The economy of using **BAUGH'S PREMIUM PLANT FOOD AND SOIL BUILDER** fertilizers has been proven beyond any doubt as attested to by thousands of farmers. These remarkable fertilizers are correctly formulated and properly mixed to furnish the growing plant with a balanced ration of both major and minor plant foods from seed time to maturity, with a generous amount of plant food left over after the harvest to improve the fertility of the soil.

USEFUL INFORMATION

DETERMINING CAPACITIES OF BINS, CRIBS, ETC.

Compute cubic feet by multiplying length by width by height for square or oblong bins, or 3.1416 by radius squared by height for cylindrical bins.

To find the number of bushels, divide the volume of a bushel of small grain or corn into the total volume of the bin.

1 bushel small grain occupies $1\frac{1}{4}$ cubic feet.
1 bushel ear corn occupies $2\frac{1}{2}$ cubic feet.

LUMBER MEASURE

To find contents of lumber, in sq. ft. Rule—Multiply length (in ft.) by width (in in.) by thickness (in in.) and divide by 12.

CORD WOOD: A cord of wood is a pile 4 ft. W. 4 ft. H. and 8 ft. L., and contains (4x4x8) 128 cu. ft. To find number of cords in a pile of Wood: Multiply length, width, and height together the product will be cu. ft. which are reduced to cords by dividing by 128.

LAND MEASURE

To find number of acres, multiply length by width (in rods) and divide by 160. When opposite sides are unequal, add them, and take half the sum for the mean length or width.

BAUGH'S PREMIUM PLANT FOOD AND SOIL BUILDER is rich in the minor elements, including calcium, magnesium, sulphur, iron, aluminum, boron, etc., which are becoming more important each year as the soil grows older and these elements are gradually being depleted from constant cropping.

BAUGH'S PREMIUM GRADES are quick acting, furnishing a complete plant ration from seed time to maturity. When the crop has been removed, this fertilizer will not have been exhausted and stop acting, but will replenish the soil in not only the major, but the minor elements as well.

It is not only essential to raise a good crop, but it is most important to build up the soil for future crops.

BAUGH'S PREMIUM PLANT FOOD is especially adapted for this purpose.

Assure yourself of a good crop and replenish your soil by using **BAUGH'S PREMIUM GRADES**.

What to do at LOS ENCINOS

RIDING

No other part of this country has a greater diversity of horseback rides . . . they lead over the beautiful Canelo foothills which are covered with oak, juniper and manzanita . . . over grassy plains and canyon trails. There

A Picnic at Juniper Flats

are numerous wild flowers . . . some interesting cacti, but not enough to make riding unpleasant. Longer trips take you up into the pines of the Santa Ritas, and on overnight camping trips to the top of Mt. Baldy, the highest peak in this range. There are also several interesting caves to explore, which can be reached on horseback.

Beginners are given especially trustworthy mounts, but there are horses for every degree of riding ability.

GAMES AND SPORTS

The vigorously active find double enjoyment in tennis, deck tennis and swimming in a setting of mountain and desert splendor. For milder moments there are beautiful walks, croquet, horseshoe pitching, skeet shooting and ping-pong.

In season hunters may try their skill at anything from quail and whitewing to deer. Mountain lion hunts can also be arranged.

ROUNDUPS

The cattle shipping season gives guests a chance to see one of the most interesting aspects of Western life, as the cattle from nearby ranches are rounded up for branding and shipment from the corrals at Sonoita.

Typical riding country

PICNICS

Picnics have a new enjoyment at Los Encinos. Often the riders set out in advance, others following in cars to one of the many enchanting picnic places in nearby canyons. . . . Comfort is not forgotten. . . Food, chairs and cooking equipment are taken by truck. . . Guests with a flair for open air cookery may, if they wish, try their hands at the campfire. Or a group may set out on horseback for an all day ride with a sandwich lunch tied on the saddle. The ride home through the lingering afterglow of the sunset, or the white moonlight and bright stars of an Arizona night is one of the never to be forgotten memories of a stay at Los Encinos.

WHAT TO WEAR

There is no formality at Los Encinos. Most of the time is spent in sport clothes suitable for riding and picnicking. The early mornings and evenings in the winter are cold enough for sweaters and leather coats.

MOTOR TRIPS

Rides of no more than forty miles from the ranch, take one on a journey back into frontier history, or into picturesque foreign country. The famous old mining town of Tombstone with its Birdcage Theater and Boothill Cemetery lies to the east. . . and twenty-five miles further on is Bisbee, one of the most picturesque and active mining campus of the Southwest. Tucson is only fifty miles away, over a beautiful mountain road. Thirty miles southwest is the border town of Nogales, Mexico. All day motor trips further down into Mexico through typical countryside and tiny villages can be arranged. In addition, this high plateau region offers a wealth of beautiful scenic spots and fascinating "ghost towns" reached by good roads.

HOW TO REACH HACIENDA LOS ENCINOS:

By Train: From the east or west, Rock Island and Southern Pacific to Fairbank or Tucson.
By Motor: From the east, Highways 80 and 82. From the west, Highways 80 and 83. Sonoita is at junction of Highways 82 and 83.
By Air: American Airlines to Tucson.

ACCOMMODATIONS-*Twenty Guests*

Within is comfort, simplicity and the genuineness of Western hospitality. In the main building is a homelike living room with open fireplace . . . a cheerful library with a good selection of books, games and card tables . . . a ping-pong room . . . and long glassed-in dining porch overlooking the patio.

All the guest rooms are in separate buildings equipped with excellent beds, electricity, either private or connecting bath, plenty of hot water and adequate heating facilities.

LOCATION-*50 Miles Southeast of Tucson*

If you come by train, you get off at the little Southern Pacific station of Fairbank in the heart of historic pioneer and Indian country and drive through desert country covered with mesquite, acacia, greasewood and yucca. Then . . . passing through a mountain gap, suddenly the country changes to rolling grassland. In less than an hour you are at Sonoita, and just a mile off the main highway is Los Encinos . . . a cluster of adobe buildings set on a hilltop among live oak trees, for which the ranch is named.

CLIMATE-*Good the Year Round*

Both summer and winter climates are enjoyable. Dry atmosphere, clear sunny days, bracing mountain air, and freedom from dust, obnoxious weeds and mosquitoes make this one of the world's most favored spots for holiday comfort and pleasure.

FOOD

Food is important, and pride is taken in a good table . . . always plenty of milk and cream, fresh fruits, fresh vegetables and the best of meats, all simply but attractively prepared and served. Breakfast is served from eight to ten o'clock. Special arrangements are made for nurses' and children's meals.
