the rules of the game which then was just coming into popularity in the United States. Although he had been inactive for a few years his passing will be sorely felt by the University and deeply regretted by all of those who knew him as an associate and as a teacher.

THE DEANS

LAST month we began the publication of a series of short biographies of the deans of the different colleges of the University of Kentucky. This is being done to give Alumni, especially the older ones, an accurate picture of the men who are heading the various colleges of your Alma Mater. This month the second biography, is that of Dean Paul Prentice Boyd, dean of the College of Arts and Sciences. They are being taken in rotation, alphabetically. Next month Dr. Thomas P. Cooper, dean of the College of Agriculture will be the subject of this feature.

HOMECOMING

THERE are two times during the year when special preparations are made to entertain Alumni who return to the Campus. One is during the commencement season, when the class reunions and the annual business meeting of the Association are held. The other time is for some football game, which is designated as the homecoming game. This year the homecoming game will be that between Kentucky and Tennessee. It is the closing game of the season and played on Thanksgiving day, November 28. This, needless to say, will be one of the best games of the entire year. Tennessee is strong, probably the strongest team in the South. Kentucky is vastly improved. It will be a game that will please even the most critical. Reservations and letters from Alumni from every section of the country indicate that there will be a record crowd of them back on this day. The Lexington Alumni Club will entertain with a dance in the Basketball Building. Thanksgiving night and you will meet all your friends there even if you fail to see them at the game. The officers of the Alumni Association, from past experience, have learned that Alumni who return to a big game do not wish to attend any functions of a serious or businesslike nature and for this reason have planned only the dance for this day. They know that Coach Harry Gamage and the Wildcat squad have prepared a little entertainment for you on Stoll Field in the afternoon, which will supercede any other form of entertainment. The attendance of Alumni at this game bids fair to be the largest in the history of a homecoming game. Make your plans to return. If there is anything in the way of tickets, hotel reservations or the like that the Alumni office can do for you, you have only to let us know. We are anxious to be of any service possible.

WHY JOIN THE ASSOCIATION

THIS month we are sending the Alumnus to a number of Alumni who have not paid their dues for this year. We do this with the hope that they will like it so much that they will send in their three dollars immediately. We are planning great things for the benefit of the University of Kentucky and we need a large active membership. The price cannot be the thing which holds you back. We think that you merely over look it. If you have not sent us that three dollars turn to the last page and fill out the blank and sent it back with your check, cash or money order. We need your support. Do it now.

Stoll Field Historic Gridiron

University Playing Field Is One of Oldest Gridirons in the United States and Is Birthplace of Intercollegiate Football In the South

(By DAN M. BOWMAR, JR.)

History and a perfect gridiron combine to give Stoll Field, home playground of the University of Kentucky Wildcats, a unique position among college athletic fields.

All who visit the lair of the Wildcats are impressed by the playing field, recognized as one of the best in the country, but few know that Stoll Field is the birthplace of southern intercollegiate football and that it is one of the oldest gridirons in the United States.

While the Wildcats now call this historic plot of ground their own, it was not a University of Kentucky team which first used the field for football. Nearly 50 years ago, April 9, 1880 to be exact, Transylvania College and Centre College met on Stoll Field, then known as City Park, in the first game of intercollegiate football ever played in the South. It was possibly the first game ever played west of the Allegheny mountains and followed by only a few years the first game ever played in this country.

The boys who played in this first game selected Stoll Field as the best ground to be found for a football battle and it has been recognized as the best gridiron in the State ever since. Transylvania won this first game, which was played according to the Princeton rules.

John Fox on Team

The Transylvania line-up included such men as John Fox, the author; the late James Logan, eminent Kansas City doctor; the late W. K. Shelby, former principal of the Johnson school of this city; J. L. Patterson, a member of the faculty of the University of Louisville; the late E. L. Graves, of Lexington, and others who later became prominent. Patterson was captain of the team.

