KNOTS AND MILES

The STATUTE MILE is 5,280 feet.

The STATUTE KNOT is 6,082.66 feet, and is generally considered the standard. The number of feet in a statute knot is arrived at thus: The circumference of the earth is divided into 360 degrees, each degree containing 60 knots or (360X60). 21,600 knots the circumference. 21,600 divided into 131,385,456 — the number of feet in the earth's circumference-gives 6,082.66 feet—the length of a standard mile.

6 feet = 1 fathom | 10 cables = 1 knot

600 feet = 1 cable | 1 knot = 1,151 miles

Paris!

Oh how I love Paris!
This morning we went
down to the Travel Club
office and made our
arrangements about
going to Amsterdam
there we looked around
in the stores and went
down on the banks of
the Seine to the bookshops
I bought a few pictures.
Home to lunch and then
search for bead bags.
The Rue de Rivoli is
a fascinating street
to see Romeo and Juliet
at the Opera house.
The house was beautiful
and the opera very very good

A wait as usual for the right seeing buses - then on the city, Notre Dame, Sacre Coeur, Chapelle were sighted during the morning's trip and in the afternoon, Napoleon's Tomb and the Arch of Triumph. The view from there is simply gorgeous. Shopped a little, came home and went to the Folies - had five seats and enjoyed it immensely - a little unusual, but very calm compared to Naples. Came home dead tired and argued with the taxi driver.

are so funny - I never knew they were like that - porpoises, sea gulls and lots of ships.

I have my sea legs, and although I hate to lose them & have to get them again coming home, I'll be glad to get on land again.

The sailors say we have had the best voyage in three years.

I must close,
Much love,
Mary Agnes.

July 6, 1925

Dear Frances Field -

You don't know how much I appreciated the letter and the jokes. We have had lots of fun and many strange experiences already.

There are lots of things we didn't expect and not some we did expect. There is a swimming pool, several deck games, dancing on the afterdeck every night - one night a fancy dress we had in the room.

ing early so that's why
I'm writing. The 1st two
days. I rushed from my
stake room and grabbed a
chair and sat all day not
having to move or hardly
look around. Boy, and I
sure had all the receptacle
places located - not that
I fed the fishes literally
but I had four attacks
of sea sickness

Yesterday ~~we~~ I played
Bridge all after noon with
some English people who
are so interesting. They
have been in America
some time and they have

a huge box of all kinds of
cakes and they give us
some every day at noon
and they also drink cham-
paign and give us some-
times the fish I ever had and
I surely enjoy it.

Mary and Baker and I
agree wonderfully - had a
grand time in N.Y. with her
& two boys. Saw Rose Marie

at a darling place out on
Long Island & ate at a
Chinese restaurant another
time & drove every where.

Miss Coleman,

I was very much disappointed about Lillie Mae's report but she said you told her to tell me that she missed so much is the reason she didn't get very good grades well I think if she had studied any at all she should have got better grades than what she did Miss Coleman will you please make her study and hand everyone of her papers in for it cost us a lot to send her

to school, and I want
her to get a good education.
Come to see me some
times

Mrs. Penrod,

Miss Coleman.
