Both Schrader and Newton blamed the request on inflation, rising construction and operating costs and "inadequate earnings" that have "jeapordized" the company's bond rating.

"Our company's financial situation has deteriorated significantly," Schrader said. "It is absolutely necessary that we seek rate relief immediately."

The company's earnings dropped from \$2.60 per share of common stock in 1979 to \$1.51 per share in 1980, according to company figures. Newton and Schrader said that had impaired its credit rating.

Newton and Schrader said that had impaired its credit rating.

Newton said Kentucky Utilities common stock now sells for about \$15.50 per share, but "has a book value of about \$20" a share.

The requested increase would give the utility a 1 percent return on common equity. The October rate hike gave a 1.35 percent return, Schrader said.

The organization does not believe in abstaining from drinking alcoholic beverages, but stresses drinking in moderation, according to Rayvon Reynolds, BACCHUS public relations chairman and an economics sophomore.

One of the goals of BACCHUS is to establish a NEXUS number that students who are, or know, problem drinkers can call to get help and

The purpose of this party is to show students that they don't have to get drunk to have a good time, Reynolds said. Several precautions have been taken to help insure that nobody leaves intoxicated, he added. Ten-ounce cups will be used in-stead of the usual 16-ounce cups. Little-known facts and common misconceptions about alcohol will be displayed by banners and distributed in pamphlets. Bumper stickers with the saying, "Give a damm — don't drive drunk" will be passed out.

The food being served will be an additional reminder to students that eating before drinking will slow the absorption of alcohol in their bodies, Reynolds said, therefore, a person can drink more on a full stomach before becoming drunk.

Public must watch Reagan closely

If the Reagan Administration's track record after the first two months of office are to be the pattern for the next four years, then the urgency for the personal involvement of the average American consumer is greater than ever in this country's history. First and most importantly was Reagan's assurance that he would see about phasing out registration for the draft. It would be interesting to see how Carter's re-institution of registration and Reagan's assurance of its unnecessary role in the military affected the 18-year-old vote. Registration has not been phased out. Quite the contrary, Reagan is now leaning toward the draft itself, parroting the strategists' cries on the "need to reinforce conventional forces" as his substantiation. Secondly, there's Budget Director David Stockman's blitz of the tax system, which purports to be a "critical re-evaluation" (in his words) of Reagan's initial concepts to streamline the internal revenue system and ultimately strengthen the economy. What Stockman has succeeded in producing is unclear; with each alteration, his proposals meet with more angrey rries from the floors of Congress (which refused a proposed raise in salaries) that the alterations are devastating to already crippled social programs.

In short, whose side is Reagan on? The

In short, whose side is Reagan on? The role of the public in critiquing the decision-making process at this point is not only paramount, it is an ultimate responsibility.

The Right Wing influence that promised a return to solid, tried-and-true methods that were nominally successful in decades past (i.e., rampant laissez-faire economics with only obligatory concern for the needy) seems to be taking pot shots at a political environment it no longer understands.

The above examples of promises half-kept seem to indicate that the Adminstration favors the old over the young and the well-off, who don't really need help from the government, as opposed to the poor and helpless, who do.

Now more than ever, it is the responsibility of the citizen—the reader of the morning paper—to watch closely the actions of the government and to speak out at every opportunity to praise the good and to rally against the bad. If lessons are to be taken from the turbulent decades of this past century, then the value of human life and rights should be our first priority. The echoes of macho-military stance and an outdated two-chickens-in-every-pot delusion of economics will take America nowhere.

opinion | Parking structure a monstrous waste

I was glad to see the Kernel editorial (March 9) blasting the governor for using tax revenues to fund his ad campaign to make himself better known on the national political scene. However, I have been disappointed not to have yet seen an editorial on a similar matter closer to us, the plan of the Administration to take money from the faculty, staff and students to build a concrete monstrosity as a monument to trysler Corp.

"It would be a wast of time: they are going to do," my colleague epide when I suggested to the Halanton of the Corp. The concrete monstrosity as a monument to the money from the faculty, staff and students to build a concrete monstrosity as a monument to trysler Corp.

more expensive component. They plan to soak us \$350,000 a year to pay off interest and capital on long-term bonds to pay for that monstrosity.

There is no way that one can develop a logical case for building that structure. Unfortunately, however, man is not a rational being. He believes what he wants to believe and builds what he wants to build, especially if he can take your money to build it.

He believes what he wants to believes, and builds what he wants to build, especially if he can take your money to build it.

