Another Useful Honorary

IN ACCORDANCE WITH THE KERNEL'S plan of segregating the useless from the useful...

Probably the most important contribution of Mortar Board is its aid in the orientation of freshman women in September.

Another service rendered the students by the organization is a program of study hours for dormitory women.

Membership in the honorary is limited to 20 women, with qualifications including high scholarship, outstanding leadership in other campus organizations, and service to the University.

Mortar Board was founded at Swarthmore college in 1918 and now has chapters in 60 American colleges.

No Smoking Allowed

IN ARTICLE 24 of the house rules for the new Student Union building is the following statement:

"Smoking will not be permitted in the ballroom or music room."

At first glance, the regulation pertaining to the ballroom seems petty, as if the constitutional committee were campaigning against tobacco or trying to regulate student morals.

When completely installed, the linoleum covering on the dance floor will have cost the students and state approximately \$2,000.

Since the building and furnishings are not mere temporary affairs meant to please for the moment but are of enduring quality...

Whatever is student opinion concerning this particular regulation, one fact is evident. There is a definite need for each individual to understand the complete constitution and set of house rules.

a few changes and corrections after the building is in operation but how much better it would be to catch the errors at an early stage.

Starting in this issue, the constitution will be printed in sections until the complete document has been published.

ON THE LAM

By GEORGE LAMASON

WE HAVE always had a deep and natural (we were going to say "profound," but that's Eckdahl's word) respect for that wonderful little machine, the typewriter.

Deep in every man's heart is the desire to do his bit for science, to ease the load of suffering humanity, and to pave the road for the march of progress.

All models are to come in six delicious colors: Nile green, robin's egg blue, canary yellow, orange, lemon, and lime.

Model 1-A is the newspaper writer's model. A tap on one of the keys instead of printing merely one letter brings forth one of the reporter's favorite phrases like: custodian (also minion, arm, clutches) of the law, charming personality, both from a clear sky, checked career, blushing bride, death car, psychological moment, staid professor, and breakneck speed.

Out sports model, 1-B, contains keys with such favorites as: rounded into shape; dry-land menmen; molskin warriors; record-shattering performance; fine-bucking fullback; grid technicians; and battling for varsity berths.

A special machine for Time magazine with chubby, spunky, round-faced, bumbling, new-slack, tycoon, and famed, is under construction.

Another, 2-A, was designed for people who like to drive autos. There are gears so students can shift to faster and faster gears as the time when the term paper is due draws nearer.

This model also sports a trumpet horn to be blown when you want to stop interruptions or when some kibitzer reads over your shoulder.

There is another one called the Feather Touch for people who like to throw things in the heat of anger. This machine weighs only three pounds - light enough for a baby to throw.

For the poor speller we offer the Bingo. This typewriter pays off in various amounts up to a dollar for the correct spelling of difficult words.

A flood of spring poems - well, four anyway - reached us this week. Witness:

Spring behold! fickle love, Spinsters' joy, turtle dove, Romeo's illusion, Juliet's dream, Ardent exhaling, amorous stream, Warming rays, caressing breezes, Flirting damsels, just big teases, Verdant carpets, beauty spread, Rejuvenation of nature's dead, Trees bud forth, flossy spring up; Hello, Moscles; good-bye Rupp, Angle worms crawl, fish bite too, Showers fall freely to make all new, Birds chirping and opened doors, All means to me - Spring once more. -A. Poe Eit.

Quick, Henry, the smelling salts!

Spring has come; The trees are leaving, See their trunks?

The Constitution Of The Ky. Student Union

1938 Note: Due to the importance of the Student Union constitution, the first part of which is printed here, we suggest that all copies be retained for future reference.

Following is the constitution of the Kentucky student union as approved by the student union committee and submitted to President McVey and the Board of Trustees for final approval.

ARTICLE I: NAME

Section 1. The name of this organization shall be The Kentucky Student Union of the University of Kentucky.

ARTICLE II: OBJECT

Section 1. The object of The Kentucky Student Union of the University of Kentucky, as stated in this, the first Constitution of the Union, is:

To promote the interests of the University of Kentucky and its students.

ARTICLE III: MEMBERSHIP

Section 1. Every student in actual residence at the University of Kentucky shall become an active member of the Union upon payment of Union dues, for the period which such dues cover.

Section 2. There shall be four (4) classes of members: student, faculty, alumni, and honorary.

Section 3. Student members. See Article III, Section 1.

