Sir

I have been well
acquainted wth the Cratylus
and am ashamed not to have
observed that you were in
orders.

Your paper on Bunsen's note
I think do much credit
to the Quarterly and you
shall have proofs of it
speedily - when I will
take the liberty of supplying

some few more deficiencies.

I have the warmest esteem
& regard for Bunsen but
I fear your exertions might
be considered rather too
pursue in compliments than
and I fear too that some
of your expressions about the
Bishops de ~~not~~ ~~que~~
will be to unparliamentary
remarks. But I shall
believe me to be truly
yours

an annotated proof of your
patent eye, as well as
a clear one for your correcting
pen.

Respectfully
yours
Richard