Names appearing in the Centre line-up were Ernst, captain; Fulton, Dunlap, Vaughan, Clark, McCartney, Cowan, Moore, Cowles, Barbour, Taylor, January, Skinner, Webster, Read, Barrett and McKee.

The Lexington Transcript, of April 10, 1880, in commenting on the game, says: "A large crowd

of ladies and gentlemen, estimated at 500, witnessed the game. It was pronounced that football had the decided advantage of baseball as a means of amusement for spectators."

It is interesting to note that this fall is the golden anniversary of Kentucky football as the game was really started at Transylvania in the fall of 1879, although the first game was not played until the spring of 1880. A week after the first game played on Stoll Field, the Transylvania team went to Danville to play a return game with Centre and the Lexington squad was again victorious, winning the second game by a score of five and one-half to one-half.

Oldest Dual Series

Vanderbilt and the University of the South (Sewanee) claim the oldest intercollegiate dual series in the south, but history gives a clear claim for this honor to Transylvania and Centre as the Vanderbilt-Sewanee battles did not start until 1891—more than 10 years after the first Transylvania-Centre struggle.

The University of Kentucky used Stoll Field for football for the first time in the fall of 1880. The University, then known as A. & M. College, did not engage in intercollegiate football.

Football was not looked upon with much favor in those early days and often this disfavor was expressed by violence. An example of this attitude is given in a story appearing in the Lexington Press of December 5, 1880, which says:

"On Tuesday evening as some of the students of the A. & M. College were playing football, a man, who afterwards gave his name as White, came riding by, and not liking the noise the students were making, commenced firing a pistol at them. They all ran and were followed by this fellow, who repeatedly loaded and fired whenever anyone appeared in sight. This continued for about an hour, when two or three of the more courageous approached near enough to knock the pistol from his hand, when they all pitched in and gave him a severe drubbing. They then took his cartridges from him and started him home.

CAMPUS SCENES

A part of the engineering group with the Wendt Forge shop in the center. This building houses the most complete forge shop in the South and probably one of the best for student use in the United States. The equipment was given to the University by the Wendt Brothers of the Buffalo Forge Company and the building is named in their honor.

CAMPUS SCENES

Looking toward the Administration Building with the old heating plant in the foreground. Older Alumni will remember this as the location of the old whistle used primarily to indicate the close of class periods but used sometimes to celebrate athletic victories and the like. The old whistle has given way to a modern system of electric bells.

CAMPUS NOTES

Cosmopolitan Club

The Cosmopolitan Club, sponsored by the Y. M. and Y. W. C. A., of the University of Kentucky held its first meeting of the year recently. This club was begun some time ago by the two above named organizations for the purpose of bringing the foreign students into a closer relation with American ideals and customs and likewise help the American student to a better understanding of the foreigner. Countries represented in the membership of the club are: China, Bulgaria, Greece, Germany, Russia, Italy, France, England and Canada.

* * *

Professor Carl Lampert, head of the Department of Music is able to be out again after a short illness.

* * *

Automobile Parking

The problem of parking automobiles on the campus of the University has become such a problem within the last few years that the authorities for a while seriously considered banning them from the campus. However a set of parking rules, drawn up by Maury J. Crutcher, '17, Superintendent of Buildings and Grounds for the University has solved the difficulty for the present at least. Parking is allowed only on one side of the through drives and the main entrance has been made into a one way thoroughfare. Traffic officers have been employed to enforce the parking rules. So far the system is working perfectly and no violations have been reported.

* * *

Former Governor and Ex-United States Senator A. O. Stanley was speaker at a recent assembly of the students of the College of Engineering. Mr. Stanley spoke on "Traditions" and dealt with the subject in a manner to show its influence on the pioneers in Kentucky.

* * *

Essay Prizes Offered

As a memorial to his father, Mr. Louis Lee Haggin of Lexington, is sponsoring an essay contest among the students of the College of Agriculture. The contest is for the purpose of the advancement of scientific agriculture. The subject for the essay will be "The Eye of the Master Fattens the Cattle." The prizes will be as follows: First, seventy-five dollars; second, thirty dollars; third, twenty dollars; fourth, fifteen dollars and fifth, ten dollars.