Section 4. Faculty members. Any member of the Board of Trustees, teaching staff, clerical force, or officer of the University of Kentucky is eligible to membership in the Union.

Section 5. Alumni members. Any graduate or ex-student of the University of Kentucky shall be eligible to membership in the Union. Alumni members shall consist of two classes: resident and non-resident.

Section 6. Honorary members. The Board of Directors shall have the power to elect honorary members at its discretion. All members of the Board of Directors who have graduated and who served in the best interests of the Union for a major portion of one school year shall become Honorary Life Members.

The Secretary of the Board of Directors shall issue a certificate of life membership and a life membership card to each member of the Board of Directors upon his becoming an Honorary Life Member. Such certificate or card shall entitle the Honorary Life Member, upon presentation, to the privileges of the Union, as specified from time to time by the Board of Directors. No fees, dues, powers, or duties shall be imposed upon any Honorary Life Member.

Section 7. Expulsion. Any member of any of the classes of members of the Union may be expelled or suspended from membership, either definitely or for a specified period, by a majority vote of the Board of Directors, but only upon due notice and a public hearing. This Section 7, Article III, shall be subject to Section 1, Article IX.

RAVELINGS

By JOHN ED PEARCE

While wars and rumors of wars have to come shake the foundation of a dozen civilizations in scattered parts of our globe, we, the college students of America, stroll carelessly down the streets of our high school education, far from the gruesome realities of strife.

I decided last week to eke from a comparatively representative group their ideas on this subject of war.

Since college people are not only full of ideas, but usually willing to express them quite freely, I had practically no trouble in getting the following answers to the question "Under what conditions would you volunteer for service in the army of the United States?"

Leon McCroskey, '38-"I would not volunteer for any foreign war, no matter what the cause. In fact I would try to avoid enlistment in every possible way. I would, however, volunteer for a defensive war."

Marvin Gay, '38-"Only in case the United States or some of the Central American republics were invaded."

Louis Barker, '39-"I would volunteer if Hawaii, Alaska or any foreign holding of the United States were molested."

J. B. Curry, '40-"I would volunteer for any war if Americans or their possessions were in danger, whether it was a foreign war, or a defensive one."

W. McKinney, '41-"I would volunteer for a foreign war as readily as I would fight to defend my own country. I would rather go over there and fight than wait for them to come over here."

What these testimonies prove, I will not attempt to say. But on looking at the collection for a second time, you will notice that the Juniors and Seniors seem more inclined to be against war than do the Freshmen and Sophomores, who have less of a pacifist attitude. Perhaps it is the superior education. It may be merely study of the question.

Though fully cognizant of the fact that I am biting the hand by which I hope some day to be fed, I cannot resist the opportunity to bring to light one of the most ludicrous of newspaper tactics; the partisan attitude which some newspapers take concerning the use of certain words. If you are a follower of the sheets, you will have probably noticed that the angelic editors or copywriters only fail by a few dashes as -m-, or -h-, or -n-. In fact, by assuming this ostrich-like attitude, the copywriter or editor who persists in doctoring such words actually degrades his paper, for it is well known that the suggested word is always more powerful, and usually more vulgar, because of its suggestiveness. This knowledge does not seem to have any effect on the editors, though, and they plod stolidly on, throwing such drivel as "I'll blow you great!"

Today's columbine combine and column-get it? It has been aided and abetted with ideas and what-what from the pulsating craniums of Bob Hansen, Mary Stuart File, and Martin Brock, who took pity on the desecrated condition of our brain cells and offered a few suggestions hither and yon, which, we want everyone to know, were greatly appreciated. The curtain rises...

A few of the good sayings and their originators are hereby revealed while a waiting world. The Sigma Chi's are always saying "What in the world?" the answer to which is "Alas! Alas!" Sigma Nu is said to have originated the expression "What about that?" SAE's favorite is "Gad, girl, you're costing me money!" And when you hear a sweet voice in the distance saying "Hi, hon-ee, you know I'm a Kap."

Some of the more fervid two-somes seen around lately: Natalie Corbin and Junior Class Percy Bob Strohm... KA Al Hoekins and Catherine... Dyrld Romel... Nick Burley and Fritz Johnson... Betty Covington and a P. Kap... Walter Hodge and Billie Dyer... at Kibbe Vogt and Mary Lee Hope.

