My dear Edw.,

If you did not know how I am harassed  
& pressed you and sorry by delay.  
What with Politics — my land — book —  
& a search's stream of chiefly  
unless correspond which makes me  
sick as it has done to me — I  
am half crazy.

I have, I believe a list of read the  
Enclod — very useful; and let me  
tell you that of almost all things  
I hate having to read his. I  
give his opinion as it. I have  
rather than see of passing  
for it; & seldom give satisfaction  
Edw.

I almost invariably believe the  
diagnosable & beautiful tasks  
which I have inspired will  
much often than you see  
of. —

Your friend's words display  
with ready amendable faith  
& much merit of conception  
& expression, that even if  
edited of March, I think I  
should not know.

But remember that duality  
they are defined into "poetry"  
in the war. In fact  
they are as they are.

In practice  
of approval
