and Staff Development Committee

LONG DISTANCE CALLS

In a memorandum from Jack C. Blanton, Vice President for Business Affairs and Treasurer, dated November 28, we were informed that effective December 1, 1975 the University will have a KATS network open for nationwide direct dialing. Department heads are requested to inform all employees who make long distance calls that all long distance calls should be placed on this network. In the past all long distance phone slips were sent to the Director's Office. However, effective immediately each department head should nominate one person responsible for keeping track of all long distance phone calls made in their department. Each month the Director's Office will send a telephone billing to each department listing all telephone calls made. They in turn will review, approve and return this billing to the Director's Office.

If your department did not receive a copy of Mr. Blanton's memo and you would like to have one, please contact Helga Davit or Eva Cooper in the Director's Office.

ASIS FELLOWSHIP COMPETITION

The American Society for Information Science is sponsoring a fellowship competition open to all students on the topic "The Critical Role of Information in National Policy Formulation and Governmental Management." Awards include a \$1,000 fellowship and publication of the winning paper in the Journal of the American Society for Information Science.

Complete information is available in the Director's Office.