Here's a brain buster of someones: The "Emmy" Emmy Lou Turk certainly has Chickie Penn. It certainly de-Penns on her "cause she has what it 'Turks!' "Chick-n-sure get 'em."

It has been reported that thirteen Sigma Nu pledges turned in their pins during hell week when threatened with a general head-shaving spree. Seven returned to the fold, took the Sig Exp and within about three weeks to get back to normal after their scrimmage with the howl clip in the dry waters on the Kentucky river. Eliza and her cakes of pig had nothing on these human polar bears.

Perhaps ATO Virgil "Daddy" Beasley shouldn't be such a gentleman. Leaving the Good Samaritan hospital after a visit to a friend, our Mr. Beasley gallantly retrieved a little boy's hat which had blown off.

The mere fact that last Saturday was the coldest day in almost two months didn't phase Sonny Wilson, or Kidding Kelly. They blithely trotted down to Clifton, donned bathing suits, and took a lengthy dip in the try waters on the Kentucky river. Eliza and her cakes of pig had nothing on these human polar bears.

She was only a painter's daughter, but there's nothing slackered. Forbidding clouds hovered over the romance of Jiggs Whittinghill and Marjorie Pieber when Jiggs, while dressing to escort Marjorie to the Tri-Delt swingaree, sat down for a moment, fell fast asleep and snoozed peacefully through the hours supposed to be spent in making merry. We understand that he has at last succeeded in talking to a very incensed Marjorie over the phone.

Yester-Year's Kernel

By BOB RANKIN

A Year Ago In The Kernel
 Frances Sadler, junior, was elected president of the A. W. S. in the annual voting of women students. Reggie Childs and his orchestra was to play for the bi-annual Alpha Tau Omega formal Saturday night.
 Irene Sparks was elected "Campus Sweetheart" in the second annual contest conducted by Sour-mash.
 Kernel staff members attended the annual K. P. A. convention held at Danville. Keren Johnson was main speaker of the occasion.
Four Years Ago In The Kernel
 The Wildcat baseball team embarked for Starkville, Miss., where it was to engage Mississippi State in a two game series. This trip marked the first journey taken by a newly organized team.
 A newcomer to varsity football ranks was being closely watched by coaches and spectators during the practice game between the "Blues" and "Whites." The new player named Bert Johnson, turned out in many nice gains for the "White" team.
 Doug Parrish, captain of the Wildcat track team, was slated to participate in his usual seven events in the Kentucky Vandy meet to be held on the following Saturday. Parrish was entered in the 100-yard hurdles, high and broad jump and the pole vault.
 "Sally" sponsored an informal dance with Andy Anderson and his orchestra furnishing the music.

THE MAN ON THE MOWING MACHINE HAS NO REST

By AMBROSE ARTHUR
 That man you see chasing a power mower around the campus has a staid job than most students realize. He is the man who mows the blue grass on one section of the 20 odd acres of campus. He starts right back over it again.
 Back in 1917 Beauford Robbins took over the job of trimming the campus with a horse mowder. He still remembers affectionately because it had a seat on which to rattle. He used this machine for nearly 15 years until motors forced the retirement of Dobbin.
 It takes five days and six gallons of gasoline to give the grounds their tonorial workout, and then it's all to do over again. Some might be discouraged, but not Mr. Robbins. He keeps right on, his two assistants following with hand mowers and sickles to cut the grass in corners where the big machine cannot go.
 Naturally, the work is seasonal. In rainy weather the grass grows faster and greener and must be cut oftener, while in dry weather the grounds crew worries about watering the sod instead of cutting it.

RAVELINGS

(Continued from Page Two)
 It's a head off, you d-m-m old fool or something almost as sickening to the fairly intelligent reader.

Another juicy little example of journalistic hypocrisy is the exciting deletion of some of our everyday words from the pages of the country's newspapers. It is this policy that makes it practically impossible to mention in any paper but the more flagrant taboos such as common words as "—", which is exactly unknown. Now, although we are constantly surrounded by and aware of the three letter word, see it in every movie we attend, are submerged in it in every book we read, and are little more than a product of the thing ourselves, we are not permitted to read the word in any self-respecting layout, although the gossip columns go a long way toward revealing the true nature of the thing.
 The unfortunate writer also has access not to refer to any drink as w-y. Well, this is a seven-letter, inebriative, spelled with beverage letters. We are told by the W.C.T.U. that it is the root of all evil, and the doorway to —, but which certain fellows whom we know tell us is the root of all pleasure and the doorway to a good time. But first

is neither here nor there. The thing about it is this: what's the use in dodging behind the smoke-screen of fiction to keep from saying what everyday words? Why should the newspapers try to fool the public with such thin excuses for words as s-x (the three lettered word) and w-y (the seven lettered word), when they are perfectly decent words, used at every meeting of the Old Ladies Bustle League? Of course, there is some hope that the day will come when the writers of this land of liberty will be permitted to cut off this juvenile cloak of delect and tell the world plain-blank what they mean, instead of having to omit such words as w-y, which is the seven letter word that means "water," and s-x, which is the three lettered one meaning "sex" and so forth.

