My dear Sir

Herewith you receive two of my
poor Essays and should Miss Smith
think them worthy of her study, you will
do me the favor to keep them for any
length of time you please. -

You will find at the back the
method I took in preparing them and
should Miss S. require any further
particulars, you can at all times
command my services. - I send you
a list of the pictures at Kew

and will bear in mind also that
you have drawn respecting Rastell
and his works. - You will mind
receive only two or three pounds
which were in my pocketbook
for I do not know exactly where
to find them and have at this moment
a Patent under my hands -
Yours truly
