

# Fall Completion Date Set For Girls' Dorms

The new women's residence hall, made possible through a \$200,000 contribution to the University from the Keeneland Foundation, is expected to be ready for occupancy next fall.

"Resident Hall #5," as it is referred to by those connected with its construction, is to be a four-story-with-basement structure and now is under construction in rear of Patterson Hall. It will house about 320 residents.

Topping the list of conveniences for the co-eds will be the fully equipped kitchenettes, one on each floor, complete with stove, refrigerator and cabinets. After the curfew hours, when the girls are restricted to the hall, they may then appease their appetites by preparing snacks in the modern kitchenettes.

A grill will also be on the main floor, adjacent to a large lounge which will be in operation during the day for the residents and guests. Another small grill will also be opened on the basement floor. This one will be basically for breakfast.

Dean of Women Sarah B. Holmes said two alternatives would be offered for the residents as far as the main meals are concerned. They would be allowed to eat in the present cafeteria located in Patterson Hall or meal-tickets would be sold to allow the girls to eat in the Student Union Cafeteria. One of these two will ultimately be chosen, depending upon which shows the most promise of success after a trial run.

In the past, the problem of

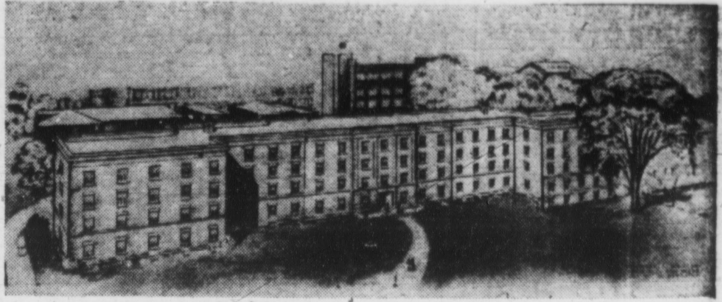

storage space for clothes, and washing and ironing facilities have plagued many residents of the women's halls. Those living in the new hall, once it opens, will find these old chores a pleasure. In the basement, there will be eight units of the automatic washer-dryer combinations, plus a huge drying room. The entire washing and drying process will cost only a few cents. Coin-operated ironing facilities will also be available.

The trunk storage problem has also been answered. Chief Engineer Egan B. Farris reported that a large "trunk room" will be located on the ground floor, with an entrance only a few steps from the freight elevator. Incidentally, a passenger elevator will be available in the building similar to the one now in Jewell Hall.

The communication system in the new hall will have a "personalized" touch. Tentative plans are that incoming phone calls will be handled in an improved manner. When a call is taken at the main desk in the lounge, the operator can call directly to the girl's room, by means of an inter-room "gyannuncator" system, which has a speaker in each room. The girl then receives the call at the phone located on each floor.

There will be one phone on each floor for incoming calls, and several others will be distributed throughout the building for outgoing calls.

A buzzer system is also planned to call a resident to the main

Home Was Never Like This

This is how the new residence hall for girls will look next fall. The \$1,250,000 building is being financed through a \$900,000 gift from the Keeneland Foundation, a \$722,000 loan from the federal government,

and the remainder from accumulated earnings in the UK plant fund. The four-story structure will house more than 300 women students.

## The Kentucky KERNEL

Vol. XLVI University of Kentucky, Lexington, Ky., Friday, Dec. 3, 1954 No. 10

# UK Student Parking May End

## Views Are Varied On Saturday Rule

Conflicting interpretations of the so-called Saturday class ruling banged together this week, leaving more confusion than clarity.

Monday night, Dean M. M. White of the College of Arts and Sciences said the 40 per cent rule of Saturday classes had been in effect for as long as I've been dean.

He explained that, instead of making a new ruling, he strengthened the old one. In the past, he said, approximately 40 per cent of Arts and Sciences courses have been offered on Tuesday, Thursday and Saturday.

Dean White said the bolstering step—which will probably affect all colleges—was taken to lighten the class load some students have to carry on Monday, Wednesday and Friday. He also said that, percentage-wise, few students would be affected.

The move, announced earlier this month, does not make Saturday classes compulsory, Dean White said, but means that each department will offer 40 per cent

of their courses on Tuesday, Thursday and Saturday.

In the same boat with the Administration and the Kernel, the Student Government Association construed the step as a move toward a six-day class schedule for the University.

Meeting informally Monday night—before Dean White's interpretation was given—14 SGA members readied themselves for battle with what was believed to be a change in the present system.

A SGA committee report from UK Vice President Leo M. Chamberlain confirmed misunderstanding of the ruling.

The report, based on a Nov. 24 interview with Dr. Chamberlain, indicated that the Administration—or part of it—also believed Saturday classes were being made compulsory for reasons other than that given by Dean White.

## UK's Collier Named SEC Coach Of Year

Coach Blanton Collier, riding high on the crest of a successful football season, has been named as the SEC "COACH OF THE YEAR."

And there is talk that his present three-year contract will soon be extended.

Meanwhile, the sports spotlight swings to the opening of the "basketball season tomorrow night when Adolph Rupp's cagers meet LSU.

Details may be found in the sports section.

## Jan Peerce Will Appear Here Monday

Jan Peerce, Metropolitan Opera tenor, will appear at 8:15 p.m. Monday in Memorial Coliseum as part of the Central Kentucky Community Concert and Lecture Series. Students are admitted on ID cards.

Born in New York, Peerce is now in his fourteenth season with the Metropolitan. His performances on radio, television, in the movies, and on RCA Victor records have made his voice well known throughout the world.

He is one of America's busiest concert tenors. Besides concert bookings there are the annually scheduled Metropolitan and San Francisco Opera appearances.

As a radio performer, Peerce sang for two years on "Great Moments in Music" and has appeared on the Ford, General Motors, Lucky Strike and Firestone music shows.

In 1949, Peerce became the first singer in the 73-year history of the New York College of Music to be accorded the honorary Doctorate of Music Degree. Among those who have been so honored are Fritz Kreisler and Jascha Heifetz.

## New Garage May Solve UK Problem

Proposals under consideration by University officials to ease UK's knotty parking and traffic problems include these drastic measures:

- (1) Elimination of all student parking on the campus.
- (2) Prohibiting sophomores, as well as freshmen, from bringing cars to school.
- (3) Construction of a modern parking garage, possibly on the infra-mural athletic field or on the soon-to-be vacated site of the Scott Street Barracks.

No definite decision has been reached on any of the proposed measures. A committee appointed by President H. L. Donovan this semester is studying the parking situation.

This group, headed by Dean of Men Leslie L. Martin, is surveying the present parking facilities with an eye toward recommending an improved parking and traffic control on campus.

Parking has long been a difficult problem to solve. The present system of permit parking sets up categories for certain qualified students.

But the new proposal would restrict all campus parking to staff and faculty members and possibly handicapped students.

In an effort to find a suitable adjacent parking area, University officials are studying the feasibility of constructing a large, 2- or 3-story parking garage.

The intramural field, as a prospective site, would offer added means of revenue. Throughout the year, the garage could be used for parking during athletic contests at Stoll Field and the Coliseum.

The big question mark facing administration officials is whether students would support such a costly parking project. Some estimates place the expected rental fee for students parking in the garage at 10 cents a day.

The current headache of trying to issue parking permits to just a handful of students is evident in this semester's situation.

Permits have been issued to 785 cars, 585 going to staff and faculty members, and 200 to students. There are only 575 parking places on the campus.

## Date Set For Xmas Program

By BETTY JO MARTIN

"Hanging of the Greens," an annual ceremony at UK, will be held at 5 p.m. Wednesday in the Great Hall of the Student Union.

"Bringing Home Christmas" has been chosen for the theme of this year's program, sponsored by the Young Men's and Young Women's Christian Associations and the Student Union Board, which officially opens the Christmas season on campus.

This year's program has been changed somewhat from that of previous years and is to include a dramatization of the Hanging of the Greens in the traditional manner.

Jim Baker, YMCA president, will be narrator for the program, and Margaret Holyfield, Student Union Board president, will serve as hostess of the Great Hall.

Members of the YWCA and YMCA cabinets and the Student Union Board will perform the actual "Hanging of the Greens."

Norma Devine, YWCA president, will give the opening and closing prayers and read the traditional Christmas Story from St. Luke.

The University Student String Quartet, composed of Ruth Trimble, Doris Zabilka, Bonnie Dickens, and Barbara Hayes, will play a

(Continued on Page 3)

Congratulations, Neil!

Bernie Shively, UK athletic director, presents Neil Lowry the WHAS award for the outstanding senior football player of 1954. Coach Collier looks on. The award, given last Monday night at the Alumni-Football Banquet, is based on scholarship, leadership, and service. (See story on page 15.)

## Guignol Group Will Present 'Uncle Vanya'

Guignol Theater's second play of the season, "Uncle Vanya," will be presented Tuesday through Saturday, Dec. 7-11, in the Guignol Theater. Curtain time is 8:30 p.m. with a matinee Saturday, Dec. 11 at 2:30 p.m.

The cast includes: Alexander Serebrykov, a retired professor, Joseph Mathews; Helen Andrelevna, his wife, Lella Sherman; Maria Vassilievna Vonitskaya, mother of Serebrykov's first wife, Terry Turner.