Mae West Flicker Heads Theater Bill

College Night at Strand Also To Have Davis-Muni Picture
 "Every Day's a Holiday," starring Mae West, with Edmund Lowe, Charles Butterworth, Charles Wininger, and Louis Armstrong will be the main attraction at tonight's College Night program at the Strand theater.
 Typically Mae Westian, the film is in the Gay Ninety era. Playing a dual role—blonde, then brunette—Mae captures the mood of the old Brooklyn in one of her best cinema strips.
 In "Borderland," the night's second drawing card, Bette Davis and Paul Muni, Academy Award winners, carry the burden of the drama with assistance from Eugent Pallette.
 The audience is invited to supply its own sound effects for the final chapter of the old time silent mystery thriller, "The Mask," starring Jack Holt. Other short features are a hand shot, "Rhythm Saves the Day," and the inevitable cartoon in technicolor titled "Dancing Bear."

In the case that you are able to find the coupon which is supposed to be planted somewhere in today's sheet, you will be admitted to the Strand for the matinee tariff of 15 cents. One coupon will suffice for two students until the deadline at 8 o'clock.

Calling 'Em Wild

By JOE CREASON

SATURDAY night, starting at 8 o'clock in the Weaver Health building on the campus of Eastern State Teachers' College, Richmond, the 1937-'38 schedule of the notorious University of Kentucky "pool-less" swimming team will be curtailed, when with four other teams, the 'Cats compete in the third annual state swimming tournament.

Champions in every sense of the word, the Wildcats enter the preliminary qualifying round Saturday morning as two-time titlists and top favorites to again successfully defend their laurels.

A most amazing team is this former fugitive from the University athletic camp. To be frank about it, it isn't supposed to be on the sports program at all; it wasn't put there for any definite purpose, but because the authorities could no longer ignore such a team. It was two state championships old before the athletic council recognized it and voted letters for all the team members. The story behind the home-les champion runs something like this:

How It Started Back in 1935 a kind of a swimming team was first struck upon, but lacking the most vital piece of swimming equipment, a pool, the thought seemed destined to die a dry-land death, until authorities of Eastern offered to open the waters of their fine pool to the aquatic trainers for twice a week practice dips.

That week a motored water-cats wended its way to Richmond. After a number of swimming recitations and deciding they knew their lesson well, a call for competition was sent to the other state colleges, sponsoring teams. Each of the schools, with pools available for practice in their own back yards, were rewarded for their daring by receiving sound duckings at the hands of the Blues. Then the first Kentucky state tournament was suggested, and the Wildcats stroked away with first place honors.

Last year the team again emerged from the waves collegiate champions of the state. By this time the campus was awake to the fact that it definitely had something there. A team that jumps up and announces its titles without any pre-announcing on the part of the athletic moguls is indeed a rare gift to any university's athletic colony.

This season, after being placed on the athletic department files as a full blooded minor sport with greater interest being shown by the student body (there was even back-room gossip of a pool finding its way to the campus) and with better enthusiasm being manifest by team members, the schedule was broadened and into the books of Manager Felix Murray went eight aquatic diets. Before the first meet rolled around two benefits, a basketball game and a dance, were arranged for the swimmers, the proceeds of which were to go toward defraying the expenses incurred from the trips called for by the ambitious schedule. The basketball tilt, a dispute involving Coach Rupp's Southeastern conference champs and Berea College, further appetized by a dance performed by eight delicate football players, drew 1,500 customers into the Alumni band-box, and into the expense fund went the team's first financial aid in its two years of existence.

