

Minutes of the University Faculty - May 8, 1942.

graduate students might receive credit. In the discussion of this matter, reference was made to the courses to be offered as residence work at Pikeville and Harlan during the coming summer, and the issue was raised as to whether it might not be desirable to allow a minimum amount of graduate credit by extension. No action was taken on this matter, as it appeared desirable to await the return of Dean Funkhouser before considering the question of graduate credit by extension. It was pointed out that any courses could be offered by extension in another community, but that graduate credit could not be allowed under present rules.

Dean Hill read to the Faculty a request from the Library that all departments and agencies of the University that issue printed material cooperate with the library staff in furnishing sufficient copies to allow them to maintain their exchanges with other institutions.

Dean Hill also distributed copies of the tentative questionnaire form designed to discover what proportion of students now in attendance at the University expect to be in summer school. The deans of the colleges were requested to aid in distributing these forms in the classrooms, in order that a census of the student body may be taken.

On recommendation of the College of Agriculture and Home Economics, the Faculty approved a two-day trip made by Professor W. D. Nicholls' class in Systems of Farming. The trip covered May 1 and 2.

The Faculty also approved the trip of the University Band to Louisville on Saturday, May 2, to participate in the Kentucky Derby.

The next meeting of the Faculty was set for Friday, May 15.

Leo M. Rumberlain
Secretary

MINUTES OF THE UNIVERSITY FACULTY
May 15, 1942

The University Faculty met in the President's Office Friday, May 15, 1942. President Donovan presided. Those in attendance were Jesse E. Adams, Paul P. Boyd, Thomas P. Cooper, Alvin E. Evans, J. H. Graham, M. E. Ligon, Frank D. Peterson, and Edward Wiest.

With one minor correction, the minutes of May 8 were approved as read.

The Rules Committee reported to the Faculty upon its consideration of the suggested change in the admission requirements made by the College of Arts and Sciences and the College of Agriculture and Home Economics. It was recommended by the Rules Committee that the following addition to the recently adopted rules be inserted on page 6, following paragraph 3, and that reference to the high school mathematics requirement be omitted from the admission statement of the College of Arts and Sciences page 9, paragraph 1:

Minutes of the University Faculty - May 15, 1942

It is strongly recommended that the applicant present one unit of algebra and one unit of plane geometry, since he may wish to take many courses in the University for which these secondary school mathematics courses are prerequisites. Should the student lack these courses as prerequisites for any of his college work, he will be required to take them in college without credit, thus delaying his graduation.

The Rules Committee also offered the following recommendation respecting changes in graduation requirements involved in the shift from the semester to the quarter plan:

Through the June Commencement of 1943 a student may complete his requirement for graduation by satisfying either the new requirement in quarter hours or by submitting the quarter-hour equivalent of the previous semester hour requirement.

A particular curriculum requirement shall be considered satisfied, if the course has been passed successfully, either with the credit previously required under the semester plan or with the credit assigned in quarter hours.

This recommendation was approved by the Faculty.

On recommendation of the College of Agriculture and Home Economics, the Faculty approved the addition to the curriculum requirements of that college the following statement:

An applicant for admission who presents less than 2 units in mathematics may enter the College of Agriculture and Home Economics, but must make up the deficiency during the first year by taking work in mathematics without credit.

On recommendation of the College of Arts and Sciences, the following course changes in Social Work and Bacteriology were approved:

I. Social Work

Drop:

- 127a-d. Tutorial Conferences and Discussions.
Required comprehensive examination.
S.W. 126a-b. Independent Work.
S. W.125. Orientation to Field Work Practice II.

Changes:

- S.W. 201. Public Assistance. Change to S.W. 151.
S.W. 124. Orientation to Field Work Practice I. Change
from 3 quarter hours to 4 quarter hours.

Minutes of the University Faculty - May 15, 1942

Changes: (cont.)

- S. W. 122. Fields of Social Work. Change to 4 quarter hours.
S. W. 227. Problems of Rural Social Work. Change from 3
quarter hours to 4 quarter hours.

New Courses:

- S. W. 225. Social Insurance. 2 quarter hours. A study of
social insurance in Europe and the United States.
Emphasis will be given to the problems in admin-
istration, financing, and coverage. Prerequisite,
S. W. 215 or consent of instructor.

- S. W. 231. Introduction to Field Work Practice in Community
Organization. 2 quarter hours. 100 clock hours
of supervised work in planning and execution of
simple projects in community organization.

II. Bacteriology

- 6a. Bacteriology and Pathology for Nurses. 4 quarter hours.
2 lectures and 2 laboratory periods a week.
- 6b. Bacteriology and Pathology for Nurses. 4 quarter hours.
2 lectures and 2 laboratory periods per week. Contin-
uation of 6a.

These courses are an expansion of Bact. 6, 6 quarter hours.
Description is the same as for Bact. 6.

President Donovan emphasized to the Faculty the importance of retain-
ing wherever possible some of the younger members of the staff who may be
liable for military service, in order that the University may continue to
have the nucleus of the stronger and larger faculty that will probably be
required at the close of the war. He suggested that every effort be made
to arrange the deferment or postponement of induction of these men, and that
the deans confer with them concerning the possibility of their remaining on
the campus.

President Donovan read to the Faculty the preliminary announcement
concerning the enlistment of students in the reserve corps of the Army. It
was pointed out that this program would probably result in a larger enrol-
ment in the University in September than had previously been anticipated.

The next meeting of the Faculty was scheduled for Wednesday, May 27,
at 1:30 p.m.
