

Tampa, March 12-1923.

Dear Marguerite & Linn

I got your letter in time
but was a little slow to write
you because Helene told me
she wrote you a long letter, so
I had nothing to tell you.

We had rather cold weather
since my last writing and
the heavy frost we had some
three weeks ago did some
damage to many plants and
even young orange trees which
started to make new sprouts
in account of the fine
weather we had. We are
in need of rain now.
