My dear Sir,

I have not looked into
the act, but I believe the
Neyman must be either counter
matter - Certainly that
qualification was in the act
as Noyman sent it under
your auspices for the hands, &

altho we should not that point
which related the Mysteries we
obtained what certainly requires
aliquid qualitate in the
power of the Mysteries setting &
acting in the Camp? in their
absence —

Yours truly

John Gervis