Most Beautiful Girl to be Featured

This year the editors of the "Kentuckian" will feature the most beautiful girl in the University of Kentucky in that publication. Two famous artists will be asked to sit as judges and they will select the one that they consider the most beautiful. National publicity will be given to the one chosen in this contest.

* * *

H. C. Smith of Brandenburg, a freshman in the College of Law has been selected to fill a vacancy on the University Debating Team. He was successful in recent tryouts in which a large number competed.

* * *

Registration Grows

Since the publication of the last issue of the "Alumnus" a further increase in the number of students registered in the University of Kentucky has been announced. At the close of registration for this semester 2,897 students had registered in the University for instruction. This is an increase of 440 students over the first semester of last year.

* * *

Students living in the three dormitories for men have established a club which is known as the Men's Dormitory Association. At a recent meeting of that Club John Pennell, senior in the College of Engineering was elected president of the Association. A Dormitory Council composed of men from each of the three new buildings was formed to enforce the rules in effect in the dormitories. A ban was placed on the hazing of freshmen.

* * *

Faculty Enlarged

At a recent meeting of the Board of Trustees of the University several changes were made in the personnel of the faculty, resignations of some were accepted and promotions of others were made. Because of the increase in attendance each semester, the enlargement of some departments and the resignation and retirement of several of the faculty members, approximately thirty-five additions have been made to the faculty since last June.

* * *

Campus Visitors

Among the recent visitors on the campus, here to attend football games and other events were a large number of Alumni. Among the Alumni were:

D. M. Taylor, '25, who now is manager of the Carnegie, Pennsylvania plant of the McClintic-Marshall Company.

J. Griff Scott, '17, who is manager of the San Francisco office of the Buffalo Forge Company.

R. E. Tewell, former student and member of the class of 1902, is living near Walton, Kentucky.

James C. Nisbett, '06, who is a consulting engineer in New Orleans, Louisiana.

W. R. King, '28, who is a member of the industrial engineering department of the General Electric Company of Schenectady, New York.

L. A. Soper and Chester C. Young, both members of the class of 1922 was formerly from Paris, Kentucky and roommates during their four years at the University. Mr. Young is general agent for the Inter-Ocean Casualty Company of Dallas, Texas, while Mr. Soper is with the Cuban Power and Electric Company in Havana, Cuba.

Alvin E. Estes, better known as "Simp," a member of the class of '27, now is on the editorial staff of The Running Horse a New York sports paper.

William Glanz, '29, now is with the sports department of the Louisville Courier Journal.

Harry J. Bean, '22, who is with the Chain Belt Company of Detroit, Michigan.

G. H. Hailey, '01, who is secretary of the United Construction Company of Cincinnati, Ohio.

J. Irvine Lyle, '96, who for many years was a member of the Board of Trustees of the University and who is general manager of the Carrier Engineering Corporation at Newark, New Jersey.

Fred Fister, '29, who is with the Southern Bell Telephone and Telegraph Company at Louisville, Kentucky.

O. K. Lawson, '28, who is with the Chesapeake and Ohio Railway Company at Richmond, Virginia.

R. O. Cropper, '29, who is assistant to the Power Supervisor for the duPont Manufacturing Company at Birmingham, Alabama.

Miss Margaret Ingles, '16, who is with the New York Commission on Ventilation, New York City.

Edford M. Walter, B. M. E., 1915, is eastern division manager for the Ethyl Gasoline Corporation. He is located in Brooklyn, New York, where his address is 1212 Ocean avenue.

* * *

Elsie B. Heller, B. A., 1916, is National Student Secretary of the Y. W. C. A. She is located in Chicago where her offices are Suite 1000, 203 North Wabash avenue.

