75 FIFTH AVENUE
(BETWEEN 15TH & 16TH STREETS)

New York, Apr. 1, 1919

Gen. Roger D. Williams
First Brigade
Lexington Ky.

Dear Sir;

To enable me to give you the definite information asked for in your letter of the 27th., please let me know if the pictures you have are regular paper prints or are they stereoscopic prints.

I understand that you want a lantern to project them on a screen. Awaiting the pleasure of hearing from you, I remain,

Very truly yours,

R. J. Fitzsimons

The pictures are regular print most of them about 6 X 6 taken by the U.S. and French Signal corps

Only want to exhibit them for personal usage and do not want an expensive apparatus. What would it also cost each to have stereoscopic prints made from them