Opening the water menu with a Southern jaunt, Kentucky split even in its four engagements. The first stop was at Maryville College and the 'Cats floated off with a 48-27 win. Tennessee then flailed out a doped 41-31 decision. The next stop sent the felins on their way thoroughly saturated from a 48-27 ducking inflicted by Georgia. Georgia Tech water was very agreeable to the amphibious Kentuckians and they splashed out a 47-29 win. Followed then a swing into icy Northern waters. At Bloomington, the strong University of Indiana tank crew ducked the travelers, but at Loyola University in Chicago the 'Cats bit possibly their season's high and submerged their hosts beneath a convincing wave of firsts.

Next the billing called for a short "home" stand. Any pool in the state is referred to as home. The first intra-state encounter with Morehead was cancelled when Morris, the cog of the Morehead splashers was injured. Eastern sank beneath a 47-18 upheaval, and the Berea war was dampened by 46-20. Thus, until Saturday, rests the

in his first precedent establishing trip from 2:12 to 2:38 and then last week against Berea to 1:59.9. Again to you, the skeptic—yes I know what you're saying, those times are still off world records, but remember, we're dealing with a team that has to play hooky from home to practice and that does not have the advantage of a professional coach.

The Lineup Members of the squad that will compete for the 'Cats in the splash-fest are Ramsey, Tripitt, Hillemeier, Scott, Hinklebein, Roberts, Reid, David, Oettinger, Huber, Morst, Sharpe, Curtis, Spears, Manager Murray and Frank "Skipper" Mann, trainer.

Looking forward to next season, the new athletic department has already banked a sum in its coffers for the expenses of the team. This, plus the fine showing of the nation-dors after their first swing through big-time competition, paints a much rosier picture for future campswimmers.

NEW RULES TEND TO SLOW GAME

Basketball Coaches Pass Resolutions At National Meeting in Chicago Two rules designed to slow the tempo of last season's "whirlwind" game were applied by the rules committee of the National Association of Basketball Coaches, Wednesday, as the group neared the end of their five day meeting being held in Chicago.

The major change was increasing to five the number of time outs for four 10-minute quarters instead of the usual 20-minute halves was also adopted. Another rule change approved the optional use of a 4-foot, instead of a 2-foot, out-of-bounds margin behind the face of the backboards. Coach Adolph Rupp, who left Sunday for the meet, strongly approved this change, after he had talked to

several Northern and Midwestern coaches who found the change a success in experiments. Last season's penalty for lingering too long in the closed foul circle, by a player without the ball, was nullified. The rule remains unchanged in regard to a player having the ball within the area.

FOOD—The Best There Is

Seeing the University Man

A pair of Baymah's crepe or grizzly soled shoes seem to be a requirement as far as the students are concerned. Do you ever look around you and notice men's feet? If you do you can readily see the popularity of these ox-fords, which are obtainable in numerous styles.

The brown and white combination with red rubber sole, featured here, is the national favorite for general knockabout wear. This is one shoe that every university man should include in his list of spring and summer needs.

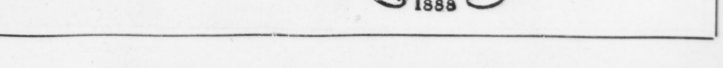

Everybody's saying "It's Graves - Cox for Gabardine Suits"

If you're looking for a Gabardine suit this Spring you won't have to look further than Graves-Cox. For we have them all—new models right in the swing of 1938—new colors that are downright irresistible! It's a Great Gabardine year, and Graves-Cox have a great selection. \$30.00 to \$45.00.

THE COLORS—New greens ranging from soft lovat shades to dark myrtles. New tans and browns as well as greys and blues. The weaves include herringbones, plaids, and the popular solid shades.

THE MODELS—New models, such as the three-button drape coat with the center vent. Also the double-breasted drape and single and double-breasted coats with the sport back.

'K' CLUB FORMED BY LETTERMEN

Garland Elected President; Thompson, Brown, Head, Linden, Officers

At a meeting of 30 varsity lettermen held Monday night in the recreation room of Bradley hall, the initial step in the organization of a 'K' Club, the first in the history of the University was completed.

Officers chosen by the new group were Larry Garland, Lexington, president; Homer Thompson, Jeffersonville, Ind., vice-president; Harry Brown, Paint Lick, secretary; Elmo Head, Bryan Station, treasurer; and Luke Linden, Elm Diamond, sergeant-at-arms. Garland, Brown and Linden are members of the football squad, while Thompson and Head are basketball letter winners.

Membership to the new organization is open only to athletes who have earned letter awards in one of the University's major sports—football, basketball, baseball and track. As baseball has been absent from the athletic list for a number of years, no letterman was present.