Basketball Schedule Made

Seventeen Games Will Be Played by Blue and White Net Squad

Seventeen games, thirteen of them to be played on the home floor, is the tentative schedule for the Wildcat basketball team this year. A two game series to be played in Lexington against the Creighton University team, will be one of the feature affairs on the schedule. The Creighton team is one of the outstanding teams in the basketball world.

Coach John Mauer called the first meeting of the squad recently and the first practice of the 1929-1930 season was held. Fifteen men responded to the call. The team this year faces the hardest schedule ever attempted by the Blue and White.

There are seven letter men as a nucleus for this year's team. They are captain McBrayer, "Big" McGinnis, "Little" McGinnis, Spicer, Combs, Trott and Owens. Some of the most likely prospects from the freshman team of last year are Roberts, Yates and Kleiser. Coach Mauer is drilling his men on the fundamentals of the game in the pre-season practices.

Numbered among the opponents of the Blue and White this year are some of the most formidable teams in the Southern Conference as well as the strong Illinois team in the Big Ten Circuit.

The tentative schedule is as follows:

December 14—Georgetown, here.

December 20—Miami, here.

December 31—Berea, here.

January 3—Clemson, here.

January 6—Illinois, there.

January 10-11—Creighton, here.

January 18—Tennessee, here.

January 24-25—Miss. A. and M., here.

January 31—Tennessee, there.

February 1—Georgia, there.

February 3—Clemson, there.

February 8—Georgia Tech., here.

February 14—Georgia, here.

February 18—Centre, here.

February 21—W. and L., here.

Subscribe for the Alumnus and become a member of the Alumni Association. A check for \$3 will prove your loyalty.

Lucy B. Gardner, B. A. 1924, is registrar of the New Mexico Normal University, and her address is 903 Seventh street, Las Vegas, N. M.

NEWS OF SPORTS

Football Season Half Over

Wildcats Score Total of 151 Points Against Six For Opponents

The Wildcat football team has most successfully completed the first half of its 1929 schedule by scoring a total of 151 points against its opponents while it allowed only six points to be made against itself. This one lone touchdown was made by the Washington and Lee team by way of a long forward pass, a form of attack for which they are noted. While the first four games were by no means real tests of the ability of the team, two old rivals were disposed of handily. Washington and Lee was defeated by a score of twenty to six, while the Centre College Colonels were overwhelmed by a thirty-three to nothing score. Maryville and Carson-Newman bowing to the big blue team by scores of forty and fifty-eight to nothing respectively.

With the exception of the Washington and Lee game the first half of the season might well be considered practice. However the last four games of the season will be played against Southern Conference teams that are considered among the best in the South. Clemson, V. M. I., Alabama, and Tennessee, all of them strong, will furnish the Wildcats with real opposition and will bring out the reason, if any, why they will not be champions of the South.

Two night games, both them resulting in top heavy scores for the Wildcats, were played on Stoll Field for the first time in its history. Much praise has been heard from football fans who otherwise could not have attended these games. While no other night games are scheduled for this year it is probable that several will be played next year.

The squad this year had been remarkably free from injuries up to the Centre game. In this tilt, Captain Covington was injured but as to its seriousness little is known as yet. Several other painful but more or less minor injuries were reported after this game. However, none of the injured men are expected to be on the bench for long.

A short summary of the four games already played follows:

Maryville

The University of Kentucky Wildcats handed out a 40 to 0 drubbing to the maroon-clad Hi-

landers of Maryville College on Stoll Field Saturday night, October 5, in the opening game of the football season. The passing, running, blocking, and tackling of the Big Blue was of such calibre in this fray as to open the eyes of the spectators when compared to early season form of other years.

It was the first football game ever played at night by the Wildcats, but the way the boys in blue acclimated themselves to the conditions certainly proved that as night prowlers, they are no disgrace to their namesakes.

The field was brilliantly illuminated for the initial night game, but none of the flood lights shone any brighter than the eleven streaks of lightning that Coach Gamage turned loose to flash up and down Stoll Field for six touchdowns. Approximately 7,500 persons witnessed the game. It was the largest opening-game crowd ever seen at the Kentucky stadium.