The real reason for paving the stadium area is to provide parking for the football crowds. The spaces now paved there are never filled at any other time. Nor are the 'C' cars to be moved from the Rose Strucet tot under the plan likely ever to fill it. The real reason for building a parking for visitors, especially the out-of-town families of patients at the hospital, and for conventioneers so that we can hold more conventions on campus.

Parking facilities for the above-mentioned may be a legitimate need, but such facilities should not be funded by faculty and students. The logical source of funding would be a legislative appropriation. However, considering the dire financial status of the Commonwealth, the prospects of such funding are nearly zero. Therefore, the Administration simply decided to soak us. This is an unfortunate abuse of power.

To Thomas Edison, a pioneer of the night and inventor of the electric light, evening began at dusk and continued until the sun rose at dawn. Tipped off

I am a student working my way through school as a waiter at one of the more popular restaurants in town. It has come to my attention that my fellow students are either ignorant of the fact or think that they are above the act of tipping the waiter. Many a night have I have waited on fellow co-eds and they have run up a tab of approximately \$45 to \$60 in food and bar and for some unexplained reason leave only one dollar, if we are lucky, in change for a tip.

leave only one dollar, if we are lucky, in change for a tip.

They must be unaware of the fact that it is common courtesy to leave at least a tip of 15 percent of the total bill. Tips are what we live on and how we pay our bills because hourly wage for a waiter is next to mil. The many times I have wished that the roles could be reversed and let them run back and forth for drinks, food, and also keep their table clear and them in a good mood so they will want to come back to the restaurant. After a night of this it is hard to accept a tip of small change.

So the next time you are out think about how you would feel if you were tipped small change for a large bill. Just follow the rule of at least 15 percent of the total bill.

Solidarity threatening factory strikes in Poland

By THOMAS W. NETTER Associated Press Writer

BYDGOSZCZ, Poland — Lech Walesa, national leader of the in-dependent union Solidarity, threaten-ted to strike very factory in Poland if the communist government declares a state of emergency or imposes a curfew, union sources said early to-

day.

They said Walesa made the warning in a motion he submitted to a meeting here of Solidarity's national commission. The meeting was called to decide whether to strike over last week's beating of three unionists in the government building of this northwestern city.

The urgent talks opened last night and went into the early morning hours. The union sources said Walesa also had proposed a suspension of the talks, but they gave no further details.

Union sources said the meeting also dealt with a demand by farmers for their own independent union.

6

Delegates issued a communique earlier saying they supported the farmers and urged that the farmers' problems be met more than "halfway." It made no mention of a strike and

"halfway."

It made no mention of a strike and there were conflicting reports earlier. One source said there were "voices" calling for a strong response to the beatings, but another said there would be no call for a general strike.

Warsaw Radio reported that Walesa, opening the meeting, thanked the delegates for accepting the commission's appeal for a suspension of strikes and other protest actions until a decision could be made by the commission.

Solidarity has placed its estimated 10 million members on strike alert. The Communist Party Politbaro on Sunday accused the independent unionists of "creating a state of anarchy" with their protests over the beatings. It said the government "cannot and will not tolerate" illegal sit ins and strike threats resulting from the incident.

UMW, industry near settlement

By MERRILL HARTSON AP Labor Writer

WASHINGTON — The United Mine Workers and the soft coal industry cracked the gloom of their contract dispute with a sunrise settlement yesterday, probably too late to avoid a short strike but still a shining reversal of the long siege once feared.

UMW President Sam Church
declared "we've got a decent condeclared "we've got a decent con-tract... I think our membership will accept it." He said the already scheduled nationwide walkout on Fid-day likely will last four or five days, pending final approval of the new pact by the rank and file. Despite the tentative settlement, the strike will proceed because the union says it does not have enough time to complete the ratification pro-cess before the current agreement expires at 12:01 am. EST Friday. The UMW, which has followed a

strict no-contract, no-work policy, has struck over every contract since 1984. Ratification ordinarily requires about 10 days.

Church said the union won major concessions from the 130 coal companies represented by the Bituminous Coal Operators Association in the area of working hours and too in the area of working hours and

tion in the area of working hours and pensions.

A settlement seemed far from sight when bargaining collapsed here last Tuesday, triggering wildcat strikes at some mines and a prediction by Church that the walkout starting Priday might last even longer than the III-day shutdown of 1977-88.

The two sides accused each other of failing to bargain in good faith, and Church charged that the industry wanted a strike.

At 7 a.m. EST yesterday, however, Church and B.R. Brown, chief BCOA negotiator, jointly announced an achieved the properties of the pro

The union president said UMW officials would prepare the contract for consideration by the union's 39-member bargaining council today. If the council approves, the pact will then be voted upon by the union's 160,000 rank and file members.

