

Minutes of the Meeting of the Board of Trustees of the University of  
Kentucky, Tuesday, April 2, 1974

The Board of Trustees of the University of Kentucky met in statutory session at 2:00 p.m. (Central Daylight Time) on Tuesday, April 2, 1974 in the Board Room on the 18th floor of the Patterson Office Tower on the University Campus with the following members answering the call of the roll: Mr. Thomas P. Bell, Mr. William R. Black, Mr. Stanley Burlew, Mrs. Robert O. Clark, Mr. Albert G. Clay, Mr. Richard E. Cooper, Mr. John R. Crockett, Mr. George W. Griffin, Professor Paul Oberst, Mr. Zirl A. Palmer, Professor Paul G. Sears, Mr. William B. Sturgill, Mr. James Flegle, and Dr. John R. Woodyard. Absent from the meeting were Mr. Jesse M. Alverson, Jr., Mrs. Rexford S. Blazer, Mr. Eugene Goss, Mr. Garvice D. Kincaid, and Judge James A. Sutherland. The University administration was represented by President Otis A. Singletary; Vice Presidents Lewis W. Cochran, Robert Zumwinkle, Stanley Wall, and Lawrence E. Forgy; Mr. John Darsie, Legal Counsel; and Dr. Donald Clapp, Executive Assistant to the President. Representatives of the various news media were in attendance.

A. Meeting Opened

The chairman called the meeting to order at 2:00 p.m. (CDT). The invocation was pronounced by Mr. William R. Black. After the assistant secretary reported a quorum present, the meeting was declared officially open for the conduct of business at 2:02 o'clock.

B. Minutes Approved

On motion by Mr. Cooper, seconded by Mr. Crockett and passed, the reading of the Minutes of the March meeting of the Board of Trustees was dispensed with and the Minutes were approved as published.

C. President's Report

President Singletary presented his monthly report on University activities and recommended its acceptance. Mr. Clay accepted the report and it was ordered filed.

D. Recommendations of the President (PR 2)

Noting that the only item in PR 2 was a recommendation relative to personnel changes, President Singletary recommended approval. First asking if

there were any questions on the recommended changes and, there being none, Mr. Clay called for a motion. The motion to approve PR 2 was made by Mr. Black, seconded by Mr. Palmer and carried without dissent. (See PR 2 at the end of the Minutes.)

E. Supplemental Recommendations of the President (PR 3)

President Singletary explained that the recommendation in PR 3 relative to the certification of insurance values was required under the Trust Indentures securing the University Bond Issues and recommended that the Board members approve the appraised values on University buildings as recommended in PR 3.

There being no questions, on motion by Mr. Burlew, seconded by Dr. Woodyard and carried, the recommendation in PR 3 was approved as presented. (See PR 3 at the end of the Minutes.)

F. Honorary Degree Recipients Approved (PR 4)

President Singletary reported that he had contacted the five persons recommended as recipients of honorary degrees from the University and that all five had indicated that they would be able to be present for the conferring of the degrees if the Board of Trustees approved the recommendation of the Graduate Faculty and the University Senate.

Professor Paul Sears moved approval of the awarding of the honorary degree of Doctor of Letters to Mrs. Elizabeth Hardwick Lowell, the honorary degree of Doctor of Science to Dr. William R. Willard, and the honorary degree of Doctor of Laws to Mr. Ivan Jett, Mr. Ervin Nutter, and Mr. Frank Stanley. His motion was seconded by Mrs. Clark and passed without dissent. (See PR 4 at the end of the Minutes.)

G. Center for Real Estate and Land Use Analysis and Center for Labor Education Established (PR 5)

At President Singletary's request Dr. Cochran explained the need for the establishment of the Center for Real Estate and Land Use Analysis and the Center for Labor Education and recommended Board approval. There being no questions, on motion by Dr. Woodyard, seconded by Mr. Palmer and passed, the recommendation in PR 5 to establish the two new centers was approved. (See PR 5 at the end of the Minutes.)

H. Budget Revisions for 1973-74 Approved (PR 6)

Commenting that the proposed budget revisions were routine, Dr. Singletary

indicated that Dr. Clapp would be happy to answer any questions. There being none, on motion by Mr. Cooper, seconded by Mrs. Clark and passed, the budget revisions as given in PR 6 were authorized and approved. (See PR 6 at the end of the Minutes.)

I. Graduate Residence Center (PR 7)

At President Singletary's request Dr. Cochran explained that the recommendation in PR 7 would permit the continuation and extension in scope of the Graduate Residence Center in Louisville which was approved on an experimental basis in May 1972. If approved, the continuation of this Center would strengthen the present cooperative efforts in graduate education between faculties of the University of Kentucky and the University of Louisville.

On motion by Mr. Burlew, seconded by Mr. Crockett and passed, the recommendation relative to the Graduate Residence Center in Louisville was approved. (See PR 7 at the end of the Minutes.)

J. Amendment to Governing Regulations Proposed by Mr. Flegle (TR 1)

Mr. Flegle presented a recommendation from the Student Senate which would delete what he termed sexist phrases and words from the Governing Regulations of the University. In presenting the suggested amendment to the Governing Regulations, he said that it was not the intent of the Student Senate that the Governing Regulations be reprinted but that the sexist words and phrases should be deleted as amendments are made in the Regulations.

Since the Board may not act on a change in the Governing Regulations until a month has elapsed from the time of presentation, Mr. Clay accepted the proposed amendment for consideration at a later meeting. (See TR 1 at the end of the Minutes.)

K. Interim Financial Report (FCR 1)

Mr. Sturgill, as Chairman of the Finance Committee, said that the Committee had examined the Interim Financial Report as presented in FCR 1 and recommended its approval. He so moved and his motion was seconded by Mr. Palmer with all present voting "Aye". (See FCR 1 at the end of the Minutes.)

L. Exchange of Property (FCR 2)

After explaining the advantages to the University in the exchange of property between the University and the Christian Student Fellowship of Lexington, Mr. Sturgill said the Finance Committee recommended approval of the recommendation

in FCR 2 and he so moved. His motion was seconded by Mr. Black and, without discussion, passed. (See FCR 2 at the end of the Minutes.)

M. Acquisition of Property (FCR 3)

The last piece of property remaining in the triangle between Limestone and Rose Streets is the Jefferson Davis School property owned by the Fayette County Board of Education. Mr. Sturgill said the Finance Committee was in agreement on the desirability of acquiring this property and recommended that the Vice President for Business Affairs and Treasurer be authorized to purchase it. Mr. Strugill moved approval of the recommendation in FCR 3. His motion was seconded by Dr. Woodyard and passed without dissent. (See FCR 3 at the end of the Minutes.)

N. Revisions in the Student Code Adopted (SCR CR 1)

Mr. George Griffin, Chairman of the Student Code Revision Committee, said that the Student Code Revision Committee had met and considered the recommendations of the Advisory Committee on Student Code Revisions transmitted to the Board Committee with President Singletary's recommendations. The Advisory Committee sent sixteen recommendations for Code revisions plus five other supplemental recommendations to the President. President Singletary, after careful consideration, approved fourteen of the sixteen recommendations without change and disapproved two of them. The Board Committee considered the Advisory Committee recommendations and the recommendations and comments of President Singletary. The final report presented to the Board of Trustees for action, according to Mr. Griffin, concurred with the President's recommendations with the exception of disapproving a part of one revision and proposing one additional amendment.

Since the changes as recommended by the Student Code Revision Committee had been sent to the members in advance of the meeting and thus the members were familiar with the proposed revisions, Mr. Griffin moved that the Committee's report be approved. His motion was seconded by Mr. Crockett.

Mr. Flegle then moved that the report be amended by the elimination of Article VI. He said that it was the Student Government's position that the powers granted to the President in this Article are too vague and overly broad. Mr. Clay called for a second to Mr. Flegle's motion and, there being none, the amendment died for lack of a second.

Mr. Flegle then moved that the Student Code Revision Committee's report be amended to provide for the elimination of expulsion from the Student Code (Article I, 1.57). In support of the amendment Mr. Flegle explained that Dr. Singletary had approved the Advisory Committee's recommendation for the elimination of this section but the Student Code Revision Committee had voted to leave

the section in the Code. Mr. Griffin explained that the majority of the Student Code Revision Committee had felt that it was desirable to retain this option even though it might never be used. President Singletary said that in previous years he had supported its retention in the Code but that he now felt that the same result could be accomplished through the use of dismissal or suspension.

Mr. Clay called for a second to Mr. Flegle's motion to amend the Student Code Revision Committee report to provide for the elimination of expulsion from the Code. Mr. Bell seconded his motion. A roll call vote was taken with the following results:

"Ayes": Thomas P. Bell, William R. Black, Stanley Burlew, Mrs. Robert O. Clark, Albert G. Clay, Paul Oberst, Zirl Palmer, James Flegle, John R. Woodyard, and Paul Sears.

"Nos": Richard E. Cooper, John Crockett, George Griffin, and William Sturgill.

Mr. Flegle's motion for amendment having carried by a ten to four vote, Mr. Clay then called for a vote on Mr. Griffin's original motion as amended. All present voting "Aye" the Student Code Revisions were approved to become effective August 16, 1974.

#### O. Mr. Flegle's Last Meeting

Mr. Flegle said that inasmuch as a new president of Student Government would take office on May 1, this would be his last meeting as a member of the Board of Trustees and he wished to express his appreciation for the thoughtful and receptive manner in which the Board evinced its concern for students on campus and expressed his gratitude for the help and cooperation which he had received during his term on the Board. Mr. Clay in turn, expressed for himself and his fellow members, the pleasure which the Board had had in working with Mr. Flegle and wished him well in his future endeavors.