It was an outstanding evening for Kelly, the Springfield speedster. He opened his career under blue and white colors in typical Red Grange fashion, clipping off runs of 20, 40, and 70 yards for touchdowns in the first quarter. He was ably aided in these jaunts by the superb blocking of his team mates.

After the three markers had been chalked up by the first-string men, Coach Gamage gave his regulars a rest and his reserves a job. The advent of the second and third team into the game slowed up Kentucky's offense, but their rugged defense left no uneasiness as to Maryville's chance of scoring.

Washington and Lee

Facing their first major test of the 1929 season, the University of Kentucky Wildcats routed the Washington and Lee Generals on Stoll Field by a 20 to 0 victory on October 12. Approximately 10,000 persons filled McLean Stadium to watch the Big Blue put in its first real bid for the Southern Conference championship.

The opening period of the game, although played in W. and L. territory, was even up between the old rivals. In the second canto, Kentucky scored first when Spicer, crafty field general, drove 23 yards through tackle for a touchdown. Covington added the extra point. The touted General aerial combination of Faulker to Williams got into action a few minutes later, the elongated end evading the Wildcat secondary and sprinting

across the goal. Forguer blocked the attempted kick.

The Gamagemen increased their meagre lead in the second half when Kelley slipped through tackle, ricocheted off the sideline, cut back across the field toward his interference, and paced sixty yards for a marker. Spicer added another to the score in the final stanza after passes put the ball in position to score.

The entire Kentucky line met every General attack in a commendable manner. With a touchdown imminent, the visitors gained a first down within the ten-yard zone but the Blue wall held for downs and the ball changed hands on the three-yard strip. Outstanding in the line were "Little Max" Colker, at center, and Tom Walters, subbing for Drury.

Carson-Newman

With the first team playing only one quarter of the game, the University of Kentucky Wildcats swamped Carson-Newman's Fighting Parsons Saturday night, October 19, on Stoll Field to the tune of 58 to 0. Six thousand fans witnessed the game, which, although top-heavy, was loaded with thrills.

To annex the first marker, Warner Ford, of V. M. I. fame, on the first Wildcat play ran 54 yards through the entire Carson-Newman team. Thereafter, it was only a question of how many points the Kentuckians would pile up. Plowing through the Parsons like some great machine, the reserves made themselves heroes overnight. Blueshirted players, like so many shadows, slipped, plunged, and fought their way down the illuminated field for touchodwn after touchdown.

The entire Wildcat squad, with the exception of Spicer and Andrews, who were on the injured list, saw service during the game. Coach Harry Gamage surprised everyone by sending his subs in to start the game, and they likewise sprung a surprise with their show of scoring power. The regular varsity lineup played only in the third quarter.

It is impossible to say which player deserves especial credit; each was outstanding in this game. So, to make a long story short—everyone had a big time, including the Wildcats, who were, however, a bit weary after the track meet.

Centre

Scoring five touchdowns for a total of thirty-three points the University of Kentucky Wildcats overwhelmed their ancient rivals for football fame, the Praying Colonels of Centre College, Saturday afternoon, October 26. The game which was the thirty-fifth renewal of the argument between the two schools was played in Danville. A crowd of approximately 8,000 was in the stadium.

The first quarter of the game was scoreless and the Colonels displayed flashes of the Centre of old, but with the opening of the second period they were forced to give way before the superior weight and the superior skill of the big blue team. The second and third periods were all Kentucky's and the five trips across the Centre goal by Spicer, Jack Phipps, Kelley, Ford, and Andrews were made during these two quarters. During the fourth quarter Centre's chief concern was to keep the reserves from scoring again.

During the game Coach Gamage used thirty-four men, even members of the reserve team which had played a game the day before.

Most of the play during the first quarter was in Kentucky's territory and Centre made a noble effort to cross the goal line. Centre resorted to passes throughout the game but the Wildcats were well versed in meeting this threat and they completed but six out of eighteen attempted.