Ivan Voinitsky, (Uncle Vanya), her son, Wallace Neal Briggs; Mikhail Astrov, a country doctor, Gene Aikle; Ilya Telegin, (Waf-fles); an impoverished lawyer, James Inman; Marina, an old nurse, Barbara Gambill; and a laborer, Fred Sliter.

The play will be arena staged with only one setting. It is believed that this is one of the few times that one of Chekhov's plays have been presented in this manner.

"Uncle Vanya" which is also called "Scenes from Country Life," is the story of a family living in southern Russia around 1890. The family is having a difficult time trying to maintain its estate when the professor and his wife came there to live.

The play is a portrait of characters who are oppressed by the difficult times they are having and of their unsuccessful attempts to overcome them.

Mr. Briggs, who is playing the same role in which he starred last year at Yale Drama School, is the director. Mrs. Lolo Robinson is the associate director, with Ernest Rhodes the technical director. Fred Sliter and Ben Ardery are the assistants to the director.

The patron tickets, which are five tickets for \$5, will no longer be sold after the final performance, Dec. 11. Student tickets will go on sale for \$0.70 today in the Guignol box office or may be reserved by calling ex. 2396.

## USP Discusses SGA Elections

Plans for the forthcoming Student Government Association elections on Wednesday, Dec. 15, were discussed this week by the United Students Party in a series of called meetings.

Officers for the year were elected, the party platform was formulated, and a slate of candidates was chosen at the special sessions. Matthew H. Franck, independent, was named the new president of USP. Don Whitehouse, independent, is the party's vice-president, and Liz Bell, Kappa Kappa Gamma, was re-elected as secretary-treasurer.

United Students delegates voted unanimously to accept Scott Street Barracks as a permanent organizational member of the party. A Scott-Street delegate, to be elected by the men's residence unit, will represent the organization at future USP meetings.

Ten positions in six colleges are open in the election. Party meetings have been scheduled by the USP for every Monday at 4 p.m. in the Student Union Building.

## 'Y' Groups Will Go Christmas Caroling

The YWCA and YMCA groups will go Christmas caroling at Kentucky Village and Julius Marks Santorium Tuesday night.

After caroling they will wrap presents for the Christmas party given annually for children at Lincoln School.

The annual YWCA-YMCA Christmas worship program will be held Dec. 14.

Maybe Santa Claus will bring her a pair of . . . boots.

The George West, Texas, court-horn in a glass case. It is the last Longhorn steer of the great West herd.

Balmorhea State Park, south-west of Balmorhea, Texas, has the world's largest walled swimming pool—fed by natural springs at the rate of 26,000,000 gallons per day.

## Girl's Dorms

(Continued from Page 1).  
 floor to receive a visitor. Another accommodation that the new residents will be "blessed" with will be the hair-dryer, beauty shop style, which will be located in a separate room and which will be available for "home permanents," day in and day out.

The rooms of the hall will accommodate two girls each. Between each pair of rooms, one bathroom will be located for use by the four girls. Even bath tubs are planned, complete with a shower, for the "old-fashioned girl."

The furniture for the rooms has not yet been selected, but probably it will be of modern design. Study areas will be provided for each wing. The hall will be divided into three wings on each floor, an east, west and central wing. For those room-mates who wish to study when the other wants to sleep, study halls will be available.

The advanced modern designers of the new structure didn't fail to take into account the eternal problem of girls and their dates with no place to go. A basement recreation room will be open for these couples. Ping-pong, card games, etc., will be placed here along with magazines, radio, and television.

The entire hall will be under the direction of a supervisor, who will live in a suite just off the main lounge. Each floor will have its own floor supervisor, probably a graduate student.

"When this project is completed, it will be something that all Kentucky, as well as the Keeneeland Foundation, may be proud of," Dean Holmes said.

## Saturday Class Rule

(Continued from Page 1)

Dr. Chamberlain, the committee reported, reasoned that six-day classes were being enforced to give students proper education. The Vice President also was quoted by the committee as saying that Dean of Women Sarah B. Holmes was worried about losing control over the women when they travel weekends—especially if they don't get home quickly.

Other reasons given recently by Dean of Men Leslie L. Martin and by several Faculty members were that the University wants to utilize classroom space fully by adding a sixth day and that school spirit can be improved by keeping more students on campus.

With these reasons in mind, the 14 assembly members made three suggestions to hand to next Monday night's SGA meeting.

First, it was decided to make it known that the students don't object to Saturday classes as such, but prefer to see the present system retained.

Second, the 14 members suggested collecting student opinion by passing petitions before this semester ends. The last step suggested was to make an effort to have Faculty members express their viewpoints.

During the session, it was pointed out that the present system was adequate for handling the flood of veterans who entered UK after World War Two. The group also expressed doubt that school spirit could be boosted by enforcing Saturday class attendance.

## UK Cinema Opens Thursday With 'The Green Pasture'

By BOB HOWERTON

Campus Cinema will open its '54-'55 season with "The Green Pastures." This film will be shown in Taylor Education auditorium on Thursday, Dec. 9, at 8 p.m. Season tickets will be \$2.00 and individual tickets 35 cents.

The Campus Cinema is a program of 10 showings to a maximum limit of 450 people in Taylor Education auditorium. Films to be shown are those otherwise unavailable to local theaters. Cinema is designed as a non-profit project to provide the best film at the lowest price.

First of the series, "The Green Pastures," is a standard great stage play with an all-Negro cast and starring Rex Ingram. The 100-minute movie features Negro spirituals and beliefs.

Tickets will be available tomorrow at the Audio Visual Aids Bureau in Frazier Hall, in the Student Union Building, and from each member of the sponsoring committee.

A cross-section of student and faculty representing various departments on campus was the film selection group. This sponsoring committee consists of: Dr. and Mrs. Ernest Myers, psychology; Paul Stacy, English; Dr. W. H. Sneedgar, physics; Miss Norma Cass, library; Dr. Card, agriculture; Dr. Paul Oberst, law; Leonard Press, radio arts; Marvin Rabin,

music; J. T. Laytham, Thomas Gentry, Robert Howerton, students; and Dr. Raymond Wilkie, townspeople.

The film includes: "The Devil and Daniel Webster"—Mr. Deeds Goes to Town, "Don Quixote," "The Green Pastures"—all American movies; "Blood of a Poet"—French; "Il Trovatore"—Italian; "Sadko," "Grand Illusion"—Russian; "Erosk"—Austrian; and "Major Barbara"—British.

Mrs. Ruby Hart, director of the Audio Visual Aids Bureau, reports that \$4,000 dual arc projectors and a new \$420 screen will be used for the showings.

A spring in Marlin, Texas, turns ordinary glass, when dipped into it to a clear and permanent amber.

## Hanging Greens

(Continued from Page 1)

prelude and postlude of Christmas music.

"Good Christian Men Rejoice," "Lullaby, My Lullaby," and "The Holy and the Ivy" will be sung by the University Women's Glee Club, under the direction of James King, University Music Department staff member. The Glee Club will be accompanied by Barbara Jones.

The audience will "Bring Home Christmas" to the campus with a carol-sing under the direction of Miss Jean Marie McConnell of the College of Extension and Adult Education.

The Student Union will be decorated by a 20-foot Christmas tree furnished by the Student Union Board.

The YWCA began the "Hanging of the Greens" about 20 years ago.

### On Campus

with Max Shulman

(Author of "Barfoot Boy With Cheek," etc.)

#### THE OPERATOR

On every American campus there are four standard fixtures: No. 1—ivy; No. 2—a statue of the founder; No. 3—Philip Morris Cigarettes; No. 4—The Operator.

The ivy is to prevent strangers from mistaking the college for a warehouse. The statue of the founder provides shade for napping when the weather is fine. The Philip Morris Cigarettes are an aid to concentration when you are studious, an aid to sociability when you are sportive, and a source of smoke rings to impress new girls.

And The Operator is the man you can't do without. Well do I remember The Operator on my campus. He was a young man with a ready smile, a quick mind, fifteen complete changes of wardrobe, a six room apartment, a red convertible, and assorted stocks, bonds, securities, and second mortgages.

The Operator's origins were a source of lively speculation. Some said he was left over from the old Capone gang. Some said he was Judge Crater. Some said he sprang from the brow of Zeus.

But, in fact, he was just an ordinary student—to begin with. In his first year he studied hard, took scrupulous lecture notes, got good grades, and made a big reputation as a friend in need. He'd lend you money; he'd let you copy his lecture notes; he'd write themes for you; he'd sit up all night to help you cram for an exam. All of this was done with infinite good nature on his part, and no obligation on yours.

In the second year The Operator started to operate. He'd still let you copy his lecture notes—but it cost you a quarter. Setting up to help you cram cost 50 cents an hour till midnight, 75 cents an hour afterwards. His prices for writing themes were based on a sliding scale—a dollar for a "C", two for a "B", three for an "A". A "D" cost you nothing, and if you flunked, you got a dollar credit on the next theme he wrote for you.

His services expanded steadily. He added a line of cribs for examinations. He booked bets on football games. He did a bit of bootlegging. He ran a date bureau. He rented cars, tuxedos, non-willing boutonnières.

But all of these were really sidelines. His main line was lending money. At any hour of the day or night, for any amount from a dollar to a hundred, The Operator was always ready with a sympathetic ear and cash on the barrelhead. And he rarely charged more than 150 percent interest.