#### P. Meeting Adjourned

There being no further business to come before the meeting, on motion duly made, seconded and carried, the Board adjourned at 2:30 p.m.

Respectfully submitted,

Paul G. Sears, Assistant Secretary  
Board of Trustees

(PRs 2, 3, 4, 5, 6, and 7, TR 1, FCRs 1, 2, and 3, and SCRCR 1 which follow are official parts of the Minutes of the meeting.)

PRI

PRESIDENT'S REPORT TO THE TRUSTEES

April 2, 1974

1. FIRST SATELLITE COURSES TO BEGIN JULY 2

The first telecast to Appalachia via the June-launched communications satellite will be July 2, when 1,200 elementary teachers at 15 locations are to be instructed in the teaching of reading.

The project, underwritten by a \$1 million grant from the Appalachian Regional Commission, involves the University in the key role of developing high quality television courses and seminars to be telecast via the satellite to ten of the 13 Appalachian states.

The televised courses are graduate level and focus on the in-service needs of teachers of reading and career education.

The initial viewing of the programs will be at various colleges, junior colleges and high schools in Maryland, West Virginia, New York, Pennsylvania, Tennessee, Alabama, Virginia and North Carolina.

During the eight-week course session, the teachers occasionally will meet in Lexington, to discuss the subject matter. They will be tested after each telecast, and at the end of the course. The programs were prepared at the University.

2. LIBRARY MAKING CHANGES TO ACCOMMODATE INCREASED STUDENT USE

Paul Willis, director of libraries, says a major renovation at the old King Library building is expected to get underway soon.

Among changes are a facility on the third floor for the visually handicapped, larger quarters for the map department, an expanded Honors Program Room, a reserve room outside the exit in order to provide extended hours service, copy machines in the vending area, a public lounge added to the basement, new faculty carrels and a typing room, and an expanded government publications stack area.

There will be more smoking rooms, and conference/study rooms. Most vacated areas of the old building, available because of the recent addition, are being designed for student use, Mr. Willis said.

3. TV INSTRUCTIONAL PROGRAM DEVELOPED HERE UTILIZED NATIONALLY

A televised instructional program developed at the University currently is being leased by nine other educational institutions in the U.S., and negotiations are underway for its use by two foreign agencies.

Dr. Paul Owen, director of media services, said the program, SPSS Computer System, is produced in the UKTV studios in cooperation with the Computer Center staff and Dr. Michael A. Baer, assistant professor of political science. It originally was designed to acquaint students with utilization procedures of the Statistical Package for the Social Scientists.

The program is distributed by the National Opinion Research Center at the University of Chicago. Dr. Owen said negotiations are underway for use of the tapes by the Food and Agriculture Organization of the United Nations, Rome, Italy, and the University of Witwatersrand, South Africa.

4. DEVELOPMENT, RESEARCH AGENCIES PROVIDE SCHOLARSHIPS

Scholarships made available to outstanding graduating high school seniors by the UK Research Foundation and the Office of Development, valued at \$32,500, recently attracted 32 students to the campus to compete as finalists, earning that berth after earlier competition with about twice that number.

All of the students ranked in the 99th percentile nationally and scored a 30 or better, based on a 36-point grading system, on the American College Test.

Dr. D. R. Reedy, acting dean of undergraduate studies, said all students in the initial competition were national merit semi-finalists and finalists. He said the program was begun by the University to "attract Kentucky's finest students in the hope that their education in a Kentucky institution will encourage them to remain in the Commonwealth following their graduation."

5. TUTORS IN THREE COLLEGES HELP BOOST SCHOLASTIC LEVEL

The use of tutors in a new program in three Medical Center colleges has been credited with bringing up the grade level of those students who took part in the program.

Called Learning Services, and funded by the three colleges and the Federal government, the program employs graduate students to work with students in the Colleges of Pharmacy, Allied Health Professions, and Nursing.

Phoebe K. Helm, the director, said, "Students who come to us are in serious need of help and our tutors have done their job well." She said no student tutored five hours or more in a subject has made a failing grade.

6. UNIVERSITY LISTED AMONG TOP 59 U.S. INSTITUTIONS

The University has been listed by the Academy for Educational Development, a Washington-based educational consulting firm, as one of the nation's 59 leading research universities. Criteria for citation in the current ranking are the awarding of more than 50 doctorate degrees and receipt of more than \$10 million in federal funds for academic science research in 1970-71.

A spokesman for the Washington firm said the University was listed in the top category because it awarded 135 doctorate degrees and received \$14 million in federal funds for 1970-71.

7. MINORITY STUDENTS, PROGRAMS ON CAMPUS TO BE STUDIED

Victor P. Gaines has been named to conduct a study of the minority student situation on campus. The director of special student programs in the College of Medicine will serve as special assistant to President Singletary, and will have three areas of responsibility.

He will assess minority student programs, gauge attitudes on the campus that affect minority students, and begin to establish priorities to improve services and programs in these areas.

Gaines expects his job to be completed by the end of the summer, at which time he will return to his duties at the College of Medicine. The study to be conducted by Mr. Gaines has been in the planning stage for several months.

8. FIRE-DAMAGED ROOMS AT SPINDLETOP ARE RE-OPENED TO MEMBERS

Second floor areas of Spindletop Hall which were damaged by a fire in December, 1972, have been restored and the facility's entire public area again is open to members and their guests.

A sterling silver chandelier in the upstairs room where most of the fire was concentrated has been re-built by a Cincinnati firm, even though the solder holding the slender arms was melted by the intense heat. An \$80,000 smoke and fire detection system currently is being installed on all three floors of the building.

9. BUSINESS STUDENTS TAKE HONORS IN PARLIAMENTARY PROCEDURES CONTEST

Phi Beta Lambda, an organization for business students, took top honors in the parliamentary procedures contest recently conducted at the group's state convention. The team will represent the University at the national convention in June in San Francisco. Team members are Steve Hamilton, chairman; Patty Hamilton, vice-chairman; Glenn Larson, secretary; John Duggins, parliamentarian, and Bob Goderwis, participating member.

10. LAW ENFORCEMENT SERVICE TESTING TELECOPIER FOR SIX WEEKS

The Kentucky Criminal Law Information Service, housed in the Law Library, has expanded its service to the law enforcement and legal professions, on an experimental basis, to make criminal law materials instantly available to selected justice officials around the state.

Utilizing a Xerox Telecopier, which transmits and receives copies of documents over a regular telephone line, direct connection is made to more than a dozen similar units in Frankfort, Richmond, Harrodsburg, Danville, Winchester and Lexington.

All offices in the project are maintaining a log to determine how often the Telecopiers are used, and an assessment will be made after the trial period of about six weeks. The service is an extension of services already provided by KCLIS, a project of the Kentucky Crime Commission and currently in the second year of operation. The ready-reference service has a staff of two attorneys, a librarian, a secretary and part-time student researchers. They provide information to attorneys, judges and law enforcement officials.

11. COMMUNITY COLLEGES INVOLVED IN COOPERATIVE COAL INDUSTRY PROJECTS

Civil engineering students at Somerset Community College are involved in a research project, conducted in Letcher county on the effects of short-wall mining, under the direction of the College of Engineering. The students are supervised by Danny Jasper, instructor in civil engineering at Somerset.

Short-wall mining is the process of purposely caving in the mine shaft, allowing for the removal of a higher percentage of coal. The students are observing above ground changes.

A cooperative program with Hazard field coal companies has initiated a continuing education course in surveying at Hazard Community College. Presently, 23 employed men are taking the course in an effort to upgrade their skills and increase their chances for job advancement.

12. MAYSVILLE CC FRESHMAN CANDIDATE FOR DECA NATIONAL OFFICE

Myra Barker, freshman at Maysville Community College, will represent Kentucky at the National Career Development Conference to be held in Chicago April 28-May 4. She is a candidate for national president of DECA, Distributive Educational Clubs of America, which she serves as vice-president of her local chapter.

Miss Barker scored highest in Kentucky in a test given to aid in the selection of the national president of DECA.

### 13. DEBATERS CONTINUE WINNING WAYS

The University debate team continued to bring home honors during March from speech and debate events.

The top varsity debate team captured first place in the Midwestern Invitational Tournament at Butler University, Indianapolis. Jim Flegle, Bardwell, and Ben Jones, Campbellsville, won a 4-1 decision over Northwestern University's team to claim the championship trophy. Jones also won the first place speaker's trophy over 96 other debaters, while Flegle took fifth place.

The debaters took championship trophies in both novice and varsity debate at an invitational meet on the University of Missouri campus in St. Louis. Mary Thomson, Nashville, and Mike Chapman, Paducah, won the final elimination over a Morehead State University team on a 2-1 decision.

First place honors also were brought home from the Florida Invitational Debate Tournament, held in Gainesville. Miss Thomson, and Gil Skillman, Kettering, Ohio, won a 2-1 decision over Catholic University to claim the championship trophy. They won over 32 teams representing 27 institutions from 15 states.

### 14. BUSINESS COLLEGE AGENCY COMPILES FIRST PRICE INDEX REPORT

Dean Charles Haywood of the College of Business and Economics, who also serves as chairman of the Kentucky Council of Economic Advisors, says the recently-developed cost index for Lexington and Louisville will be expanded to include a cost study in other Kentucky cities.

The Council's first report, released two weeks ago, showed that the cost of a representative group of food items in the Lexington area rose by 2.3 per cent in a five-month period dating back to September.

The report is based on a study initiated a year ago by the Office of Business Development and Government Services, which is housed in the College of Business and Economics. Purpose of the study is to develop a consumer price index comparable to the national index of the Bureau of Labor Statistics, which does not include any Kentucky cities.