Approvab by the bargaining council is by no means routine; twice during the strike of three years ago, the council rejected tentative contract settlements, and the rank and file voted down a contract after it had been on strike for 90 days.

Church said the bargaining council would likely discuss the possibility of extending the contract deadline to prevent a strike. But such a move would violate union tradition, and UMW sources said it was extremely unlikely the council would approve it. Brown said and he was pleased an agreement was reached, but declined to comment on what was in the contract. He said that "it would be inapmorated as this time."

tract. He said that "it would be inap-propriate at this time."

What happened to the Cats?

Getting at the heart of why UK isn't still alive

Finally, there are four.

For all complaining that could be heard after the initial, shocking upsets to the property of the pr

There is North Carolina, champions of the Atlantic Coast Conference tournament; Virginia, champions of the regular ACC season; LSU, regular-season champs of the Southeastern Conference and Indiana, Big 10 champions.

Missing from this arduous group, of course, are the Kentucky Wildcats. The No. 1 team in the land according to the pre-season poils. The team with all the talent (remember the word), the team with the best recruiting crop in the land.

Last seen, the Wildcats were making their travel plans to Florida on the plane home from Tuscaloosa, Ala., where they awoke on broken glass a week ago Sunday. Above them stood the proud conquerer, Alabama-Birmingham.

glass a week ago Sunday. Above them stood the proud conquerer, Alabama-Birmingham.

Since then it has become everyone's fun to take pot shots at the Cats in an effort to explain what happened to the dreams and the aspirations that seemed attainable at the beginning of the season.

The blame has been tossed everywhere and from all directions. But most of the fingers point to coach Joe Hall, the same coach who only three years ago brought the Bluegrass its fifth national title. What have you done lately, they say? What about all those All-Americans? What about all that talent, all that depth. What happened?

Not much. And that was the problem. Kentucky did not reach the Final Four or have a successful season, for that matter, for the same reasons that Indiana accomplished both goals. Heart and soul.

Therefore, Kentucky did not play to win, but to keep from losing. And that is not entirely Hall's fault. It is hard for Hall to get the important point of improvement across to his players when Wildcat fans are constantly reminding them how great they are already. This reached a centil when UK defeated Indiana 68-66 Dec. 6 at Bloomington. But as the season wore on Kentucky got worse, Indiana got better.

The Hoosiers of Bobby Knight were 7.5 at one point this year but no one

The Hoosiers of Bobby Knight were 7-5 at one point this year but no one panicked. Knight's club, behind its wonderful guard and soul, Isiah Thomas, matured and improved with each game. Meanwhile, senior center Ray Tolbert began to come through with leader-like play. The result was another Big 10 title, IU's sixth in the last nine years. Indiana clinched the title by beating illinois and Michigan State on the road.

State on the road.
On the other hand, after the IU win,
Kentucky would not beat another
good team until it knocked off LSU
before a frenzied crowd of 24,011 at Rupp Arena

Still. Why Indiana? Why not Ken-

For Kentucky it was a combination of things ranging from inexperience to ineptitude. Still, in the end, nothing ed through as much as Ken-'s lack of confidence, will and

UK's Chuck Verderber and Charles Hurt (background) try to tip one in last Sunday in Kentucky's 69-62 loss to UAB at Tuscaloosa. Verderber scored 16 points in the loss for the Wildcats, who finished the season 22-6.

When it came down to the clutch for the Wildcats last Sunday and in the SEC tournament loss to Vander-bilt, there was no one to put on the gas. True, Dirk Minnieffeld perform-ed tremendously, taking the chances that no one else would take in the UAB loss.

UAB loss.
Chuck Verderber, too, was heroic in defeat. Verderber cannot shoot like a Mark Aguirre, cannot reboulke a Durand Macklin, cannot defend like a Levin Boyle. But Verderber scored is points in Kentucky's most important game of the year. If all the Wildcats had played with the enthusiasm and guttiness of Verderber and Minniefield, they might still be alive.

The overall puzzle began with the

might still be alive.

The overall puzzle began with the disappointing play of senior Fred Cowan, who turned out to be nothing short of an enigma. While Tolbert was coming through for Indiana in his senior campaign, Cowan was scoring in double figures only five times after the second SEC game of

scoring in double ngures only rule times after the second SEC game of the season. When it became obvious that Cowan could not do the job, Hall was forced to start two 6-6 forwards, Verderber and Charles Hurt. Two forwards who lacked rebounding height and a consistent outside shot. Those deficincies put added pressure on 7-1 center Sam Bowie to do more. And, unlike Thomas for IU, he could not. Bowie may be a marvelously talented player — and at times he has shown flashes of brillance — but Slammin! Sam did not always rise to the occasion. Bowie score only 12 points against Vanderbilt, eight against UAB. He fouled out of the latter.

