

To Editor: The news in this Bulletin is prepared for the press and is released for publication on receipt.

THE UNIVERSITY OF KENTUCKY PRESS BULLETIN

PUBLISHED BI-WEEKLY BY THE UNIVERSITY OF KENTUCKY.

Entered as second class matter at the post office at Lexington, Ky.

April 15, 1918

LEXINGTON, KENTUCKY

Vol. I. No. 7

NEW FEATURES OFFERED IN 1918 SUMMER SCHOOL

The work of the Summer School, University of Kentucky, designed for teachers, or students seeking instruction, will open June 17, continue six weeks and close July 28. Besides the usual courses a number of special features will be given and it will be possible to make up plans of work suitable for teachers and students in various fields.

No entrance examination is required but instructors must be consulted in regard to prerequisite preparation in some courses.

Students who have full entrance credits to the University will be given credit toward degrees for college work in the summer school.

Four semester credits will be given for one double course consisting of two hours a day for the session. Two semester credits will be given for a single course (one hour a day for the session.)

No student will be allowed to make more than six semester credits in the summer school.

Patterson Hall will open for women. The rates are \$5.00 a week. Rooms may be had in the men's dormitories at a small fee. There are several good boarding houses convenient to the University where board may be had at from \$4.00 to \$5.00 a week.

The work in the summer school is given in double and single courses. A double course means that the subject is taken two hours a day throughout the session. A single course is taken one hour a day for the full session. The fees for a single course are \$5.00, for a double course \$7.00, for three single courses \$10.00, and for one double and one single course \$10.00.

The summer school of 1918 offers to students many features heretofore unattempted by the University. There will be special features each week—features that are as good as may be found in the large Eastern universities. The first week will be music week. The seven days will be devoted to community singing and lectures on music, conducted by Professor Peter W. Dykema and M. L. Michigan, professors of music, University of Wisconsin.

President McVey will deliver four lectures on the World War, beginning Monday afternoon, June 24, at 4 p. m. These alone will be of great value, as President McVey is an eminent authority on the war, having been in touch with national figures in Washington for months.

The feature of the third week will be a series of lectures given by E. Marion Rucker, United States assistant attorney, Washington, D. C., on the "Law of Domestic Relations."

Round table discussions on educational subjects will be held during the fourth week, beginning Monday afternoon, July 8, for the purpose of a better understanding of Kentucky problems in secondary education, with the hope that a solution may be found through experience and counsel of workers in the field. Professor McHenry Rhoads, State High School Inspector and Supervisor of Secondary Education, will be with the faculty for the entire week and will conduct the round table. Other members of the faculty will be present and take part in the discussion.

The Elsie Herndon Kearns Players in a series of Shakespeare and Moliere plays will feature the closing week.

Monday evening, July 15, at 8:15, "Romeo and Juliet" will be given. Tuesday matinee at 3 p. m. the "Learned Ladies" will be presented and the "Tempest" will be given the same evening at 8:15 o'clock.

CIVILS MAKING CAMPUS MAP.

A new map of the Campus of the University of Kentucky is being prepared under the supervision of Dean D. V. Terrell of the College of Civil Engineering, assisted by H. B. Clarke, E. B. Cavallo and S. Hudson. Freshman Civil Engineers will be assigned to the work in squads.

BUILDING PROJECTS COVER EXTENSIVE FIELD

President F. L. McVey, University of Kentucky, has requested D. H. Peak, Deans T. P. Cooper, F. P. Anderson, P. P. Boyd and Dr. F. E. Tuttle, to act on a Building Repair Committee and to consider the following suggestions in their program:

Possible erection of a temporary heating plant sufficient to take care of the needs of Mechanical Hall, now served by other plants, and other buildings that are served by other plants.

Improvement of both dormitories by putting in them, new plumbing, new floors and giving them new coatings of paint.

Possible use of the lower floor of the old dormitory for a dining room. Conversion of the present dining hall into a laboratory for public health work.

Erection of a gymnasium for girls, sufficiently large to take care of their needs for some time.

Possible addition of another story to the rear of Patterson Hall.

Repairing old chemistry building. Erection of temporary stock judging pavilion.

Installing of rooms for Domestic Science Department in the basement of the Natural Science building.

LANDSCAPE ARCHITECTS PLANNING NEW CAMPUS

Acting under instructions of the Executive Committee of the Board of Trustees of the University of Kentucky, President McVey has selected the Olmsted Brothers of Brookline, Massachusetts, landscape architects, to make plans for improvement of the campus and submit estimates of cost for the committee's subsequent consideration.

John C. Olmsted visited the University March 30, and went over the grounds with President McVey. Jacob Sloat, representative of the firm, went over the grounds April 6 and 8.

The firm has been requested to make a survey, submit plans for improvement in planting shrubs, flowers and trees, laying out roads and walks and generally beautifying the grounds of the University.