Dr. Haywood said part of the reason for the food price increases has been shortage and increase in transportation costs. He said the country has been going through a series of crises for several months.

### 15. WRIGHT'S MARY TODD LINCOLN OPERA PERFORMED IN NEW JERSEY

"Wing of Expectation," written by Dr. Kenneth Wright, professor of music, during the University's 1965 Centennial celebration, is still being performed. Based on the life of Mary Todd Lincoln, the opera was presented three times last month at Red Bank, N.J., under the joint sponsorship of Brookdale Community College and Theatre-8, Lincroft, N.J. The company gave three performances in 1970 at Ford's Theatre, Washington, under the auspices of the Kentucky Society of Washington.

16. APPALACHIAN REGIONAL COMMISSION PROJECTS BOOST FEBRUARY GRANTS

With nearly a half million dollars from the Appalachian Regional Commission to various programs in the College of Education, to be directed by Dr. J. T. Stevens and Dr. David L. Larimore, plus \$62,108 from the National Institutes of Health for planning development programs in the College of Dentistry, and special project programs in the College of Medicine, which have received \$115,171 from the Public Health Service, research grants received through the UK Research Foundation during February amounted to just under \$1 million. Total awards to date, in the present fiscal year, amount to \$14,480,422.65.

COLLEGE OF AGRICULTURE

Agronomy--J. K. Evans, Pasture Renovator Field Tests, John Deere and Co., \$10,000. Animal Sciences--D. G. Ely, Rumen Stimulatory Properties of Distillers Feeds, Distillers Feed Research Council, \$5,000 additional. R. W. Hemken, Potash Requirement of the Dairy Cow, International Minerals and Chemical Corp., \$1,000 additional. Veterinary Science--J. T. Bryans, Equine Disease Research, Fort Dodge Laboratories, \$6,557.08 additional. E. T. Lyons, A Compound R-8858 in the Horse, Syntex, \$3,600. E. T. Lyons, Dichlorvos Resin Formulation in the Horse, Thuron Industries, Inc., \$3,000.

COLLEGE OF ARTS AND SCIENCES

Computer Science--H. C. Thacher, Collaborative Research-National Activity to Test Software (Nats II), National Science Foundation, \$40,000. Geography--P. P. Karan, Sikkim Map Project, National Geographic, \$600 additional. History--H. Hamilton, Part A., "Kentucky Bicentennial Bookshelf," National Endowment for the Humanities, \$12,450.

COLLEGE OF EDUCATION

Curriculum and Instruction--J. T. Stevens, An Implementation Project in Secondary School Science, NSF, \$25,982. Education, Psychology, and Counseling--D. Larimore, Instructional TV Component, Appalachian Regional Commission, \$153,532 additional. D. Larimore, Career Education In-Service Teacher Training and Live Seminar, \$98,292 additional. D. Larimore, Elementary Reading In-Service Teacher Reading, ARC, \$54,877 additional. D. Larimore, 4 Channel Audio System Career Education, ARC, \$16,627 additional. D. Larimore, Computer Based Component, ARC, \$23,894 additional. D. Larimore, Evaluation, ARC, \$45,312 additional. D. Larimore, Project Management and Administration, ARC, \$97,566 additional. Special Education--E. Blackhurst, Supplementary Education for Administrators of Resource Centers for Handicapped (Project Search), U. S. Office of Education, \$6,568 additional.

COLLEGE OF ENGINEERING

Mechanical Engineering--C. F. Knapp and E. P. McCutcheon, Causes of Decrements in Aircrew Performance: Physiological Changes Produced by Vibration and Other Environmental Stresses, Air Force, \$24,829 reduction. M. K. Marshall, Training Program for Wastewater Treatment Plant Operators, Environmental Protection Agency, \$22,968. Office of Research and Engineering Service--R. E. Puckett, Use of Digital Computer, Fuller, Mossbarger and Scott, \$500 additional.

OFFICE FOR INTERNATIONAL PROGRAMS

D. Blythe, Kentucky Partners of the Alliance, \$1,000 additional.

MEDICAL CENTER LIBRARY

O. Hamlin, Kentucky, Michigan, Ohio Regional Medical Library Program, Wayne State University, \$1,533.60 additional.

COLLEGE OF ALLIED HEALTH

Clinical Pastoral Counseling--R. Carpenter, UKRF Clinical Pastoral Education Account, Miscellaneous, \$391.19 additional. Social Services--N. Smith, Social Services Miscellaneous, Zonta Club of Lexington, \$20 additional.

COLLEGE OF DENTISTRY

G. Hill, Special Project Grant (Disadvantaged Students), National Institutes of Health, \$12,341 additional. G. Hill, Student American Dental Association Account, American Student Dental Association, \$50 additional. G. Hill, Student Aid Account, American Association of Dental Schools, \$2,500 additional. G. Lewis, General Research Support, NIH, \$13,887 additional. G. Lewis, General Research Support, NIH, \$18,330. Orthodontics--N. Wickwire, American Association of Orthodontists, Mercantile Trust Company National Association, \$200 additional. Planning Development--T. Smith, Health Professions Special Project, NIH, \$62,108 additional.

COLLEGE OF MEDICINE

Office of the Dean--J. Burdette, Health Professions Special Project Grant--William R. Willard Department of Family Practice, Public Health Service, \$53,537 additional. W. Jordan, Research Fund, Commonwealth Life Insurance Company, \$3,500 additional. W. Jordan, General Research Support Grant--Control Account, NIH, \$40,410 additional. F. Lemon, Continuing Education Development Fund, Miscellaneous, \$976 additional. M. Sandifer, Health Professions Special Project Grant Program, PHS, \$115,171 additional. Biochemistry--G. Robinson, Study of Cyclic Nucleotide Phosphodiesterase, NIH, \$17,360. Community Medicine--A. Benenson, Field Professor for Buffalo Trace and Gateway Regions, Inc., Health Development Association of Northeastern Kentucky, \$6,760 reduction. A. Benenson, Rubella Screening Program, U. S. Ireland Army Hospital, \$8,000. Medicine--J. Banwell, Gastroenterology Research and Development Fund, Miscellaneous, \$650. C. Nuzum, Liver Research Fund, Miscellaneous, \$515.60 additional. Pediatrics--J. Calton, Children's Fund, Miscellaneous, \$50 additional. N. Holland, Kidney Research Fund, Warner/Lambert Company, \$1,000 additional. V. James, Care and Teaching in a Cystic Fibrosis Center, National Cystic Fibrosis Research Foundation, \$3,000. W. Wheeler, Resident's Fund, Fayette County Children's Bureau, \$150 additional. Surgery-Division of Ophthalmology--Development Fund, Lexington Lions Club, \$4,000 additional.

COLLEGE OF PHARMACY

H. Kostenbauder, College Research and Development Grant, Appalachian Regional Hospital, Procter and Gamble, and Park and Davis, \$1,806 additional.

17. SIGNIFICANT ACTIVITIES OF FACULTY AND STAFF

Carol Polsgrove, English instructor at Maysville Community College, recently published articles in "The Washington Star," on the "APPALSHOP," and on the same subject in "Sight and Sight," International Film Quarterly.

Dr. Kenneth K. Kubota, assistant professor of mathematics, has been named recipient of an Alfred P. Sloan Foundation research fellowship.

Dr. P. P. Karan, chairman of the Department of Geography, returned at the end of March from a tour of two Asian countries. He participated in a symposium on the geography of the Himalayas, held in New Delhi, and spent two weeks in Sikkim, updating earlier field work data collected in that country.

Dr. William A. Withington, associate professor of geography, was in Houston in early March as a social sciences panel reviewer for the National Science Foundation, screening Undergraduate Student Equipment Program applications for matching funds to be submitted to the Foundation.

Dr. Herbert Reid, associate professor of political science, is editor of "Up the Mainstream," a book to be published this month by David McKay, publishers. Dr. Reid wrote five articles for the volume; 25 articles are by other scholars on ideology in American politics and everyday life.

Dr. William H. Brooks, chief resident of neurosurgery at the College of Medicine, has been named recipient of the Southern Neurosurgical Society's first place award for his paper, "The Immunology of Brain Tumors."

Dr. Eldon D. Smith, professor of agricultural economics, was in New York last month to confer with others on the possibility of publishing a jointly-edited collection of readings relating to agricultural marketing problems of less-developed areas. The meeting was called by officials of the Agricultural Development Council.

A first meeting of the National Advisory Committee to the Subcommittee on Agriculture, Marketing, and Related Industries, of the Extension Committee on Organization Planning, will be held in Minneapolis May 14-16. Dr. Harold G. Love, associate extension professor of agricultural economics, is a member of the committee.

The first meeting of the newly-formed Kentucky Philological Association, held at Murray State University, was attended by six members of the Department of English. They were Profs. Joseph A. Bryant, Stephen Manning, John Via, Gordon Cheesewright, Richard Sugg, and Thomas B. Stroup. They all read papers or took part in panel discussions. Dr. Stroup, first president of the Association, presented the opening address and presided at the general meetings.

Dr. Joan Blythe, assistant professor of English, has been granted a fellowship for the summer at the Southeastern Institute of Medieval and Renaissance Studies, where she will be studying in the seminar on "Medieval Virtues and Vices."

Dr. Roger W. Barbour, professor of zoology, with Dr. Carl H. Ernst of George Mason University, whose Ph.D. was from UK in 1969, received the 1974 Wildlife Publication Award, given by the Wildlife Society, a 7,700-member organization of wildlife biologists, at its annual meeting in Denver, Colo., on April 1. The two men were honored for their book, "Turtles of the United States," published by the University Press of Kentucky, in 1973. Dr. Barbour, with Dr. Wayne Davis, professor of zoology, has written "Mammals of Kentucky," the fifth volume in the Kentucky Nature Series which will be published this year by the University Press.

