

2/XI 1900

39, Wimpole Street,
Camendish Square. W.

My dear Mr. Moulton,

Here are the two promised reprints; the English one is the paper I had in the Proceedings of the Royal Society; in the German you will find Schopenhauer's definition of what constitutes priority (page 10).

I was told to-day, that probably already to-morrow a collective letter from the leaders of the medical profession would appear

in the "Times".

After that I hope you may see your way to have a say in the matter!

Once more best thanks for the delightful evening. I did justice to your excellent wines, didn't I? —

Yours always sincerely

Felix Serron.
