of it in today's Ledger. Dan

in a state of excitement. Did
you meet Miss Lane? I do

My dear Clementine :-

Your letter
was anxiously looked for
today and came in the
afternoon mail. You did
strike a cold time for travelling.
Today has been very cold
but I have had no snow
of any account. We went over
to the lecture room for
prayer meeting and found
Heggy sitting by the stove
in the beside room and
the smoke pouring out so
we concluded to come home
without having service.
Mama & I were sewing today
a two weeks affair & we didn't
have washing done last week.

Supper Mamma gave you the
doings of last week. Madge
came in on Saturday afternoon
& spent Sunday with us -
and we had Annie Kays and
Kleen for tea on Saturday.

Helen couldn't stay long after
supper - but to go to the store.
Annie entertained us all
evening. I never did hear such
a talker and she was at her
best that evening.

Papa came home on Monday
morning & I took Madge home
in the afternoon. Called at
Alice Parks on my way home.
Madge had a letter from Norman
on Monday - written the day after

Yours - he was well - and seemed
to be in good spirits.

We had a visitor yesterday
Miss Eliza Ann. She came
in the morning & was here
all day. I suppose I was delighted.
I was waiting for Alice last
week about Aunt Fygie telling
us of her Phila trip. She said
she didn't do any shopping
for ~~that~~ Eliza Ann went
through the stores like a whirl
wind. Eliza Ann said yesterday
that Aunt Fygie went so fast
she couldn't keep up with her.
She just had to catch hold
of her & pull her back - it was
too funny. Mamma & I both think you

not think you ever mentioned
her. I can hardly wait
until you come home to see
all about the people and
everything. don't forget any
thing while you are in Annet.
Will send you the white satin
in the hope there will be
enough to fix your cuffs. if
there isn't you can get some
& presume in the West.

9:15. The mail is in -
Might perhaps the Annet
letter would come but it didn't.
They must be waiting for
you to write it -

Edith is still in Phila. I

supper - haven't heard when
she is coming home.

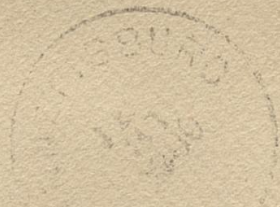

We will have Communion in
our Church next Sunday. Mr.
Lottin will be down to preach
Friday evening and Saturday.

We may not write to you but
again this week. This letter
will do for you all -

With lots of love
Mary.

time. it will be fine for such
a party if you to go to friends.
Well I have seen how all
usual since you went away.
Today I have been sewing at
my shirt waist. my friends
ask & hope to have it done
in time to wear it to the
Club this week. We didn't have
a meeting last week on account
of church.

Edith asked me to go to Dry
Run this afternoon but I
didn't go for several reasons.
She was going to have a tooth

My dear Clementine: -

Clarence's
letter came yesterday and
yours today. Papa read yours
aloud and Mama & I could
tell just what was coming when
he began on a sentence for
the same things were recorded
in both letters. you must not
think you was not appreciated
however on that account we were
just as glad to have it.
You certainly are having a good

filled at Dr. Stewart and I
didn't care to visit Dr. S. then
I wanted to sew and it was
cloudy & raining. So altogether
decided not to go.

Papa went to Bucent Cabine this
afternoon to stay until Satur-
day. Mr. Ditkin and Dr. C. are
to be there - a com. June presby-
tery. Mamma & I talked of
going down to Aunt Foggies
but Papa thought we couldn't
leave the house and there
we have no horse & have
some things planned to do

so guess we won't get to
Aunt Foggies. Mrs. Snyder
is coming to clean the kitchen
in tomorrow or the next day.
The Fitchers on Monday had
Mrs. Snyder & Mr. Wort here.
Mamma & I were out at Uncle
Wills one day last week and
John was extremely pleasant
actually asked "where Miss
Taft is now". I cannot
imagine what it portends
good or evil. He & Edith
had a big blow out since
you went away so perhaps

maybe he heard himself -
I do not think he is so
regular in his attendance at
the "religious service" as Mrs
Grace Strange -

9 P.M. - Began this before
prayer meeting. Edith was
up a little while after meet-
ing. Her green silk dress which
Miss Ackerman is fixing was
to have come today. Instead
she had a postal saying
it would come tomorrow -
wonder if it will - Edith
expects to go to Philadelphia

he wants to keep in with
some of his cousins -

Helen told me she had had a
letter from you - I suppose
Papa told you of having her
& M. Alice here for tea - after
you first went away every
time I went out every body
asked if "I had heard from
Clementine" - I might have
put out a bulletin board -
it was as bad as if you
had had the members - She
was popular for a while -
I think "John" never asked

next Tuesday. Madge asked
Edith one day whom she was
going to visit & when Edith
said Mrs. Leonard Madge didn't
say a word but Edith said
she looked rather dignified.
I was there too & when Edith
asked me afterward if I notice
ed how Madge looked I was
glad I could say I couldn't
see Madge's face from where
I was sitting.

I had a letter from Mr.

Reamer about a week ago. I
answered him of last summer
a few weeks ago) and he
said if Edith could get
him known if she came to
the city he would take his
"mother" to call on her
and I have been teasing
Edith about getting acquainted
with the family.

Mr. Light had charge of the
prayer meeting - he waited
until nearly eight o'clock
for some one to play or

in an engagement about
a week ago. We were talking
particularly ^{not any body in}
about them being taken
prisoners and John said
"well he (meaning Norm) will
be hard to capture".

My new room is very com-
fortable and you shouldn't pay
me to go back to our room
until you come home to
protect me.

We had a letter from John
yesterday & a very short one
today saying he had received

him. Finally Helen came
and started the times
Clarence asked about his
surrender policy in his
letter. Papa said to tell
him he thought it would
be safer in the chain of
command and if he will send
it to Papa he will take
it to his box or vault in
the bank.

They have been very anxious
about Norman out at Uncle
Mills. His regiment was

The pajamas which Mama
sent him. He is made
of "Foreign" goods - one set
came from Willow Hill &
the other from Chambersburg.
The second set is not made
yet.

Mama had a letter from
Cousin Harriet a few days
ago. I guess the reason she
wrote me that I hadn't as
-knowledgeed those pins Mamma
sent & she was afraid in

hadn't gotten them - it's
Mama says to stay as long as

not
was a shame. I wrote right
away of course after her
letter came. I told Mamma
you would probably stop
to see them in your
way home.

Hope this will reach you before
you start on Friday.

Give my love to the folks
and ~~hope~~ ^{hope} a good share
for yourself & Clarence.
This letter is for you both
Mary.

a very pleasant time
then. There were just

try to write you all about it
from Millerstown. That was
a great sled ride you had.
I decided to go to also also,
distant & at present have a
big wedge in my tooth & am
hoping to have it filled. The
fruit one you know. So fear
I shall not have quite enough

not come out on Thurs
day & stay over for it.
I was not eager for the
dance & thought it
would suit Peter for me
just to stay here until
was through in the city &
then make my sheets.
I paid \$3.00 for the time
from over the week.
I haven't time to begin
in "Leerie" Friday. What
