My dear Sir,

Mr Henry Robinson expressed a wish that I should look to the state of the monument at the Lac de Gaube. I need not say where it is in good order except that much of the inscriptions of the English tablet is effaced by the effect of the atmosphere & a few letters of the French - it is well to have the whole repainted or lettered with black as before - the wife of the man who has the lake & lives ⁱⁿ the hut there is under the impression that Mr Patisson's family have transmitted more money for them to whom the care of the monument appears to have been taken
