The Lord Pass of Harrowden

Brook's Club -

2nd Lord Brougham

21, Berkeley Square.

24th June 1868.

My Lord,

Our kindred counts
from so remote a period, that
I fear you may think I am
scarcely warranted in making
the following request -

I intend to take my seat
in the House of Lords on Friday
next - Lord Dacre, who descends
from the eldest (aux) of Gillingham,
as I do from the second brother,
has consented to be one of my
supporters. It w^d be a very
great gratification to me, if

Your Lordship would accompany
me into the House as my
other supporter -

In these days, Pedigrees are
but little regarded - but I would
rather take my first walk into
the House, between your Lord
Dance, than between any
other members of the House -

If you will do me this favour,
I sh^d. be glad to call upon your
Lordship at any hour tomorrow
(Thursday) you will have, to
explain the course of proceeding

on Friday -

With many apologies for
the great Liberty I have taken,
believe me to remain
with great respect

Your Lordship's very faithful
servant

Brougham & Vaut -