Usury and sharp trading are practices not calculated to win affection. Nobody loved The Operator. But nobody did anything about it either. . . . Because undergraduates live in a perpetual state of need—need of money, need of lecture notes, need of romance, need of beer, need of something—and The Operator was the goose that laid the golden eggs and, therefore, safe.

Nor did The Operator seek affection. He just went his well-heeled way, serene and carefree. . . . No, not quite carefree. One thing troubled him: a fear that some day he might graduate. Graduation, leaving school, would mean the end of his empire. You can't run a business like that from the outside; you must be right in the midst of things, spotting opportunities, anticipating needs, keeping your finger on the public pulse.

So he took great pains to stay in school, but never to graduate. This he accomplished by constantly shifting majors. He would come within a semester of getting a B.A. in sociology and then transfer to law. When he had nearly enough law credits, he'd switch to business administration. Then from business administration to psychology, from psychology to French, from French to history, and so on, meanwhile getting cultured as all get-out, rich as Croesus, and never accumulating quite enough credits for a degree.

Finally, of course, it caught up with him. There came a semester when no matter what he took, he had to wind up with some kind of a degree. He looked frantically through the class schedule trying to find some major he hadn't tried yet. And he found one—physical education. So sleek and pudgy though he was from high living, The Operator entered the department of physical ed.

It was a mistake. Among the people he had to wrestle and box with were some great hulking fellows who, like everybody else on campus, owed him money.

Their tiny foreheads creased with glee as they regarded The Operator's trembling little body; their massive biceps swelled joyously; their flexors rippled with delight. Rumbling happily, they fell upon him and covered him with lumps, the smallest of which would have taken first prize in any lump contest you might name.

Confused and sick at heart, The Operator dragged his battered members home. He knew he had to get out of physical ed; his life was surely a big man on Madison Avenue today.

But, as I say, I don't know what happened to him. But this I do know: another Operator appeared on campus as soon as this one left, and he in turn was replaced by another, and the process goes on endlessly.

For as long as boy students like girl students better than going to class, as long as parents cling to the delusion that the allowance they hand at college is sufficient for their children, as long as blood runs warm and cash runs short, there will be an Operator operating on every campus everywhere.

## A CAMPUS-TO-CAREER CASE HISTORY

*"All the answers aren't in the book"*

Here Don Garland makes noise distribution measurements with a Level Distribution Recorder

W. D. Garland, E.E. '52, Univ. of California, is working for the Pacific Telephone Company. We thought you'd be interested in what Don told us about his first assignment.

(Reading time: 45 seconds)

"My job is to help solve problems of noise and other interference on telephone lines due to power interference. Inductive co-ordination is the technical term for the work.

"First thing the Chief Engineer explained to me was that 'all the answers aren't in the book.' He was right. Most of the problems have required a combination of electrical engineering, a knowledge of costs and generous amount of ingenuity. I like it that way. It's given me an immediate opportunity to put into practice the theory I learned at school.

"In addition to this on-the-job experience, I have attended several special training courses conducted by the company. Now I'm breaking in a new man, just like when I started."

Don Garland's work is typical of many engineering assignments in the Bell Telephone Companies. There are similar opportunities for college graduates with Bell Telephone Laboratories, Western Electric and Sandia Corporation. If you'd like to get more details, see your Placement Officer. He will be glad to help you.

## M&O—A Working Team

By TOMMY PRESTON

This is the second in a series of articles concerning Maintenance and Operations.

After a speaker is introduced to his audience it is usually the accepted custom that he be given time to expound upon a certain subject. He may tell of his adventures, accomplishments, or plans.

Such is the case with UK's Maintenance and Operations. This week we are going to let them tell us a little story—a story of their internal organization. What goes on within the walls of M and O?

In their home across Limestone St. from the parade ground there is a team. The team is composed of about 244 persons all working to uphold their reputation of being the best in their field.

Now what does the field mean?

On a tour through the M and O building we learned from Mr. Clyde Lilly, Chief Clerk, that the operational system is composed of plants, shops, and units.

He explained that the main department breaks down into paint, tin, key, and lock shops, a central heat plant, janitorial units, and the police unit. There is also an electrical department, the car-

pentry shop, plumber shop, refrigeration plant, upholstering plant, and storeroom for extra equipment.

In addition to all of the shops or units, M and O has a garage to service its vehicles. They also control the central UK switchboard for campus telephones.

Each department strives for perfection. While in the carpentry shop we observed skilled workers using part of a \$40,000 tool supply. The shop boss, Mr. G. C. Jones, has been associated with M and O for 30 years. He introduced us to Mr. Calvin N. Wolfe who does almost 90 per cent of all the furniture repairing.

In one month Wolfe repaired 283 pieces of furniture and still found time to concentrate his efforts on new jobs. Here then is an example of M and O's spirit: "best in our field."

Nearly all of the upholstering for UK's furniture is done by the plant. An example of their handywork can be found in the Student Union.

Painting classroom desks requires the constant labor of two workers. And in the electrical department, anything from a sump pump to a TV set can be repaired.

Just a brief glimpse through the window at M and O tells us only partly the story of their activities.

A third article will try to clear up some of the many questions asked about M and O.

## The Asylum

# Riot Continues In Asylum

By BILL BILLITER

"Hell hath no fury like a co-ed scorned!"

After a siege of threatening letters, anonymous telephone calls, and a so-called Female Asylum, we are up against the co-ed's fury. We had no idea our truthful little essays on the co-ed would cause such a stir.

But we absolutely refuse to retract any kind of a statement. We believe as always, that blind dates should be outlawed, co-eds go to the library to get dates. Gertrude is a mess, and sloppy kisses are for the birds.

It is difficult, however, to ignore the insults heaped upon our innocent head. The co-ed, vicious animal that she is, has cried for blood . . . OUR BLOOD. And our hands are tied.

The co-ed comes right out, sad to say, and tells all and sundry what she doesn't like. If she has a lousy time on a date she tells the poor guy. If she hates the way he dances she tells him.

The co-ed believes that she is always right. The gallant male student humbly lets her get away with it. He refuses to sink to her tactics.

That is why our hands are tied. We will not throw back the stink bombs hurled at The Asylum. We turn the other cheek and sigh.

Still it is not easy to do. For instance we would like to tell Miss Beard that her Female Asylum is strictly from hunger. We would like to say that she should stick to giggling and forget writing.

We are tempted to tell Miss Beard that her attacks on the long-suffering male student are pure fiction. We would like to tell her to get lost. But, of course, we won't.

We would like to tell the female crank caller (who got us out of bed) that she is square. We would like to tell her that she too is guilty of sloppy kisses. We would like to hang up in her face. But of course we won't.

We are also aching to strike back at the letter writers.

We would like to tell "Disillusioned Blind-Dater" that she DID come from outer space. We would like to say that she ought to go into ag school and be with her sisters, the cows. But of course we won't.

Our patience is sorely tried by the letter from "Girl Who Thinks Asylum Keeper Is Hoody." She probably wears pegged bermudas and smokes cigars. She sounds like a gun moll, and her typing is a crime. All this we'd like to say, but of course we won't.

We would like to tell "Disgusted Kisses" that it's her fault and not her date's. She should scrape off a little lip go before trying to mash some Joe's poor, unsullied mouth. We would like to laugh at her, but of course we won't.

To the frantic female that blast-

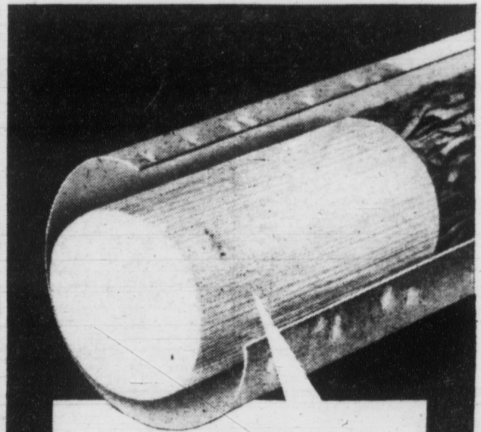

ed our column, we would like to offer pity. Quoth she, "I read your horrible column every week, and I think you're wasting your talent." Quoth us, "Who's wasting whose talent?"

It is obvious that the talented, wasting frantic female is the type we condemn. She is forever giving

her "very first lil' kiss," and indulges in blind-dates and library man-hunts. We would like to give her a boot in the bermudas, but of course we won't.

And so we leave the nasty letters, postcards, phone calls, and assaults on campus unanswered. We join the ranks of the all-good,

What have VICEROYS got

### Turkey-Time Is Gone; Santa-Time Is Begun

'Tis the weekend after Thanksgiving—turkey and lazy living. And two weekends away—it's home for Christmas day.

But right now, back to campus for all—classes, parties and basketball.

Tonight the Delta Zeta's will give the Yule Spirit a big send-off with their White Ball at Boiling Springs Country Club. The dance will get under way at 9 p.m. with mistletoe for everybody.

The SAE's have planned a house dance tonight with the festivities beginning at 8 p.m. The Triangles will open up their doors for a house party at 7:30 p.m. and the Phi Tau's will roll out the welcome mat for a house dance at 8 p.m.

The Phi Delt's will journey to Robindale Farm for a jovial evening at 7 p.m. The ATO house will light up for their party at 8 tonight. The ZTA's house party is scheduled to begin at 8 p.m. sharp.