Gwen E. Mead, assistant professor, College of Social Professions, presented a study, "Undergraduate Decision Making for Social Work Careers," at a recent meeting of the Council on Social Work Education, in Atlanta. Other college faculty members at the meeting were Kennard Wellons, Judith Lacerte, Richard Brautigam, Edgar Mack and Mary Jane Mowak.

Dr. Ernst Jokl, professor of allied health, has been elected a member of the Aerospace Medical Association. Dr. Jokl is a Pilot Class 'A' and author of a textbook on "Aviation Medicine."

Prof. Aimo Kiviniemi, and Mrs. Kiviniemi, have recently returned from a ten-college tour where they performed folk songs and art songs learned in Finland two years ago when they were in that country during Prof. Kiviniemi's sabbatical. The study was made possible by a grant from the UK Research Foundation and the Musikitiedotus Keskus Foundation of Finland. The program also was performed for various service clubs and other groups.

Dr. Mark M. Luckens, associate professor of materia medica, has been named to the executive committee of the American Association of Poison Control Centers.

Dr. Earl Kauffman, retiring as director of the Council on Aging on July 1, was the recipient of the Optimist Cup, given by the local club and considered by many to be the city's highest award for community service.

Mrs. Brian Ann Arnett, assistant director of education, Department of Dietetics and Nutrition, has been named Outstanding Young Dietitian of the Year by the Bluegrass District of the Kentucky Dietetic Association.

Office of the President  
April 2, 1974

PR 2

Members, Board of Trustees:

RECOMMENDATIONS OF THE PRESIDENT

I. Appointments and/or Other Staff Changes

Recommendation: (1) that approval be given to the appointments and/or other changes which require Board action; and (2) that the report relative to appointments and/or changes already approved by the administration be accepted.

Background: The following recommended appointments and/or other staff changes require approval by the Board of Trustees in accordance with Part VIII-B of the Governing Regulations of the University. These recommendations are transmitted to the Board by the appropriate vice president through the President and have his concurrence.

Under the Governing Regulations the authority to make certain appointments and/or other staff changes is delegated to the President or other administrators who are required to report their actions to the Board. This report follows the recommendations requiring Board approval.

BOARD ACTION

New Appointments

- James L. Munro, Professor, Department of Social Work, College of Social Professions, effective August 1, 1974  
Howard Kirk Downey, Instructor, Department of Business Administration, College of Business and Economics, effective August 1, 1974  
Richard G. Schroeder, Assistant Professor, Department of Accounting, College of Business and Economics, effective August 1, 1974  
Betty Powers, Assistant Professor, Department of Vocational Education, College of Education, effective August 1, 1974  
Arthur A. Gonty, Assistant Professor, Department of Oral Surgery, College of Dentistry, effective June 1, 1974  
N. K. Burki, Instructor, Department of Medicine, College of Medicine, effective April 1, 1974

Members, Board of Trustees:

SUPPLEMENTAL RECOMMENDATIONS OF THE PRESIDENT

I. Certification of Insurance Values

Recommendation:

1. That the Assistant Secretary of the Board of Trustees be authorized to certify, on behalf of the Board, that the buildings comprising the Board's Consolidated Educational Buildings Project are currently appraised at \$108,313,627.00 and that the same are insured in the amount of \$97,482,264.00.

2. That the Assistant Secretary of the Board of Trustees be authorized to certify, on behalf of the Board, that the buildings comprising the Board's University of Kentucky Housing and Dining System Revenue Bonds, together with certain related buildings comprising other projects have a current appraised value of \$40,173,611.00 and that the same are insured in the amount of \$36,156,250.00.

3. That the Assistant Secretary of the Board of Trustees be authorized to certify, on behalf of the Board, that the buildings comprising the Community College Educational Buildings Revenue Bonds Project are currently appraised at \$24,207,389.00 and that the same are insured in the amount of \$21,786,650.00.

Background:

The Trust Indentures securing the University's Bond Issues require that the Board certify, to the Trustees of the various Bond Issues, the current appraised value of the projects and the insurance coverage carried thereon. This action is requested to enable the Assistant Secretary to make that certification.

HONORARY DEGREE RECIPIENTS

Recommendation: that approval be granted to awarding the honorary degree of Doctor of Letters to Mrs. Elizabeth Hardwick Lowell; the honorary degree of Doctor of Science to Dr. William R. Willard; and the honorary degree of Doctor of Laws to Mr. Ivan Jett, Mr. Ervin Nutter, and Mr. Frank Stanley.

Background: The Committee on Honorary Degrees has recommended to the Graduate Faculty and the University Senate that these honorary degrees be awarded to the persons listed above, and these two bodies have expressed their approval of the recommendation.

Biographical sketches of each recipient are attached.

ELIZABETH HARDWICK LOWELL

Recommended  
for  
Doctor of Letters

Elizabeth Hardwick Lowell was born in Lexington, Kentucky, on July 27, 1916, one of eleven children. She received the A. B. degree with honors in English in 1938 and the M. A. in English in 1939 from the University of Kentucky.

After further academic study at Columbia University, she devoted full time to the writing of critical articles on social and literary topics. These articles were published in Columbia University Forum, Partisan Review, Harper's Magazine, Vogue, and New Yorker.

She has authored two novels, The Ghostly Lover, in 1945, The Simple Truth, in 1955 and is completing a third, The Cost of Living. In 1960 she edited The Selected Letters of Henry James and in 1962 completed a collection of her essays, A View of My Own: Essays in Literature and Society.

In the 1960's she became one of the founders of the New York Review of Books, a biweekly journal that has given great impetus to the expression of critical opinion in the English speaking world.

Her articles on the American Theatre in the New York Review and Vogue led to her receiving the George Jean Nathan Award for Dramatic Criticism for 1966-67. She was the first woman recipient of that honor.

Her honors include the George Jean Nathan Award, a Guggenheim Fellowship, a Rosenwald Fellowship, and more than once winning notice in the O. Henry Memorial Awards Listing for distinguished short fiction.

WILLIAM R. WILLARD

Recommended  
for  
Doctor of Science

Dr. William R. Willard, dean of the new University of Alabama School of Health Sciences in Tuscaloosa, was born on November 20, 1908 in Seattle, Washington. He attended Yale University where he received a B.S. degree in 1931, M.D. degree in 1934, and a Dr.P.H. degree in 1937. In 1959, he was awarded an honorary Doctor of Sciences degree by Transylvania College.

Dr. Willard's distinguished professional career began in 1937 as a deputy state health officer in Maryland and led to his appointment in 1956 as the first vice president and dean of the newly created Albert B. Chandler Medical Center and its College of Medicine, University of Kentucky.

He has been influential in the development of new systems of health care. He introduced advanced concepts in community medicine and behavioral science to other health professions -- concepts which schools around the country have copied. He worked for the development of specialists in family practice to provide more effective primary care to the entire family unit and is recognized nationally for his service as chairman of the American Medical Association's ad hoc committee on Education for Family Practice.

Dr. Willard was the recipient of the Distinguished Service Awards of the American Board of Family Practice in 1970, of the Kentucky Medical Association in 1970, and Kentucky Public Health Association in 1972. In addition, he was awarded the Abraham Flexner Award for Distinguished Service to Medical Education by the American Association of Medical Colleges at its annual meeting in November, 1972.

IVAN JETT

Recommended  
for  
Doctor of Laws

Ivan Jett received the B.S. degree from the University of Kentucky in 1931. His service to Kentucky has extended over forty years in many capacities. In 1971 he retired as Executive Vice President of the Kentucky Retail Federation after serving in that capacity for nine years. He was founder of that organization.

Mr. Jett first received national recognition in the 1930's when as a Vocational Agriculture teacher at Stamping Ground, Kentucky, his group won the Gold Emblem Award offered by the Future Farmers of America in 1937 and 1939. In 1940 he became Kentucky's first Director of Marketing and established the Division of Weights and Measures in the State of Kentucky Department of Agriculture.

During the last twenty years Mr. Jett's counsel has been sought by at least three Governors. He was a charter member of the Blueprint for Kentucky Agricultural Progress Committee and was most influential in securing funds for the construction of the Agricultural Science Building North, the Seay Auditorium and the Agricultural Science Building South. He has worked closely with three deans of Agriculture of the University of Kentucky.

Throughout his career he has continued to find time to serve on voluntary committees, boards, and commissions to further research and development of economic conditions in Kentucky. A complete listing of these activities would exceed fifty groups of which he has been a member, director, or officer.

ERVIN J. NUTTER

Recommended  
for  
Doctor of Laws

Ervin J. Nutter is President of Elano Corporation, Xenia, Ohio, a firm he has headed from its beginning to its present standing as one of the world's foremost producers of precision metal parts for aircraft and industrial usage.

A native of Hamilton, Ohio, Mr. Nutter earned his degree in mechanical engineering from the University of Kentucky, in 1943. He joined the engineering staff at Wright Patterson Air Base at Dayton, Ohio, and in a nine-year period rose to a position as chief of the Test Branch and official acclaim as "best engineer in the Air Force" for his skill in testing aircraft equipment.

His Ohio firm earned recognition as one of just 17 suppliers in the country that had contributed most effectively to the "Zero Defects Program" inaugurated by the Air Force. For his engineering and development talents, Mr. Nutter also has received one of the highest commendations awarded by the U. S. Atomic Energy Commission. Further, he was named among the charter members of the Aviation Hall of Fame and currently is a member of its board of directors.

