KENTUCKY ELEMENTARY SCHOOLS

1966-67

FOREWORD

A review of the accreditation of elementary schools of the state for the school year 1966-67 indicates major progress is being made in many areas of elementary education.

Progress in the various areas reflects the concern that personnel of elementary schools have for meeting the individual needs of children. The importance of these concerns is shown by improvement in the following areas:

- √Expansion of curriculum offerings
- √Increase of experimental programs
- √Greater variety of teaching procedures and techniques
- √The use of various teaching aids in quantity and quality which reached an all time high during this past year

Elementary schools with eight or more teachers are classified as Extended, Standard, Provisional, or Approved. Appropriate standards and criteria adopted by the State Board of Education are written into regulations for accrediting the elementary schools.

You will note that there are still relatively few schools classified as Extended but you will also observe a gradual increase in the number of Standard schools and a slight decrease in the number of Provisional schools.

I trust this bulletin will be helpful to both elementary school personnel and others striving for a qualitative elementary school for each child in Kentucky.

ELEMENTARY SCHOOLS FOR THE SCHOOL YEAR 1966-67

There were 1028 elementary schools accredited by the State Board of Education during the school year 1966-67. Of this number 655 were under the control of the county school districts and 233 were under the control of the independent districts. Seventeen (17) were State, Federal, or Regional schools and 123 were private schools. As will be seen, there was a variety of organizations according to the grades included in the type of organization. By far, the greatest number of organizations conform to a 1-8 type of organization or a 1-6 organization. Of these 546 were organizations offering a program from one through the eighth grade and 276 offered a program from one to six grades making a total of 822 schools out of 1,028.

Table I below shows the number of accredited elementary schools classified according to the type of control for six years from 1961-67.

The total number of elementary schools operating in Kentucky including all of the elementary schools of seven teachers and below as well as the 1028 accredited schools, numbered 1,825 schools. Of this number, there were 329 one-teacher schools compared to 428 one-teacher schools last year. Comparison of the schools of other sizes can be seen by study of the summary information included in the back of this book.

The number of pupils enrolled in the accredited elementary schools continues to grow. This year there were 469,381 pupils enrolled in these schools for the year. Of this number 291,857 were in the schools under the control of the county school districts, and

111,278 were enrolled in the schools under the control of the independent school districts. The others were enrolled in schools which were operated by State, Regional or Federal authorities or in the private schools.

In all of the elementary schools, there was a total staff of approximately 22,000 teachers, supervisors, principals, and other special instructional personnel serving during the school year of 1966-67. Of this number 18,419 were serving in the schools of eight or more teachers or schools accredited by the State Board of Education. There is indication that the professional staff is growing not only in quantity but in quality as well. In 1965-66, 91.1 per cent of the total staff had a Bachelor's Degree and during the school year of 1966-67, 91.2 per cent of the total staff had a Bachelor's Degree.

Table IV gives the number of teachers and the percentage having Bachelor's Degrees of all public elementary school personnel for a sixteen year period from 1951-67. According to the annual instructional reports, approximately 22,000 elementary teachers were assigned to the public, private, and parochial schools of the state.

*As the proportion of teachers within the Bachelor's Degree category has increased, the mathematical calculation of a median preparation may produce a distorted result without having the data on the actual number of semester hours credit for each teacher.

Table V following shows the number of elementary schools accredited for the school year of 1966-67 compared with the school year of 1959-60, classified according to size.

TABLE V
NUMBER OF ACCREDITED ELEMENTARY SCHOOLS FOR THE
SCHOOL YEARS 1959-60 AND 1966-67 CLASSIFIED
ACCORDING TO SIZE IN NUMBER OF TEACHERS

Size Classification	1959-60	Number	1966-67
8-12	401		325
13-16	215		244
17-20	100		158
21-24	71		111
25 and up.....	77		190
Total	864		1028

It will be seen from a study of Table V that the schools of 16 teachers and below, have decreased in number from 616 to 569 during the eight-year period while the schools of 17 teachers and above have increased from 248 to 459.

The trend in the development of the elementary schools throughout the state is towards the larger elementary school unit in order to make it practical to offer an effective program of education.