The first basketball game of the year will take place tomorrow night in Memorial Coliseum when the Wildcat Five meet LSU. In honor of the occasion will be several open houses. Open houses will be held after the game by the ZBT's, ATO's, Phi Sigma Kappa's, Alpha Sig's, and Lambda Chi's. The Delt's are going to hold a house dance following the game and the ADPI's are giving a buffet supper before the game at 5:30 p.m.

The Tri-Delt's will be hostesses for the members of the UK Marching 100 Sunday at 7 p.m. Monday the ZBT's are planning an open house.

Musically coming your way Tuesday night, the KD's, ADPI's and Sig Ep's will serenade. On Wednesday night the music will continue with the Chi O's and ZTA's making their rounds of the fraternity houses. The ADPI's have also scheduled a dessert for Thursday at 6:30 p.m.

The annual Hanging of the Greens Christmas program will take place in the Student Union at 5 p.m. Wednesday. Carols, greens, and Christmas kindness will prevail that afternoon as the biggest holiday season of the year gets under way.

Don't forget to buy Christmas seals and send in your vote for this year's Miss Christmas Seal—it's for a worthy cause and a lovely lady all at the same time.

The annual football banquet was held in the Student Union last Monday night to the tune of "On

On, U of K." Congratulations to Neil Lowery for his award. Speeches, entertainment, and a good time highlighted the evening.

A correction, with apologies to the Pershing Rifles. The 1954 PR Honorary Lieutenant is Miss Nelda Clarkson.

### Pinned

### Christmas Book Is On Display

The manuscript and original cover design of Mrs. Helen Topping Miller's new book, "No Tears for Christmas", is on display in the main lobby of the Margaret I. King Library.

The book deals with the reconciling by the spirit of the Christmas season of the mountain unionists and the secessionists of the bottom-land.

Mrs. Miller, the author of several books popular in this section, resides at Arrowfield Farm near Talbott, Tenn.

## Fencing Team Is Announced

Team members and the game schedule of the Fencing Team have been announced by Col. Henry H. Rogers, professor of military science and tactics.

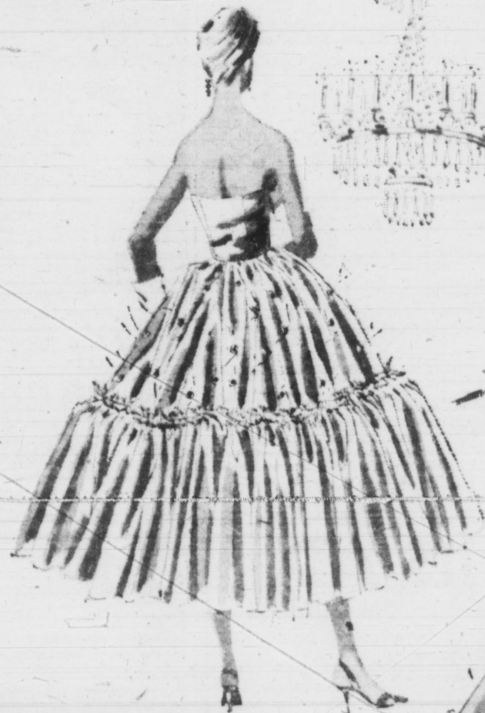

They include: Robert A. Dodson, captain of the team, epee; Charles Vittitoe, manager of the team, epee; and Joe Clarke, epee.

Lee C. Shine, saber; William Schreiner, saber; and Allen Butler, saber. John D. Ferrine, foil; Kirke B. Muse, foil; and either George R. Park, Ed DeMondrus, or Clifford F. Kerby, third foil.

The meets will be either dual or triangular, between two schools or three. The Lincoln Memorial University is scheduled twice in the season.

The schedule of meets includes: Jan. 15—Indiana University at Bloomington; Jan. 22—Lincoln Memorial University and the University of North Carolina at Hargrove, Tenn.; Jan. 29—Lincoln Memorial University and Vanderbilt at home; Feb. 7—University of Illinois at home; Feb. 12—Notre Dame and the University of Buffalo at South Bend, Ind.; and March 5—University of Cincinnati at home.

## Coffee Chat Group Will Hear Talk On Modern Jazz

## Myers, KD, Leads Field In Christmas Seal Race

"An Interpretation of Modern Jazz" is the subject of a discussion to be given by Charlie Blair at the Coffee Chat program at 4 p.m. Monday in the SUB Music Room.

Blair will give the history of modern music and play a series of records to illustrate his discussion.

A graduating senior from Harlan, Blair has played a trumpet since the age of nine. At thirteen he was playing in a dance band, and now has his own band.

A Christmas party at Manchester Street Library Tuesday, Dec. 14, is being planned by the Student Union Student Interest Committee.

A program, including carols and a Christmas story, is planned.

Sugar rationing in the United States ended June 11, 1947.

Betty Ann Myers, Kappa Delta sorority candidate for "Miss Christmas Seal," is leading in the annual contest by 11 votes.

Pat Gray, Alpha Gamma Delta, is second, and Clara Estell Yates, Kappa Alpha Theta, is in third place.

Jo Ann Barrett, Alpha Delta Pi, is fourth. The other contestants are only a few votes behind the fourth place contestant.

According to J. C. Sutherland, Fayette County Seal Sale chairman, "This contest gives each student at the University an opportunity to get in the fight against TB, and at the same time cast a vote for his favorite contestant."

"Tuberculosis is a dangerous disease, which sneaks up on its unsuspecting victims. Students at UK were certainly aware of this when this past semester students were buying sandwiches from one of the victims with active tuberculosis.

"I would like to urge that each student participate in the 'Miss Christmas Seal' contest and strike back at TB, a disease which kills more people between the ages of 15 and 35 than any other disease," Sutherland stated.

The contest will close at midnight Dec. 16. Students who did not receive Christmas Seals in the mail may contact the contestants or the TB association to obtain Christmas Seals.

Other contestants are: Marcy Burnham, Alpha Xi Delta; Roberta Moseley, Barracks 3; Dolores Philippe, Boyd Hall; Ann Vaughn, Chi Omega; Joey Scofield, Delta Delta Delta; Yvonne Eaton, Delta Zeta; Phyllis Sanderfur, Hamilton House; Mary Ann Ogden, Jewell Hall;

Suzanne Wallace, Kappa Kappa Gamma; Harriet Biggs, Lydia Brown House; Phyllis Compton, McDowell House; Coral Evans, 635 Maxwellton Court; Dickie Hedland, 643 Maxwellton Court; Elizabeth Ann Wadden, Patterson Hall; Janice Weisenberg; and Carol Conrad, Zeta Tau Alpha.

### Mock Accident Trial Scheduled For Today

A UK student will be tried at 2 p.m. today in a Law College practice accident case, which occurred on the way back from the Tennessee-Kentucky football game.

Mat McGoo brought suit against Freddie Fratman for injuries sustained when Fratman's car collided with McGoo's.

Representing McGoo will be Don Duff and Jim Lyon. Jim Levin and Oscar H. Gerald Jr. will represent Fratman.

The bailiff will be Paul Hurnelly and the clerk will be Conely Wilkerson. Prof. A. B. McEwen will preside at this Law College Practise Court session.

### Welch To Attend Kellogg Meeting

Dean Frank J. Welch of the College of Agriculture and Home Economics will attend a meeting of the W. K. Kellogg Foundation Agricultural Advisory Committee Monday and Tuesday.

The Kellogg Foundation is a multi-million dollar fund for educational and research projects. The committee, of which Dean Welch is a member, directs the agricultural part of the Foundation. They will meet in Battlecreek, Mich.

### 4-H Group Returns From Chicago Meet

Members of the 4-H Club Department will return from the National 4-H Club Congress today. Attending the Chicago, Ill. meeting were J. H. Whitehouse, head of the 4-H Department, J. C. Faltner, Miss Margaret Guiley, and Miss Edith Lacy, field agents in 4-H Club work.

They accompanied 23 Club members from all over Kentucky who were awarded trips to Chicago for outstanding achievement in various 4-H projects.

FINER FILTER!

FINER FLAVOR!

KING SIZE, TOO!

# WINSTON

Winston brings flavor back to filter smoking — full, rich, tobacco flavor! No wonder college smokers are flocking to Winston — on campuses across the country! Along with real flavor — the kind you've been missing in filter smokes — Winston brings you a finer filter. This exclu-

sive Winston filter is unique, different, truly superior! It works so effectively, yet doesn't "thin" the taste or flatten the flavor. Winstons are king-size, too, for extra filtering action — and easy-drawing for extra good taste. Try a pack of Winstons!

Winston tastes good — like a cigarette should!

### Moot Court Team Gets Regional Honors

The UK Law College Moot Court Argument team was runner-up at the recent Regional Moot Court Arguments held at Washington University in St. Louis.

James Levin and Oscar H. Gerald Jr., who are representatives of the Brandeis Law Club, won over 12 other competing law colleges.

The Washington University team, who won the Regionals, and the UK team were presented with law keys at a banquet given in their honor.

Levin and Gerald will represent UK at the National Arguments in New York City on Dec. 17-18. The subject of the arguments will be an appeal from a decision granting an injunction against picketing by a labor union.

### Printed Cheers For LSU Game

Printed copies of the UK cheers will be given out at the LSU basketball game tomorrow night by the members of Mortar Board, senior women's honorary, Joann Shrader, president, announced this week.

The girls hope to help facilitate cheering at the games with this project, Miss Shrader said.

Two members of Mortar Board will attend the annual regional convention in Pittsburg this weekend.