Besides the presidency of Elano Corporation, Mr. Nutter's business interests include the Ohio California Corporation, a real estate development firm of which he also is president, and Kenjo Farms of Ohio, which he serves as general manager.

Mr. Nutter is also active in an international organization whose goal is the preservation of threatened species of wildlife.

He has served the University of Kentucky Alumni Association as director and as president and is a member of the Century Club, all of which were factors in his selection as the 1967 recipient of the Alumni Distinguished Service Award. He also was installed in the Hall of Distinguished Alumni in 1970. He is a member of the University of Kentucky Fellows organization, which honors the University's major supporters in the area of private giving.

FRANK L. STANLEY

Recommended  
for  
Doctor of Laws

Frank L. Stanley, editor-publisher of the Louisville Defender, is a former college professor and school administrator who has greatly distinguished himself as a newspaperman during the past 37 years.

A resident of Louisville since the age of six, he earned degrees from Atlanta University and the University of Cincinnati and attended the American Press Institute at Columbia University.

An All-American football player, he also was a varsity debater, president of the student council, and was editor of his college paper. He went on to serve as head of the English Department at Jackson State College.

In 1946 and again in 1948 he served as chairman of groups appointed by the Secretary of Defense to make inspection tours of U.S. troops in Europe. Subsequent reports to the Gillam Board paved the way for desegregation of the Army.

Mr. Stanley, with the support of Governor Earle Clements, authored Senate Resolution No. 53 in 1950, paving the way for higher education integration in Kentucky. In 1955, he was a delegate to the White House Conference on Education.

He served his college fraternity, Alpha Phi Alpha, as its national president in 1955-57 and has served as president of the National Newspaper Publishers Association. In 1969 and again in 1972 he was named a juror for the coveted Pulitzer Awards and his newspaper has won 88 national and state awards. His syndicated column, People, Places & Problems, was named tops in the nation twice by the NNPA and he has won numerous other honors in editorial and column writing.

Mr. Stanley has for many years been in the forefront in human rights efforts in Kentucky and the nation and has served on numerous commissions.

Members, Board of Trustees:

CENTER FOR REAL ESTATE AND LAND USE ANALYSIS  
AND CENTER FOR LABOR EDUCATION ESTABLISHED

Recommendation: that approval be given to the establishment of a Center for Real Estate and Land Use Analysis and a Center for Labor Education in the Office of Business Development and Government Services of the College of Business and Economics.

Background: On June 8, 1971, the Board of Trustees approved the change in name of the Office of Development Services and Business Research to the Office of Business Development and Government Services to be composed of the three Bureaus:

1. Bureau of Business Extension
2. Bureau of Government Services
3. Bureau of Business and Economic Research.

This action was taken to permit the activation of an extension program for state and local government which was originally planned for the Institute for Public Administration.

Approval of this present recommendation will permit the addition of the two Centers to the Office to carry out a program of research and extension on real estate and land use analysis funded under an agreement with the Kentucky Real Estate Commission and an expanded labor school program beginning July 1, 1974 under an agreement to be developed with the Kentucky Department of Labor.

Members, Board of Trustees:

GRADUATE RESIDENCE CENTER

Recommendation: That authorization for the existing Graduate Residence Center in Louisville, Kentucky be continued and extended in scope to facilitate additional cooperative program efforts in graduate education by the faculties of the Colleges of Education of the University of Kentucky and the University of Louisville.

Background: The Board of Trustees on May 9, 1972 approved the establishment of the Graduate Residence Center on an experimental basis for Teacher Corps Cycle VII in Louisville for a two year period. This Center has operated very effectively since that time to the present for the benefit of students in that area and it is now recommended that the authorization be continued and the scope expanded to permit the continuance of the cooperative efforts between these two institutions. This recommendation has been approved by the Graduate Faculty and the University Senate.

LEXINGTON, KENTUCKY 40506

JIM FLEGLE  
PRESIDENT

March 19, 1974

BOB CLEMENT  
VICE PRESIDENT

To the Board of Trustees:

Student Senate Recommendation for Governing Regulations changes

RECOMMENDATION: that the Board of Trustees adopt the attached wording changes to the GOVERNING REGULATIONS of the University of Kentucky.

These changes are to be incorporated as expeditiously as possible.

Background:

This recommendation comes from the SG Senate and administration. The Student Senate voted to recommend these changes at the February 5, 1974 meeting. Their rationale was as follows:

"The influences of language structure upon our mental processes has been the subject of much thought. Whorf's 1956 linguistic-relativity hypothesis proposed that the structure of a language partially determines our conception of the world.

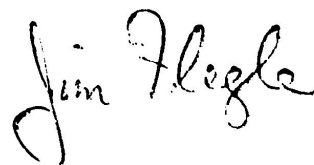

The use of the pronoun "he" in the English language when the referent is either an indeterminate sex or both sexes, implies a great deal about this society's concept of women and their "proper" role. The common use of words like "councilman," "chairman," or "committeeman" is only further evidence of this unconscious attitude in our everyday speech.

Kate Miller, in her book Sexual Politics, describes the problem:

"With the Indo-European languages this is nearly inescapable habit of mind, for despite all the customary pretense that "man" and "humanity" are terms which apply equally to both sexes, the fact is hardly obscured that in practice, general application favors the male far more often than the female as referent, or even sole referent, for such designations."<sup>1</sup>

It is in the academic environment of a university that changes can best be made. Deleting sexist phrases and words from the Governing Regulations of the University of Kentucky is the first step.

"Language constantly evolves in response to need. It is groping today for ways to accommodate the new recognition of women as full-fledged members of the human race."<sup>2</sup>

A handwritten signature in cursive script that reads "Jim Flegle".

Finance Committee Report  
April 2, 1974

FCR 1

Members, Board of Trustees:

INTERIM FINANCIAL REPORT

Recommendation: that the financial report for the eight months ending February 28, 1974, be accepted.

Background: The February, 1974 report reflects income of \$101,691,492 for the period of the report; the income figure is 72.4% of the annual income estimate of \$140,420,478.

The expenditure and commitments represent a total of \$87,729,913 for this period of eight months, or 62.5% of the expenditure authority of \$140,420,478 approved by the Board.

---

Action: Approved   X   Disapproved            Other           

Date:   April 2  , 1974

Finance Committee Report  
April 2, 1974

FCR 2

Members, Board of Trustees:

EXCHANGE OF PROPERTY

Recommendation: that the Board of Trustees authorize the Vice President for Business Affairs and Treasurer to execute the necessary documents to effectuate an exchange of properties between the University and the Christian Student Fellowship of Lexington, Kentucky, whereby the University will acquire the properties designated as 411 1/2, 413 and 415 Clifton Avenue, Lexington, Kentucky, for their appraised values, and dispose of (as surplus properties) the properties designated as 507 Columbia and 600 Woodland Avenue, Lexington, Kentucky, for their appraised values.

Background: This action is requested to formalize approval of an exchange of properties between the University and the Christian Student Fellowship which will enable the University to be in a position to expand its educational facilities, as necessary, and permit the Christian Student Fellowship to do likewise.

FCR 3

Members, Board of Trustees:

ACQUISITION OF PROPERTY

Recommendation: that the Vice President for Business Affairs and Treasurer be authorized to purchase from the Fayette County Board of Education the property known as the Jefferson Davis School Property and Heber Field, comprising approximately five acres of land between Rose and Limestone Streets adjacent to the Lexington campus of the University.

Background: The acquisition of this property has long been considered essential to the implementation of the University's development plan. Its purchase is, of course, dependent upon the successful outcome of negotiations with the Fayette County School Board.

The authorization to purchase is subject to the approval of the Commissioner, Executive Department for Finance and Administration, the Council on Public Higher Education and compliance with the provision of Chapter 45 of the Kentucky Revised Statutes relating to the acquisition of real property.

Members, Board of Trustees:

## RECOMMENDED REVISIONS IN THE CODE OF STUDENT CONDUCT

Recommendation: that the Board of Trustees approve the following fifteen recommended revisions in Student Rights and Responsibilities, Part I. Code of Student Conduct, effective August 16, 1974.

Background: Last year the Board of Trustees amended the Student Code by adding Article VII (Amendment), which reads as follows:

"The Code of Student Conduct shall be amended only by the Board of Trustees. Responsibility for proposing revisions to the Code of Student Conduct is delegated to a committee consisting of students, faculty and administrators. The exact composition and procedure of the committee is to be determined by the President of the University.

The Committee shall accept and review recommendations from students, faculty and administrators regarding revisions of the Code of Student Conduct. The Committee shall prepare proposed revisions and forward them to the President for presentation to the Board of Trustees for its consideration.

Nothing included above shall be construed as a limitation upon the President to propose changes without reference to the Committee."

On October 1, 1973, President Singletary appointed an Advisory Committee on Student Code Revision consisting of three students (Ms. Kay Coyte, Mr. Jim Flegle and Ms. Margaret Mason), three faculty members (Dr. Rutherford Campbell, Dr. John Madden and Dr. Paul Sears), and three administrators (Mr. John Darsie, Dean Jack Hall and, as chairman, Vice President Robert Zumwinkle). The President charged this committee to invite concerned groups and individuals to submit proposed Code revisions for 1974-75 to the committee, take any testimony that might be needed, and submit to him by December 17, 1973, the committee's recommendations which subsequently would be presented to the Board of Trustees with his own recommendations.

The advisory committee, using memoranda and campus newspaper advertisements, invited concerned groups and individuals to submit proposed code revisions in writing. Receiving 39 such proposals, the committee arranged for a complete compilation of the proposed code revisions to be published in the Kentucky Kernel and soon thereafter held two open hearings during which comments were received from about fifteen persons. After many hours of conscientious and constructive deliberation, the advisory committee met its reporting deadline and sent 16 recommendations for code revisions plus 5 other supplemental recommendations to the President.