"HOW FRANCE CARES FOR WOUNDED SOLDIERS," MAY 1

In order to comply with requests of the Government for aid in all phases of war work the University of Kentucky has organized a chapter of the Red Cross, a War Committee and a committee on Engineering Employment.

The War Committee has procured from the National Surgical Dressings Committee of New York City a war film which will be shown in Lexington at the Opera House Wednesday, May 1. The title of the picture is "How France Cares for Wounded Soldiers."

Under the auspices of the war committee a sketch, the title of which is "A Concert in a Ward of a French Hospital at the Front," will be given by The Strollers, the dramatic club of the University.

One half of the gross receipts of the picture and the sketch will go to the National Surgical Dressing Committee.

RAMSEY GOES INTO SERVICE.

A letter has been received by Prof. J. J. Hooper, head of the department of animal husbandry, University of Kentucky, from E. H. Ramsey, State Director of Dairying for Tennessee, a graduate of the College of Agriculture here, stating that he had resigned his position to enlist in the marine corps, and will leave this week for Paris Island, N. C., to enter training.

After graduation at the University, Mr. Ramsey entered cow-testing work in Tennessee and after the post of dairy director was created by the Tennessee Legislature he was appointed to the office by the governor of the State.

COMMENCEMENT WEEK TO CLOSE ONE DAY EARLIER

University of Kentucky Commencement week for the class of 1918 will begin June 2, and close with the graduating exercises, which will take place Wednesday, June 5, instead of Thursday, June 6, as announced in the catalog.

The entire staff and senior class of the University will take part in all the exercises and will appear in caps and gowns for the graduation day program.

The speaker for the occasion has not been selected, nor have all plans yet been completed for the week.

UNIVERSITY LIKELY TO GET 400 DRAFTED MEN

The University of Kentucky will accommodate 400 drafted men who will go into the American army May 1 as Lexington is one of the four cities in the south almost certain to receive the drafted men. K. V. Carman, special representative of the War Department's Commission of Education and Special Training, has inspected the University grounds. He said that the facilities offered together with the fact that the institution has a regular army officer at the head of its military department place the University in a favorable position to be chosen for training grounds.

The draftees will be trained for duties most necessary in expeditionary forces and will be rushed overseas as soon as they are prepared. Captain N. H. Royden will be in general command. Other military men will be sent in for teachers and members of the University faculty will also be called upon to give instructions in various phases of the work.

A. O. Whipple, of the University of North Dakota, arrived at the University April 8 and took up his duties as superintendent of buildings and grounds. Mr. Whipple was recently appointed to take up the work in the University upon recommendation of President McVey and comes with an impressive record of achievement in this field of work.

CENTRE PROFESSOR TO LECTURE ON KIPLING

The Department of English, University of Kentucky on March 28 inaugurated a series of lectures to be given weekly on Thursday afternoon at 4 o'clock by professors of English in the State.

The first lecture on Thackeray, was given March 28 by Professor E. F. Farquhar; the second on Charles Lamb, was given April 4 by Professor Clarence Freeman of Transylvania College; the third, April 11 on "Brownings As An Art Critic," given by Professor L. L. Dantzier, head of the Department of English, and the fourth will be given April 18, by Doctor Thomas of Centre College, whose subject will be "Rudyard Kipling."

Professor Farquhar will give a second lecture April 25 taking for his subject, "Thackeray the Critic of the Eighteenth Century." The series will close May 2 when Professor Dantzier will discuss H. C. Wells.

UNIVERSITY MEN ON EDUCATIONAL PROGRAM

Kentucky Educational Association, which meets in Louisville the week of April 21, will be attended by President F. L. McVey, members of the faculty of the University of Kentucky. Professor C. R. Melcher, Dean of Men of the University, will, on behalf of the teachers of the State, respond to an address of welcome from General H. C. Hale of Camp Zachary Taylor, at the camp on Wednesday, April 24.

The principal address of the meeting will be given by Hon. Herbert Quick, of the Federal Farm and Loan Board of Washington, D. C. President McVey will discuss "The Place of the State University in the Development of the Commonwealth."

ENGINEERS ENTERTAINED BY CHICAGO ALUMNI

The seniors in the three engineering colleges, University of Kentucky, returned Monday morning from Chicago where they had spent a week inspecting Indiana Steel Company, Fourteenth Street Pumping Station, Lake View Pumping Station, Northwest Station of the Commonwealth Edison Company, Division Street Works of the People's Gas, Light and Coke Company, Union Stock Yards, Armour & Company, Pullman Palace Car Works, Sears, Roebuck & Company, Municipal Pier and other places of interest.

The party was in charge of Dean F. P. Anderson, Dean D. V. Terrell and Professor W. E. Freeman. On Saturday night at the Great Northern Hotel, with President Frank L. McVey as guest of honor, the seniors and professors were entertained at dinner by the Chicago Alumni Club of the University of Kentucky.