Then there is Derrick Hord. No one

Then there is Derrick Hord. No one has been a more baffling problem than Hord. Last year the 6-6 swingman would show tantalizing spots of immense talent. But this year he was unable to successfully complete the switch from small forward to big

guard. He scored over 20 points only once — against Maine. All three of these players are supposed to be among the most talented players in the nation. But its Kentucky actually that talented a team? Take the freshmen. Me

but Beal admitted to being confused for much of the season. However, on the other hand, Jim Master showed little, if only that he could shoot over a zone defense. He did not convincingly prove that, however, as he hit over 50 percent of his shots in only eight of 25 games. In two of those games he only took one shot.

nis snots in only eight of 25 games, in two of those games be only took one shot.

At forward there is Bret Bearup, Hall seems to be pleased with Bearup's progress but when Cowan faltered, the coach turned to Hurt and Verderber instead of the freshman from New York.

After one year, is Master as talented as Louisville's Lancaster Gordon or North Carolina's Matt Dougherty? Is Bearup as talented as LSU's Leonard Mitchell?

Even if these players live up to their press clippings next year—and they will not as long as they keep reading them—Entucky still guard they land they land they land they land they land as high forward who can shoot from outside.

Above all, no matter how much Kentucky gains in way of efficiency and maturity next season, the Wildcats must play with more heart and pride than they displayed this year. In the end, that is what truly separated the Wildcats from the Hoosiers this year.

And that is why Saturday, while the Wildcats and sadmiring their Florida tans, everyone else will be admiring the Hoosiers.

By WILLIAM R. BARNARD AP Sports Writer

NEW YORK — Paul Pressey scored 20 points, 11 down the stretch, to pace Tulsa to a 89-87 victory over West Virginia in the semifinals of the National Invitation Tournament last

night. The faced Syracuse in the se-cond semifinal game of the 44th NIT at Madison Square Garden. Pressey was held scoreless in the first 12:10 of the second half but his basket at 7:50 cut the West Virginia lead to 72:69. The 6-foot-5 swingman scored again to make it 78-77 and his three-point play with 4:25 remaining in the game gave the Golden Hurricane an 80-78 lead and also fouled out West Virginia captain Greg Nance.

out West Virginia captain Greg Nance.
Diego McCoy, a 6-2 sophomore guard whose previous career high was 18 points, scored 30 for West Virginia to kept them in the lead most of the game. His last basket, with is Seconds to go, cut Pulsa's lead to 89-87, then Tulsa's David Brown missed two free throws with eight seconds remaining to cost the Mountaineers a final chance to send the game into overtime.

But Greg Jones, West Virginia's leading scorer during the regular season, missed a 20-footer at the buzzer to preserve Tulsa's triumph.
After leading 44-40 at halftime, West Virginia went on an 11-5 run to take a 59-53 lead, then a basket by McCoy with 10 minutes to go gave the Mountaineers their largest lead, 70-63.

Greg Stewart scored 19 points and

taineers with 22.

There were six lead changes in the early minutes of the game, then a 13-2 run helped West Virginia to a 21-11 lead with 13:03 to go.

But a three-point play by Pressey sparked a seven-point run by Tulsa that shaved the margin to 21-18 less than a minute later. Mike Anderson, a 6-foot guard, scored 10 of Tulsa's next 29 points to give the Golden Hurricanes a 38-37 lead at 4:32 West Virginia outrebound Tulsa 36-33.

State Departient officials would self-wing guerrilia succession of the self-wing self-wind insurgent forces were now "floating" stories about canceled meetings as a propaganda ploy. The opposition leaders, Fabio Castillia and Hector Oquelis, said the secret diplomatic effort collapsed Feb. 11, the same day the United States launched a media campaign charging (baba and Soviet involvement in El Salvador's civil war. The administration concluded that public offensive by sending \$25 million in military advisers to help the ruling Salvadoran junta.

Asked whether there had been a sent to talk with uservilla elements.

State Department spokesman Don Mathes replied only that there had been "no meeting scheduled." He offered no further detail, except to note the administration's previously stated position that any peace negotiations must be between "the parties in El Salvador." Castillo and Oqueli, diplomatic representatives of the insurgents' Democratic Revolutionary Front, discussed the administration's alleged renege in separate interviews with The Associated Press.
Castillo said the United States and the front agreed on Feb. 9 for a meeting to take place in Washington at an unspecified later date. He described the proposed meeting as a chance for a "dialogue," not negotiations.