PROPOSED STUDENT CODE AMENDMENTS

The following proposed amendments to the Code of Student Conduct are recommended by the Board of Trustees Student Code Revision Committee.

Note: Unless indicated otherwise, material proposed to be deleted is in brackets and material proposed to be added is underlined.

\*\*\*ARTICLE I\*\*\*

Recommendation 1

1.2 Disciplinary Offenses

Add the following subsection to be labeled "q":

Bribing any University employee.

Recommendation 2

1.2 Disciplinary Offenses

Add the following subsection to be labeled "r":

An attempt to violate subsections g, j, m, n, o, or q.

Present subsection "q" to be relabeled "s".

Recommendation 3

1.422

Replace the first paragraph with the following:

The U. J-Board shall consist of twenty-six persons and a Hearing Officer; one member shall be from the Lexington Technical Institute; the other twenty-five members shall be divided according to the apportionment of the student University senators for the year the U. J-Board will serve.

Recommendation 4

1.44 Temporary Appointments

Add to follow present paragraph:

If at any time, in the judgment of the Hearing Officer of the affected board, there are sufficient cases pending before either the U. J-Board or the Appeals Board that it is unlikely that the pending cases can be processed within sixty days, or within the time prescribed otherwise in the code, whichever is the shorter period, he shall notify the President of that fact. The President may then take one or all of the following steps: (a) activation of additional boards from those persons already appointed (to the 26-member

panel in the case of the U. J-Board or to alternate status in the case of the Appeals Board) and appointment of a Hearing Officer for each such additional board in conformity with sections 1.422 a, 1.423 c, 1.424 d, and 1.436 a; (b) appointment of additional boards, for designated cases and time periods, of the size and general composition as provided in sections 1.422, 1.423, 1.424, and 1.436 and appointment of a Hearing Officer for each such additional board in conformity with sections 1.422 a, 1.423 c, 1.424 d, and 1.436 a; (c) appointment of three-person hearing panels for designated cases and time periods. In making the appointments to such three-person hearing panels the President of the University should, if reasonably possible, consult with the President of Student Government. The authority, jurisdiction, and range of possible actions of, and the guaranteed rights of an accused person before, any special board or panel appointed or activated under the terms of (a), (b), or (c) above shall be the same as those applicable to the parent board supplemented by such appointment or activation.

#### Recommendation 5

##### 1.53 Probation

Exclusion from participation in privileges or extracurricular University activities as set forth in the notice of probation for a specified period of time, with the exception of defined privileges which are necessary and required. If a student, while on probation, violates any of the terms set forth in the notice of probation or violates the Code of Student Conduct, as determined after the opportunity for a hearing, he shall be subject to further discipline in the form of undated suspension, dismissal or expulsion.

#### Recommendation 6

##### 1.54 Undated Suspension

Exclusion from participation in any and all privileges or extracurricular University activities except for attendance in classes in which officially enrolled, with the exception of defined privileges which are necessary and required, for a specified period of time. If a student, while on undated suspension, violates any of the terms set forth in the notice of undated suspension, or violates the Code of Student Conduct, as determined after the opportunity for a hearing, he shall be subject to further discipline in the form of suspension, dismissal or expulsion.

#### Recommendation 7

##### 1.56 Dismissal

Exclusion from the campus and termination of student status for an indefinite period. The conditions of reconsideration for readmission will be specified at the time of dismissal. The student may be readmitted to the University only with the specified approval of the President of the University upon the recommendation of the Appeals Board. If a dismissed student violates the Code of Student Conduct while on a campus of the University, or in relation to a University-sponsored activity, or is present on a University campus without the written permission of the Dean of Students or Vice President for Student Affairs, as determined after the opportunity for a hearing, he shall be subject to further discipline in the form of expulsion.

Note: In addition to the revision included in this recommendation, the complete elimination of Section 1.57 dealing with expulsion was recommended by both the Advisory Committee and the President. A majority of the Student Code Revision Committee, however, was not in favor of this course of action and for that reason the proposed elimination of Section 1.57 is not included as a part of this recommendation.

\*\*\*ARTICLE II\*\*\*

Recommendation 8

2.23 Counseling Records

A student's test data and record in the Counseling Center shall be kept in the Center, separate and confidential, unless the student consents in writing to have it revealed to a designated person and for a designated purpose. Without such release, no information [is] will be revealed except to an appropriate authority and then only when there is a clear and imminent danger to an individual or to society, and such information will be limited to that which is directly pertinent to the reduction of that danger.

Recommendation 9

2.27

If presented with a subpoena to produce information about specific students and/or campus organizations, the recipient shall notify immediately the Dean of Students and forward to that office a copy of the subpoena. The Dean of Students shall immediately [attempt to] notify the students or student organizations involved or use his best efforts to do so, and forward to them a copy of the subpoena by certified mail addressed to their last known [campus] address.

Recommendation 10

2.28 Non-Academic Information

Information about a student's or a student organization's political or social views or beliefs which faculty, staff, or administrators acquire in the course of their work as instructors, advisors, [and] counselors, or supervisors is to be kept confidential. Students [or student organizations] may waive the protections of this Section by granting express permission to the relevant faculty, staff, or administrator.

Recommendation 11

2.29

A student has the right to view the disciplinary [and academic] records maintained on him or her, [except for letters and memoranda of recommendation and medical information.]

Note: To be included as the second sentence of the first paragraph of Section 2.25  
--Dean of Students Records.

\*\*\*ARTICLE III\*\*\*

Recommendation 12

3.142, b.

Faculty advisor: a member of the faculty of the University connected with or interested in the organization, who shall offer support and advice to the officers in carrying out the purposes of the organization, and shall make himself available to meet with members of the organization at their regular meetings or at a special meeting called for that purpose.

A non-tenured faculty member shall not advise more than one registered student organization[, and]; a tenured faculty member, however, shall not [advise more than three] have any specific restrictions on the number of registered student organizations which he may advise at any one time.

Recommendation 13

3.2 The Offenses

Add the following as introductory sentence:

Offenses as defined below are punishable offenses when committed by student organizations.

Recommendation 14

3.22

Substitute the following for the current section:

Interference, coercion or disruption which impedes, impairs or disrupts University missions, processes or functions or interferes with the rights of others on University property, or the rights of registered student organizations. (Examples of conduct falling within this section are described under Section 6.11).

Recommendation 15

3.25

Knowingly [enrolling as an official member or] electing, appointing, or retaining as an elected or appointed officer or committee chairman any student on academic probation, financially delinquent to the University (in accordance with Article V) or under disciplinary sanctions which prohibit him from holding such office.

UNIVERSITY OF KENTUCKY  
STUDENT GOVERNMENT

LEXINGTON, KENTUCKY 40506

March 18, 1974

JIM FLEGLE  
PRESIDENT

BOB CLEMENT  
VICE PRESIDENT

STUDENT CODE COMMITTEE MINORITY REPORT FOR APRIL 2, 1974

To the Board of Trustees:

Minority Recommendations for Student Code Amendments

- A) Recommendation: That the Board of Trustees adopt the following amendment to the Student Code; elimination of Article VI.
- B) Recommendation: That the Board of Trustees approve Recommendation 8 of the Committee on Student Code Revision's Report.

Background:

A) Article VI was added to the Code approximately three years ago. It remains Student Government's position that the powers granted the President in this Article are too vague and overly broad.

This wide latitude of possible action greatly disturbs us. The determination of an emergency situation can be made with little or no criteria - other than the subjective impulse of an administrator. It's not that we distrust those presently in leadership roles. It is that this Code will be around much longer than either the present student body or the present administrators.

It is quite easy to justify actions under this section which would otherwise be without the powers of an administrator. The potential for suppression of free speech and assembly--and the subsequent repression of possible solutions to the immediate problem--is a danger that we have long strived to hold to a minimum. This minimum is by no means reached in the Student Code, Article VI, The declaration of emergency, the subsequent powers of administrators in that emergency, and the potential damage to the academic community are all so great as to force Student Government to strongly oppose retention of this Article.

We understand the pressures from without, and the pressures from within, all of whom wish to retain this Article. We would ask that you weigh those pressures, though, with the potential destructive powers this Article allows, and the potential for future leaders to use this Article as legitimation for actions otherwise unreasonable.

The Student Senate, as well as all students on the Student Code Revision Committee, voted overwhelmingly to eliminate Article VI. We ask your concurrence.

B) Recommendation 8 of the Committee on Student Code Revision requests the elimination of expulsion from the Student Code. This recommendation was approved by Dr. Singletary and forwarded to the Board Code Committee where it was rejected.

This recommendation includes much more than simple expulsion from the Student Code. It provides for a process by which a student may be re-admitted to the University after dismissal, as well as for the criteria by which he will be re-admitted. Thus, the needed protection of the University community would be maintained if Recommendation 8 were adopted.

But there is a much more important rationale for the elimination of expulsion from the Code. Neither this Board nor an administrator or faculty member can assume the infalible position which expulsion requires. To expel a student means to entirely sever the student's future academic pursuit. It was the feeling of the majority of the Revision Committee that this action is too harsh to ever be taken and the option of dismissal allows the proper safeguards for the University and for the student.

Sincerely,

A handwritten signature in cursive script that reads "Jim Flegle". The signature is written in black ink and is positioned above the typed name.