At the club's next meeting, after the spring holidays, a constitution and bylaws will be passed on after being submitted by a committee to be selected by the president. The club was founded at the suggestion of Athletic Director Bernie Shively on the basis of similar organizations at all larger schools.

The purpose of the club will be the fostering of better sentiment among the athletes, to increase their standing on the campus in lines other than their athletics and to work for their general interest.

Graduate Student Passes Examination

David Fritizan One Of 23 That Makes Grade On Foreign Service Quiz

David Fritizan, Wilmore, a graduate student and assistant in the political science department last year, was notified recently that he was one of the 23 persons who passed the Foreign Service examination out of the more than 500 candidates who took the test last September.

Born in India, the son of a missionary, Fritizan received his primary and secondary education in that country. He attended the University of Illinois at Urbana, where he received his master's degree. Fritizan now holds a graduate scholarship at the Fletcher School of Law and Diplomacy at Medford, Mass.

He is now awaiting appointment as vice consul, after which he will be sent to a post abroad.

SABER SLINGERS TRAVEL TO MEET CINCY SATURDAY

Much Improved Fencing Team Will Engage Powerful U. C. Foil Squad

Improving with every match but still looking for their first win of the season, the Wildcat fencing team will cross swords with the University of Cincinnati Saturday in the Queen city, for the fourth Kentucky start of the campaign.

The strength of the Bearcat swordsmen is not known but the school has sponsored intercollegiate fencing for some years and as this is the first year that Kentucky has ever sported a foil and saber team in collegiate circles, the Ohio team is expected to be a formidable opponent. The greatly improved showing of the Cats in each of their matches during some of their opponents' advantages.

In the first attempt of a Cat team in intercollegiate fencing wars, the Blues fell victims to the powerful University of Illinois lancers by 17-1. Radically improved, the second start was dropped by 12-6 at the blades of the undefeated North Carolina Tarheels.

The third setback was suffered on Saturday afternoon when Vanderbilt out-roughed the Blues to win 6-3 in foil bouts. In the final bout of touches the Commodore's advantage was not so acute, as the count 38-32.

Following the Cincinnati invasion, only one other meet remains on tap for the year. A return match with Vanderbilt, slated for April 23 will certainly be the season's highlight. The match with the Commodore will mark the first intercollegiate fencing bouts ever held on the campus.

Members of the squad who will make the Cincinnati trip are: foil team, Scott D. Breckenridge, Jr., Virgil K. Beasley and W. S. Hiley; saber team, Harold Riley, Chester Robbins and Stanley Hayes.

Diamond Practice Will Begin Soon

An official call for baseball team aspirants will be issued immediately after completion of the spring football drill, according to a statement made yesterday by diamond coach Frank Moseley. The drill practices are expected to be terminated Saturday.

After a lapse of several years baseball is again being added to the University athletic schedule. Believing that the national past-time is essential to a well-balanced sports program, baseball was one of the first additions to the list made by Athletic Director Shively when he was installed as sport's chief.

Although no scheduled contests will be played, a number of exhibition games are planned for the local diamond. Two contests with the Eastern State Teachers College nine have been tentatively billed for the latter part of April. A steel backstop has been erected on the south side of the football field, west of the concrete stands. The field will be scraped and lined in time for the opening day of practice. Bleachers will be located on both sides of the backstop and behind it for the convenience of spectators.

Alumni Pledge Aid To Boosters Club

Plans for the organization of a boosters club were discussed by Athletic Director Bernie Shively and Head Football Coach Al Kirwan Thursday night at a meeting of the Northern Kentucky alumni of the University held in Covington.

The meeting came as an outgrowth of interest shown by the grads who showed a desire for the formation of a boosters club following the purge of the athletic department.

Soon after the reorganization, Frank Dempsey, president of the Kentucky Club, the alumni organization, offered the aid of his group. Plans for the organization of a boosters club were discussed by Athletic Director Bernie Shively and Head Football Coach Al Kirwan Thursday night at a meeting of the Northern Kentucky alumni of the University held in Covington.

The remaining starters are: No. 2, Cyril Danneberg; No. 3, Bob Sweeney; No. 4, Bill Robinson; No. 5, John Gough; and No. 6, Ed Gosh. The lack of indoor practicing facilities has hindered the Wildcat golfers from rounding into playing form to a great extent.