C. A. Johns presided as toastmaster and, on behalf of the senior class, C. M. Burton responded to a welcome. President McVey answered the toast. "The University"; Dean Anderson, "Yesterday, Today and Tomorrow"; Professor Freeman "Our Boys Over There" and there were several informal talks by other members of the Chicago club.

KANE SEES BIG THINGS AHEAD FOR UNIVERSITY

President F. L. McVey, University of Kentucky, has received a letter from Thomas F. Kane, President of Olivet College, Olivet, Michigan, in which Doctor Kane congratulates the President and the University in the successful passage of the Appropriation Bill granting the University the needed increase in income.

Doctor Kane, a member of the Advisory Board which last summer made the recommendations for improvements which have so greatly benefited the University, says:

"It is a good State and they have the right kind of people down there. The best people in Lexington and throughout the State, so far as we could learn, are genuinely interested in having the University what it ought to be. I believe you have as interesting a problem and as promising a future now as any university in the country."

GET \$62,000 A YEAR FOR SMITH-LEVER BILL

An important bill affecting the University, which has just passed the General Assembly, is the Smith-Lever bill. The purpose of this bill is to offset appropriations made by an act of Congress on May 8, 1917, for the purpose of establishing extension work in Agriculture and Home Economics between the University of Kentucky and the United States Department of Agriculture and for the development of markets. This bill appropriates \$62,000 annually for this purpose.

UNIVERSITY OF PARIS TO INSTRUCT AMERICANS

The University of Paris is preparing a special course for Americans to learn the language, literature, art and history of France, according to information received by the University of Kentucky from the United States Bureau of Education. No diploma will be given as it is merely intended to meet the immediate needs of American students.

The social side of students' life has always been a subject of sympathetic attention on the part of French Universities. The Bureau states that an association of professors called "Acueil Francais" (French Reception) has been formed to look after the well-being of Americans in the schools, to introduce them into French families and French society, where "they may acquire the knowledge of the real France, so different from the impressions formed in the streets and cafes."

LA GRANGE STUDENT IS GRANTED HIS DEGREE

At a meeting of the University of Kentucky council Friday afternoon, April 5, it was decided to grant a degree to T. Ellis Peak, of La Grange, a senior in the College of Mechanical and Electrical Engineering, who was called to report at Fort Monroe, Virginia, Monday for service in the coast artillery. Mr. Peak was enlisted in the University engineering reserve corps, and is the first member of that corps to be called into military service.

EXTENSION DIVISION TO HELP SOLVE PROBLEM

The College of Agriculture of the University of Kentucky, thru its extension division, has worked out a plan for placing with farmers during the coming crop season as many boys between the ages of 16 and 21 years as can be gotten together thru the efforts of the Boys' Working Reserve in the State of Kentucky.

The State, district and county agents, with a leader located at Lexington, are being organized under a specific plan which is expected to get positions for these boys in the Boys' Working Reserve with the farmers of the State, and it is hoped that thru this organization the best possible adjustment between the laborer and the employer may be brought about.

If the farmers will avail themselves of the opportunity here given, some additional labor can be utilized in agriculture this year, and valuable training and experience may be gained by members of the Boys' Working Reserve.

PROF. McNEAL JAMES HEAD OF GARDEN WORK

With a view to stimulating food production more attention is to be given to the home garden movement by teachers of Lexington schools and by the children under supervision of McNeal James, Professor of vocational training, University of Kentucky. A supervising teacher has been selected for each of the 13 schools. Last year four students of the College of Agriculture took charge of all school gardening and more than 50 acres of ground in the city was cultivated by children.

Each supervising teacher will organize pupils of schools into garden clubs which shall hold regular meetings for instruction. The main purpose of the meetings is to sustain the interest of children in the cultivation of gardens. The supervising teacher will help students plant gardens and prepare soil. Professor James will instruct the supervising teachers.

PATTERSON HALL GIRLS PUT OUT A GARDEN

A war garden of half an acre which will be cultivated by the girls living at Patterson Hall, University of Kentucky, has been planted by the young women. Miss Adelaide Crane, director of the hall, supervised the planting. The vegetables already planted are potatoes, radishes, lettuce and onions. Most of the work of preparing the soil for the remainder of the garden has been done by the girls.

\$165,000 PROVIDED FOR VOCATIONAL TRAINING

The Smith-Hughes bill has been signed by Governor Stanley. It accepts the provisions of the Federal Smith-Hughes Act and makes it possible for the State to receive \$165,000 annually within five years. These funds are to be used for vocational education. A board is provided to administer these funds. This board is to consist of the Governor, President of the University, Secretary of State, Attorney General, superintendent of schools and a business man. High schools will get the major portion of the funds when they comply with the provisions of the law.