Both Kelley and Covington were closely watched during the entire game and they failed to get away for their usual flashy runs. Both were injured, Captain Covington getting the worst, during the game and had to be replaced by substitutes

Death Calls Dr. A. M. Miller

Professor Emeritus of Geology Succumbs During Trip to Florida

Dr. Arthur M. Miller, 68 professor emeritus of geology and former dean of the College of Arts and Sciences of the University of Kentucky, died Monday afternoon, October 28, according to word that reached the University just as the *Alumnus* was going to press. Dr. Miller and his brother, accompanied by a nurse and a doctor, were on their way from Asheville, North Carolina to Orlando, Florida to spend the winter. He was stricken with a heart attack at Palatka, Florida, and died before he could be moved to hospital.

Dr. Miller had been in poor health for several years, and retired from the University in 1925. Since that time he had been living in Asheville. He came to the University of Kentucky in 1892, and with the exception of a leave of absence for one year had carried out his duties continuously from that time until his resignation. He served as dean of the College of Arts and Sciences from 1908 until 1917. He was the first football coach at the University, giving his service to the student who were just learning the game and introducing it to the middle west.

The body will be sent to Eaton, Ohio, Dr. Miller's birth place, for burial.

University of Kentucky 1929 Varsity Football Squad

Front Row, reading from left to right—J. Drury, Williams, P. Drury, Walters, Thompson, Ford, Andrews, T. Phipps, Toth, Bronston, Urbaniak, Dysard.

Second Row—Meyers, Wright, McElroy, Covington, Colker, Kistner, Gilley, Johnson, Owens, Abley, Baugham.

Top Row—Wilder, Richards, Forquer, Gentile, Kelly, J. Phipps, Cavana, Dye, Kipping, Spicer, Kleiser, Rose, Yates.

Alumni Ballots Mailed

Three of Six Nominated for Board of Trustee Election Will Be Voted For

At a meeting of the Board of Trustees of the University on September 24, 1929, six members of the Alumni Association of the University of Kentucky were declared nominated as candidates for election to membership on the Board of Trustees. Those nominated were as follows: Thompson Ripley Bryant, B. S., 1908 of Lexington, Kentucky. Earl M. Heavrin, L. L. B., 1923 of Frankfort, Kentucky. Louis E. Hillenmeyer, B. S., of Lexington, Kentucky. N. Gray Rochester, B. A., 1912, of Louisville, Kentucky. William Rodes, B. S., 1908, of Lexington, Kentucky. William C. Wilson, B. A., 1913, of Lexington.

The names of these men were placed on a ballot and it has been mailed to every graduate of the University of Kentucky in accordance with the law of the State of Kentucky and the rules of the Board of Trustees. From these six, three are to be voted for. The names of the three receiving the highest number of votes will be sent to Governor Flem D. Sampson and from them he will appoint one to serve on the board.

The Alumnus named by the Governor will serve for a term of six years. The election is being held to fill the vacancy caused by the expiration of the term of Louis E. Hillenmeyer.

Special attention is called to the rules which make it necessary for Alumni voting to write names and year of graduation in the space provided on the envelope in which the ballot is mailed back to the secretary of the Board of Trustees. Unless this is done the vote will not be counted. All Ballots must be in before the regular December meeting of the Board of Trustees.

Homecoming Plans Announced

Thanksgiving Game Has Been Set Aside for Homecoming of Alumni

Thanksgiving Day, Thursday, November 28, has been set aside as homecoming day this fall and hundreds of Alumni and former students are expected back to the campus to witness the football game between the University of Kentucky Wildcats and the Tennessee Volunteers. This game always has been the most interesting and colorful game of the entire season. Tradition has made it so. This year with the memory of the nothing to nothing tie of last year fresh in the minds of the followers of the Wildcats, interest in this game is running high. This is being shown at

this early date by the number of reservations that have come into the office of "Daddy" Boles for Thanksgiving.

