My dear Sir

I should not like to pre-  
sents any translation of Seneca con-  
jux with whatever brilliancy or  
novelty even, in the translation  
it would not draw a single  
pencil attention - without which  
it is death to me to put forth any  
thing -

With regard to the Quarterly  
do me the favour to take care  
the Numbers that are lost  
& I will supply them with  
the greatest pleasure

I believe your eyes -

24

Taken from Byrons letter it  
will do very well.

Believe me Sir

My dear Sir

most truly yrs

Geo Murray
