

24, HOLLAND STREET,  
KENSINGTON,  
W.

4 June 1883

Dear Miss Rowe, Thank you  
for sending the bracket & pegs, which  
I think look very well. I will  
wait to see whether the bracket seems  
to demand gilding or to require  
some making-out in the figure  
carving.

As you express  
having taken pleasure in working  
from my rough drawing I think  
you will perhaps be kind enough

to help me out of a difficulty - that  
is, the disposal of the said drawing.

— what am I to do with it? — I  
do not like to tear it up &  
I have no room for keeping  
such things — therefore, if you  
will accept it, I shall be glad  
— anyway, I will leave it at  
the school when an opportunity  
occurs. This is of no value & if you

do not care to keep it let it  
go off with the dust & shavings. | (I enclose a cheque  
for the amount £7.10/-)

I am much obliged  
to you & your assistants — the students  
— for making me these things.

Yours truly  
R. Caldecott.