Our team this year is greatly improved and hope is high in the camp of the followers of the Blue and White. Of course Tennessee has improved too and with a victory over Alabama in their favor they will go into the game the favorites to win. However we predict a great game and no matter what the score the game will be one well worth seeing and one that will be marked by the height of sportsmanship on both sides.

The Lexington Alumni Club of the University will be the host to all returning Alumni and former students.

This club will sponsor a dance in the evening after the game and both teams will be the guests of honor at this affair.

The University, the Lexington Alumni Club and the officers of the Alumnus Association extend to every alumnus and former student a most cordial invitation to return on this homecoming day and assures them a most hearty welcome.

Alabama Will Play Here

Game With Crimson Tide Will Be Played on Stoll Field in 1930

According to an announcement made recently by the Athletic Department of the University, the University of Alabama football team will meet the Wildcats on Stoll field, November 15, 1930. S. A. Boles, Director of Athletics has signed a two year contract with the Alabama officials and the Wildcats will retaliate by meeting the Crimson Tide in Tuscaloosa the following season.

Not since the fall of 1922 when Kentucky eked out a six to nothing victory over the Tide has the Alabama team played on a Kentucky gridiron. Always a formidable team in Southern Conference sport, the Crimson Tide is rated among the top notchers in the South this year. The appearance of Wallace Wade and his Alabama warriors on Stoll field will be an outstanding event on the Kentucky athletic calendar.

Negotiations also are under way with the officials of Ohio State University to arrange a game in Columbus between the Wildcats and the Ohioans. Nothing definite has been settled as yet. There is also the possibility of a game being scheduled with the West Virginia Mountaineers.

The 1930 gird card which still is in its formative period will probably call for the Washington and Lee Generals to return for their annual scrap on October 18. The V. M. I. game will be played on Stoll field

NEWS OF THE CLASSES

1888

Belle Gunn, B. S., 1888, now is Mrs. Charles S. Kay and is living in Springfield, Ohio, where her address is 484 Park Place.

Anna Elizabeth Colegrove, B. A., 1915, is teaching Latin and French in the Bellevue High School, Bellevue, Kentucky. Her address is 239 Walnut street.

* * *

Jessie Elizabeth Acker, B. S. H. E., 1915, is teaching foods and nutrition in the North Texas State Teachers College, Denton, Texas. Her address is Box 247, Teachers College Station, Denton, Texas. Last year she taught during the summer sessions at the University of Colorado. However she plans to remain in Texas next year since the enrollment of her school reached 3300 students during the summer.

* * *

1916

George Withrow Warwick, B. M. E., 1916, is with the Armstrong Cork Company of Lancaster, Pennsylvania. He is located in Sevilla, Spain, where his address is Villa Laura, Calle Mejico. At the present he is visiting in the United States and can be reached by addressing him in care of the Armstrong Cork Company.

* * *

James H. Moore, B. A. 1916, is principal of the high school at Shelbyville, Tennessee. He and Mrs. Moore, formerly Ina Darnall, moved to Shelbyville recently from Gordonsville, Tennessee.

* * *

1917

C. F. Lee, B. M. E., 1917, is division toll line engineer for the Southern Bell Telephone and Telegraph Company in Louisville, Kentucky. His address is 3100 Dumesnil street.

* * *

1918

Hall M. Henry, B. M. E., 1918, is engaged in the operation of public utilities. He is located in Columbus, Ohio, where he has offices at 44 East Broad street. He is vice-president and in charge

of sales and operation of the Gas Utilities Incorporated. His residence address is 1613 Richmond avenue, Columbus.

* * *

Clyde D. Harrison, B. S., 1918, is manager of the Guardian Life Insurance Company for the District of Columbia and surrounding territory in Virginia and Maryland. On June 7, 1929, he was married to Miss Edna Knisley. They make their home in Washington, D. C., where their address is 3352 Eighteenth street, N. W.

* * *

1920

Reunion June, 1930.

