respecting the operation of the  
main Law in America - as mine  
was a mere curatory remark I did  
not expect it would be repeated - but  
it was in printing my observation they  
left out some proper for whom I left  
the a part of what I said -  
but had they printed the whole of  
what I said - the when & where  
that would have been seen -