The next meeting Mortar Board will be Sunday, December 12, Miss Shrader said. This meeting will be a study session presented by Mrs. Peggy Lacy concerning the founding, purposes, and goals of the organization.

## Poor English Is Drawback To UK Foreign Students

By PERRY J. ASHLEY

"Lack of proficiency in English is the greatest drawback to foreign students on the campus," Dr. Adolph E. Bigge, foreign student adviser, commented in explaining some of the problems of advising exchange students.

Many of the instructors of the schools, from which the students come, do not speak English and are not skilled in teaching it. Therefore the students do not have the background in language necessary for work in the schools here, he added.

Financial problems are created in the exchange of the student's native currency to the U. S. dollar. Customs require a person to have a certain amount of American money before entering the country, but this money cannot be bought outside the limits of the United States.

Since each is seeking to gain as much knowledge as possible while here, many of the foreign students

try to carry too much of an academic load, Dr. Bigge believes. Because of the difficulties of studying and understanding, it is impractical for them to carry a load above the required credits.

Disciplinary problems are a rare case. Most of those who are here to study are older and are interested in doing the work for which they have come.

The number of foreign students on the campus usually average around 75, representing as many as 32 countries. For this reason, there is a need for more time to be given to advising these persons, Dr. Bigge stated.

"Every indication is that the number of students and their problems will increase in the future," he added.

In addition to his duties as foreign student adviser, Dr. Bigge is professor of German, head of the Modern Foreign Language and Literature Department, Fulbright Adviser, Chairman of the State Fulbright Committee, a member of the Board of Directors of the National Foreign Student Advisers, and Chairman of the Research Board of the NFSA.

## UK Sorority, Frat Groups Be Featured On WHAS

Quiz contestants and musical talent from several campus sorority and fraternity groups will be featured on the WHAS radio production of "Tomorrow's Travelers."

The quiz program will be conducted Tuesday and Wednesday nights in the studios of WBKY, University FM station. The shows will be taped for future broadcast over the Louisville station, but will be aired "live" over WBKY beginning at 7:30 p.m. both nights.

Tuesday night's presentation will spotlight the new sorority pledges, who will serve as contestants in the quiz on safe driving.

Music on the first broadcast will be by the Kappa Delta chorus, winners in the women's division of last year's All Campus Sing, and the Alpha Xi Delta chorus, runners-up.

Wednesday night's airing will feature the fraternity pledges as contestants, with music provided by the Phi Kappa Alpha chorus, winners in the men's division of the All Campus Sing, and the Delta Tau Delta chorus, runners-up.

## UK Agronomist Receives Award As 'Man Of Year'

Dr. E. N. Fergus, head of the Crops Section of the Agronomy Department, was named "Man of the Year" at a recent meeting of the Southern Seedmen's Association in New Orleans.

He is noted as one of Kentucky's outstanding agronomists, having served for 35 years as a member of the UK faculty.

Since 1936 Dr. Fergus has been in charge of forage research, and he is widely known for his research work on grasses and legumes, including Kenland clover and Kentucky 31 fescue.

## UK Press To Publish Books

Four books will be published this spring by the University Press, Bruce F. Denbo, press director, announced this week.

"Income in Kentucky," by Dr. John L. Johnson of the College of Commerce, will go on sale in January. This analysis on the county level of what Kentuckians earn provides a basis for equitable taxation and sound marketing practices.

Broken down and examined from three different points of view, these income statistics reveal a quite different picture of the economic structure of the state from the usual supposition. For example, Kentucky has not been an agricultural state for a great many years—income from agriculture is 10.1 per cent of total state income. "South from Hell-fer-Sartin" is a collection of Kentucky mountain folk tales recorded by Dr. Leonard W. Roberts, head of the English department of Union College, Barbourville.

These stories, most of which have European origins, came from one of the most isolated regions in eastern Kentucky, the headwaters of the Kentucky River in Leslie and Perry counties. Relics of a fast-disappearing culture, they give an insight into the leisure time activity of a hard-pressed folk. The book will be published in March.

"International Conflict and Collective Security," by Dr. Willard N. Hogan, head of the political science department of State Teachers College, New Paltz, N. Y., examines changing world relationships since World War I as nations have found the traditional methods of maintaining peace inadequate.

Although the principle of concern—conflict anywhere is of concern to everyone, whether directly involved or not—was incorporated into the League of Nations, it was never fully applied. Reaffirmed in the United Nations, the principle has been a strong force in the collective security system. Dr. Hogan's book will be released in April.

The last of the University Press spring books, to be published in May, is "Education and Responsibility," by Dr. Tunis Romein, dean of Mitchell College, Statesville, N. C.

Dr. Romein has outlined the dominant secular philosophies in contemporary education, concluding that none of them can offer a true solution to the problem of developing moral responsibility in youth.

He calls for a redefinition of the separation of church and state in order to return American public schools to their original foundation in the Christian concept of the nature of man.

Drs. Johnson, Roberts, and Romein have received graduate degrees from the University. Dr. Hogan is a former resident of Lexington; he has taught at the University during the summer session.

### WHAT'S THIS DROODLE?

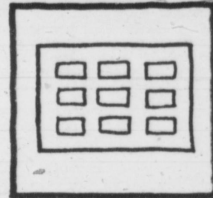

For solution see paragraph below.

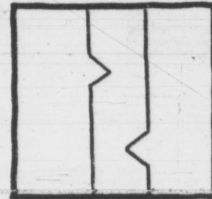

ACCORDING TO THE LARGEST and latest coast-to-coast college survey, college smokers prefer Luckies—and by a wide margin. The No. 1 reason: Luckies taste better. Thousands of students appreciate Luckies' better taste almost as much as the pair in the Droodle above, titled: Sweethearts attempting to kiss and enjoy better-tasting Luckies at same time. Luckies taste better for good reasons. First of all, Lucky Strike means fine tobacco. Then, "It's Toasted" to taste better. This famous Lucky Strike process tones up Luckies' light, good-tasting tobacco to make it taste even better—cleaner, fresher, smoother. So, enjoy the better-tasting cigarette . . . Lucky Strike.

## Newman Club Plans Retreat On Campus

In honor of the closing of the Marian year, the Newman Club will hold a retreat on campus Wednesday and Thursday. The principal speaker will be the Rev. John Boldon, a redemptorist priest from Carlisle, Ky.

The retreat will open with a Mass at 7 a.m. Wednesday in the Y lounge of SUB. Conferences will be held at noon, 4 p.m. and 7:30 p.m. in Room 128 of SUB.

Conferences will be held again on Thursday at noon and at 4 p.m. in Room 128. The closing session will be held at 7:30 p.m. in the Social Room of the SUB.

**Hillel Foundation**  
Kaye and Connie Goldberg will give a program on Jewish culture at a Hillel meeting at 6 p.m. Sunday at Temple Adath Israel. They got the material for their program from attending Camp Brandeis in California recently.

**Wesley Foundation**  
Bill Stratton, president of Wesley Foundation, will give the history of the Foundation at Forum Hour at 7 p.m. Sunday. There will be a supper at 6:15 p.m.

**Canterbury Club**  
The Canterbury Club will have an open business session at their regular Sunday night meeting to discuss the budget and plan for programs.

Supper at 5:30 p.m. will be followed by the program and work on a dramatization of "The Littlest Angel" to be given at Cardinal Hill Dec. 11.

A celebration of the Holy Communion at 9 a.m. Sunday will be followed by a breakfast. Communion is also celebrated every Wednesday with breakfast afterward.

Prayer cell meetings have been changed to 6:45 p.m. on Tuesdays. There are inquirers' sessions on Tuesdays and Thursdays from 4

## Brady Sends Cup To Oratorical Meet In Japan

By ROSALIE REDDING

Dr. George K. Brady, professor of English, is the donor of the "Brady Cup", first prize in an oratorical contest held in Otsu City, Japan.

In 1950 Dr. Brady sent to Japan a loving cup to be used as first prize in the oratorical contest in the prefecture or regional area. The cup rotates from school to school each year.

Winners in the eighth and ninth grades are awarded prizes of books, sent to them by Dr. Brady. This year the winners received "Grimm's Fairy Tales" and "Hans Christian Anderson Fairy Tales".

Children from the blind school in the Japanese district compete also and have won at times.

Dr. Brady has never been to Otsu City but became acquainted with it through an associate.

The contest winner in 1950 and 1951 sent to Dr. Brady, in token of her appreciation, two hand-dressed Japanese dolls.

Dr. Brady receives letters from the contest winners and has already received one from this year's winner, a ninth grade girl who spoke on George Handel's childhood.