Because of a foot injury, Bobby Thaxton, captain of the Wildcat divot-diggers, will be unable to participate in the matches. This will be the first time the two schools ever met on the golf course, although they have collided in other sports. This will be the first of eight meets for the Wolverines, who are making their annual Southern tour.

The next match scheduled for the Cats is with the University of Cincinnati to be played here on April 12.

VARSITY SQUAD BATTLES FOR NET POSTS

Competition for team positions on the University tennis squad began last week on the Rose street courts with 12 men out for spots on the net outfit. The first round matches have already been played and the remaining round contests will get underway this week-end.

Prof. Downing, mentor of the netters, has arranged a schedule which allows each man a chance on the starting six. The members that are placed in the lower brackets will continue to advance so long as they win over a top seeded contender. He arranged the tentative positions in regard to his opinion of the boys and the ability they displayed in the practice sessions both in the gym annex and the outdoor court.

Holman defeated Bots for No. 5 position. Cooley defeated Foster for No. 8 position. Bristow held No. 10 position. Waddington defeated Robinson for No. 11 position. Ragland defeated May for No. 3 position.

Swimming Team To Give Banquet

Members Of Team, Several Guests To Be Present At Dinner

The University swimming team will sponsor a post-season banquet at the Neomore Country Club Tuesday night at 6:00 p. m. for members of the team and a limited number of guests.

Although acceptances to all the invitations have not been received, 26 persons are expected to be present including the 14 team members. Manager Felix Murray, James S. Shropshire, faculty adviser to the team, Charles T. Hughes, athletic director at Eastern State Teachers College, Neville Dunn, sports editor of the Lexington Herald, Laurence Shropshire, Lexington Leader sports editor.

First Round: Englehardt defeated Ragland for No. 2 position. May defeated Bots for No. 1 position. Holman defeated Boone for No. 6 position. Cooley defeated Foster for No. 8 position. Divot Diggers To Open Year With Michigan

The University golf team will open its season at 1 p. m. Saturday afternoon at the Ashland Golf when the Wildcats tee-off against the University of Michigan links team in the first start of the year for both squads.

Selection of the performers who will represent the Blues in the opening match was decided Wednesday when the final qualifying scores were posted by the candidates. Bill Adams, who came through with a 137, the lowest score for the 36 holes, will hold down the

IN RADIO, TOO, THEY DISCUSS THIS SUBJECT: BETTY MIDDLETON ASKS RAY WINTERS, THE ANNOUNCER: "RAY, ARE CAMELS REALLY SO DIFFERENT FROM OTHER CIGARETTES?"

NO TWO WAYS ABOUT IT, BETTY, I'M REPAIRING OR ON THE AIR FOR 40 HOURS A WEEK. IT'S TOUGH ON MY NERVES, DIGESTION, AND ESPECIALLY MY THROAT. MY CIGARETTE MUST AGREE WITH ME AND CAMELS DO... IN EVERY WAY. THIS IS RAY WINTERS, FOLKS, WISHING YOU ALL GOOD NIGHT. HAVE A CAMEL, BETTY? THANKS, RAY, SAY... YOU NEVER SMOKE ANYTHING BUT CAMELS. ARE THEY SO DIFFERENT FROM OTHER CIGARETTES?

WHEN RAY WINTERS SIGNED OFF (above) he had a long, hard day behind him. Ray has thought a lot about which cigarette best fits in with the nerve-and energy-consuming work he does. "Camels are different from other cigarettes," is his verdict. "In the ten years I've been enjoying them, I've never known Camels to make my throat feel scratchy, my nerves ragged. That says mildness, doesn't it? There are so many ways in which Camels agree with me!"

And many millions of other smokers find what they want in Camels, too. MORE and more experienced smokers are concluding: "Camels is the cigarette that agrees with me." If you are not now smoking Camels, try them. Look for the difference between Camels and other cigarettes. Find out what it means to enjoy Camel's costlier tobaccos. PEOPLE DO APPRECIATE THE COSTLIER TOBACCOS IN CAMELS. THEY ARE THE LARGEST-SELLING CIGARETTE IN AMERICA. Camels are a matchless blend of finer, MORE EXPENSIVE TOBACCOS - Turkish and Domestic. He's been growing tobacco for 10 years. "I'm in a position to know a lot about the quality of the tobacco that goes into various cigarettes," James Graves, another well-known planter, says. "Most of the growers around here—myself included—sold the best leaf tobacco of their last crop to Camels. I know tobacco so I smoke Camels."