Jim Flegle  
Code Committee

MEMORANDUM

To: University Faculty and Administration

From: Otis A. Singletary

Subject: Protection of Human Subjects Involved in Research, Development,  
and Demonstration Activities

Studies using human subjects have become a matter of deep concern to the public at large and to the universities under whose aegis most such investigations are undertaken. These concerns embrace the physical, psychological, social and legal protection of the subjects, and involve the moral and ethical questions attendant thereto. Public interest in this matter has resulted in the formulation of requirements which must be met when human investigations are undertaken in the biomedical field, and are clearly stated in research contracts and grants from a number of organizations such as the Department of Health, Education, and Welfare and the Food and Drug Administration. These regulations require intra-institutional review and a contractual assurance of such review by the university to the granting agency.

The University of Kentucky has adopted the posture that each research, development, or demonstration activity involving human subjects that originates in an academic program of this institution is subject to review, whether or not the study is supported by a granting agency or an agency that requires a review. Therefore, I have created the Human Investigations and Studies Committee, a University committee appointed by and responsible to me, which has the charge of insuring that appropriate reviews are conducted. Staff support for the Committee is provided by the Administrative Assistant for the Human Investigations and Studies Committee, a position located in the Office of Sponsored Projects Administration.

The Committee functions through two subcommittees, one which deals with human investigations originating from the five colleges of the Medical Center, and one which reviews studies from units outside the Medical Center which are directly involved in the academic programs of instruction, research and service. Procedures for reviewing and monitoring of protocols

originating in the Medical Center have been in force for several years. These procedures include the requirement that all protocols involving human subjects that are generated by departments and academic or any other units from the colleges of the Medical Center must be reviewed by the Medical Center subcommittee. The purpose of the attached communication is threefold: 1) to outline the University's review structure, 2) to provide units outside the Medical Center that are directly involved in the academic programs of instruction, research or service with procedures to follow in developing review committees which will support and expedite the work of the subcommittee for the non-medical sciences and professions, and 3) to apprise individual researchers of their responsibilities to seek appropriate review and of the ways to go about it. It is hoped that in addition to providing the University community with the procedural outline it obviously needs, the guidelines will also provide the University with the ability to respond to the changing regulations and requirements of granting agencies without complete committee restructuring.

Each unit subject to the provision of the attached guidelines must determine if a review structure is appropriate to it. (The guidelines are flexible and have been designed to accommodate the roles and functions of the various University units.) If a unit determines that investigations originating in it involve human subjects, and if it decides that to establish its own review structure is appropriate, it must file with the Human Investigations and Studies Committee office a report describing the review structure adopted. The deadline for developing appropriate review structure and filing the reports is May 30, 1974. Proposed plans may be submitted first to the Human Investigations and Studies Committee for consultations and suggestions.

Questions and communications concerning this matter should be addressed to Mr. George Dundon, Administrative Assistant for the Human Investigations and Studies Committee, 308 Kinkead Hall, 8-2861.

REVIEW GUIDELINES FOR INVESTIGATIONS  
INVOLVING HUMAN SUBJECTS

PREAMBLE

Any undertaking in which an individual or agency connected with the academic programs of instruction, research and service at the University of Kentucky performs a physical procedure or collects data on human subjects for research, development, or demonstration purposes may be construed as "an investigation involving human subjects." Under such a definition "human investigation" encompasses a broad spectrum of activities ranging from questionnaires to experimental medical procedures. Protection of the subject from physical, psychological, sociological, or other type of harm in addition to safeguarding his legal rights is the ethical, moral, and legal responsibility of the University of Kentucky as well as of the individual researcher or agency connected with the project. Protection of the subject by the institution is maintained by means of formal review procedures. Since the role of human subjects in research, development, and demonstration of new ideas is necessary and vital to many university programs, and since this function cannot be carried out in a legal or ethical vacuum, the review procedures must be flexible. Ultimately, the decision on approval for a given investigation must depend upon the common sense and sound professional judgment of reasonable individuals. This document is intended as a guideline for individuals who choose to study human subjects in the course of their investigative efforts. It is the individual investigator's responsibility to seek the appropriate review as outlined.

SECTION ONE: THE UNIVERSITY HUMAN INVESTIGATIONS AND STUDIES  
COMMITTEE

Institutional responsibility for protection of human subjects at the University of Kentucky rests with the Human Investigations and Studies Committee, a University-wide committee appointed by and responsible to the President. This Committee also has the responsibility of insuring that the University fulfills its contractual obligations relative to investigations involving human subjects, and membership composition of the Committee is kept consistent with federal regulations from granting agencies such as the Department of Health, Education, and Welfare. The Committee will maintain policies and procedures consistent with federal regulations. The specific charge to the Committee is to:

1. Review all research, development and demonstration protocols\* in which research or studies are to be performed with human subjects.
2. Recommend approval or disapproval on these protocols within the provisions of the code of ethics and the guidelines for protocols.\*\*
3. Periodically, as required by the nature of the project, and at least annually, consult with Program Directors in regard to the progress of their protocols for research, development or demonstration.
4. Advise the appropriate University officials on policy development and changes which will best insure the safety and health of human investigative subjects, while at the same time insuring optimal opportunity for meaningful contributions. ("Safety and health" is here construed to mean the physical, psychological, and social well-being of the subject as well as his legal rights as an individual.)

\*Definition: The protocol of a research, development, or demonstration project is a concise statement regarding the project that provides a description of

1. the purpose of the project
2. the necessity for the involvement or use of human subjects
3. the risks to the human subject and benefits to the individual
4. the anticipated scientific/social benefit to be derived
5. provisions for the protection of the well-being of the human subjects
6. provisions for assuring the informed consent of the human subjects
7. the essential elements of the research design, including:
  - a. the specific hypothesis to be tested, item to be developed, or principle to be demonstrated
  - b. the nature of the data to be acquired
  - c. the methodology of data collection
  - d. the specific involvement of human subjects
  - e. the plan for data analysis

\*\*"Code of ethics" refers to statements of principle that have been issued by various professional organizations. A partial list of these statements is found in "The Institutional Guide to DHEW Policy on Protection of Human Subjects," DHEW Publication No. (NIH) 72-102, December 1, 1971. The protocol is reviewed within the provisions of these general University guidelines and within the provisions of the statement of the appropriate professional organization.

In carrying out its charge the Committee must verify that the investigator will:

1. Provide for the physical protection of the individual subject.
2. Insure the emotional, psychological and social protection of the individual subject.
3. Insure the privacy and confidentiality of the individual subject.
4. Protect the legal rights of the subject as an individual.
5. Obtain an informed consent from the human subject.

It must also determine that the risks to an individual are outweighed by the potential benefits to the individual or by the importance of the knowledge to be gained. With regard to Item 5, the Committee must take special precautions to protect the rights of those groups of subjects that may not be capable of giving informed consent, e. g. , children or the mentally infirm. (Should it become necessary, the Human Investigations and Studies Committee will establish a special protection committee to discharge this responsibility.)

In the event that a proposed protocol is not approved by the Human Investigations and Studies Committee, the Committee must furnish the investigator through any unit review committee involved (see Section Two) with the reasons for the disapproval.

The Human Investigations and Studies Committee functions through two subcommittees. The Medical Sciences Human Investigations and Studies Subcommittee reviews protocols on human investigations originating in the five colleges of the Medical Center. The Non-Medical Sciences and Professions Human Investigations and Studies Subcommittee reviews protocols from units outside the Medical Center that are involved with the academic programs of instruction, research, and service. Membership composition of each of the subcommittees is also kept consistent with federal regulations, so that each subcommittee can act to insure fulfillment of the University's contractual obligations.

The protocols of all research, development, or demonstration activities involving human subjects that are generated by departments and academic or any other units from the colleges of the Medical Center are reviewed by the Medical Sciences Human Investigations and Studies Subcommittee.

It is the responsibility of other units to develop support review structures which will expedite the functioning of the Non-Medical Sciences and Professions Human Investigations and Studies Subcommittee and which will provide assistance and critical expertise to the individual investigator in the development of project protocols. Discussion of these supporting review structures follows in Section Two.

In order to carry out its charge to conduct periodic review of all projects, the Committee has developed a monitoring system whereby investigators whose protocols have been approved by a Human Investigations and Studies Committee are requested to provide periodic (usually annual) reports indicating progress, publications, and termination. Significant alterations in protocols must be approved by the appropriate committee before they are implemented.

## SECTION TWO: SUPPORT REVIEW COMMITTEES

Each academic program unit outside the Medical Center, that is, each college, school, institute, or other academic unit in the Division of Colleges or the Community College System, or any other unit, including administrative units, that is directly involved in the academic programs of instruction, research, or service, should analyze the activities originating in it to determine whether they include investigations involving human subjects. If so, the unit then decides whether or not to establish its own review panel. The basis for this decision should include considerations of the volume of such investigations and the controversial or critical nature of such investigations with regard to the use of the human subjects. Any college in which investigations involving human subjects regularly originate should establish a unit review committee. It may be appropriate for some departments in the Division of Colleges to have review committees. If so, the Dean of the College should coordinate the establishing of these committees and should establish the structural relationships between the college and department committees.

Composition and structure of unit review committees is left to the discretion of the unit involved except that each committee should consist of not less than three individuals competent to evaluate proposals originating within that unit. It may also be appropriate, particularly in the case of small units, to include on the review committee at least one member not directly involved in the unit as an independent auditor. Also, the charge to the unit committee should include the following:

1. To support the functions of the Human Investigations and Studies Committee by preliminary review of those protocols which need to be considered by an independent panel knowledgeable in the particular field of inquiry.
2. To remain abreast of accepted practices for protection of human subjects and of the rules and procedures of the Human Investigations and Studies Committee so as to provide support to the individual researcher in preparation and evaluation of project protocols.