## ENGINEERS OR PHYSICS GRADUATES

To those interested in advanced academic study while associated with important research and development in industry, Hughes offers two separate practical programs:

<p><b>HUGHES COOPERATIVE FELLOWSHIP PROGRAM</b></p> <p>for Master of Science Degrees</p> <p>HOW TO APPLY</p>  <p>University of Southern California</p>	<p>A program to assist outstanding individuals in studying for the Master of Science Degree while employed in industry and making contributions to important military work. Open to students who will receive the B.S. degree in Electrical Engineering, Physics or Mechanical Engineering during the coming year, and to members of the Armed Services honorably discharged and holding such B.S. degrees. As many as 100 Fellowships will be awarded each year.</p> <p>Candidates must meet entrance requirements for advanced study at the University of California at Los Angeles or the University of Southern California. Participants will work full time during the summer in the Hughes Laboratories and 25 hours per week while pursuing a half-time schedule of graduate study at the university.</p> <p>Salary is commensurate with the individual's ability and experience. Tuition, admission fees and books for university attendance are provided. Provision is made to assist in paying travel and moving expenses from outside Southern California.</p> <p>for the Hughes Cooperative Fellowship Program: Address all correspondence to the Committee for Graduate Study</p>	<p><b>THE HOWARD HUGHES FELLOWSHIPS</b></p> <p>in Science and Engineering</p> <p>HOW TO APPLY</p>  <p>California Institute of Technology</p>	<p>Eligible for these Fellowships are those who have completed the year of graduate study in physics or engineering. Successful candidates must qualify for graduate standing at the California Institute of Technology for study toward the degree of Doctor of Philosophy or post-doctoral work. Fellows may pursue graduate research in the fields of physics or engineering. During summers they will work full time in the Hughes Laboratories in association with scientists and engineers in their fields.</p> <p>Each appointment is for twelve months and provides a cash award of not less than \$2,000, a salary of not less than \$2,500, and \$1,500 for tuition and research expenses. A suitable adjustment is made when financial responsibilities of the Fellow might otherwise preclude participation in the program. For those coming from outside the Southern California area provision is made for moving and transportation expenses.</p> <p>for the Howard Hughes Fellowships in Science and Engineering: Address all correspondence to the Howard Hughes Fellowship Committee</p>

## Northern Center Shows Increase In Enrollment

An unprecedented increase of enrollment of more than 40 per cent was realized for the fall term at the Northern Center of UK in Covington, according to Dr. Thomas L. Hankins, director.

Total enrollment in September 1953 was 385. For the same period this year the total was increased to 572 students.

Increased interest on the part of the Northern Kentucky veterans, service and civic organizations and support from the local newspapers was credited by Dr. Hankins for the upswing in students.

Offered at the Northern Center is a full two years of college work and is the same as offered on the Lexington campus. The center caters to those who may have to work fulltime and in so doing offers the greater portion of its classes in the later afternoon and night.

Also benefited are Northern Kentucky high school teachers who wish to continue their schooling or who must take a certain amount of post-graduate work to meet the regulations of their respective boards of education.

Tuition at the center, the same as charged at the campus, is only one fifth of that charged by other universities in neighboring Cincinnati. As more residents of the area learn of the low cost of a college education from UK, it is thought that the enrollment in Covington will continue to increase, Mr. Hankins said.

Local businessmen and civic organizations have donated 11 full-time scholarships this fall to help those students who are not financially able to attend college.

An Alumni group in Northern Kentucky is attempting to have the facilities of the center expanded to meet the growing needs. The main offices and classrooms are now housed in the First District School in Covington. Other classes are held in Holmes High School, Covington and Highland High School, Fort Thomas.

## ODK Accepts Applications

ODK, senior men's honorary, will continue accepting applications for membership until Thursday, Dec. 9. Application blanks can be picked up at the Dean of Men's office.

## Southern Registrars Meet In Louisville

The Southern Association of College and University Registrars held its annual meeting in Louisville Wednesday.

Dr. Robert L. Mills, registrar, Miss Maple Moore, assistant registrar, and Miss Mary Page Milton, Miss Dorothy Linville, Miss Helen Davis, Mrs. Kathryn Shelburne, and Mrs. Polly Vicars of the registrar's office attended the meeting from UK.

The morning discussion dealt with "Problems Confronting Higher Education in the South and the Solution".

Two former staff members of UK were on the program. They were Chancellor J. D. Williams of the University of Mississippi, former director of University school at UK, and Dr. Richard Tutill, registrar of Duke University and former registrar at UK.

## Volley Ball Games To End Monday

WAA badminton and ping pong tournaments end next week, and volleyball division games will be completed after next Monday.

Teams playing in the volleyball tournament have been divided into four divisions. The winner in each division will go into the finals. "Finals will be scheduled after the games next Monday are completed unless play-offs will be needed in some divisions," said Jeanette Asselt, head of volleyball.

Quarterfinals in ping pong were completed Thursday and the finals are scheduled for December 8. The fourth and fifth rounds of the badminton elimination tournament ended this week.

Topaz is the crystal form of fluosilicate of aluminum.

The Mississippi River is known as the "Father of Waters."

## Dickey And 6 UK Profs To Attend Tenn. Meeting

Dr. Frank G. Dickey, dean of the College of Education, and six University professors will attend the meeting of the Profession of Educational Administration in Graduate Colleges and Universities in the South at Gatlinburg, Tenn., next Tuesday through Sunday.

The purpose of the meeting is to study how preparation of programs for school administrators can be improved. Organization in the college, what content should be offered, and what methods are appropriate will be other subjects discussed.

Attending the meeting with Dean Dickey will be Dr. A. D. Albright, Dr. Leonard Meece, Dr. H. P. Adams, Dr. Howard Eckel, all of the College of Education; Dr.

Robert Bills, Department of Psychology; and Dr. Willis Sutton, Department of Sociology.

Approximately 80 professors have been working on the problem of programs for school administrators for four years with the help of superintendents, principals, supervisors, and professors from the fields of sociology, psychology, public administration, and political science.

The work is done in small com-

mittees that deal with school curriculum, teaching personnel, finance, transportation, and pupil personnel service.

The meeting will be held under

the auspices of the Southern Co-operative Program in Educational Administration, financed by the Kellogg Foundation.

## Money, Paintings Received By UK

Gifts of money totaling \$8,785, three paintings, 20 recordings and a photographic print were accepted last week by the executive committee of the Board of Trustees.

Donors and their gifts were: American Plant Food Council, \$100 for a scholarship for an agronomy student, College of Agriculture and Home Economics; Nitrogen Division, Allied Chemical and Dye Corp., \$2,000 in support of research in soil chemistry and fertility; West Kentucky Mining Institute, \$125 to the Kentucky Research Foundation for the Henry A. Petter Scholarship for the first semester of the 1954-55 school year.

Colonial Dames in Louisville and the National Association of Colonial Dames, \$190 for a scholarship to be awarded to a young man or woman who expects to teach American history; Reynolds Farm Institute, \$1,000 to the College of Agriculture and Home Economics; Kentucky Association of Counselors and Deans of Women, \$25 to the Frances Jewell McVey Memorial Fund.

Middle West Soil Improvement Committee, \$1,500 for soils research in the Agronomy Department; anonymous, \$300 to the Kentucky Research Foundation for two scholarships in the College of Law; Maytag Company Foundation, \$250 as the first-semester payment on a scholarship awarded to David Bartram, Mt. Sterling; National Association of Artificial Breeders, \$600 to assist in a research project of the Experiment Station entitled "Factors Affecting the Livability and Motility of Bull Spermatozoa Diluted in Milk."

Edgar Kaufman, New York City, a second contribution of \$1,500 to the Victor Hammer Graphic Arts Collection; Mrs. Mary Louise Howe, Washington, D. C., \$25 to the Phi Delta Theta Building Fund, in memory of her cousin, the late Edward Clark Whitfield Jr.

Scholarships as follows were received for students enrolled in the University's Northern Center, Covington:

Arthur M. Bettman, \$130; Benjamin F. G. Keen, \$40; Advertising Displays, \$130; Van Der Veer Motor Co., \$195; Covington Rotary Club, \$65; John B. Cottell, \$130; Catherine E. Lee, \$65; Kay's Laundry and Cleaning Co., \$130; and the Countryman Co., \$130; Blakely, Moore and Blakely, \$65.

Two paintings by Amanda de Leon were received from the Carlebach Galleries as a gift to the Department of Art from Mr. and Mrs. Eugene K. Perry, New York City. A portrait of Oliver Frazer by George Healy, which has been on indefinite loan to the Art Department, was accepted as a gift from Mr. and Mrs. E. L. Rees, Coral Gables, Fla.

The Lexington Camera Club presented to the Department of Art an originally signed photographic print by Edward Weston. The Pittsburgh International Contemporary Music Festival gave the Music Department 20 long-playing recordings.

## Support Given Med Group

The Kentucky Farm Bureau Federation has approved a resolution to assist the Kentucky Medical Foundation and similar groups in efforts to establish a "state medical training center" to help relieve the critical shortage of doctors in rural areas.

The farm group approved the issue after Dr. Francis M. Massie, Lexington, pointed out to the medical-care committee of the Farm Bureau that a second medical school should be established in Kentucky.

## Girl Reporters Meet Girl Reporter

Debbie Schwarz, managing editor of the Kernel, and Barbara Morgan, assistant managing editor, get a few tips about the newspaper world from Pulitzer prize winner and noted war correspondent, Marguerite Higgins.

## 'Russians Are Soft Talking' Says Marguerite Higgins

By TOMMY PRESTON

"The Russians are at a point where it's logical for them to talk soft so that all will let down their guard."

This summation by Miss Marguerite Higgins, noted woman correspondent and Pulitzer Prize winner, illustrates her opinion of Russia's present technique.

Miss Higgins, speaking Tuesday night in Memorial Coliseum as part of the Community Concert and Lecture Series, informed her listeners that a Russian build-up of war materials and manpower is constantly increasing.

With the H-bomb the Red Star is and will be a threat to the free world unless there is a Russian change in the next 10 years, she stated.

Miss Higgins said that under the hand of Joseph Stalin, Russian people were shouldering miserable loads.