Robert William Waterfill, B. M. E., 1920, is with the Carrier Engineering Corporation and his address is 850 Frelinghuysen avenue, Newark, New Jersey.

* * *

1921

Fred Luker, B. M. E., 1921, is an experimental engineer with the Hupp Motor Car Corporation in Detroit, Michigan. His residence address is 2325 East Grand Boulevard.

* * *

Ernest L. Baulch, B. S. M. E., 1921, is a telephone engineer with the Bell Telephone Laboratories in New York City. His residence address is 55 Pine street, Maplewood, New Jersey.

* * *

1922

Courtland L. Short, B. S., 1922, is with the Exchange Lumber Company of Roanoke, Virginia. His address is 311 Arbutus avenue.

* * *

Guthrie F. Duvall, B. A., 1922, is with the National City Bank of New York. He is located in Osaka, Japan, with a branch of that institution. At the present time he is visiting his old home, Bardstown, Kentucky, and plans to be in the United States for several weeks.

* * *

1923

Harold F. Waits, B. A., 1923, is head of the planning department of the Goodman Manufacturing Company of Chicago. His address is 4746 Greenwood avenue, Chicago.

* * *

Horace Miller Clay, B. S. M. E., 1923, M. E., 1928, is an industrial engineer and is with the Lunkenheimer Company of Cincinnati. His address is Westminister Apartments, Cincinnati.

* * *

Paul Cain, B. S. M. E., 1923, is an engineer with the Columbia Steel Company of Elyria, Ohio, where his address is 250 Wooster street.

1924

O. F. Galloway, B. A., 1924, M. A., 1925, is registered in the University of Kentucky working for his Ph.D. degree. His Lexington address is 657 Maxwellton Court.

* * *

Catherine Palmer Hanly, B. S. H. E., 1924, is a nutritionist doing health educational work for the Philadelphia Inter-State Dairy Council. Her address is 128 South Thirty-sixth street, Philadelphia, Pa.

* * *

Beverly B. Mann, B. A., 1924, is with the International Banking Corporation and is located in Manila, P. I. At the present time he is visiting in his home town, Bardstown, Kentucky.

* * *

Charles V. Ginocchio, B. S. M. E., 1924, is a draftsman for H. M. Griffin, architect of Daytona Beach, Florida. His address is 323 South Coats street.

* * *

1925

Reunion June, 1930.

Charles L. Cooper, B. A., 1925, is pastor of the Helena and Nepton Methodist churches. His address is Helena Station, Kentucky.

* * *

H. L. Brentlinger, B. S. C. E., 1925, is assistant secretary of the Charles M. Porter Company, general contractors, of Chicago, Illinois. His address is 1318 Builders Building, Chicago.

* * *

Halbert H. Thornberry, B. S., 1925, is assistant in pomological pathology in the Department of Horticulture of the University of Illinois, Urbana, Illinois.

* * *

F. Tyler Munford, Ex. 1925, is editor of the Union County Advocate in Morganfield, Kentucky.

* * *

Ellen V. Butler, B. A., 1925, is cataloger in the library of the University of Kentucky. Her address is 1212 Fountain Road, Lexington, Kentucky.

* * *

1926

J. A. Weingartner, B. S. M. E., 1926, is a technical engineer for the American Telephone and Telegraph Company. He is located in Atlanta, Georgia, where his address is 938 Hurt Building.

* * *

H. Corbin Adcock, B. A., 1926, recently has moved to Lexington where he is studying theology at Transylvania College. He was married to Miss Elizabeth Christian, of Campbellsburg, in May, 1928.

Dues Are Due

Unless you have sent in your dues for the year 1929-30, your Alumni dues will be due on June 1, 1929. A prompt payment will assure you a copy of the new Alumni Directory. Use the following blank so that the Alumni Office will have a complete record for its files.

ALUMNI SECRETARY, UNIVERSITY OF KENTUCKY:

Enclosed find \$3.00 in payment of my Alumni dues for one year, \$1.50 of which is for the KENTUCKY ALUMNUS.