A copy of the organizational plan for the unit review committee, along with a list of current membership on the committee, must be filed with the Human Investigations and Studies Committee. Each dean is responsible for filing the review plans for the college and departments in it. Also, a copy of each protocol reviewed by a unit committee and the committee's report will be forwarded to the Human Investigations and Studies Committee for final action. In the event that the Non-Medical Sciences and Professions Subcommittee, on reviewing a protocol and the unit committee's report, should question or disagree with the action taken by the unit committee, the Committee will advise the investigator through the unit committee of the reasons for the questions or disapproval. In all cases, the decision of the Human Investigations and Studies Committee will be final.

### SECTION THREE: GUIDELINES FOR THE INDIVIDUAL INVESTIGATOR

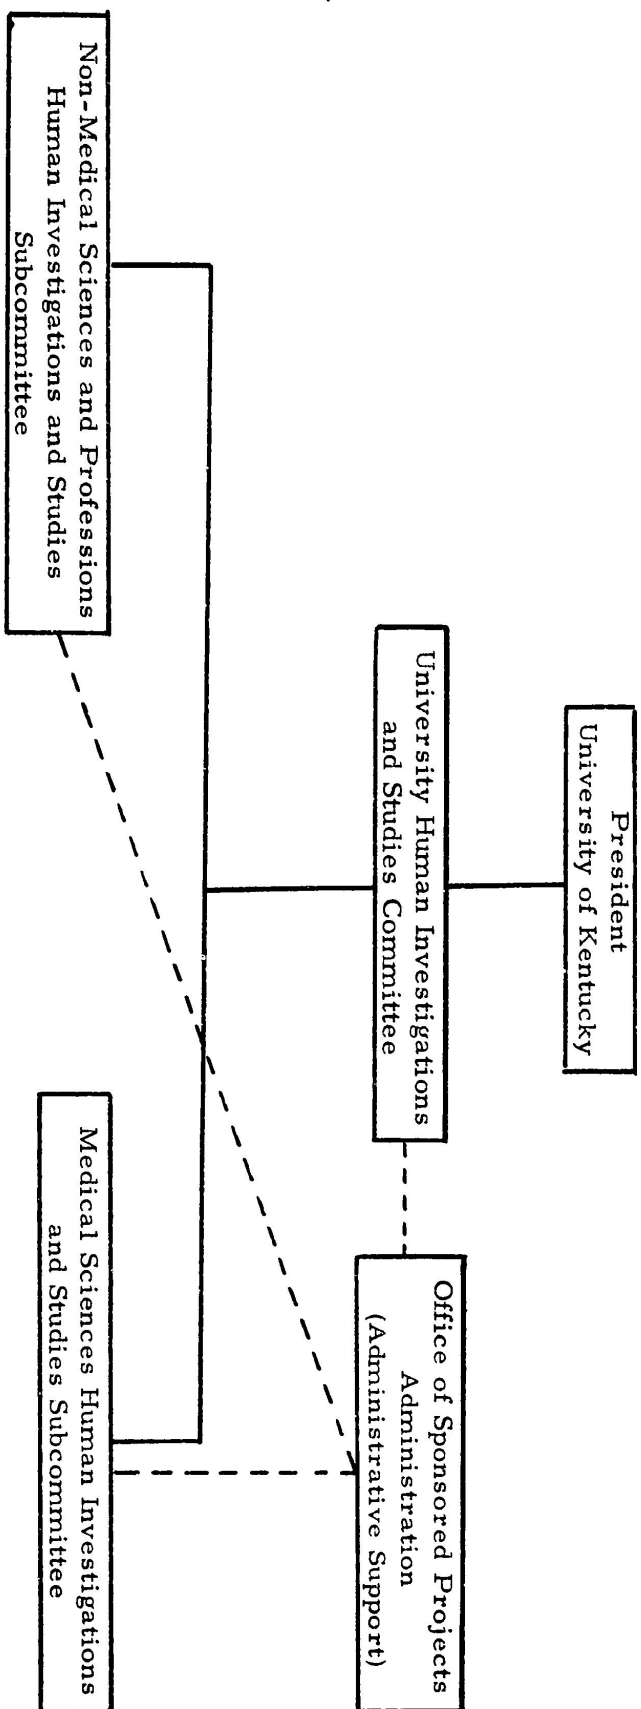

As stated above, it is the responsibility of the individual investigator who studies human subjects to obtain approval of protocol prior to initiation of the project. Guidelines for this are as follows:

1. All research, development, and demonstration protocols involving the use of human subjects derived from the colleges of the Medical Center must be reviewed by the Medical Sciences Human Investigations and Studies Subcommittee.
2. All research, development, and demonstration protocols involving human subjects derived from units outside the Medical Center, including administrative units, which are directly involved in the academic programs of instruction, research or service, must be reviewed by the full Non-Medical Sciences and Professions Human Investigations and Studies Subcommittee.

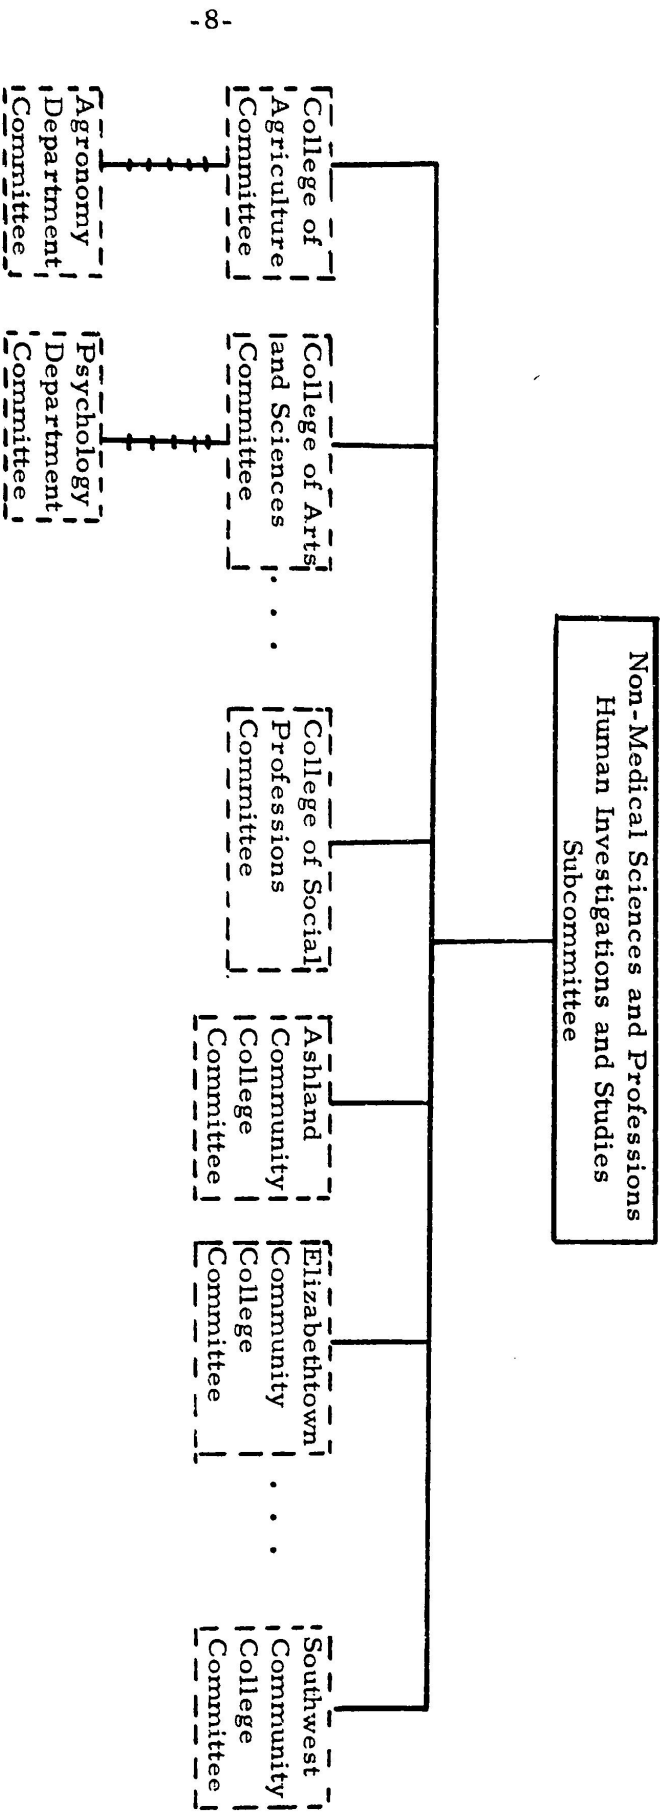

A chart showing the organizational structure of the review committee is attached. Generally, a project which is to be reviewed should be submitted first to the appropriate support or unit review committee. However, any investigator, or any reviewing panel, may request review by the University Committee, either as a primary reviewing panel or as an appeal review panel. In all cases, the decision of the Human Investigations and Studies Committee will be final.

Regulations and procedures of all review committees are available in the office of the Administrative Assistant for the Human Investigations and Studies Committee, and this office should be contacted for information and materials for initiating protocol reviews. When an investigator wishes to request review by the Human Investigations and Studies Committee or by the appropriate support or unit review committee, ample time to meet all necessary deadlines should be allowed. Except in emergencies, the deadline for the receipt of a protocol for review is two weeks prior to the next scheduled Committee meeting. The Human Investigations and Studies Committee meets on the first Monday of each month. After receipt of the appropriate material, the investigator will usually be requested to appear before the Committee for a brief question and answer session regarding the protocol.
