University of Kentucky Board of Trustees Meeting Minutes – 1879, October 10

Board of Visitors met in the office of the Chairman. Present: Lleppe, Kinkead, Robinson, Bullock, and Hardin. Professor Vance of Carlisle being present presented a proposition for connecting his Normal School with the Agricultural and Mechanical College of Kentucky. After an interchange of opinion among the members of the Board it was concluded that this Board under the definition of its powers by the Act transferring this college to its care and control has no authority to make the arrangements contemplated by Professor Vance's proposition. The desirability of such connections was however recognized and upon motion following preamble and resolutions were unanimously adopted.
