My dear Sir,

I trust you will kindly accept a copy of my little "Class Book of Old Testament History".

You gave me some suggestions respecting it some years ago, which were of great profit.

My endeavour has been to produce a Manual which would be a real help to the understanding of the O. Testament History, and not a substitute for the Bible.

The notes I trust may be found useful in hisler form, as well as the Maps which accompany the Volume.

Any hints or suggestions from yourself will be valued by me most highly thank

Yours very truly