Now, with the present rule of Malenkov, a distinct change can be found in the Soviet lands.

He wants improvement. Hence, conditions, and standards toward living and working are improving. The average person is now able to own more, has more freedom, and is trying to rebuild what is left of a war torn background.

Spending 14 days in Siberia, the speaker created much excitement when taking pictures even though she had permission and was not violating any rules. Miss Higgins was arrested and told that her pictures and film were to be taken from the camera.

Explaining that she was in the right and was doing no harm, the reporter was told that if pictures are made they must be given up.

"Well then, what if I said that I didn't take any," she asked the arresting policeman who knew that he was doing wrong but following orders.

"You could then go with the film," he answered her. She left!

In regard to present Russian motives, Miss Higgins commented, "The future is going to be rough."

## Horlacher Speaks At Chicago Meet

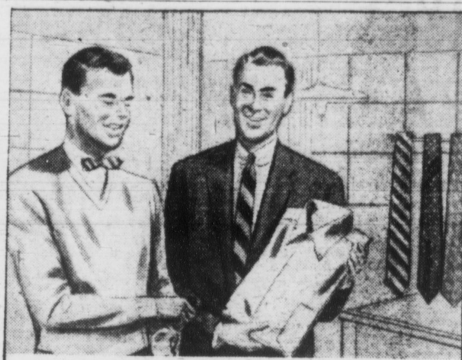

Levi J. Horlacher, associate dean of the College of Agriculture and Home Economics spoke at the annual meeting of the American Society of Animal Production, held at Chicago last week. His subject was "Livestock in the Middle East."

Dean Horlacher just returned this year from the Middle East where he observed the agricultural practices there.

Other University men who attended the Chicago meeting and participated on the program were: Dr. James Kemp, assistant professor of Animal Husbandry; Dr. Robert Ball Grainger, assistant professor of Animal Nutrition; C. E. Barnhart, assistant professor of Animal Husbandry; Dr. Charles Thompson, assistant professor of Animal Nutrition; Dr. R. H. Dutt, Associate Animal Husbandman; and Dr. W. P. Garritus, head of Animal Husbandry Section. These men gave research papers relating to their various fields of study.

The University's Dairy, Meat, Livestock and Poultry judging teams were also in Chicago competing in the International Livestock Exposition.

**Sororities Present Pledges At Panhellenic Ceremonies**

By MARY KANE

Panhellenic Council held its annual Pledge Presentation at 7:30 p.m. last night in Memorial Hall. Two hundred sixty-one sorority pledges were presented.

Special guests included the Dean of Women's Staff, the Deans of the Colleges, fraternity and sorority housemothers, fraternity officers, and the immediate families of the girls being presented. Kaye Goldberg, president of Panhellenic, was mistress of ceremonies.

The sororities presenting pledges were: Kappa Alpha Theta, Alpha Zeta Delta, Alpha Gamma Delta, Zeta Tau Alpha, Alpha Delta Pi, Kappa Delta, Delta Delta Delta, Phi Sigma Sigma, Delta Zeta, Chi Omega, and Kappa Kappa Gamma.

Kristen Stenbjerre of Denmark, recipient of Panhellenic's scholarship this year, was also presented.

A scholarship award was given to Kappa Kappa Gamma. This sorority had the highest overall standing, including pledges and actives, for the past spring semester and this semester.

Delta Zeta won the scholarship award given to the house with the highest standing.

Panhellenic's annual \$300 contribution to the Frances Jewell McVey Fund was presented to Sarah B. Holmes, dean of women.

Phyllis Ann Taylor, Middlesboro; Sylvia Joyce Lane, Lexington; and Marjorie G. Gabbard, Lexington are the winners this year of the Panhellenic Scholarship.

**"Don't Shoot!"**

From recent Student Council minutes:

CHAIRMAN: Next we come to the problem of the appalling dressing-habits of our freshman. We have noted such unorthodox attire as long-point collars, garishly colored shirts, some actually made of dotted swiss!

SCH. OF MUSIC REP.: Definitely not in harmony with our standards.

JOURNALISM REP.: To corn a phrase, they ain't on the ball team.

SCH. OF LOGIC REP.: Why not shoot 'em?

MED. SCHOOL REP.: Great idea! I'll work up a "Good Taste" serum, refined from some Van Heusen Oxfordian shirts. We'll inoculate 'em all!

PHILOSOPHY REP.: Who cares!

LAW SCHOOL REP.: (Happily) Yeah, inoculate 'em. Then maybe some of 'em will get sick, and I . . .

JOURNALISM REP.: Now let's don't go all around Red Robin Hood's barn . . . what we need is a campaign to tell 'em about the Oxfordian . . . the silky, smooth oxford shirts with the smart, modern collar styles.

BUS. ADM. REP.: And don't forget . . . fine long-staple cotton, woven tighter to last longer . . . at the amazing price (thanks to excellent production facilities) of only \$4.50.

JOURNALISM REP.: I think we got the gem of an idea here somewhere . . . but first off the bag, we gotta . . .

MED. SCHOOL REP.: Inoculate 'em.

LOGIC REP.: Yeah, shoot 'em.

CHAIRMAN: All in favor of mass inoculation say Aye. (MOTION CARRIES.)

JOURNALISM REP.: Maybe some of 'em already wear Van Heusen Oxfordians. Don't shoot 'til you see the whites of their shirts . . .

MED. SCHOOL REP.: . . . and the color . . . don't forget come in the smartest . . . side of a Klee.

REP.: (eating Tootsie rolls)

**Scherago's Work Is Featured In Turf Magazine**

Outstanding scientific work by Dr. Morris Scherago, head of the Bacteriology Department, is reported in a feature article entitled "The Swamp Fever Outbreak in Mexico," appearing in the current issue of The Blood Horse, a magazine of the turf world.

Last summer, Dr. Scherago was invited to Mexico City by the Institute of Tropical Diseases to diagnose a disease of thoroughbreds. His diagnosis revealed equine infectious anemia, commonly known as swamp fever.

**Wildcats Haven't Lost**

**Home Opener Since 1926;**

**Alums Fete Cats Royally**

By **GEORGE KOPEK**, Sports Editor

Coach Adolph Rupp's cagers resume Saturday where they left off last season—against a revengeful crew from the Bayou country. Harry Rabenhorst's LSU five made a game effort to spoil the Cats' perfect campaign last year when the two powerhouses met for the SEC crown at Nashville.

This time they'll be trying to spoil the Cats' debut, something that hasn't been done since 1926 when Kentucky lost to Cincinnati 48-10. Their all-conference performer and offensive workhorse, big Bob Pettit, is gone. Back though is Ned Clark, a lad Kentucky fans should remember from the last meeting. It's doubtful that the Tigers have the power to turn the trick, but they should provide an interesting foe for the opener.

The next five games after the LSU tussle provide a real test for Rupp's squad. A dangerous Xavier at Cincinnati, much-improved Temple, the invitational tourney and an old nemesis, St. Louis offer the opposition. If the Cats can get past these hurdles unscathed, and that's a big order, they should be pretty well set for the rest of the season. Not that the schedule gets much easier, but by that time Wildcat reserve strength will have had a chance to be tested under fire. If the reserves come through, there'll be a lot of mistaken experts around March 5.

The alumni banquet last Monday night feted the Wildcat gridders in great style. Fine food, fine entertainment and lots of nice praise for a fine football team. Hardly enough could be said about this bunch or about Blanton Collier and his staff, who did such a good job in molding a top-flight team for Kentucky. The selection of Collier as SEC coach-of-the-year was fitting tribute for his efforts and those of the team.

The only disappointing feature of the celebration was the lack of students, only a handful showing up to help honor the Wildcats. True not many feel like paying the banquet price but it seems like some type of student function, in addition to the banquet, could be arranged. This could add a boost to the presence interest in bettering school spirit. How about it, Suky?

Wednesday night's intrasquad scrimmage got a warm reception from the fans. They got a good preview of this season's prospects plus a look at Harry Lancaster's highly touted freshmen group. One fellow that caught a lot of attention was Bob Burrows, the junior college transfer. His presence should add much strength to the pivot. The Cats lost some reserve strength though when Logan Gipe, a sophomore who had been counted on to see duty, decided to leave the team.

Three of Kentucky's opponents this season will be making an appearance in Bowls on New Year's Day. And the Cats hold decisions over two of them. Ever wonder how our opponents fared this year? The ten foes had a total of 50 victories, 45 losses and five ties. Ole Miss held the top with their 9-1 mark while Villanova gave an assist to the loss column with a reverse 1-9 record.

## 38 Teams Enter I-M Basketball

By **BILL HENRY**

After opening with some rough and ragged play, intramural basketball teams are fast finding the smoothness and precision necessary for winning teams.

Some 38 teams are competing for the intramural crown. The fraternities have been paired into four divisions of five teams each. The independents are divided into two five-team divisions and two four-team divisions. The top two teams in each division will compete in a single elimination tournament for the championship.

In last Monday night's action, four games were played in Alumni gym and two in the Coliseum to provide a full schedule of activity. The Pi Kappas defeated the ZBT's, 22-7 to even their season's record at one win and one defeat. Phi Tau edged by the Sig Eps, 28-24 to even their record up at one-all.

In the independent play the Newman Club won a close one from Wesley Foundation, 35-33. The Civil Engineers had little trouble in disposing of the BSU, 36-20. The Barristers defeated the Catmen, 36-34 in another closely fought game. Mechanical Engineers turned back the Electrical Engineers, 38-28.

In pre-Thanksgiving play, two full nights of basketball were held. Sigma Nu, showing plenty of early season scoring punch, trounced the Pi Kappas, 31-14. In the highest scoring game of the young season, the Kappa Sig rode over the ATO's, 49-25.

The Phi Deltis were handed an early season loss as the AGR's triumphed, 39-30. ZBT got off on the right foot as they eked out a 20-17 decision over the Sig Eps. The Farmhouse turned in the second highest score of the season as they downed Alpha Sigma Phi, 44-20.

## Rifle Team Opens Season Tomorrow Against Xavier

The U.K. rifle team meets the Xavier team tomorrow in the first of five scheduled shoulder-to-shoulder matches.

Robert Prichard, a senior from Ashland and captain of this year's team, and Paul Justice, a junior from Ashland, are the only two lettermen returning to this year's squad. The addition of Joe King, sophomore from Winchester, who holds the title of a Master-shot in the National Rifle Association, should strengthen the team.

Col. Henry Rogers, team teacher, said that this year's team should not lose more than one match during the season, and place no lower than third in the NCAA tournament.

Last year's team won eight, lost four, placed seven of 16 in the regional tournament, and 11 of 44 in the NCAA tournament.

There are 17 men out for this year's varsity squad which is composed of five men.

## Journalism Prof To Give Talk

J. A. McCauley, assistant professor of journalism, will speak to the Club at noon today in the Marguerite McLaughlin Room of the Journalism Building.

Mr. McCauley will speak on vocations in the journalism field.

## Hardy, Rushing End Season As Top Offensive Leaders

By BOB WHITE

According to final season statistics released by Ken Kuhn, Bob Hardy and Dick Rushing, as they have been for the whole season, were the offensive leaders for the Wildcats this past season.

Hardy, whose brilliant leadership ability led the Wildcats to a most successful season, wound up the leading Cat scorer with 4 touchdowns and 5 extra points for a total of 29 points. Dick Mitchell was second with 4 touchdowns for 24 points.

Senior fullback Dick Rushing wound up as the Cats' leading ground gainer picking up 369 yards on 75 carries for 4.9 yards per carry. Dick Mitchell was second with 361 yards on 81 carries for 4.4 yards per carry.

In total offense, the Wildcats outgained their opponents 2903 yards to 2252 with the big dif-

ference coming in the passing department. There the Cats' two brilliant passers, Hardy and Delmar Hughes, threw for 1146 yards compared to only 643 yards for the rival flingers. Hardy attempted 108 passes and completed 50 (five of them for touchdowns).

Final punting statistics show Bradley Mills with an even 1000 yards for 29 punts for an average of 34.5 per punt. A pleasing note to add is that the Cats failed to have a punt blocked this season.

Howard Schnellenberger, Mills, and Rushing were the leaders in the pass receiving department. These three have been the favorite targets for the Cat quarterbacks the whole season. Schnellenberger snagged 19 aeriels, 3 good for touchdowns. Mills caught 18 passes, including one scoring pass. Rushing, the Cats leading pass receiver at the first of the season, hauled in 16 passes.

**Coach And Pupils**

Coach Adolph Rupp and six of the players he is counting on for lots of action this season get together before practice. Kentucky's starting five against LSU is expected to come from this group.

The players (L to R) are: Gayle Rose, Jerry Bird, Bob Burrows, Coach Rupp, Phil "Cookie" Grawemeyer, captain Billy Evans and Linville Puckett.

## Kentucky, Minus 'Big Three' Meets LSU In Cage Opener

By DAVE NAKDIMEN

Kentucky and LSU, minus the stars that led them to their greatest glories last season, lock horns in Memorial Coliseum tomorrow night, the 1954-55 opener for both teams.

Kentucky takes the floor without the services of Cliff Hagan, Frank Ramsey and Lou Tsiropoulos, the "Terrible Trio" that led the Wildcats to a clean sweep of a twenty-five game schedule last year. LSU lost only two starters through graduation but these were All-American Bob Pettit and the Bengal captain and playmaker Benny McCaulee.

A great deal of Kentucky's hopes rest on a Texas junior college transfer named Bob Burrow, a 6-3 pivot-man, averaged 30 points plus per game last season and made the All-American Junior College team. Wildcat captain, 6-0 Billy Evans, one of the best ball-hawks in the nation last year, and Linville Puckett, who saw plenty of action as a soph last year, will probably start at the guards. John Brewer, a 6-3 soph from Louisville, is a possibility as a starter in place of Puckett.

Kentucky will have plenty of height at forward with 6-6 Jerry

Bird and 6-7 Phil Grawemeyer scheduled to start against LSU. Also expected to see extensive action tomorrow night are guard Gayle Rose, 6-0, and jumping-jack Ray Mills, 6-3 pivot man.

Others who will probably see service are Earl Adkins, 6-3 guard; Jerry Calvert, 6-0 guard; and Bill Bibb, 6-4 center.

LSU will have one of last year's starting forwards playing the center slot vacated by Pettit. He is Ned Clark, a left-handed shooter who will be on the spot to make up for the loss of Pettit and his 30-point average of last season.

Don Belcher, who started against the Wildcats in the SEC playoff tilt last season will be back at forward again for the Bengals. At the other forward will be inexperienced Jim McNeilly, replacing Clark.

The Bengals will have plenty of

experience at the guards with the return of veteran Norm Magee and fireman Don Sebastian. Sebastian was the LSU sixth man last season and tallied some important points in the playoff against the Cats.

An added feature tomorrow night will be the unveiling of the Kentucky freshman team, rumored to be the best in the school's history. The Kittens will tangle with Campbellsville Junior College in a preliminary starting at 6:30.

# Trimble To Star In Concert

Ruth Trimble, senior violinist in the Department of Music, will be the feature soloist with the University Symphony Orchestra in its first concert of the season at 4 p.m. Sunday in Memorial Hall.

Miss Trimble, a student of Dr. Kenneth Wright, is from Lexington and is the daughter of Dr. and Mrs. E. G. Trimble. She is a graduate of Henry Clay High School where she was concertmistress of the high school orchestra.

In 1951 Miss Trimble was soloist and concertmistress of the Central Kentucky Youth Orchestra. At the present she is conducting the University High Orchestra. She is a member of Phi Beta, honorary

music fraternity, and Mortar Board. Prof. Marvin Rabin will conduct the University Symphony in the absence of Dr. Edwin Stein, head of the Music Department, who is on a Fulbright scholarship at the University of Vienna.

Mr. Rabin is well-known as conductor of the Central Kentucky Youth Symphony and violinist in the University String Quartet. He had the honor last year of being one of twenty young conductors invited by Eugene Ormandy to

conduct the Philadelphia Symphony Orchestra.

The program will be a memorial in honor of Georgia Myers, wife of Dr. Ernest Myers, who was a member of the music organization for 11 years.

This concert is one in the series of Sunday Afternoon Musicales, and no admission will be charged. The next musicale will feature the University Chorister's Christmas program Sunday, Dec. 12 at 4 and 8 p.m. in Memorial Hall.

Capt. C. G. Moody

## Marine Officer Will Return To Campus

Marine Capt. C. G. Moody and the Marine Corps Officer Procurement Team for this area will return to UK on Thursday and Friday, December 9th and 10th, to process the applications of those students who are qualified for enrollment in the Marine Corps Platoon Leaders Class or Officer Candidate Course.

This team will be set up to conduct all examinations including physicals necessary for completion of applications.

Capt. Moody will also welcome inquiries from any other students interested in obtaining information concerning eligibility for either of these two officer training programs, both of which lead to a commission as a second lieutenant in the Marine Corps.

During his stay here, the Captain may be contacted in the Student Union.

## Group To Attend Virginia Meeting

Dr. Lyle Croft, Dr. Tolan L. Chappell, Curtis Phipps and Bell Bass from the University Personnel Office will attend the American College Personnel Association meeting in Williamsburg, Va. next Sunday through Wednesday.

Now...Your own College-&-Class Pipe

**MEDICO Alma Mater**

FILTER PIPE \$3.50 & \$5.00

Medico's filter strains smoke of nicotine, juices, tars, flakes. When filter turns brown, throw it away with all the impurities it has trapped. Replace with fresh filter for mild, mellow smoking.

Actual pipe has your own college letter on bowl

## No Filter Compares with L&M's for Quality or Effectiveness!

### Miracle Tip

Actress Diana Lynn: This is the best filter of all—L&M's Miracle Tip. The smoke is mild, yet full of flavor.

Mr. and Mrs. Stu Erwin, stars of TV's great "Stu Erwin Show": As we say on TV, this certainly is the Miracle Tip. L&M's filter beats 'em all.

Mrs. Laddie Sanford, Socialite: I smoke L&M's... so do most of my friends. Wonderful filter...fine taste.

## Enjoy Much More Flavor... Much Less Nicotine

WHAT is it that makes L&M the most talked-about, most eagerly accepted, the fastest growing cigarette of all time?

Just this. It's the filter that counts—and none compares with L&M's Miracle Tip. You get much more flavor, much less nicotine—a

light and mild smoke. That's effective filtration. No other cigarette has it!

Why wait to try L&M's? Discover for yourself what more and more filter tip smokers are finding out every day: L&M's are just what the doctor ordered.
